### **Review of Operations**

Reece's performance for the first half of FY25 reflects challenging trading conditions in both regions. Sales revenue decreased 3% to \$4,402m (HY24: \$4,537m).

EBIT was down 17% to \$305m for the half (HY24: \$367m). Costs including depreciation and amortisation increased by 3.6% due to ongoing investment in the business. This includes two bolt-on acquisitions in ANZ and 32 net new branches across the Group. NPAT was down 19% to \$181m (HY24: \$224m).

In ANZ, sales revenue was flat at \$1,980m (HY24: \$1,972m) with a modest decrease in underlying volumes offset by benefits from M&A activity. EBITDA was down 12% to \$271m (HY24: \$307m) and EBIT decreased 17% to \$193m (HY24: \$233m). Cost growth for the half was more pronounced in the ANZ region largely due to investment in the business to support long term growth and ongoing inflationary pressure (net of cost initiatives).

The ANZ network expanded with 14 net new branches during the period, including five branches acquired as part of the ReFire acquisition. At the end of the half, there was a total of 675 branches across the ANZ network.

<sup>1</sup> All figures in this Appendix 4D are in Australian dollars unless otherwise stated. Any discrepancies in the calculation of percentage movements in financial amounts from one period to another are due to rounding.

<sup>2</sup> EBITDA is a non-IFRS financial measure calculated as statutory earnings before interest, tax, depreciation and amortisation.

### ***Review of Operations (cont.)***

In the United States (US) region, sales revenue decreased 5% to US\$1,596m (HY24: US\$1,683m) reflecting softness in the residential new construction sector, ongoing price deflation in select commodity related categories and increased competitive pressure due to the market slowdown. In Australian dollars, sales were down 6% for the period. EBITDA decreased 6% to US\$135m (HY24: US\$143m) reflecting a focus on margin and cost efficiencies in light of volume reductions during the half. EBIT decreased 15% to US\$74m (HY24: US\$87m) driven by elevated depreciation and amortisation associated with network expansion and rebranding activities.

The US business continued to scale, accelerating network expansion with 18 net new branches. The total US network increased to 261 stores at the end of HY25. Regional rebrand activities were also completed during the half, with plumbing, bath+kitchen and HVAC branches now trading as Reece.

As we look ahead toward the second half, the Group expects soft trading conditions to continue across both regions. We take a long-term view and will continue to invest to build a stronger business and deliver on our 2030 vision of being our trade's most valuable partner.

**Note 8. Goodwill and intangible assets**

Management reviewed its cash generating units (CGUs) for indicators of impairment since the end of FY24. No indicators of impairment were noted.

In the Group's most recent annual report for the year ended 30 June 2024, management identified that a reasonably possible adverse change in gross margins and discount rate could have caused the carrying amount to exceed the recoverable amount for Metalflex, one of the Group's CGUs. The gross margin for the forecast 5-year period would have needed to change by more than 140 basis points before the recoverable amount of Metalflex would equal the carrying amount. The discount rate would have needed to change by more than 170 basis points before the recoverable amount of Metalflex would equal the carrying amount.

For the half-year ended 31 December 2024, no material adverse changes were noted since 30 June 2024 in the gross margin or discount rate for Metalflex.

### Auditor's Responsibilities for the Review of the Condensed Half-year Financial Report

Our responsibility is to express a conclusion on the Condensed Half-year Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Condensed Half-year Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the Half-Year ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

Accordingly, we do not express an audit opinion.
