*The number of proxies processed in each grouping (For, Against, Discretionary, etc) for a motion includes only proxies where the entire holding has been included in the same group. If the donor of a proxy has split the holding between groups, the proxy has not been included in the count of proxies of any group. For this reason, the total proxies processed for all the groups could be less than the number of proxies actually processed. Refer to "Total Securityholders Cast - Split Votes" for the number of securityholders who have split their votes.
