About Navarre Minerals Limited

Navarre Minerals Limited (ASX: NML, in suspension) is a Victorian based mineral exploration company with a portfolio of advanced exploration projects across the state and is currently in a process of re-compliance and recapitalisation.

Navarre's flagship asset is the **Stawell Corridor Gold Project**, in an area that hosts the Stawell (~six million ounce) and Ararat (~one million ounce) goldfields. Within this Project, Navarre reported its maiden inferred Mineral Resource (304koz)¹ and additional Exploration Target (280-420koz) on the margins of the Irvine basalt dome (the Resolution and Adventure deposits)². To the south of Irvine also lies the high-grade gold discovery Langi Logan on a 14.5 kilometre long basalt dome. The Morning Bill (Glenlyle) Prospect is a potential epithermal gold-silver system above a deeper porphyry target in the emerging Stavelly Arc volcanics, just south of the Stawell Corridor.

In joint venture with operator Catalyst Metals Limited (CYL), Navarre owns at 49% interest in the high-grade **Tandarra Gold Project**, 50 kilometres northwest of Agnico Gold's world-class Fosterville Gold Mine, and 40 kilometres north of the 22-million-ounce Bendigo Goldfield. Latest drill results were reported on 28 August 2024 with further drilling planned in coming months.

At the **St Arnaud Gold Project**, Navarre's exploration tenements encompass the historical St Arnaud Goldfield and its associated mines. The field consists of several lines of reefs which were worked to the southern edge of the younger Murray Basin cover (New Bendigo, New Chum and Nelson lines).

At the **Jubilee Gold Project**, 25 kilometres southwest of the Ballarat Gold Mine, the Company is targeting extensions and repetitions of the historically mined transverse gold-bearing quartz reef. These structures are similar to Fosterville's high-grade Swan-Eagle system.

Navarre's board of directors has transitioned to a new profile comprising:

- James Gurry (Executive Chair & Managing Director) (Appointed May 2023)
- Richard Taylor (Non-Executive Director) (Appointed May 2024)
- Angela Lorrigan (Non-Executive Director & Technical Director) (Appointed August 2024)

² See NML ASX Release 30 March 2021

The board is supported by a new executive comprising:

- Managing Director - James Gurry
- Exploration Manager - Peter de Vries, (BAppSc)
- Exploration Strategy / Technical Advisors – Kenneth Bush and the team at Core Prospecting Pty Ltd
- Finance – Cameron Knox
