HY 2025 – Results

- Record first half
- Record new contract wins, renewals and upgrades
- Major implementations completed in half including BS&W, OHSU and others
- Progress with other ologies and AI
- Forms strong base for growth in FY25 and beyond

RESULTS

HY 2025

1H v 2H revenue split

HIGHLIGHTS

HY-2025

HIGHLIGHTS

HY-2025

OPERATIONAL (TRANSACTION) MODEL

- Used in vast majority of US contracts
- Delivered as SaaS model
- Used in newer RLS contracts in AUS
- Model based on transaction minimums
- Forward revenue > A\$894M/5 years*
- Upside as client examination volumes grow
- Annuity style revenue stream – greater predictability

* Assumes key contracts up for renewal are renewed

OPERATING LEVERAGE

- Highly scalable offering
- No capex (HW or cloud fees) – SW only model
- Training & Installation – billed as professional services
- Contained cost base
- Margin continues to grow as footprint increases

In Review | 2024/2025 Top Hospitals (alphabetical order)

>50% of The Best Hospitals Use Visage

Out of the top rated U.S. hospitals (11 out of 20) use Visage 7 for PACS.

Source: U.S. News & World Report Top 20 Hospitals 2024-2025

Increasing footprint in the IDN space

- IDNs represent the largest segment of the market
- IDN clients across broad spread of opportunities from large multi-state to smaller regional
- Most recent IDN sales for more than one Visage product – many “full stack”.
- All recent IDN opportunities Cloud deployed
- Increasing network effect in this important market segment.

Growing footprint in the Private Market

- Private market previously “dormant” due to heightened M&A activity
- Opportunities now opening for Visage
- Duly Health & Care - \$30M 7-year deal
- Cloud a key factor in this market
- Network effect in this market segment.

VISAGE IMAGING®

VISAGE RIS

- Long term contracts with Lumus (Primary Healthcare) and I-MED, the 2 biggest radiology providers in AUS
- Upside via organic and M&A growth
- Increased market interest – new opportunities
- PME undisputed market leader

Visage 7.0

Continues to be #1 in Speed, Functionality and Scalability.

SPEED

FUNCTIONALITY

SCALABILITY

MASSIVE DATA EXPLOSION

- High density Multi-slice CT - 10,000+ images
- HD Breast Tomosynthesis - 6 GB+
- Optoacoustic breast ultrasound - 10+ GB
- Total Body PET Scan - 10+ GB
- 7T MRI - much larger than 3T
- Breast Imaging – the 1st department to crack

SOLUTION:

VISAGE 7 Streaming Technology

SOLUTION: Visage 7 Streaming

FAST TRACK IMPLEMENTATION

- All implementations on or ahead of schedule
- Fast track methodology continues to deliver
- Large scale projects completed in under 1/4 the time of industry norm
- Delivers huge savings for client
- Frees PME staff for other jobs
- Reduces barrier to change
- New highly optimized hybrid model (onsite + remote)
- A key differentiator of Visage offering

Trinity Health

- One of the top 10 IDNs in North America
- \$330M (minimum), 10-year deal
- Full Stack – Viewer worklist and archive
- To be fully cloud deployed
- Implementation to commence in September 2025
- Regions phased in over 18-month period
- One of the largest deals in radiology IT

Duly Health & Care

- \$30M, 7-year deal
- Our largest sale to date in private market
- Confirms Visage platform suited to multiple
- market segments
- Opens more opportunities in the private market space

Visage 7 OA - Upgrades

- 2 key upgrades to V7 OA
- NYU \$24M, 5-year deal
- Duke \$15M, 5-year deal
- V7 OA - catalyst for transition to cloud
- Confirms V& OA & cloud upgrade path for others

Renewals

- 2 key renewals in 1st half
- Mercy \$98M, 8-year renewal
- Large RIS customer \$32M, 5-year renewal
- 100% renewal rate to date
- All renewals at higher price point than original contracts
- Many for longer terms than original contract

Moving the Needle

Visage Imaging | Moving the needle

“First of all, I want to say you have a great platform. The registration, fusion, and linking to 2 prior studies at once is mind blowing”.

“I have never been able to visualize vessels like this in a PACS, this is so impressive!” (neuro radiologist)

“Visage has everything! It’s way more powerful than our previous system. It’s almost infinite.”

For years we have been struggling to determine if a tumor was recurring or not, now we can with Visage.

March 01, 2024
Chair of the Commission on Economics
Gregory N. Nicola, MD, FACR

How Will We Solve Our Radiology Workforce Shortage?

As the U.S. population ages, government-funded residency programs are not keeping pace with an increasing need for more radiologists.

“There is a palpable shortage of radiologists in practices and academic departments across the United States, with more than **1,400** physician positions posted right now on the ACR job board.”

Are there enough Radiologists?

- Acute worldwide shortage of radiologists
- Reduced intake of radiology residents over last few years – fears AI would take over
- Larger datasets – more images to look at
- Work Life balance post COVID – work from home part of the mix
- Many groups struggling to handle current workload
- Groups starting to cut back on existing contracts

Up to
50%
Increased Efficiency

Reduce Burnout

Work Faster, Smarter. Achieve PACS Nirvana.

Visage CloudPACS

- Offers increased security and scalability of cloud
- Faster than on-premise solutions
- 100% of Visage US sales in the last 4 years CloudPACS
- Large scale implementations in all 3 Tier 1 cloud vendors - AWS, Azure and Google GCP
- Massive strategic advantage over competitors

GROWTH STRATEGY

US – TAM

- 650 Million exams performed per annum in the US
- Growing by ~ 2 to 3% per annum
- Visage able to address 100% of TAM from a product perspective
- ~ 85% of TAM addressable from commercial perspective – “full stack”, Cloud
- Current penetration increased to just under 9% and growing
- Large addressable runway

North American Pipeline

VISAGE 7 OPEN ARCHIVE

- Same highly scalable Visage 7 platform
- Enables choice of single vendor solutions
- Visage 7 Open Archive best in breed component of “Full Stack” solution
- Pipeline includes archive opportunities
- Sales to existing customers
- Key component of Visage CloudPACS strategy
- Transaction based model with potential upside

VISAGE 7 WORKFLOW

- Same highly scalable platform as Visage 7 Viewer and Open Archive modules
- Allows PME to offer “full stack” solution
- Integral part of Visage best in breed CloudPACS offering
- Sales to existing V7 viewer customers
- Transaction based model with potential upside

83

AI uses in Radiology

AI

ACCELERATOR

- Imbedded in SW or imaging equipment
- Prioritisation of cases – eg intracranial haemorrhage
- Population screening eg early-stage lung nodule detection
- Aid to diagnosis – 2nd “set of eyes” breast screening
- Automated diagnosis

A

Visage 7 - AI

- Visage 7 platform AI capable
- Based on GPU technology
- Open API enables native integration
- AI Ecosystem - 3rd party and Visage developed algorithms
- Joint development/commercialisation opportunities - 3rd parties and academic clients.

AI

ACCELERATOR

AI – Breast Density

American Roentgen Ray Society (ARRS)

PACS-integrated machine learning breast density classifier:
CLINICAL VALIDATION

Yale New Haven Health

NYU Langone Health

VISAGE IMAGING®

The researchers found that the AI model showed extremely good agreement with the radiologists at 99.3%.

 **VISAGE IMAGING™**

Visage Ease VP for Apple Vision Pro

“From the Flintstones to the Jetsons”

Visage Ease VP for Apple Vision Pro

- Launched 5th February 2024 with launch of Apple Vision Pro
- Visage's cinematic rendering engine natively embedded in Visage Ease VP
- Supports virtual screens at more than 4K resolution for each eye
- Immersive, spatial experiences for diagnostic imaging and multimedia
- Platform for immersive AI integration
- UC San Diego and other key Visage clients piloting the technology

Visage Ease VP for Apple Vision Pro

“Underpins our belief that our technology is 18 to 24 months ahead of competitors, if not more”

RSNA 2024

RSNA 2024

Visage Imaging | RSNA 2024

- Debut as “work in progress” at RSNA
- Joint development between Melbourne and Berlin R&D
- Works with both Visage RIS and Visage 7.0
- Context sharing and launching of Visage 7 Live Connect
- Available in Q2 2025

HY 2025 - Summary

- Record – Revenue and NPAT
- 2 contract renewals with minimum TCV of AUD\$130M
- Record new sales for the half - minimum TCV \$385M
- 2 Major implementations completed - BS&W and OHSU
- Strong pipeline across broad range of opportunities
- Strategically positioned to leverage AI and other “ologies”
- RSNA 2024 – our biggest to date

THANK YOU
