

30 April 2025

## CEO Transition

### Highlights:

- Mr Peter Barber, current Atomos Chief Operating Officer, to be appointed Chief Executive Officer, taking over from Mr Jeromy Young, who will step down as of 3 May 2025 and remain on the Board as a Non-Executive Director

Atomos Limited (ASX: AMS) ('Atomos' or the 'Company') today announces an executive leadership transition as the Company continues to evolve and expand its strategic focus.

The Company is pleased to announce that Peter Barber, currently serving as Chief Operating Officer and Executive Board Director, will be appointed as Chief Executive Officer effective 3 May 2025. He takes over from Jeromy Young, who will step down as CEO but will remain as a Non-Executive Director of Atomos, continuing to support the Company's strategic direction.

Mr Peter Barber, appointed CEO, joined Atomos in February 2024 as Chief Operating Officer and Executive Board Director. With over 30 years of experience in the video production industry, including co-founding Blackmagic Design and leading significant M&A activities, Peter has been pivotal in driving operational excellence and strategic initiatives at Atomos. Peter has played a critical role in the Company's recent strategic initiatives. His deep understanding of the business and technology sectors and his proven leadership capabilities position him ideally to drive the next phase of growth and operational excellence.

Mr Jeromy Young, co-founder of Atomos, has been instrumental in the Company's development since its inception in 2010. He was CEO for over a decade, leading Atomos through significant growth and innovation phases. After stepping down in November 2021, he returned as Managing Director and CEO in January 2024 to guide the Company through a strategic transformation.

Commenting on the appointment, the Chairman, Mr James Joughin, said:

*"The Board extends its gratitude to Jeromy for his visionary leadership and unwavering commitment to Atomos. His contributions have been foundational to the Company's success. We are pleased that he will continue to provide strategic guidance as a Non-Executive Director."*

*"We are confident that Peter's extensive industry experience and leadership acumen will propel Atomos into its next phase of growth and innovation as it continues to expand its market presence and product offerings."*

Commenting on the appointment, Mr Jeromy Young, said:

*"It has been an incredible journey co-founding and leading Atomos through its growth and transformation on the global technology stage and especially, taking the company public. I am proud of what we have achieved together over the years. I brought Peter into Atomos — knowing he would bring fresh ideas, deep industry experience, and strong leadership to help take the Company into its next phase. I look forward to handing over and supporting Peter and the Board as Atomos continues to evolve and grow its global video leadership position. I know Peter will ensure Atomos remains the company we envisioned when we first founded it."*

*"I want to thank all our partners, employees and investors that have supported our vision over the years, it's been the honour of my career to serve Atomos and I am excited for the next chapter. Thank you!"*

Commenting on the appointment, Mr Peter Barber, said:

*"I would like to thank Jeromy and the Board for their support and confidence in me. I am honoured to be appointed CEO at this important time in Atomos' journey. I do not underestimate the challenges that lie ahead, including shifting market dynamics and external factors such as fluctuating tariffs in the USA. However, the work we have done over the past year to rebuild and restructure the Company has laid a strong foundation for the future. We are creating a more agile, resilient organisation — one that is better positioned to navigate change and seize new opportunities.*

*I believe Atomos has an extraordinary opportunity to expand into new markets, drive broader innovation, and build upon its proud history of pioneering technology in the video production and content creation space. I am excited to lead the Company into this next chapter, working alongside our talented team to deliver greater value for our shareholders, customers, and partners.*

*The role of COO will not be replaced and represents a further material cost saving to the business. Responsibilities will be shared between myself and the executive.*

*Together, we will build a stronger, more dynamic Atomos that proudly represents Australian innovation on the global stage."*

This announcement has been authorised for lodgement with ASX by the Board of Directors.
