

Market Announcement

16 June 2025

X2M Connect Limited (ASX: X2M) – Trading Halt

Trading in the securities of X2M Connect Limited ('X2M') will be halted at the request of X2M, pending the release of an announcement by X2M.

Unless ASX decides otherwise, the securities will remain in trading halt until the earlier of:

- the commencement of normal trading on Wednesday, 18 June 2025; or
- the release of the announcement to the market.

X2M's request for a trading halt is attached below for the information of the market.

Issued by

ASX Compliance

ASX Announcement | 16 June 2025

Trading halt

In accordance with ASX Listing rule 17.1, Australian Internet of Things (IoT) technology company **X2M Connect Limited** (ASX:X2M) (“X2M” or “the Company”), requests a trading halt for its securities, pending the release of an announcement concerning a capital raising.

The Company requests that the trading halt end on the earlier of the release of an announcement concerning the capital raising or commencement of normal trading on Wednesday 18 June 2025.

The Company is not aware of any reason why the trading halt should not be granted, nor of any other information necessary to inform the market about the trading halt.

Yours faithfully
Oliver Carton
Company secretary

The Board of X2M has approved this request.

About X2M Connect Limited

X2M Connect Limited (ASX:X2M) is an Australian technology company that has developed and commercialised a patented proprietary Internet of Things (IoT) solution which delivers productivity improvements, cost savings and improved public safety to enterprise and government clients in the utilities sector. The strategy is to stay focused on the utility sector where X2M has proven performance and tap the growing artificial intelligence, renewable energy generation and battery storage markets’ demand for data collection, analytics and device control.

X2M’s technology connects devices such as water, gas and electricity meters and other utility sensors to the internet, enabling data exchange and the remote control of these devices. The collection of large volumes of data from meters or sensors and our ability to go back and control devices also provides the basis for artificial intelligence or machine learning applications to build upon our platform. The Company generates revenue from the sale of hardware and monthly subscription fees under Software as a Service arrangements.

X2M now has more than 540,000 devices connected to its IoT platform and distributed intelligence solution, providing real-time information and control to a steadily increasing customer base operating over multiple communications technologies.

X2M’s current focus is on servicing the utility sector in the Asia-Pacific region, where it has a significant number of government and enterprise customer relationships already in place. The addressable market across the region is large and importantly, the addressable market within X2M’s existing customer base is also large with penetration growing. Going forward, X2M will look to continue its global expansion, with subsidiaries already operating in Japan, South Korea,

Taiwan and, most recently, China.

X2M is now extending its focus into the Middle East by licensing its platform to Dicode Smart Connect Electronics LLC, a Dubai-based business.
