C. General Business and Shareholder Discussion

To consider any other matter that may be brought properly before the meeting.

By Order of the Serko Board

Claudia Batten – Chair
28 May 2024

¹ Equal to approximately NZ\$712,173.

Explanatory Notes

Resolution 1:

Election of Dr Sean Gourley as a Director

Dr Sean Gourley was appointed as Serko's fourth non-executive director (NED) by the Board, effective on 1 February 2024.

In accordance with the NZX Listing Rules, Sean is required to retire at the meeting, but being eligible, offers himself for election as a director of Serko to shareholders at the meeting. The Board unanimously supports Sean's election and considers he qualifies as an independent director under the applicable NZX Listing Rules.

Sean Gourley

Independent, Non-Executive Director

Sean has established and grown two ground-breaking Silicon Valley technology companies: Primer, an AI and machine learning company where he was CEO from 2015 to 2023 and Quid, an AI-powered visualisation company where he was Chief Technology Officer. In his early career, he was a research scientist at NASA and a research fellow at the University of Oxford where he published ground-breaking research into the mathematics of war in leading science journal Nature. He also served on the board of Anadarko Petroleum, a US-based Fortune 500 energy company, from 2015 until its acquisition in 2019. Dr Gourley has a Master of Science majoring in physics from the University of Canterbury (New Zealand) and a PhD in physics from the University of Oxford, which he attended as a Rhodes Scholar.

Resolution 2:

Re-election of Mr Robert Shaw as a Director

Mr Robert (Bob) Shaw is one of the Co-founders of Serko and is Serko's Chief Strategy Officer. He was appointed an executive director when Serko was incorporated on 5 April 2007 (and was re-elected by shareholders in August 2018 and August 2021). In accordance with the applicable NZX Listing Rules, Bob retires by rotation and offers himself for re-election as a director of Serko at the meeting. The Board unanimously supports Bob's re election and considers Bob to be a non-independent director as he is an executive officer and substantial shareholder of Serko.

Robert (Bob) Shaw

Non-Independent, Executive Director

Bob has been involved in transforming the travel industry since 1987, collaborating with the world's leading airlines, travel agencies and global distribution systems. He has held a number of directorships and senior management positions in various high-profile ventures, including Gulliver's Travel Group and Interactive Technologies. Bob has been a past finalist for the EY Entrepreneur of the Year Award. He is a member of the Institute of IT Professionals NZ and the Institute of Directors NZ/Australia.

Explanatory Notes

Resolution 3: Non-Executive Director Remuneration

This resolution is put to shareholders in accordance with NZX Listing Rule 2.11.1 and relates to the maximum aggregate fees payable to all NEDs. At present, the maximum fee pool for NEDs is NZ\$600,000 per annum, as approved by shareholders at Serko's Annual Meeting in August 2021.

The Company is seeking shareholder resolution to:

- **Approve** an increase to the NED fee pool of approximately NZ\$112,173 per annum from NZ\$600,000 per annum to A\$650,000² per annum, to be paid and allocated as the Board considers appropriate; and
- **Approve** that any remuneration payable to NEDs may, at the Board's discretion, in whole or in part, be through an issue of Equity Securities, as that term is defined in the NZX Listing Rules.

Current NED fee pool

Serko's current NED fee pool was set in August 2021, during FY22. Since then:

- Serko has appointed a fourth NED;
- Serko's business has increased in complexity and size, becoming larger and more international, with Serko's total income increasing from NZ\$18.9m in FY22, to approximately NZ\$71m (unaudited) in FY24; and
- CPI (Consumer Price Index) in New Zealand and Australia has increased 17.2% and 15.1% respectively over the FY22 to FY24 period.

Independent benchmarking

The Board remains committed to setting its NED fee pool and NED fees in a transparent manner. To inform its proposal, Ernst & Young (Australia) (EY) was appointed to prepare an independent report to benchmark director fees against comparator organisations in Australia and New Zealand. A **Summary Report** is available on our Investor Centre site: www.serko.com/investors.

The comparator groups used are in the table below. A full list of the comparator organisations is contained in the Summary Report.

Group Type	Definition
Australian Group	Australian companies with a market capitalisation within 50% to 300% of Serko's market capitalisation of A\$456 million (using a one-month average to 31 December 2023) and within the Global Industry Classification Standards (GICS) Consumer Discretionary and Information Technology sector.
New Zealand Group	New Zealand companies with a market capitalisation within 50% to 200% of Serko's market capitalisation of NZ\$491 million (using a one month average to 31 December 2023) and within the Global Industry Classification Standards (GICS) Consumer Discretionary and Information Technology sector.

EY's Guidance Range

EY has provided guidance on setting Serko's aggregate NED fee pool and individual NED fees. Such factors, include, but are not limited to, Serko's market positioning, Board workload, Serko's dual listing, international nature of the technology sector in which it operates and the limited fee pool headroom following the appointment of a new director in February 2024.

Considering the relevant factors, EY states that Serko's NED fees would be considered market aligned if positioned between the 50th and 75th percentiles of the relevant market data. They have separately provided market aligned NED fee ranges within the Summary Report.

² Based on the RBNZ NZD/AUD rate as at 9 May 2024 of 0.91270, A\$650,000 is equal to approximately NZ\$712,173.

Explanatory Notes

Board's review and proposed increase

The Board proposes, and recommends to shareholders, to increase the NED fee pool from NZ\$600,000 per annum to A\$650,000 per annum. This proposal sits below the market aligned range of A\$711,000 and A\$825,000 noted in the Summary Report.

Under the current fee pool there is insufficient headroom to appoint all NEDs to sub-Committees due to allowances for FX fluctuations and/or *ad hoc* special exertion fees to directors for services outside their usual duties for Serko in exceptional circumstances. If the fee pool is increased to A\$650,000, Serko will no longer need to manage FX fluctuations within the headroom as the fee pool currency and fee policy currency will be aligned. Serko will also be able to appoint new directors to Committees and/or form new Committees from time to time, if required.

Should the proposed increase be approved, the Board intends to appoint Dr Sean Gourley as a member of the Audit, Risk and Sustainability Committee. Following this appointment, and adoption of the proposed NED fee policy, Serko expects to have headroom of A\$100,000 or approximately 15% which it views as more aligned to market practice.

Serko's current NED fee policy was set in May 2021. If the NED fee pool is increased, the Board intends to update its fee policy effective 1 July 2024, as outlined in the table below:

Fee Type	Current Fee	Proposed Fee	Market Aligned Fee Range
Chair Fee ³	A\$158,000	A\$180,000	A\$185,000 – A\$224,000
NED Base Fee	A\$95,000	A\$100,000	A\$95,000 – A\$120,000
NED Committee Chair Fee	A\$20,000	A\$20,000	A\$15,000 – A\$22,000
NED Committee Member Fee	A\$9,000	A\$10,000	A\$10,000 – A\$10,000

In forming the proposed fee policy, the Board has considered:

- an appropriate reduction to the gap between the current Chair Fee and the market aligned fee range, to reflect the responsibilities and workload of this role;
- a shift towards the market approach of a 2:1 ratio of Chair Fees to NED Base Fees with no additional payments for the Chair's attendance at Committee meetings;
- simplification of the fee structure for Committees so that the NED Committee Chair Fee is a two-times multiple of the NED Committee Member Fee;
- Serko's relatively small number of NEDs and the workload of the Board, which is positioned at the median for the Australian comparator group and above the 75th percentile of the New Zealand comparator group (measured by number of meetings per annum); and
- the level of inflation since the current fee policy was set, noting that all increases are below CPI increases in New Zealand and Australia.

Voting restrictions

Pursuant to NZX Listing Rule 6.3.1, Serko will disregard each vote cast on resolution 3 by:

1. any NED of Serko; and
2. any Associated Person (as that term is defined in the NZX Listing Rules) of any non-executive director of Serko,

except where any such vote is cast by the non-executive director or associated person as proxy for another person who is qualified to vote and only in accordance with that person's express instructions.

Resolution 4:

Fixing the Fees and Expenses of the Auditor

Deloitte are currently Serko's auditors and will automatically be reappointed under the Companies Act 1993 to act as auditor for the 2025 financial year. Under the Act, auditor fees and expenses must be fixed in the manner determined at the Annual Meeting. Shareholder approval is, therefore, sought to authorise the Board to fix the fees and expenses of Deloitte as auditor.

³ Under Serko's current fee policy, the Chair is paid a base fee of A\$140,000 with additional A\$18,000 Committee fees. Under the proposed fee policy, the Chair fee is inclusive of all Committee membership fees.

1. Introduction

1.1 Background

Serko Limited (Serko) has engaged Ernst & Young (EY) to provide market data in relation to Non-Executive Director (NED) Board and Committee fees.

This report provides the results of our analysis of disclosed information relating to Non-Executive Director (NED) remuneration quantum of companies selected by Serko.

The report provides market information on:

- ▶ Non-Executive Chair (Chair) fees
- ▶ Non-Executive Director (Other NED) fees
- ▶ Audit, Risk and Sustainability Committee Chair and Member fees
- ▶ Remuneration and Culture Committee Chair and Member fees
- ▶ Aggregate NED fee pools and the number of disclosed NEDs
- ▶ The number of Annual Board meetings.

For the purposes of this report, all NED fees have been converted to Australian dollars using the 12-month average exchange rate to the relevant companies' financial year end. Exchange rates were sourced from LSEG.

1.2 Comparator groups

Market data is presented for two comparator groups as requested by Serko.

Comparator groups	
Group name	Definition
Australia	Australian companies with a 12-month average market capitalisation within 50% to 300% of Serko's one-month average market capitalisation of AU\$456 million and within the Global Industry Classification Standard (GICS) Consumer Discretionary and Information Technology sector.
New Zealand	New Zealand companies with a market capitalisation within 50% to 200% of Serko's market capitalisation of NZ\$491 million and within the GICS Consumer Discretionary and Information Technology sector.

1.3 Fee elements presented

The following fee elements are presented in this report:

Fee elements analysed	Roles	
Actual total fees	Chair	All other NEDs (Other NEDs)
Board fee policy information	Chair	Other NED base fees
Audit, Risk and Sustainability Committee	Chair	Member
Remuneration and Culture Committee	Chair	Member
Aggregate NED fee pools		
Number of NEDs		
Number of Annual Board meetings		

Actual total fees

Actual total fees represent the total fees paid to NEDs for the financial year, which includes super, benefits and valuations of any equity grants for Australian-based NEDs. Actual total fees are useful for understanding how overall NED total fees compare against the comparator groups.

Policy fees

Policy fees represent the fees determined by the Company to remunerate NEDs for participation on the Board and Committees. Policy fees are useful for benchmarking and developing fee structures, as they differentiate between fees for different roles.

1.4 Key considerations

The findings in this section summarise the percentile market positioning of Serko NED fees against the market data. Fees were considered to be 'at' the relevant market reference point if fees were positioned within 10% of the market data reference point.

When determining the appropriate fees for Serko's NEDs the following key points should be taken into account:

- ▶ **The companies included in the comparator groups:** NED fees are typically compared against general industry, as a broad range of skills and experiences are required to create an effective Board of directors. In addition, a specific industry comparator group can provide a useful secondary comparison as it reflects the skills and experiences specific to the industry that Serko is operating in.
- ▶ **Positioning relative to the comparator groups:** The Company's NED fee position should be reflective of the market capitalisation and revenue position of the Company.
- ▶ **Time commitment required for NEDs:** The higher the time commitment, the greater the emphasis on positioning fees above median may be. Consideration of time commitment should focus on ongoing time rather than one-off, increased loads (e.g., due to a transaction).

- ▶ **Complexity of business:** Complexity may be measured by factors such as international footprint (e.g., overseas revenue, assets, etc.) and regulatory / industry issues. The higher the complexity of the industry in which the company operates, the greater the emphasis on positioning fees above median may be.
- ▶ **Degree of potential reputational risk:** The higher the potential reputational risk, the greater the emphasis on positioning fees above median may be.
- ▶ **The supply of talent available for the role(s):** The greater the scarcity of talent, the greater the emphasis on positioning fees above median may be. Companies may also consider the need for specific skills within the Board.
- ▶ **Fee pool:** The Company's fee pool is currently set in New Zealand dollars.
- ▶ **Fee policies:** Serko's fee policy is set in Australian dollars, which is different from the current fee pool currency.

2. Fee benchmarking findings

The findings in this section summarise the benchmarking outcomes for Serko's NED roles against the market data. Fees were considered to be 'at' the relevant market reference point if fees were positioned within 10% of the market data reference point. We confirm our report has been prepared independently and is not subject to any influence from the management or any Board Member of Serko or any third party.

2.1 Actual and policy fees

The table below summarises the positioning of Serko's NED fees relative to the comparator group. Where the position of fees is between two positions, this is possible due to the narrower range of companies in the comparator group.

2.3 Guidance on setting the aggregate NED fee pool and NED fees at Serko

In providing Serko with guidance on setting the aggregate NED fee pool and NED fees, the following has been taken into consideration:

- ▶ Serko’s market capitalisation positioning against the agreed New Zealand and Australian comparator groups (aligned to the median for each). Serko’s revenue is positioned below the 25th percentile for both comparator groups
- ▶ The workload of the Board (number of meetings per annum) positioning at the median for the Australian comparator group and above the 75th percentile for the New Zealand comparator group. We note the comments of the Company regarding the number of additional, ad hoc meetings held by the Board; and, the low number of directors the Company may access to meet the higher workload
- ▶ Serko’s more complex New Zealand and Australia dual listing
- ▶ The international nature of the Technology sector in which the Company operates
- ▶ The skills sets and locations of NEDs the Company seeks to attract in order to exercise effective governance and oversight
- ▶ A preference by the Company for NED fee structural simplicity:
 - ▶ To reflect the market approach of a policy of the Chair fee to be approximately twice the Board Member base fee, and to cease payment of committee fees to the Board Chair
 - ▶ To establish, as far as possible, a consistent set of Committee Chair and Member fees with the same two-times multiple for Committee Chair to Member fees
- ▶ The existing Company practice of setting the fee pool in New Zealand (NZ\$) and NED fee policy in Australian Dollars (AU\$)
- ▶ The relatively narrow trading range for foreign exchange rates between the AU\$ and the NZ\$
- ▶ The limited fee pool headroom following the recent appointment of an additional director (with the board size remaining below market)

- ▶ The time which has elapsed since the last Serko fee movement (2021) and market movements in NED fees since that time.

2.3.1 Indicative fee ranges

Based on the factors above, generally Serko’s NED fees would be considered to be market aligned if positioned between the 50th and the 75th percentiles of the relevant market data, and the NED fee pool would be considered to be market aligned if positioned between the 25th and the 50th percentiles of the relevant market data. Based on the market data set out in our report titled *Non-Executive Director fee benchmarking* dated 5 March 2024, the table below presents indicative market aligned Serko NED fee element ranges.

The indicative market aligned Serko NED fee element ranges are presented based on EY’s current understanding of Serko and its circumstances at the time of the analysis. Should the Company possess additional information, or if the Company’s circumstances alter, the outcomes of the analysis may alter.

Fee element	Current fees (AU\$'000)	Fee range (AU\$'000)
Aggregate fee pool	562 (NZ\$600)*	711 - 825
Board Chair	158**	185 - 224
Other NED board base fee	95	95 - 120
Audit, Risk and Sustainability Committee Chair	20	20 - 22
Remuneration and Culture Committee Chair		15 - 20
Audit, Risk and Sustainability Committee Member	9	10 - 11
Remuneration and Culture Committee Member		10***

*Serko’s aggregate NED fee pool is currently set in NZ\$.

**Currently the Chair is paid a Chair fee (AU\$140,000) + Committee fees (AU\$18,000)

***We note the 50th and the 75th percentiles both equate to \$10,000.

2.4 NED fee trends - Australia

The following table presents policy Chair and Other NED fees general market movements in Australia for the year ended 30 June 2023. The movements below reflect where a change was made to the Chair and Other NED policy fees.

ASX 100 NED data	Average movement (%)
Board Chair Fee	3.5%
Base fee for Other NEDs	3.3%

2.5 NED fee trends - New Zealand

The following table presents Chair and Other NED policy fees general market movements from EY's Directors' Fees Report 2023/24.

Role	Average movement (%)
Board Chair Fee	6.6%
Base fee for Other NEDs	6.9%

The New Zealand movements above are affected by two key factors:

- ▶ Some organisations do not review fees annually; therefore, the annual fee movement is somewhat impacted by minimal increases given the NEDs in the overall sample.
- ▶ The data above reflects the whole sample median movement. As a result, changes in the sample composition can impact reported policy fee movement data.
