### 14. Commentary on results for the period

The economic environment over the last twelve months has been challenging and PFT has been flanked by deteriorating economic conditions and unremitting inflationary pressures. However, we have continued reduced operating costs and have identified a further ~\$1M in reductions we are currently implementing.

The net loss before income tax position was \$5.2M - although after deducting a number of abnormal and one-off costs, including an impairment charge of \$0.8M, the normalised position was \$4.3M loss.

The focus in FY25 continues to be reducing costs, business rationalisation and continuing to investigate merger synergies with potential merger partner(s) in accordance with the Company's strategy.
