

EVZ LIMITED

Quarterly Activity Report & Appendix 4C 2QFY2025

31 December 2024

Quarterly Update

KEY HIGHLIGHTS

A net positive operating cash inflow of \$3.2M for the quarter.

Cash balance of \$10.8M with zero drawn debt at the end of the second quarter of FY25.

Cash receipts of \$32.1M for the quarter and \$65.6M for the financial year to 31 December 2024.

Contract backlog including the most recent contract successes of circa \$110M.

Recently announced contract wins of circa \$28M for the United Petroleum Hastings Terminal Expansion and the Eneabba Rare Earths Refinery Project. Numerous active tender bids and prospects providing confidence for FY26.

OVERVIEW

EVZ delivered a net positive operating cash inflow of \$3.2M during the quarter driven by increased collections and favourable payment terms with our suppliers. During the remainder of FY25 the business will complete several legacy projects and commence new contracts priced at current cost rates. It is expected that the new contracts will start later than originally expected and have initial funding requirements during the mobilisation and the materials procurement phases.

During the quarter, the group secured several new contract appointments including the United Petroleum Hastings Terminal Expansion and the Eneabba Rare Earths Refinery Project process tanks. We expect to maintain our momentum of securing new contracts to replenish and grow our diversified project portfolio across our targeted industry sectors and geographies.

EVZ continues to seek new business acquisition opportunities that are supplementary to our existing market sectors by infilling adjacent market space. We are actively exploring acquisitions that may be transformational to significantly expand our market share in our two end markets, the Energy and Resources sector and the Building Products sector.

ENERGY & RESOURCES SECTOR

The Brockman Engineering business recently secured the United Petroleum Hastings Terminal Expansion and is also focused on delivering the Rio Tinto CWSS project that is forecast to be completed in FY26.

Quarterly Update

Brockman is also currently delivering several large steel water reservoirs for water authorities in addition to several liquid fuel tanks for hydrocarbon industry clients. The business continues to develop a diversified project portfolio and selectively expand our recurrent revenue base through providing maintenance and operations support to energy industry clients.

TSF Power's technical services including operational support and parts sales for power generation clients continues to grow as we attract a more diversified customer base. Our services are in strong demand as the use of renewable gas as an energy source rises in line with market demands for a lower carbon future in the transition to net zero.

Customer demand for our technical support and our value-added offering continues to grow across all five of our operating segments: gas engine service and maintenance, gas engine spare parts sales, lubricants, gas engine renewal, and standby power plant maintenance.

TSF Power is consistently pursuing new long term parts sale agreements and long-term operations support contracts with additional large institutional operator's entities in Australia and New Zealand.

BUILDING PRODUCTS SECTOR

Syfon Systems continues to perform well in the current market conditions within the Building Products sector, delivering another strong result. The outlook for the sector remains positive, supported by a stable backlog of contracted projects and high levels of tender activity.

Syfon Asia is steadily improving its trading performance as regional economies recover, driving increased demand for our services in large social infrastructure and building projects across Malaysia, Indonesia, and Vietnam. Our strategic partnerships with Rucika in Indonesia and America Indochina Management in Vietnam are benefiting from the growing demand for new built infrastructure.

Tank Industries is expanding its market share, with recent success in securing process water tanks for the Eneabba Rare Earths Refinery Project and the Perdaman Industries urea plant in Dampier. These contracts are expected to boost revenue and margins into FY26. The team continues to enhance its manufacturing operations and project support centre in collaboration with Syfon Systems, improving business productivity.

Quarterly Update

BALANCE SHEET AND CASH FLOW

EVZ reported an operating net positive cash inflow for the first quarter of \$3.2M. The group has \$10.8M in cash with zero drawn debt.

We continue to pursue numerous operational improvements to improve profit margins and actively reduce commercial risk.

During the quarter, payments to related parties and their associates totalled \$65k. These related party payments consisted of consulting fees paid for Non-Executive Director related services. All payments were on normal commercial terms.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – e.g., Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
