In FY24 we delivered Revenue, EBITDA, NPAT and Operating Cash Flows of \$66.5M, \$27.4M, \$4.0M and \$26.7M respectively, materially up on FY23. - TSI India was granted in principle authorisation to establish, own and operate WLA’s by the Reserve Bank of India.
- Green System Audit Report has been lodged with RBI - the final requirement prior to RBI approval.
- A WLA licence allows Findi to franchise ATMs to merchants, enhancing merchant value proposition by bundling ATMs and FindiPay services.
- 4,600 WLA to join the network in FY25 through the TCPSP acquisition, with a further ~6,400 WLA to be deployed during FY26 via the redeployed of 4,000 Findi-branded ATMs from the SBI contract and 2,500 TCPSP inventory requiring minimal additional capital expenditure.

2. Immediate Payments Switch¹ – 1st WLA Switch in India 
3. Low-capex, high-margin franchise model 
4. 2nd largest White Label ATM business in India 
5. 50% increase to FindiPay margins 

Synergies

*The Acquisition completes the strategic objective of combining both sides of the business by linking and creating synergies between the **physical** cash ATM business and the **digital** FindiPay business*

1) A Payments Switch is a software platform that enables the routing of electronic payments between different payment methods and financial institutions. A Payments Switch acts as a hub connecting various payment methods, such as credit cards, debit cards and online wallets.

- Under TCPSL's existing White Label ATM licence, Findi will now be able to execute on its strategy to deploy White Label ATMs into its FindiPay merchant outlets
- Drives product and service innovation across the FindiPay business to deliver market leading customer experiences.
- Strong White Label partnerships with many household names across India which will allow Findi to add new partners to its White Label ATM network

WHITE LABEL FY26 FORECAST FINANCIAL IMPACT

The A\$75.7 million¹ Acquisition is to be funded from Findi’s existing balance sheet resources with A\$19.7 million net² initial cash settlement consideration to be paid at completion and a further A\$4.2 million¹ to be paid 12 months post completion, bringing total cash consideration to A\$23.9 million.

WLA FY26 FORECAST (A\$m)

Immediate scale: In addition to the 4,600 Indicash ATM network, the WLA license will enable Findi to redeploy underutilized Brown Label ATMs available with TSI.

Self funding model: 6,400 of the 6,900 ATMs available for deployment are expected to be progressively deployed during FY26. Under a franchisee model (see next slide) these 6,400 sites are expected to generate ~A\$58.3m in franchise fees and require a ~A\$10.8m capital investment.

INTERCHANGE FEE INDEXATION

Interchange fee:

ATM operators in India currently receive 17 Rs. for a financial transaction (**FT**) and 6 Rs. for a non-financial transaction (**NFT**).

The Reserve Bank of India (**RBI**) and the National Payments Corporation of India (**NPCI**) last raised the FT interchange fee from 15 Rs. to 17 Rs. in 2021.

Interchange fee indexation example:

Industry has been lobbying the RBI and the NPCI to increase interchange fees.

If the RBI / NPCI increase the FT interchange fee by 2 Rs and the NFT interchange fee by 1 Rs the WLA FY26 forecast Revenue (A\$54.5m), forecast EBITDA (A\$15.1m), and forecast NPBT (A\$10.1m) will all increase by approximately +A\$6.9m ie the increase will drop directly to the bottom line.

Any interchange fee indexation may be more or less than the above example. The above example is before any impact on the BLA business.

1.) Subject to interchange fee rate change and settlement adjustments. 2.) Net of cash on TCPSL balance sheet that transfers with the Acquisition.. 3.) Transaction Solutions International (India) Pvt Ltd, Findi’s 80.60% owned subsidiary.

NEW FRANCHISE & FUNDING MODELS

Findi's new white-label ATM franchise model delivers a high-margin, low-capex, scalable approach. This model provides capital light opportunity for partners to enter regional markets quickly, leveraging Findi's infrastructure for higher ROI than traditional BLA's.

NEW FRANCHISE MODEL

- **Capital light, high-margin model** generates higher ROI than traditional brown-label ATMs as there is limited Company capital locked up in franchisee sites.
- Fixed rental and electricity costs convert to **variable transaction-based costs** under the franchise agreements. This conversion from fixed to variable lowers the contribution margin threshold and reduces working capital lock up.
- Variable cash logistics costs are also managed by the franchisee further enhancing the working capital equation.
- The franchise structure is infinitely **scalable** as capex requirements are funded by the franchisee.

STRATEGIC GROWTH & MARKET EXPANSION

- **Strategic partner opportunities**
 - Offers low-investment entry points for partners through franchising
 - Quick market entry leveraging Findi's established infrastructure
- **Regional Market Expansion**
 - Enables partners to penetrate regional markets with minimal upfront investment

FUNDING MODEL

- **Franchisee deposit:** Franchisee invests ₹500,000 (A\$9,000) in Findi for a share of the WLA Interchange Fee.
- **Capex contribution:** Phase 1 rollout of ATM inventory (to Mar-26) is anticipated to generate \$58.3m in franchisee fees and require A\$10.8m capital expenditure.

FRANCHISE MODEL SUMMARY

- No rental cost
- No power cost
- No cash logistics cost
- 500,000-rupee franchise fee
- Interchange fee sharing

THE COMBINED ECOSYSTEM

The combined (physical cash + digital payments) ecosystem provides immediate scale, cost savings, and improved margins, positioning the business for market penetration...

WHITE LABEL STRATEGY

- The WLA strategy provides immediate scale and integration across physical cash and digital.

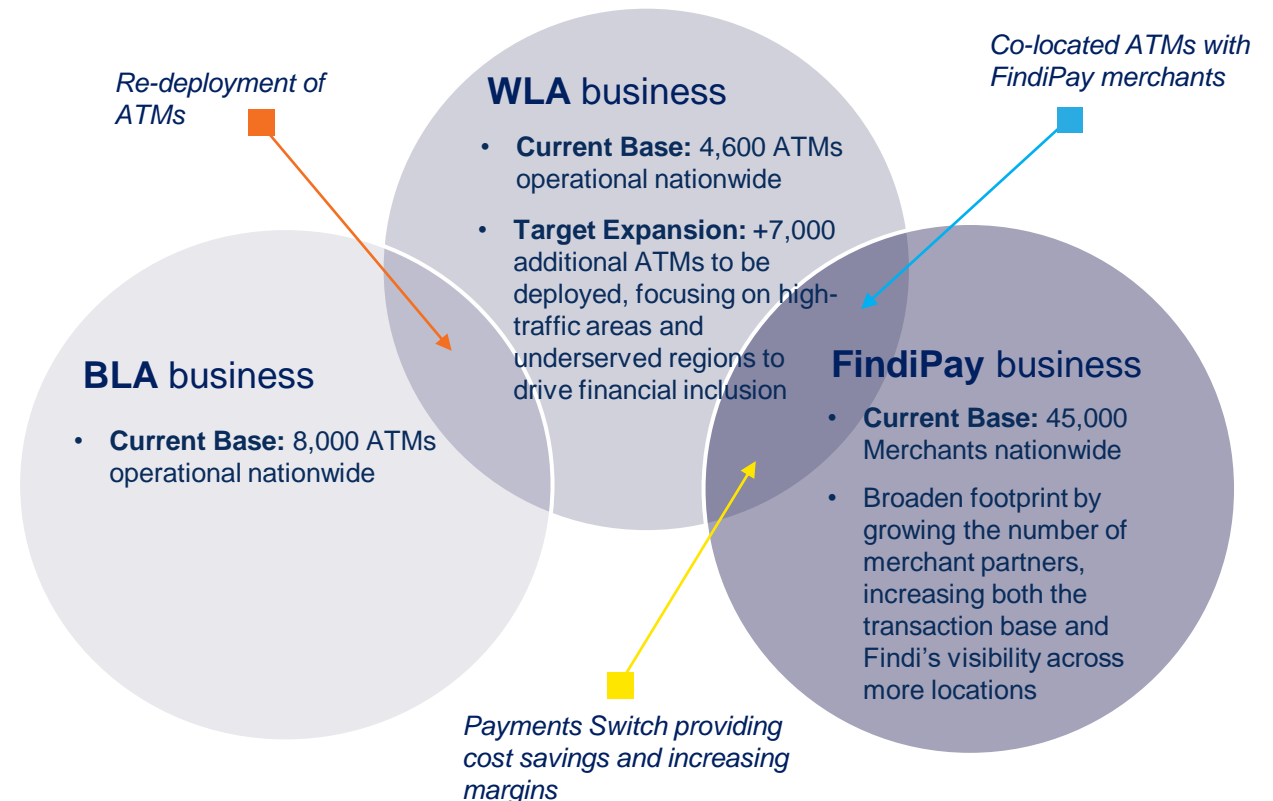

PAYMENTS SWITCH

- Provides **direct access** to debt and credit card banking facilities across **all Indian banks** and enables Findi to connect directly with **all integrated payments devices**.
- **Improves margin** by removing 3rd party switch costs, and allowing Findi to integrate high-margin products like; insurance, funds management, SME loans etc.

MERCHANT NETWORK EXPANSION

- Findi's WLA licence enables the **co-location** of Findi-branded ATMs with FindiPay digital merchants increasing foot traffic to both profit centres and cross selling opportunities for merchants.

THE COMBINED ECOSYSTEM
