

## Dotz Nano Announces Small Cap Growth Virtual Investor Conference Highlights

**Sydney, 11 February 2025** -- Dotz Nano Limited (ASX: DTZ, OTC: DTZZF/DTZNY, "Dotz" or "Company"), a leading developer of innovative climate and industrial nanotechnologies, presented at the Small Cap Growth Investor Conference, highlighting the Company's innovative solutions for sustainability and industrial challenges. CEO Sharon Malka discussed the Company's key technologies: **DotzShield**, a commercial product for corrosion inhibitor monitoring, and **Dotz Earth**, a carbon capture technology.

### Key Takeaways

**Carbon Capture Breakthrough:** Dotz Nano's carbon capture technology, DotzEarth, has shown significant progress and potential to reduce capture costs by over 80% for DAC applications and 35% for point source applications.

**First Commercial Order:** The Company has received its first commercial order for its DotzShield corrosion inhibitor monitoring solution from a leading US oil and gas service provider.

**Superior Sorbent Performance:** Dotz Nano's proprietary sorbents have demonstrated superior performance, including high CO<sub>2</sub> working capacity, low energy consumption, and long-term stability, validated by third parties.

**Scaling Through Partnerships:** The Company is focused on scaling its technologies through strategic partnerships and pilot projects, with plans for large-scale pilot units and market-ready models by 2026.

**Market Growth Opportunities:** The carbon capture market is expected to grow significantly due to increasing regulatory pressure, corporate commitments to net zero, and government support, positioning Dotz Nano for substantial growth opportunities.
