About Newmont

Newmont is the world's leading gold company and a producer of copper, zinc, lead, and silver. The Company's world-class portfolio of assets, prospects, and talent is anchored in favorable mining jurisdictions in Africa, Australia, Latin America & Caribbean, North America, and Papua New Guinea. Newmont is the only gold producer listed in the S&P 500 Index and is widely recognized for its principled environmental, social, and governance practices. Newmont is an industry leader in value creation, supported by robust safety standards, superior execution, and technical expertise. Founded in 1921, the Company has been publicly traded since 1925.

Newmont Reports Second Quarter 2024 Results

DENVER, July 24, 2024 - Newmont Corporation (NYSE: NEM, ASX: NEM, TSX: NGT, PNGX: NEM) (Newmont or the Company) today announced second quarter 2024 results and declared a second quarter dividend of \$0.25 per share.

"Newmont delivered a solid second quarter, producing 2.1 million gold equivalent ounces and generating \$594 million in free cash flow," said Tom Palmer. Newmont's President and Chief Executive Officer. "We continued to advance our divestiture program and, to date, have announced \$527 million in proceeds this year. With this momentum, we completed \$250 million in share repurchases and repaid \$250 million in debt. As we head into the second half of the year, we remain confident in our ability to continue executing on shareholder returns, meet our full year guidance and deliver on our commitments."

Q2 2024 Results¹

- Announced monetization of Batu Hijau contingent payments; expect to receive \$153 million in cash proceeds in the third quarter, in addition to \$44 million of cash associated with contingent payments
- Expect to achieve at least \$2 billion in gross divestiture proceeds from high-quality, non-core asset sales
- Since our last earnings release, repurchased 5.7 million shares at an average price of \$43.34 for a total cost of \$250 million, of which \$104 million was repurchased during the second quarter and \$146 million was repurchased in July 2024
- Reduced nominal debt by \$250 million for a cash cost of \$227 million
- Delivered \$539 million in total returns to shareholders through share repurchases and dividend payments in the second quarter²; declared a dividend of \$0.25 per share of common stock for the second quarter of 2024³
- Produced 1.6 million attributable gold ounces and 477 thousand gold equivalent ounces (GEOs)⁴ from copper, silver, lead and zinc, including 38 thousand tonnes of copper; primarily driven by production of 1.3 million gold ounces from Newmont's Tier 1 Portfolio⁵
- Generated \$1.4 billion of cash from operating activities, net of working capital changes of \$(263) million; reported \$594 million in Free Cash Flow
- Reported Net Income of \$857 million, Adjusted Net Income (ANI) of \$0.72 per share and Adjusted EBITDA of \$2.0 billion for the quarter
- Achieved \$100 million in synergies during the second quarter, for a total of \$205 million to date from the Newcrest acquisition; on track to realize \$500 million in annual synergies by the end of 2025
- On track to deliver 2024 guidance for production, costs and capital spend; anticipating a sequential increase in production in the second half of the year, weighted towards the fourth quarter⁸
- Published Newmont's 2023 Climate Performance Update, summarizing the climate performance for Newmont's managed operating sites throughout 2023

¹ Newmont's actual condensed consolidated financial results remain subject to completion and final review by management and external auditors for the quarter ended June 30, 2024. Newmont intends to file its Q2 2024 Form 10-Q on or about the close of business on July 25, 2024. See notes at the end of this release. ² Total returns to shareholders includes \$146 million of shares repurchased in July 2024.

³ Newmont's Board of Directors declared a dividend of \$0.25 per share of common stock for the second quarter of 2024, payable on September 30, 2024 to holders of record at the close of business on September 5, 2024.

Gold equivalent ounces (GEOs) calculated using Gold (\$1,400/oz.), Copper (\$3.50/lb.), Silver (\$20.00/oz.), Lead (\$1.00/lb.) and Zinc (\$1.20/lb.) pricing for 2024. 5 Newmont's go-forward portfolio is focused on Tier 1 assets, consisting of (1) six managed Tier 1 assets (Boddington, Tanami, Cadia, Lihir, Peñasquito and Ahafo), (2) assets owned through two non-managed joint ventures at Nevada Gold Mines and Pueblo Viejo, including four Tier 1 assets (Carlin, Cortez, Turquoise Ridge and Pueblo Viejo), (3) three emerging Tier 1 assets (Merian, Cerro Negro and Yanacocha), which do not currently meet the criteria for Tier 1 Asset, and (4) an emerging Tier 1 district in the Golden Triangle in British Columbia (Red Chris and Brucejack), which does not currently meet the criteria for Tier 1 Asset. Newmont's Tier 1 portfolio also includes attributable production from the Company's equity interest in Lundin Gold (Fruta del Norte). Tier 1 Portfolio cost and capital metrics include the proportional share of the Company's interest in the Nevada Gold Mines joint venture.

Non-GAAP metrics; see reconciliations at the end of this release.

Synergies are a management estimate provided for illustrative purposes and should not be considered a GAAP or non-GAAP financial measure. Synergies represent management's combined estimate of pre-tax synergies, supply chain efficiencies and Full Potential improvements, as a result of the integration of Newmont's and Newcrest's businesses that have been monetized for the purposes of the estimation. Such estimates are necessarily imprecise and are based on numerous judgments and assumptions. See cautionary statement at the end of this release regarding forward-looking statements.

See discussion of outlook and cautionary statement at the end of this release regarding forward-looking statements.

Advancing Portfolio Optimization with Monetization of Batu Hijau Deferred Payment Rights

Newmont today announced it has entered into an agreement to sell 100 percent of the entity holding Newmont's deferred payment rights associated with the Batu Hijau copper and gold mine in Indonesia for total consideration of \$153 million in cash, with closing to occur no later than September 30, 2024. Furthermore, an additional \$10 million cash payment associated with these deferred payment rights was received in July. During the second quarter of 2024, Newmont also received a \$34 million cash payment, bringing total proceeds to \$197 million for 2024.

Summary of Second Quarter Results

SECOND QUARTER 2024 PRODUCTION AND FINANCIAL SUMMARY

Attributable gold production decreased 4 percent to 1,607 thousand ounces from the prior quarter primarily due to lower production at Cerro Negro as a result of the suspension of operations during the quarter following the tragic fatalities of two members of the Newmont workforce on April 9, 2024. Operations at Cerro Negro safely resumed on May 24, 2024. In addition, operations were suspended as of April 14, 2024 at Telfer, one of Newmont's non-core assets, as further work is completed to remediate the safe operation of the tailings storage facility. Second quarter production was also impacted by lower production at Lihir due to heavy rainfall impacting mine sequencing, as well as lower production at Akyem due to lower grades as a result of the ongoing stripping campaign. These impacts were partially offset by higher production at Porcupine, Brucejack and Peñasquito.

Full year production for 2024 is expected to be second-half weighted as previously indicated, with a sequential increase weighted towards the fourth quarter. The second-half weighting is expected to be driven primarily by improved grades at Peñasquito, Ahafo and Tanami, improved throughput from Lihir and Boddington and sequential improvements delivered from our non-managed joint venture operations.

Average realized gold price was \$2,347, an increase of \$257 per ounce over the prior quarter. Average realized gold price includes \$2,344 per ounce of gross price received, a favorable impact of \$17 per ounce mark-to-market on provisionally-priced sales and reductions of \$14 per ounce for treatment and refining charges.

Gold CAS² totaled \$1.8 billion for the quarter. **Gold CAS per ounce**³ increased 9 percent to \$1,152 per ounce compared to the prior quarter primarily due to lower sales volumes, processing of stockpiles at Porcupine and Tanami and higher third party royalties as a result of higher gold prices.

Gold AISC per ounce³ increased 9 percent to \$1,562 per ounce compared to the prior quarter primarily due to higher CAS and higher sustaining capital spend.

Attributable gold equivalent ounce (GEO) production from other metals was largely in line with the prior quarter at 477 thousand ounces.

CAS from other metals² totaled \$379 million for the quarter. **CAS per GEO**³ was largely in line with the prior quarter at \$836 per ounce.

AISC per GEO³ increased 5 percent to \$1,207 per ounce compared to the prior quarter primarily due to higher sustaining capital spend.

Net income from continuing operations attributable to Newmont stockholders was \$838 million or \$0.73 per diluted share, an increase of \$672 million from the prior quarter primarily due to the loss on assets held for sale of \$485 million recognized during the first quarter of 2024, as well as higher average realized prices for all metals in the second quarter of 2024.

Adjusted net income⁴ was \$834 million or \$0.72 per diluted share, compared to \$630 million or \$0.55 per diluted share in the prior quarter. Primary adjustments to second quarter net income include a loss on assets held for sale of \$246 million, a gain on asset and investment sales of \$55 million primarily related to the previously announced sale of the Lundin Stream Credit Facility Agreement and the purchase and sale of foreign currency bonds⁸, a gain of \$14 million on the partial redemption of certain Senior notes, and Newcrest transaction and integration costs of \$16 million.

Adjusted EBITDA⁴ increased 16 percent to \$2.0 billion for the guarter, compared to \$1.7 billion for the prior guarter.

Consolidated cash from operations before working capital⁵ increased 15 percent from the prior quarter to \$1.7 billion primarily due to higher realized prices for all metals in the second quarter.

Consolidated net cash from operating activities increased 80 percent from the prior quarter to \$1.4 billion primarily due to the improvement in cash from operations. Net cash from operating activities in the second quarter was impacted by a \$263 million reduction in operating cash flow due to changes in working capital, including a build in inventories, stockpiles and ore on leach pads of \$185 million and reclamation spend of \$107 million, primarily related to the construction of the Yanacocha water treatment facilities.

Free Cash Flow⁷ was \$594 million compared to \$(74) million in the prior quarter primarily due to improvements in consolidated net cash from operating activities, partially offset by higher capital expenditures before capital accruals.

Capital expenditures (net of capital accruals)⁶ decreased 6 percent from the prior quarter to \$800 million primarily due to an increase of capital accruals offsetting higher sustaining and development capital expenditures. Sustaining capital spend increased from the first quarter due to the ramp-up of spend on the tailings project at Cadia and the purchase of updated fleet equipment at Merian. Development capital expenditures in 2024 primarily relate to Tanami Expansion 2, Ahafo North, Cadia Block Caves and Cerro Negro expansion projects.

Balance sheet and liquidity remained strong in the second quarter, ending the quarter with \$2.6 billion of consolidated cash, cash of \$205 million included in *Assets held for sale* and time deposits of \$28 million, with approximately \$6.8 billion of total liquidity; reported net debt to pro forma adjusted EBITDA of 1.0x⁹.

NON-MANAGED JOINT VENTURE AND EQUITY METHOD INVESTMENTS¹⁰

Nevada Gold Mines (NGM) attributable gold production decreased 4 percent to 253 thousand ounces, with a 4 percent increase in CAS to \$1,220 per ounce³ and a 7 percent increase in AISC to \$1,689 per ounce³ compared to the prior quarter.

Pueblo Viejo (PV) attributable gold production decreased 2 percent to 53 thousand ounces compared to the prior quarter. Cash distributions received for the Company's equity method investment in Pueblo Viejo totaled \$12 million in the second quarter. Capital contributions of \$5 million were made during the quarter related to the expansion project at Pueblo Viejo.

Fruta del Norte attributable gold production is reported on a quarter lag. Production reported in the second quarter of 2024 increased 67 percent to 35 thousand ounces compared to the prior quarter. Cash distributions received from the Company's equity method investment in Fruta del Norte were \$8 million for the second quarter.

¹ Attributable gold production includes ounces from the Company's equity method investment in Pueblo Viejo (40%) and in Lundin Gold (32.0%).

² Consolidated Costs applicable to sales (CAS) excludes Depreciation and amortization and Reclamation and remediation. ³ Non-GAAP measure. See end of this release for reconciliation to Costs applicable to sales.

Non-GAAP measure. See end of this release for reconciliation to Costs applicable to Sales.

4 Non-GAAP measure. See end of this release for reconciliation to Net income (loss) attributable to Newmont stockholders.

⁵ Cash from operations before working capital is a non-GAAP metric with the most directly comparable GAAP financial metric being to Net cash provided by (used in) operating activities, as shown reconciled in the Condensed Consolidated Statements of Cash Flows.

⁶ Capital expenditures refers to Additions to property plant and mine development from the Consolidated Statements of Cash Flows.

Non-GAAP measure. See end of this release for reconciliation to Net cash provided by operating activities.

In June 2024, the Company entered into AUD and CAD denominated fixed forward contracts to mitigate variability in the USD functional cash flows related to capital and operating expenditures for certain development projects and mines in Australia and Canada.

Non-GAAP measure. See end of this release for reconciliation.

Newmont has a 38.5% interest in Nevada Gold Mines, which is accounted for using the proportionate consolidation method. In addition, Newmont has a 40% interest in Pueblo Viejo, which is accounted for as an equity method investment, as well as a 32.0% interest in Lundin Gold, who wholly owns and operates the Fruta del Norte mine, which is accounted for as an equity method investment on a quarter lag.

Committed to Concurrent Reclamation

Since mines operate for a finite period, careful closure planning is crucial to address the diverse social, economic, environmental and regulatory impacts associated with the end of mining operations. Newmont's global Closure Strategy integrates closure planning throughout each operation's lifespan, aiming to create enduring positive and sustainable legacies that last long after mining ceases. Newmont continues to accrue to reclamation and remediation spend through the year. Newmont expects to incur a cash outflow of approximately \$600 million in 2024 and \$700 million in 2025, primarily related to the construction of two new water treatment plants and post-closure management at Yanacocha. The operation's ongoing closure planning study advanced to the feasibility state in December 2023 and continues to address several complex closure issues, including water management, social impacts and tailings. A long-term water management solution will replace five existing water treatment facilities with two, addressing the watersheds along the continental divide. Certain estimated costs remain subject to revision as ongoing study work and assessment of opportunities that incorporates the latest design considerations remain in progress.

Newmont's 2024 Outlook

For a more detailed discussion, see the Company's 2024 Outlook released on February 22, 2024, available on Newmont.com. Please see the cautionary statement and footnotes for additional information.

⁽¹⁾ Attributable gold ounces sold excludes ounces related to the Pueblo Viejo mine, which is 40% owned by Newmont and accounted for as an equity method investment, and the Fruta del Norte mine, which is wholly owned by Lundin Gold whom the Company holds a 32.0% interest and is accounted for as an equity method investment.

(2) For the three months ended June 30, 2023 and September 30, 2023, Peñasquito production was impacted due to the suspension of operations as a result of the Union labor strike. Sales activity recognized in the third quarter of 2023 was related to adjustments on provisionally price concentrate sales subject to final settlement. Consequently, price per ounce/pound metrics are not meaningful ("N.M").

Represents attributable gold from Newmont's 40% interest in Pueblo Viejo, which is accounted for as an equity method investment. Attributable gold ounces produced at Pueblo Viejo are not included in attributable gold ounces sold, as noted in footnote (1). Income and expenses of equity method investments are included in *Equity income (loss) of affiliates*.

(5) Sites are classified as held for sale as of June 30, 2024.

⁽⁴⁾ Represents attributable gold from Newmont's 32.0% interest in Lundin Gold, who wholly owns and operates the Fruta del Norte mine, which is accounted for on a quarterly-lag as an equity method investment. Attributable gold ounces produced by Lundin Gold represent prior quarter production and are not included in attributable gold ounces sold, as noted in footnote (1). Income and expenses of equity method investments are included in Equity income (loss) of affiliates.

⁽⁶⁾ Non-GAAP measure. See end of this release for reconciliation.

(1) Certain amounts and disclosures in the prior year have been										,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	

⁽³⁾

Certain amounts and disclosures in the prior year have been reclassified to conform to the current year presentation.

Cash from operations before working capital is a non-GAAP metric with the most directly comparable GAAP financial metric being to Net cash provided by (used in) operating activities, as shown reconciled above.

During the first quarter of 2024, certain non-core assets were determined to meet the criteria for assets held for sale. As a result, the related assets and liabilities, including \$205 of Cash and cash equivalents and \$53 of restricted cash, included in Other current assets and Other non-current assets, were reclassified to Assets held for sale and Liabilities held for sale, respectively.

Non-GAAP Financial Measures

Non-GAAP financial measures are intended to provide additional information only and do not have any standard meaning prescribed by GAAP. These measures should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. Refer to Non-GAAP Financial Measures within Part II, Item 7 within our Form 10-K for the year ended December 31, 2023, filed with the SEC on February 29, 2024 for further information on the non-GAAP financial measures presented below, including why management believes that its presentation of non-GAAP financial measures provides useful information to investors.

Adjusted net income (loss)

Net income (loss) attributable to Newmont stockholders is reconciled to Adjusted net income (loss) as follows:

(1) Per share measures may not recalculate due to rounding.

Loss on assets held for sale, included in Loss on assets held for sale, represents the loss recorded for the six non-core assets and the development project that met the requirements to be presented as held for sale in 2024.

(3) (Gain) loss on asset and investment sales, net, included in *Other income (loss), net,* primarily represents the gain recognized on the sale of the Stream Credit Facility Agreement ("SCFA") in the second quarter and the purchase and sale of foreign currency bonds.

Newcrest transaction and integration costs, included in *Other expense, net*, represents costs incurred related to Newmont's acquisition of Newcrest completed in 2023 as well as subsequent integration costs.

(5) Settlement costs, included in *Other expense, net*, are primarily comprised of wind down and demobilization costs related to the French Guiana project. Change in fair value of investments, included in *Other income (loss), net*, primarily represents unrealized gains and losses related to the Company's investment in current and non-current marketable equity securities.

(7) Impairment charges, included in *Other expense, net*, represents non-cash write-downs of various assets that are no longer in use and materials and supplies inventories.

(8) Restructuring and severance, included in *Other expense, net*, primarily represents severance and related costs associated with significant organizational or operating model changes implemented by the Company.

(9) Gain on debt extinguishment, net, included in *Other income (loss), net*, primarily represents the net gain on the partial redemption of certain Senior Notes in the second quarter.

(10) Reclamation and remediation charges, included in *Reclamation and remediation*, represent revisions to reclamation and remediation plans at the Company's former operating properties and historic mining operations that have entered the closure phase and have no substantive future economic value.

The tax effect of adjustments, included in *Income and mining tax benefit (expense)*, represents the tax effect of adjustments in footnotes (2) through (10), as described above, and are calculated using the applicable regional tax rate.

Valuation allowance and other tax adjustments, included in *Income and mining tax benefit (expense)*, is recorded for items such as foreign tax credits, capital losses, disallowed foreign losses, and the effects of changes in foreign currency exchange rates on deferred tax assets and deferred tax liabilities. The adjustment for the three and six months ended June 30, 2024 reflects the net increase or (decrease) to net operating losses, capital losses, tax credit carryovers, and other deferred tax assets subject to valuation allowance of \$20 and \$(45), the effects of changes in foreign exchange rates on deferred tax assets and liabilities of \$(93) and \$(58), net reductions to the reserve for uncertain tax positions of \$(50) and \$(52), recording of a deferred tax liability for the outside basis difference at Akyem of \$(37) and \$80 due to the status change to held-for-sale, and other tax adjustments of \$18 and \$25.

(13) Adjusted net income (loss) per diluted share is calculated using diluted common shares in accordance with GAAP.

Per share measures may not recalculate due to rounding.

- (3) Newcrest transaction-related costs, included in Other expense, net, primarily represents costs incurred related to the Newcrest Transaction.
- (4) Restructuring and severance, included in Other expense, net, primarily represents severance and related costs associated with significant organizational or operating model changes implemented by the Company.
- Impairment charges, included in Other expense, net, represents non-cash write-downs of various assets that are no longer in use and materials and
- Reclamation and remediation charges, included in Reclamation and remediation, represent revisions to reclamation and remediation plans at the Company's former operating properties and historic mining operations that have entered the closure phase and have no substantive future economic value.
- (7) Change in fair value of investments, included in Other income (loss), net, primarily represents unrealized gains and losses related to the Company's investment in current and non-current marketable equity securities.
- Other represents income received on the favorable settlement of certain matters that were outstanding at the time of sale of the related investment in 2022. Amounts included in Other income (loss), net.
- The tax effect of adjustments, included in Income and mining tax benefit (expense), represents the tax effect of adjustments in footnotes (2) through (8), as described above, and are calculated using the applicable regional tax rate.
- (10) Valuation allowance and other tax adjustments, included in Income and mining tax benefit (expense), is recorded for items such as foreign tax credits, capital losses, disallowed foreign losses, and the effects of changes in foreign currency exchange rates on deferred tax assets and deferred tax liabilities. The adjustment for the three and six months ended June 30, 2023 reflects the net increase or (decrease) to net operating losses, capital losses, tax credit carryovers, and other deferred tax assets subject to valuation allowance of \$47 and \$57, the effects of changes in foreign exchange rates on deferred tax assets and liabilities of \$4 and \$21, net reductions to the reserve for uncertain tax positions of \$3 and \$14, other tax adjustments of \$1 and \$3.
- Adjusted net income (loss) per diluted share is calculated using diluted common shares in accordance with GAAP.

⁽Gain) loss on asset and investment sales, net, included in Other income (loss), net, primarily represents the net gain recognized on the exchange of the previously held Maverix investment for Triple Flag and the subsequent sale of the Triple Flag investment.

Earnings before interest, taxes, depreciation and amortization and Adjusted earnings before interest, taxes, depreciation and amortization

Net income (loss) attributable to Newmont stockholders is reconciled to EBITDA and Adjusted EBITDA as follows:

Adjusted EBITDA	\$ 1,966	\$ 910	\$ 3,660	\$ 1,900

- (1) Loss on assets held for sale, included in *Loss on assets held for sale*, represents the loss recorded for the six non-core assets and the development project that met the requirements to be presented as held for sale in 2024.
- (Gain) loss on asset and investment sales, net, included in *Other income (loss), net*, in 2024 primarily represents the gain recognized on the sale of the Stream Credit Facility Agreement ("SCFA") in the second quarter and the purchase and sale of foreign currency bonds. For 2023, primarily comprised of the net gain recognized on the exchange of the previously held Maverix investment for Triple Flag and the subsequent sale of the Triple Flag investment.
- (3) Newcrest transaction and integration costs, included in *Other expense, net*, represents costs incurred related to Newmont's acquisition of Newcrest completed in 2023 as well as subsequent integration costs.
- (4) Settlement costs, included in *Other expense*, *net*, are primarily comprised of wind-down and demobilization costs related to the French Guiana project in 2024 and litigation expenses in 2023.
- (5) Change in fair value of investments, included in *Other income (loss), net*, primarily represents unrealized gains and losses related to the Company's investments in current and non-current marketable equity securities.
- (6) Impairment charges, included in *Other expense, net*, represents non-cash write-downs of various assets that are no longer in use and materials and supplies inventories.
- (7) Restructuring and severance, included in *Other expense, net*, primarily represents severance and related costs associated with significant organizational or operating model changes implemented by the Company for all periods presented.
- (8) Gain on debt extinguishment, net, included in *Other income (loss), net*, primarily represents the net gain on the partial redemption of certain Senior Notes in the second quarter.
- (9) Reclamation and remediation charges, included in *Reclamation and remediation*, represent revisions to reclamation and remediation plans at the Company's former operating properties and historic mining operations that have entered the closure phase and have no substantive future economic value.
- Other, included in *Other income (loss), net*, in 2023, represents income received during the first quarter of 2023, on the favorable settlement of certain matters that were outstanding at the time of sale of the related investment in 2022.

Free Cash Flow

The following table sets forth a reconciliation of Free Cash Flow, a non-GAAP financial measure, to *Net cash provided by (used in)* operating activities, which the Company believes to be the GAAP financial measure most directly comparable to Free Cash Flow, as well as information regarding *Net cash provided by (used in) investing activities* and *Net cash provided by (used in) financing activities*.

	Three Months Ended June 30,					Six Mont June		
		2024		2023		2024		2023
Net cash provided by (used in) operating activities (1)	\$	1,428	\$	663	\$	2,204	\$	1,144
Less: Net cash used in (provided by) operating activities of discontinued operations		(34)		(7)		(34)		(7)
Net cash provided by (used in) operating activities of continuing operations		1,394		656		2,170		1,137
Less: Additions to property, plant and mine development		(800)		(616)		(1,650)		(1,142)
Free Cash Flow	\$	594	\$	40	\$	520	\$	(5)
Net cash provided by (used in) investing activities (2)	\$	(641)	\$	(158)	\$	(1,439)	\$	(500)
Net cash provided by (used in) financing activities	\$	(658)	\$	(334)	\$	(957)	\$	(684)

Includes payment of \$291 for stamp duty tax, related to the Newcrest transaction, in the first quarter of 2024.

⁽²⁾ Net cash provided by (used in) investing activities includes Additions to property, plant and mine development, which is included in the Company's computation of Free Cash Flow.

Attributable Free Cash Flow

Management uses Attributable Free Cash Flow as a non-GAAP measure to analyze cash flows generated from operations that are attributable to the Company. Attributable Free Cash Flow is *Net cash provided by (used in) operating activities* after deducting net cash flows from operations attributable to noncontrolling interests less *Net cash provided by (used in) operating activities of discontinued operations* after deducting net cash flows from discontinued operations attributable to noncontrolling interests less *Additions to property, plant and mine development* after deducting property, plant and mine development attributable to noncontrolling interests. The Company believes that Attributable Free Cash Flow is useful as one of the bases for comparing the Company's performance with its competitors. Although Attributable Free Cash Flow and similar measures are frequently used as measures of cash flows generated from operations by other companies, the Company's calculation of Attributable Free Cash Flow is not necessarily comparable to such other similarly titled captions of other companies.

The presentation of non-GAAP Attributable Free Cash Flow is not meant to be considered in isolation or as an alternative to Net income attributable to Newmont stockholders as an indicator of the Company's performance, or as an alternative to *Net cash provided by (used in) operating activities* as a measure of liquidity as those terms are defined by GAAP, and does not necessarily indicate whether cash flows will be sufficient to fund cash needs. The Company's definition of Attributable Free Cash Flow is limited in that it does not represent residual cash flows available for discretionary expenditures due to the fact that the measure does not deduct the payments required for debt service and other contractual obligations or payments made for business acquisitions. Therefore, the Company believes it is important to view Attributable Free Cash Flow as a measure that provides supplemental information to the Company's Condensed Consolidated Statements of Cash Flows.

The following tables set forth a reconciliation of Attributable Free Cash Flow, a non-GAAP financial measure, to *Net cash provided by (used in) operating activities*, which the Company believes to be the GAAP financial measure most directly comparable to Attributable Free Cash Flow, as well as information regarding *Net cash provided by (used in) investing activities* and *Net cash provided by (used in) financing activities*.

Net Debt

Net Debt is calculated as *Debt* and *Lease and other financing obligations* less *Cash and cash equivalents* and time deposits, included in current *Investments*, as presented on the Condensed Consolidated Balance Sheets. *Cash and cash equivalents* and time deposits are subtracted from *Debt* and *Lease and other financing obligations* as these are highly liquid, low-risk investments and could be used to reduce the Company's debt obligations.

The following table sets forth a reconciliation of Net Debt, a non-GAAP financial measure, to *Debt* and *Lease and other financing obligations*, which the Company believes to be the GAAP financial measures most directly comparable to Net Debt.

	 At June 30, 2024	At De	cember 31, 2023
Debt	\$ 8,692	\$	8,874
Lease and other financing obligations	533		562
Less: Cash and cash equivalents	(2,602)		(3,002)
Less: Cash and cash equivalents included in assets held for sale (1)	(205)		_
Less: Time deposits ⁽²⁾	 (28)		<u> </u>
Net debt	\$ 6,390	\$	6,434

⁽¹⁾ During the first quarter of 2024, certain non-core assets were determined to meet the criteria for assets held for sale. As a result, the related assets and liabilities, including \$205 of Cash and cash equivalents, were reclassified to Assets held for sale and Liabilities held for sale, respectively.

⁽²⁾ Merian had total consolidated *Additions to property, plant and mine development* of \$24 and \$34 on a cash basis for the three and six months ended June 30, 2023, respectively.

⁽³⁾ Net cash provided by (used in) investing activities includes Additions to property, plant and mine development, which is included in the Company's computation of Free Cash Flow.

Time deposits are included in current *Investments* on the Condensed Consolidated Balance Sheets.

Costs applicable to sales per ounce/gold equivalent ounce

Costs applicable to sales per ounce/gold equivalent ounce are calculated by dividing the costs applicable to sales of gold and other metals by gold ounces or gold equivalent ounces sold, respectively. These measures are calculated for the periods presented on a consolidated basis.

The following tables reconcile these non-GAAP measures to the most directly comparable GAAP measures.

Costs applicable to sales per ounce

	 Three Moi Jun	nths e 30,		Six Months Ended June 30,				
	2024		2023	2024		2023

Excludes Depreciation and amortization and Reclamation and remediation.

⁽³⁾ Per ounce measures may not recalculate due to rounding.

Excludes Depreciation and amortization and Reclamation and remediation.

⁽³⁾ Gold equivalent ounces is calculated as pounds or ounces produced multiplied by the ratio of the other metals price to the gold price, using Gold (\$1,400/oz.), Copper (\$3.50/lb.), Silver (\$20.00/oz.), Lead (\$1.00/lb.) and Zinc (\$1.20/lb.) for each of 2024 and 2023.

Per ounce measures may not recalculate due to rounding.

⁽²⁾ Per ounce measures may not recalculate due to rounding.

All-In Sustaining Costs

All-in sustaining costs represent the sum of certain costs, recognized as GAAP financial measures, that management considers to be associated with production. All-in sustaining costs per ounce amounts are calculated by dividing all-in sustaining costs by gold ounces or gold equivalent ounces sold.

Advanced

- (1) Excludes Depreciation and amortization and Reclamation and remediation.
- (2) Includes by-product credits of \$114.
- (3) Includes stockpile, leach pad, and product inventory adjustments of \$2 at Brucejack, \$1 at Peñasquito, \$9 at Cerro Negro, \$15 at Telfer, and \$17 at NGM.
- (4) Reclamation costs include operating accretion and amortization of asset retirement costs of \$67 and \$45, respectively, and exclude accretion and reclamation and remediation adjustments at former operating properties that have entered the closure phase and have no substantive future economic value of \$108 and \$17, respectively.
- Advanced projects, research and development and exploration excludes development expenditures of \$4 at Peñasquito, \$4 at Merian, \$6 at Cerro Negro, \$1 at Boddington, \$13 at Tanami, \$14 at Ahafo, \$6 at NGM, \$27 at Corporate and Other, \$1 at CC&V, \$1 at Porcupine, and \$4 at Akyem, totaling \$81 related to developing new operations or major projects at existing operations where these projects will materially benefit the operation.
- 6) Other expense, net is adjusted for Newcrest transaction and integration costs of \$45, settlement costs of \$26, impairment charges of \$21, and restructuring and severance of \$15.
- Excludes capitalized interest related to sustaining capital expenditures.
- (8) Includes finance lease payments and other costs for sustaining projects of \$30.
- (9) Per ounce measures may not recalculate due to rounding.
- Sites acquired through the Newcrest transaction.
- (11) Corporate and Other includes the Company's business activities relating to its corporate and regional offices and all equity method investments.
- Sites are classified as held for sale as of June 30, 2024.
- (13) Gold equivalent ounces is calculated as pounds or ounces produced multiplied by the ratio of the other metals price to the gold price, using Gold (\$1,400/oz.), Copper (\$3.50/lb.), Silver (\$20.00/oz.), Lead (\$1.00/lb.) and Zinc (\$1.20/lb.) pricing for 2024.
- (14) For the six months ended June 30, 2024, Red Chris sold 12 thousand tonnes of copper, Peñasquito sold 18 million ounces of silver, 49 thousand tonnes of lead and 113 thousand tonnes of zinc, Boddington sold 18 thousand tonnes of copper, Cadia sold 43 thousand tonnes of copper, and Telfer sold 2 thousand tonnes of copper.
- During the second quarter, seepage points were detected on the outer wall and around the tailings storage facility at Telfer and we have temporarily ceased placing new tailings on the facility. Remediation of the facility has commenced and we expect production to commence during the fourth quarter of 2024.

⁽¹⁾ Excludes Depreciation and amortization and Reclamation and remediation.

Includes by-product credits of \$62.

Beginning January 1, 2023, COVID-19 specific costs incurred in the ordinary course of business are recognized in *Costs applicable to sales*.

Advanced projects, research and development and exploration excludes development expenditures of \$1 at CC&V, \$3 at Porcupine, \$3 at Peñasquito, \$3 at Merian, \$1 at Cerro Negro, \$3 at Yanacocha, \$12 at Tanami, \$15 at Ahafo, \$7 at Akyem, \$9 at NGM and \$48 at Corporate and Other, totaling \$105 related to developing new operations or major projects at existing operations where these projects will materially benefit the operation.

Other expense, net is adjusted for impairment charges of \$8, restructuring and severance costs of \$12, and Newcrest transaction-related costs of \$21.

Excludes capitalized interest related to sustaining capital expenditures.

Includes finance lease payments for sustaining projects of \$38.

Per ounce measures may not recalculate due to rounding.

(11) Corporate and Other includes the Company's business activities relating to its corporate and regional offices and all equity method investments.

Gold equivalent ounces is calculated as pounds or ounces produced multiplied by the ratio of the other metals price to the gold price, using Gold (\$1,400/oz.), Copper (\$3.50/lb.), Silver (\$20.00/oz.), Lead (\$1.00/lb.) and Zinc (\$1.20/lb.) pricing for 2023.

(13) For the six months ended June 30, 2023, Peñasquito sold 12 million ounces of silver, 33 thousand tonnes of lead and 86 thousand tonnes of zinc, and Boddington sold 23 thousand tonnes of copper.

⁽³⁾ Includes stockpile and leach pad inventory adjustments of \$2 at Porcupine, \$5 at Éléonore, \$17 at Peñasquito, \$2 at Cerro Negro, \$4 at Yanacocha, \$1 at Akyem, and \$2 at NGM.

⁽⁵⁾ Reclamation costs include operating accretion and amortization of asset retirement costs of \$49 and \$55, respectively, and exclude accretion and reclamation and remediation adjustments at former operating properties that have entered the closure phase and have no substantive future economic value of \$74 and \$9, respectively.

A reconciliation of the 2024 Gold AISC outlook to the 2024 Gold CAS outlook is provided below. The estimates in the table below are considered "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbor created by such sections and other applicable laws.

2024 Outlook - Gold (1)(2)

(in millions, except ounces and per ounce)	 Outlook Estimate
Cost Applicable to Sales (3)(4)	\$ 6,900
Reclamation Costs (5)	190
Advanced Projects & Exploration (6)	160
General and Administrative (7)	235
Other Expense	10
Treatment and Refining Costs	135
Sustaining Capital ⁽⁸⁾	1,495
Sustaining Finance Lease Payments	 25
All-in Sustaining Costs	\$ 9,150
Ounces (000) Sold ⁽⁹⁾	 6,555
All-in Sustaining Costs per Ounce	\$ 1,400

The reconciliation is provided for illustrative purposes in order to better describe management's estimates of the components of the calculation. Estimates for each component of the forward-looking All-in sustaining costs per ounce are independently calculated and, as a result, the total All-in sustaining costs and the All-in sustaining costs per ounce may not sum to the component ranges. While a reconciliation to the most directly comparable GAAP measure has been provided for the 2024 AISC Gold Outlook on a consolidated basis, a reconciliation has not been provided on an individual site or project basis in reliance on Item 10(e)(1)(i)(B) of Regulation S-K because such reconciliation is not available without unreasonable efforts.

- (2) All values are presented on a consolidated basis for Newmont.
- (3) Excludes Depreciation and amortization and Reclamation and remediation.
- (4) Includes stockpile and leach pad inventory adjustments.
- (5) Reclamation costs include operating accretion and amortization of asset retirement costs.
- ⁽⁶⁾ Advanced Project and Exploration excludes non-sustaining advanced projects and exploration.
- (7) Includes stock-based compensation.
- (8) Excludes development capital expenditures, capitalized interest and change in accrued capital.
- (9) Consolidated production for Merian is presented on a total production basis for the mine site and excludes production from Pueblo Viejo and Fruta del Norte.

Net debt to Adjusted EBITDA ratio

Management uses net debt to Adjusted EBITDA as non-GAAP measures to evaluate the Company's operating performance, including our ability to generate earnings sufficient to service our debt. Net debt to Adjusted EBITDA represents the ratio of the Company's debt, net of cash and cash equivalents, to Adjusted EBITDA. Net debt to Adjusted EBITDA does not represent, and should not be considered an alternative to, net income (loss), operating income (loss), or cash flow from operations as those terms are defined by GAAP, and does not necessarily indicate whether cash flows will be sufficient to fund cash needs. Although Net Debt to Adjusted EBITDA and similar measures are frequently used as measures of operations and the ability to meet debt service requirements by other companies, our calculation of net debt to Adjusted EBITDA measure is not necessarily comparable to such other similarly titled captions of other companies. The Company believes that net debt to Adjusted EBITDA provides useful information to investors and others in understanding and evaluating our operating results in the same manner as our management and Board of Directors. Management's determination of the components of net debt to Adjusted EBITDA is evaluated periodically and based, in part, on a review of non-GAAP financial measures used by mining industry analysts. Net income (loss) attributable to Newmont stockholders is reconciled to Adjusted EBITDA as follows:

	Three Months Ended												
	Jun	e 30, 2024	Mai	rch 31, 2024	Dec	ember 31, 2023	Sept	ember 30, 2023

Total net debt	\$	6,390											
Net debt to pro forma Adjusted EBITDA		1.0											

⁽¹⁾ Represents Newcrest's pre-acquisition Adjusted EBITDA on a US GAAP basis from January 1, 2023 through to the acquisition date, November 6, 2023. This amount is added to our adjusted EBITDA to include a full twelve months of Newcrest results on a pro forma basis for the rolling twelve months ended June 30, 2024. The pro forma adjusted EBITDA was derived from Newcrest unaudited financial information for the period July 1, 2023 through October 31, 2023 and November 1, 2023 through November 6, 2023, the acquisition date. Newcrest's pre-acquisition Adjusted EBITDA has been added to our adjusted EBITDA for the purposes of Net Debt to Pro Forma Adjusted EBITDA ratio only.

⁽²⁾ During the first quarter of 2024, certain non-core assets were determined to meet the criteria for assets held for sale. As a result, the related assets and liabilities, including \$205 of Cash and cash equivalents, were reclassified to Assets held for sale and Liabilities held for sale, respectively.

⁽³⁾ Time deposits are included in current *Investments* on the Condensed Consolidated Balance Sheets.

Net average realized price per ounce/ pound

Average realized price per ounce/ pound are non-GAAP financial measures. The measures are calculated by dividing the net consolidated gold, copper, silver, lead and zinc sales by the consolidated gold ounces, copper pounds, silver ounces, lead pounds and zinc pounds sold, respectively. These measures are calculated on a consistent basis for the periods presented on a consolidated basis. Average realized price per ounce/ pound statistics are intended to provide additional information only, do not have any standardized meaning prescribed by GAAP and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. The measures are not necessarily indicative of operating profit or cash flow from operations as determined under GAAP. Other companies may calculate these measures differently.

The following tables reconcile these non-GAAP measures to the most directly comparable GAAP measure:

	Three Months Ended June 30,					ncrease	Percent
	2024			2023		ecrease)	Change

⁽¹⁾

Amounts reported in millions except gold ounces, which are reported in thousands.

For the six months ended June 30, 2023 the Company sold 23 thousand tonnes of copper, 33 thousand tonnes of lead, and 86 thousand (2)

⁽³⁾ Per ounce/pound measures may not recalculate due to rounding.

Gold by-product metrics

Copper, silver, lead, zinc and molybdenum are by-products often obtained during the process of extracting and processing the primary ore-body. In our GAAP Consolidated Financial Statements, the value of these by-products is recorded as a credit to our CAS and the value of the primary ore is recorded as Sales. In certain instances, copper, silver, lead and zinc are co-products, or a significant resource in the primary ore-body, and the revenue is recorded as Sales in our GAAP Consolidated Financial Statements.

Gold by-product metrics are non-GAAP financial measures that serve as a basis for comparing the Company's performance with certain competitors. As Newmont's operations are primarily focused on gold production, "Gold by-product metrics" were developed to allow investors to view Sales, CAS per ounce and AISC per ounce calculations that classify all copper, silver, lead, zinc and molybdenum production as a by-product, even when copper, silver, lead or zinc is a significant resource in the primary ore-body. These metrics are calculated by subtracting copper, silver, lead and zinc sales recognized from Sales and including these amounts as offsets to CAS.

Gold by-product metrics are calculated on a consistent basis for the periods presented on a consolidated basis. These metrics are intended to provide supplemental information only, do not have any standardized meaning prescribed by GAAP and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. Other companies may calculate these measures differently as a result of differences in the underlying accounting principles, policies applied and in accounting frameworks, such as in IFRS.

The following tables reconcile these non-GAAP measures to the most directly comparable GAAP measures:

	Three Mor	nths e 30,	Ended		nded		
	 2024		2023		2024		2023
Consolidated gold sales, net	\$ 3,623	\$	2,380	\$	6,964	\$	4,683
Consolidated other metal sales, net	779		303		1,461		679
Sales	\$ 4,402	\$	2,683	\$	8,425	\$	5,362
Costs applicable to sales	\$ 2,156	\$	1,543	\$	4,262	\$	3,025
Less: Consolidated other metal sales, net	 (779)		(303)		(1,461)		(679)

Title: Newmont Second Quarter 2024 Earnings Conference Call

URL: https://events.g4inc.com/attendee/677311568

The webcast materials will be available after market close on Wednesday, July 24, 2024, on the "Investor Relations" section of the Company's website, Newmont.com. Additionally, the conference call will be archived for a limited time on the Company's website.

About Newmont

Newmont is the world's leading gold company and a producer of copper, zinc, lead, and silver. The company's world-class portfolio of assets, prospects and talent is anchored in favorable mining jurisdictions in Africa, Australia, Latin America & Caribbean, North America, and Papua New Guinea. Newmont is the only gold producer listed in the S&P 500 Index and is widely recognized for its principled environmental, social, and governance practices. Newmont is an industry leader in value creation, supported by robust safety standards, superior execution, and technical expertise. Founded in 1921, the company has been publicly traded since 1925.

Cautionary Statement Regarding Forward Looking Statements, Including Outlook Assumptions:

This news release contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbor created by such sections and other applicable laws. Where a forward-looking statement expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, such statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by the forward-looking statements. Forward-looking statements often address our expected future business and financial performance and financial condition; and often contain words such as "anticipate," "intend," "plan," "will," "would," "estimate," "expect," "believe," "pending" or "potential." Forward-looking statements in this news release may include, without limitation, (i) estimates of future production and sales, including production outlook, average future production and upside potential, including our Full Potential initiatives and synergies; (ii) estimates of future costs applicable to sales and all-in sustaining costs; (iii) estimates of future capital expenditures, including development and sustaining capital; (iv) expectations regarding the Tanami Expansion 2, Ahado North and Cadia Block Caves projects, including, without limitation, expectations for production, milling, costs applicable to sales and all-in sustaining costs, capital costs, mine life extension, construction completion commercial production, and other timelines; (v) any share and debt repurchases; (vi) estimates of future cost reductions, synergies, including pre-tax synergies, savings and efficiencies, Full Potential and productivity improvements, and future cash flow enhancements through portfolio optimization, (vii) expectations regarding future exploration and the development, growth and potential of Newmont Corporation's ("Newmont"), project pipeline and investments; (viii) expectations regarding future investments or divestitures, including of non-core assets and assets designated as held for sale; (ix) expectations regarding free cash flow and returns to stockholders, including with respect to future dividends and future share repurchases, the dividend framework and expected payout levels; (x) expectations regarding future mineralization, including, without limitation, expectations regarding reserves and recoveries; (xi) expectations regarding organic growth in our operations; and (xii) other outlook. Estimates or expectations of future events or results are based upon certain assumptions, which may prove to be incorrect. Such assumptions, include, but are not limited to: (i) there being no significant change to current geotechnical, metallurgical, hydrological and other physical conditions; (ii) permitting, development, operations and expansion of operations and projects being consistent with current expectations and mine plans, including, without limitation, receipt of export approvals; (iii) political developments in any jurisdiction in which the Company operates being consistent with its current expectations; (iv) certain exchange rate assumptions for the Australian dollar to U.S. dollar and Canadian dollar to U.S. dollar and Canadian dollar to U.S. dollar, as well as other exchange rates being approximately consistent with current levels; (v) certain price assumptions for gold, copper, silver, zinc, lead and oil; (vi) prices for key supplies; (vii) the accuracy of current mineral reserve, mineral resource and mineralized material estimates; and (viii) other planning assumptions. Uncertainties include those relating to general macroeconomic uncertainty and changing market conditions, changing restrictions on the mining industry in the jurisdictions in which we operate, impacts to supply chain, including price, availability of goods, ability to receive supplies and fuel, and impacts of changes in interest rates. Such uncertainties could result in operating sites being placed into care and maintenance and impact estimates, costs and timing of projects. Uncertainties in geopolitical conditions could impact certain planning assumptions, including, but not limited to commodity and currency prices, costs and supply chain availabilities.

Future dividends beyond the dividend payable on September 30, 2024 to holders of record at the close of business on September 5, 2024 have not yet been approved or declared by the Board of Directors, and an annualized dividend payout or dividend yield has not been declared by the Board. Management's expectations with respect to future dividends are "forward-looking statements" and the Company's dividend policy is non-binding. The declaration and payment of future dividends remain at the discretion of the Board of Directors and will be determined based on Newmont's financial results, balance sheet strength, cash and liquidity requirements, future prospects, gold and commodity prices, and other factors deemed relevant by the Board.

For a more detailed discussion of such risks and other factors that might impact future looking statements, see the Company's Annual Report on Form 10-K for the year ended December 31, 2023 filed with the U.S. Securities and Exchange Commission (the "SEC") on February 29, 2024, under the heading "Risk Factors", and other factors identified in the Company's reports filed with the SEC, available on the SEC website or at www.newmont.com. The Company does not undertake any obligation to release publicly revisions to any "forward-looking statement," including, without limitation, outlook, to reflect events or circumstances after the date of this news release, or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws. Investors should not assume that any lack of update to a previously issued "forward-looking statement" constitutes a reaffirmation of that statement. Continued reliance on "forward-looking statements" is at investors' own risk. Investors are also encouraged to review our Form 10-Q for the quarter ended June 30, 2024, expected to be filed on, or about July 25, 2024.

Notice Regarding Reserve and Resource:

Unless otherwise stated herein, the reserves stated in this release represent estimates at December 31, 2023, which could be economically and legally extracted or produced at the time of the reserve determination. Estimates of proven and probable reserves are subject to considerable uncertainty. Such estimates are, or will be, to a large extent, based on metal prices and interpretations of geologic data obtained from drill holes and other exploration techniques, which data may not necessarily be indicative of future results. Additionally, resource does not indicate proven and probable reserves as defined by the SEC or the Company's standards. Estimates of measured, indicated and inferred resource are subject to further exploration and development, and are, therefore, subject to considerable uncertainty. Inferred resources, in particular, have a great amount of uncertainty as to their existence and their economic and legal feasibility. The Company cannot be certain that any part or parts of the resource will ever be converted into reserves. For additional information on our reserves and resources, please see Item 2 of the Company's Form 10-K, filed on February 29, 2024 with the SEC.
