9 July 2024

Sales update for Q4 FY2024

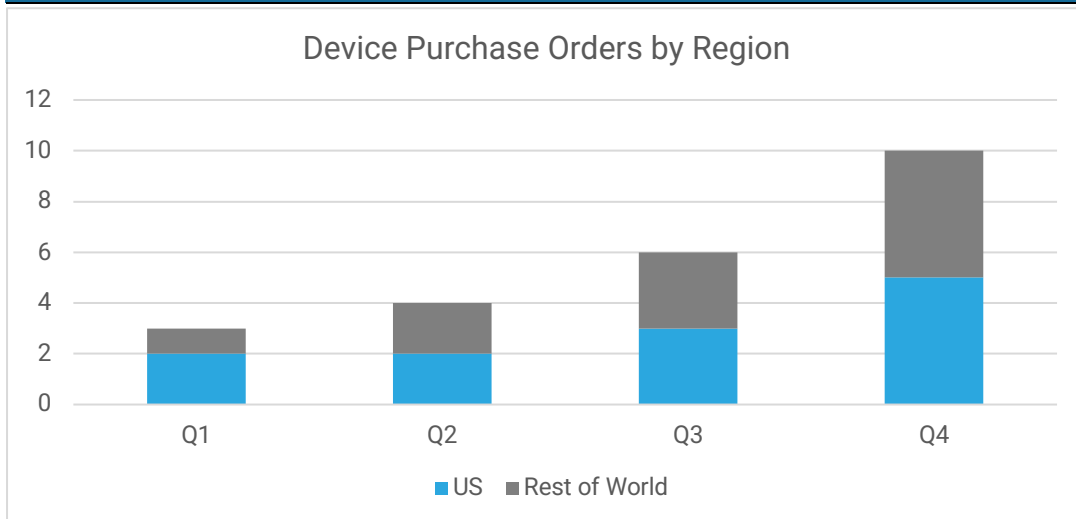

Melbourne, Australia & Hatfield, Pennsylvania: CurveBeam AI Limited (ASX: CVB **“CurveBeam AI”** or the **“Company”**), a fully integrated developer and manufacturer of point-of-care specialised weight bearing CT imaging (WBCT) equipment, supported by a range of AI-enabled SaaS-based clinical assessment solutions, is pleased to announce an update from its 30 April 2024 releases regarding purchase orders¹ received during Q4 FY2024.

The Company is pleased to report 10 purchase orders were received during the quarter. This included:

- 7 HiRise™ purchase orders (4 of which were in the US market)
- 3 purchase orders for other devices such as LineUP® and PedCat®

This higher level of purchase orders is showing a positive trend from the previous quarters with increasing market adoption of the Company’s WBCT devices.

Device Purchase Orders (FY24)	Q1	Q2	Q3	Q4
US	2	2	3	5
Rest of World	1	2	3	5
Total	3	4	6	10

Greg Brown, CEO & Managing Director of CurveBeam AI, commented, "We are very pleased to see increasing demand, and in particular for our HiRise™ platform, especially in the US market where

¹ As previously defined in the Company’s quarterly reports, a “purchase order” is a signed purchase order (PO) for a weight bearing CT (WBCT) scanner. The Company considers POs to be the key metric as it reflects actual sales at the time a sale is completed.

we work closely with our partner, Stryker Foot and Ankle Division. We believe these purchase orders show a building recognition and acceptance of the benefits of our technology by the orthopaedic community. We remain committed to delivering cutting-edge solutions with WBCT that improve patient outcomes and drive value for our shareholders."

Release approved by the Board of Directors.

About CurveBeam AI Limited

CurveBeam AI (ASX:CVB) develops, manufactures and sells specialised medical imaging (CT) scanners, coupled with AI SaaS-based clinical assessment solutions, to support medical practitioners in the management of musculoskeletal conditions. The Company's flagship CT scanner, HiRise™, performs weight bearing CT scans as well as traditional non weight bearing CT scans, providing a range of advantages over the use of traditional CT or MRI devices. CurveBeam AI has more than 70 employees with its corporate office, AI and IP functions located in Melbourne, VIC, Australia and global operations headquarters in Hatfield, Pennsylvania, USA.
