### About Sunrise Energy Metals Limited

Sunrise Energy Metals Limited owns the Sunrise Nickel-Cobalt-Scandium Project in central-west New South Wales, one of the largest and most cobalt-rich nickel laterite deposits in the world. It is also progressing its Syerston Scandium Project, with the aim of developing the world's largest source of mineable, high-grade scandium. An earlier feasibility study for the Syerston Project, supported by extensive piloting, metallurgical test work and engineering, is currently being updated.
