NSW GOVERNMENT REVIEW

Tabcorp Holdings Limited (**Tabcorp**) notes the announcement today by the New South Wales Government to establish a formal process to consider reforms to the NSW wagering tax regime, regulation and industry funding that if implemented would create a level playing field and modernise retail exclusivity, similar to recent reforms in Victoria and Queensland.

This is a positive step towards ensuring the sustainability of the NSW Racing Industry.

Tabcorp looks forward to working constructively with the NSW Government and the NSW Racing Industry during this process.

This announcement was authorised for release by the Tabcorp Board.
