

VIP Gloves Limited
Appendix 4E
Preliminary final report

1. Company details

Name of entity:	VIP Gloves Limited
ABN:	83 057 884 876
Reporting period:	For the year ended 30 June 2024
Previous period:	For the year ended 30 June 2023

2. Results for announcement to the market

			\$
Revenues from ordinary activities	down	4.9% to	2,867,812
Loss from ordinary activities after tax	down	80.2% to	(2,659,830)
Loss for the year	down	80.2% to	(2,659,830)

Comments

The loss for the consolidated entity after providing for income tax amounted to \$2,659,830 (30 June 2023: \$13,449,239).

Revenue for the FY2024 rose substantially to \$2,867,812 (30 June 2023 : \$1,743,030), supported by higher trading activities of glove products and improved average selling prices. Compared to the gross loss of \$1,791,226 suffered during the previous financial year, it managed to achieve a break-even position in FY2024.

Overall expenses was lower at \$2,935,760 (30 June 2023 : \$12,949,086) due to the absence of the \$10,543,758 impairment exercise carried out during the previous financial year. As a result, the loss after income tax expenses was also lower at \$2,659,830 (30 June 2023 : \$13,449,239).

The operations at the glove manufacturing facility remained suspended during the financial year, following the temporary shut down of the plant operations since December 2022. Hence the Company mainly focused on trading and reselling of a wide range of glove products, whilst awaiting a suitable time for resumption of manufacturing activities. Thus allowing the Company to ensure its long-term business relationships with its customer base.

The Company has received letters of financial support and undertaking from two significant shareholders to provide financial assistance to enable the Company to continue business operations if required.

Revenue for the financial year increased to \$2,867,812 from \$1,743,030 due to improvement in trading activities for glove products combined with more focussed sales efforts.

3. Net tangible assets

	Reporting period Cents	Previous period Cents

Note 1. Material accounting policy information

The accounting policies that are material to the consolidated entity are set out below. The accounting policies adopted are consistent with those of the previous financial year, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The consolidated entity has also early adopted the amendments to AASB 101 with respect to Material Accounting Policy information.

Going concern

The financial statements have been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

For the year ended 30 June 2024, the consolidated entity recorded a loss of \$2,659,830, had net cash outflows from operating activities of \$1,766,533 and had net current liabilities of \$1,394,566.

These conditions above indicate that a material uncertainty exists that may cast significant doubt about the consolidated entity's ability to continue as a going concern, and therefore, whether it will be able to realise its assets and extinguish its assets and liabilities in the normal course of business. The ability to minimize future losses and return to profitability is dependent upon a number of factors including expansion into new markets and the supply of gloves with greater margins, a return to normalised average selling prices across the glove manufacturing industry, reducing operating costs particularly labour costs, and seeking new opportunities for the Company.

The Directors believe there are reasonable grounds to believe the consolidated entity will be able to continue as a going concern, after consideration of the following factors:

- The consolidated entity has initiated a cost reduction process, which has seen its monthly cash outflows substantially reduce in the period from 30 June 2023 through to today's date;
- Since 30 June 2023 the consolidated entity has continued to reduce corporate overheads spending;
- In February 2023 the consolidated entity completed a sale and leaseback transaction, which netted in approximately MYR 17m which was used to retire its current borrowing arrangements subsequent to year end;
- The consolidated entity has sold surplus assets to provide working capital and to retire debt; and
- As an ASX-listed entity, the directors may seek to raise capital from existing and new shareholders.

Accordingly, the Directors believe that the consolidated entity will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report.

The financial report does not include any adjustments relating to the amounts or classification of recorded assets or liabilities that might be necessary if the consolidated entity does not continue as a going concern.

Large shareholder groups and a related party have written to the Company advising of their ability and intention, if needs be, to provide financial support for a period of at least 16 months from the date of this report.

Basis of preparation

These general-purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Historical cost convention

The financial statements have been prepared under the historical cost convention.

Note 1. Material accounting policy information (continued)

Revenue recognition

The consolidated entity recognises revenue as follows:

Revenue from contracts with customers

Revenue is recognised at an amount that reflects the consideration to which the consolidated entity is expected to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer, the consolidated entity: identifies the contract with a customer; identifies the performance obligations in the contract; determines the transaction price which takes into account estimates of variable consideration and the time value of money; allocates the transaction price to the separate performance obligations on the basis of the relative stand-alone selling price of each distinct good or service to be delivered; and recognises revenue when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the goods or services promised.

Variable consideration within the transaction price, if any, reflects concessions provided to the customer such as discounts, rebates and refunds, any potential bonuses receivable from the customer and any other contingent events. Such estimates are determined using either the 'expected value' or 'most likely amount' method. The measurement of variable consideration is subject to a constraining principle whereby revenue will only be recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. The measurement constraint continues until the uncertainty associated with the variable consideration is subsequently resolved. Amounts received that are subject to the constraining principle are recognised as a refund liability.

Sale of goods

Revenue from the sale of goods is recognised at the point in time when the customer obtains control of the goods, which is generally at the time of delivery. Amounts disclosed as revenue are net of sales returns and trade discounts.

Interest

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

Non-current assets or disposal groups classified as held for sale

Non-current assets and assets of disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continued use. They are measured at the lower of their carrying amount and fair value less costs of disposal. For non-current assets or assets of disposal groups to be classified as held for sale, they must be available for immediate sale in their present condition and their sale must be highly probable.

An impairment loss is recognised for any initial or subsequent write down of the non-current assets and assets of disposal groups to fair value less costs of disposal. A gain is recognised for any subsequent increases in fair value less costs of disposal of a non-current assets and assets of disposal groups, but not in excess of any cumulative impairment loss previously recognised.

Non-current assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of assets held for sale continue to be recognised.

Non-current assets classified as held for sale and the assets of disposal groups classified as held for sale are presented separately on the face of the statement of financial position, in current assets. The liabilities of disposal groups classified as held for sale are presented separately on the face of the statement of financial position, in current liabilities.

Property, plant and equipment

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Note 1. Material accounting policy information (continued)

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows:

Buildings and improvements	50 years
Plant and equipment	10 years

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

Leasehold improvements are depreciated over the unexpired period of the lease or the estimated useful life of the assets, whichever is shorter.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the consolidated entity. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss.

Right-of-use assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the consolidated entity expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

Buildings	3 years
-----------	---------

Right-of-use assets that meet the definition of investment property are measured at fair value where the consolidated entity has adopted a fair value measurement basis for investment property assets.

The consolidated entity has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

Impairment of non-financial assets

Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

Note 2. Operating segments

Identification of reportable operating segments

The Directors have considered the requirements of AASB 8 – Operating Segments and the internal reports that are reviewed by the Chief Operating Decision Maker (CODM) (the Board) in allocating resources and have concluded that at this time there are no separately identifiable segments.

During the period, the Company's considers that it has only operated in one segment, being a nitrile glove manufacturing business in Malaysia. However, the consolidated entity has operated across two geographical locations, Malaysia and Australia. The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements. The information reported to the CODM is on a monthly basis.

VIP Gloves Limited
Notes to the financial statements
30 June 2024

Note 2. Operating segments (continued)

The Company is domiciled in Australia. Revenue from external customers is generated in Malaysia. Assets are located in Malaysia and Australia.

Refer to for further information on financial risk management.

Term loan

The interest-bearing term loan (at BLR 7 + 1.25%) is secured over the Company's leasehold land and buildings, together with joint and several guarantees over the Company and some of its Directors.

Other loans

The non-related party unsecured loans remaining at 30 June 2023 were at 0.00% interest with no equity conversion features and during the current reporting period were repaid in full.

Convertible notes

On 27 July 2023, as the convertible notes were not issued, the Company refunded the convertible notes plus interest to the noteholder.

Note 10. Lease liabilities

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

Polls are required for all significant resolutions and under a poll each share held by members present person or by proxy shall have one vote.

Share buy-back

There is no current on-market share buy-back.

Note 12. Interests in subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in note 1:

Name	Principal place of business / Country of incorporation	Ownership interest	
		30 June 2024	30 June 2023
		%	%
KLE Products Sdn Bhd	Malaysia	100.00%	100.00%
VIP Glove Sdn Bhd	Malaysia	100.00%	100.00%
VIP PPE Pty Ltd	Australia	100.00%	100.00%

Note 13. Events after the reporting period

On 3 May 2024 the Company entered into a Sale and Purchase Agreement for the disposal of a non-core vacant land asset measuring 13,203 sqm for a cash consideration of approximately \$2.65 million (MYR7,952,313). The debt attached to the asset has been redeemed, and the transaction is earmarked for full completion by early-2025.

The Company has started the refurbishment of its plants and machineries since mid-2024 and has resumed manufacturing operations with one (1) production line in operations since January 2025. It plans to increase its production capacity gradually. In line with the increase in orderbooks, and targets to achieve full capacity of with six (6) lines in operations by the third quarter of 2025.

The legal case initiated by the plaintiff since November 2020 is still on-going. The High Court of Malaysia had earlier allowed the Company's striking out application, but the Court of Appeal had allowed the Plaintiff's appeal and therefore the matter has now remitted to Kuala Lumpur High Court. The trial date has been fixed in March 2025. The Company's appointed legal representatives will continue to vigorously defend against the Plaintiff's claim.

No other matter or circumstance has arisen since 30 June 2024 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.
