ASX Announcement

Titomic Appoints Kirk Pysher as Senior Vice President of U.S. Manufacturing and Production

Titomic Limited (ASX: TTT) ("Titomic" or "Company"), a global leader in advanced manufacturing and kinetic fusion technology, proudly announces the appointment of Kirk Pysher as Senior Vice President (SVP) of U.S. Manufacturing and Production at Titomic USA, Inc.

In this key executive role, Kirk will be responsible for establishing, scaling, and optimizing Titomic's U.S. manufacturing and production capabilities. Based in Huntsville, Alabama, he will spearhead the development and execution of the company's advanced manufacturing operations, including Cold Spray Kinetic Fusion additive manufacturing, and coating and repair services. These capabilities are critical to Titomic's core market sectors—aerospace, defense, energy, infrastructure, and research institutions.

Kirk brings a distinguished track record in aerospace and launch systems. Before joining Titomic, he most recently served as Vice President of Mission Assurance, Quality, and Safety at Virgin Orbit, where he played a key role in advancing mission-critical systems and organizational excellence. Prior to that, he served as President of International Launch Services (ILS), where he led transformative upgrades to the Proton rocket launcher, including the introduction of automation on its assembly line. He has also held leadership roles at Sea Launch, where he served as both Chief Operating Officer and Chief Engineer.

"I'm very excited to welcome Kirk to Titomic. The greatest asset of any successful business is its people, and it's clear that we're building the best team in the business," said Jim Simpson, CEO of Titomic Ltd. "With Kinetic Fusion, we have brought to the world a new way to build and coat metal systems. Titomic's technology isn't just about repairing broken parts—it's about building smarter systems, extending infrastructure life, and responding faster when readiness matters most."

Simpson added: "This team is ready to provide more customers in defense, aerospace, energy, and industry with the tools to be proactive, not reactive. We now manufacture with velocity, design with purpose, and engineer with functionality built-in—not bolted on."

Kirk's appointment marks a pivotal milestone in Titomic's U.S. strategy as it accelerates its operations in Huntsville and delivers disruptive solutions to both commercial and government sectors.

This announcement has been authorised for release by the Board of Titomic Limited.

ABOUT TITOMIC LIMITED

Titomic Limited (ASX: TTT) is an Australian public company specialising in large integrated solutions for industrial-scale metal additive manufacturing, using its patented cold spray additive manufacturing (Cold Spray AM) technology. Titomic provides Cold Spray AM solutions, OEM production and R&D services to the global Aerospace, Defence, Shipbuilding, Oil & Gas, Mining and Automotive industries. Titomic also offers global sales and support for all of its Cold Spray AM activities from its Melbourne Head Office, as well as through local presence in the USA and Europe. Titomic delivers competitive advantages in metal additive manufacturing at every stage in the product value chain. For more information, please visit www.titomic.com.

FORWARD LOOKING STATEMENTS

Certain statements made in this release are forward-looking statements and are based on Titomic's current expectations, estimates and projections. Words such as "anticipates", "expects," "intends," "plans," "believes," "seeks," "estimates," "guidance" and similar expressions are intended to identify forward-looking statements. Although Titomic believes the forward-looking statements are based on reasonable assumptions, they are subject to certain risks and uncertainties, some of which are beyond Titomic's control, including those risks or uncertainties inherent in the process of both developing and commercialising technology. As a result, actual results could materially differ from those expressed or forecasted in the forward-looking statements. The forward-looking statements made in this release relate only to events as of the date on which the statements are made. Titomic will not undertake any obligation to release publicly any revisions or updates to these forward-looking statements to reflect events, circumstances or unanticipated events occurring after the date of this release except as required by law or by any appropriate regulatory authority.
