

ASX: ALA

Arovella Therapeutics Limited
ACN 090 987 250

**ASX RELEASE**

14 January 2025

Notice under Section 708A(5)(e) of the Corporations Act 2001

This notice is given by Arovella Therapeutics Limited ACN 090 987 250 (**ALA** or **Company**) under section 708A(5)(e) of the Corporations Act 2001 (Cth) (**Corporations Act**).

Details of the securities issued

Class / description	Ordinary Shares (Shares)
ASX code	ALA
Date of issue	13 January 2025
Number issued	275,000

The Company gives notice pursuant to section 708A(5)(e) of the Corporations Act that:

1. the Company issued the Shares without disclosure under Part 6D.2 of the Corporations Act;
2. as at the date of this notice, the Company has complied with:
 - (i) the provisions of Chapter 2M of the Corporations Act as they apply to the Company; and
 - (ii) sections 674 and 674A of the Corporations Act; and
3. as at the date of this notice, other than set out below, there is no information to be disclosed which is 'excluded information' (as defined in sections 708A(7) and 708A(8) of the Corporations Act) which is required to be disclosed by the Company.

As previously disclosed by the Company:

- (i) ALA continues to advance its strategy of in-licensing novel technologies from leading global Universities and Research Institutes;
- (ii) the Company continues to have discussions with multiple groups for different sets of intellectual property that could be integrated into its iNKT cell platform;

The Company confirms that as of the date of this notice:

- (i) the outcome of the discussions remains uncertain, and it is not possible for the Company to predict if the negotiations and due diligence will culminate in an agreed outcome;
- (ii) the Company will continue to update the market as appropriate.

Dr Michael Baker
CEO & Managing Director

NOTES TO EDITORS:

About Arovella Therapeutics Ltd

Arovella Therapeutics Ltd (ASX: ALA) is a biotechnology company focused on developing its invariant natural killer T (iNKT) cell therapy platform from Imperial College London to treat blood cancers and solid tumours. Arovella's lead product is ALA-101. ALA-101 consists of CAR19-iNKT cells that have been modified to produce a Chimeric Antigen Receptor (CAR) that targets CD19. CD19 is an antigen found on the surface of numerous cancer types. iNKT cells also contain an invariant T cell receptor (iTCR) that targets glycolipid bound CD1d, another antigen found on the surface of several cancer types. ALA-101 is being developed as an allogeneic cell therapy, which means it can be given from a healthy donor to a patient. Arovella is also expanding into solid tumour treatment through its CLDN18.2-targeting technology licensed from Sparx Group. Arovella will also incorporate its IL-12-TM technology into its solid tumour programs.

Glossary: **iNKT cell** – invariant Natural Killer T cells; **CAR** – Chimeric Antigen Receptor that can be introduced into immune cells to target cancer cells; **TCR** – T cell receptors are a group of proteins found on immune cells that recognise fragments of antigens as peptides bound to MHC complexes; **B-cell lymphoma** – A type of cancer that forms in B cells (a type of immune system cell); **CD1d** – Cluster of differentiation 1, which is expressed on some immune cells and cancer cells; **aGalCer** – alpha-galactosylceramide is a specific ligand for human and mouse natural killer T cells. It is a synthetic glycolipid.

This announcement contains certain statements which may constitute forward-looking statements or information ("forward-looking statements"), including statements regarding negotiations with third parties and regulatory approvals. These forward-looking statements are based on certain key expectations and assumptions, including assumptions regarding the actions of third parties and financial terms. These factors and assumptions are based upon currently available information, and the forward-looking statements herein speak only of the date hereof. Although the expectations and assumptions reflected in the forward-looking statements are reasonable in the view of the Company's directors and management, reliance should not be placed on such statements as there is no assurance that they will prove correct. This is because forward-looking statements are subject to known and unknown risks, uncertainties and other factors that could influence actual results or events and cause actual results or events to differ materially from those stated, anticipated or implied in the forward-looking statements. These risks include but are not limited to: uncertainties and other factors that are beyond the control of the Company; global economic conditions; the risk associated with foreign currencies; and risk associated with securities market volatility. The Company assumes no obligation to update any forward-looking statements or to update the reasons why actual results could differ from those reflected in the forward-looking statements, except as required by Australian securities laws and ASX Listing Rules.
