

Market Announcement

23 June 2025

Universal Biosensors, Inc. (ASX: UBI) – Suspension from Quotation

The securities of Universal Biosensors, Inc. ('UBI') will be suspended from quotation immediately under Listing Rule 17.2 at the request of UBI, pending the release of an announcement by UBI.

Unless ASX decides otherwise, the securities will remain suspended until the earlier of:

- the end of the period stated in UBI's request for voluntary suspension; or
- the release of the announcement to the market.

UBI's request for voluntary suspension is attached below for the information of the market.

Dear Riley

Universal Biosensors, Inc. (ASX:UBI) (**Company**) refers to the trading halt granted to the Company on Thursday, 19 June 2025 in relation to a proposed capital raising.

In accordance with ASX Listing Rule 17.2, the Company requests a voluntary suspension of the Company's ordinary securities effective from the commencement of trading Monday, 23 June 2025.

The Company provides the following information in relation to the request:

- the voluntary suspension is requested as the Company is not yet in a position to make an announcement regarding the proposed capital raising;
- the Company anticipates that the voluntary suspension will remain in place until the earlier of the commencement of normal trading on Monday, 30 June 2025 or until the release of an announcement regarding the proposed capital raising; and
- the Company is not aware of any reason why the voluntary suspension request should not be granted or of any other information necessary to inform the market about the voluntary suspension.

For and on behalf of the Board of the Company.

Peter Mullin
Chief Executive Officer and Managing Director

About Universal Biosensors

Universal Biosensors, founded in 2001, specialises in the design and development of electrochemical cells (strips) used in conjunction with point of use devices that are used in various industries such as healthcare (point of care), wine, food, and agriculture. UBI's ambition is to build a multi product stable of biosensors in large markets which generate ongoing revenue streams.
