City of Sydney Contract for \$3m LED Streetlights

Traffic Technologies Limited (**TTI**) is pleased to announce it has been awarded a contract to supply "Smart City IoT" ready LED streetlights to Sydney City Council.

The contract is for an initial period of five years, extendable for further periods, up to a maximum contract term of nine years. The contract is estimated to be worth up to \$3.0m over the initial term of 5 years and up to \$5m if the option to extend is exercised.

The contract provides for the supply of LED streetlights for use in the public domain, including roads, parks, plazas, laneways and footways within the City of Sydney's Local Government Area. The LED streetlights supplied under the contract will provide for bulk replacement of existing LED streetlights at end of service life as well as network growth, renewals and maintenance.

With over 16,000 street lights the City of Sydney is the local government area covering the Sydney central business district and surrounding inner city suburbs of the greater metropolitan area of Sydney, New South Wales, Australia. Established by Act of Parliament in 1842, the City of Sydney is the oldest, and the oldest-surviving, local government authority in New South Wales, and the second oldest in Australia.

Managing Director, Con Liosatos, commented, "The award of this contract to one of the most prestigious local government areas in Australia is a fantastic vote of confidence in the Company's state of the art LED streetlights. The length of the contract provides an opportunity for the Company to supply a range of additional products throughout the Sydney area".

Announcement authorised for release by the Board of Traffic Technologies.
