- Approximately 800,000,000 New Options (plus where a New Option is subsequently exercised prior to 15 November 2025, an additional Bonus Option) will be offered under the Entitlement Offers. Each option exercisable on payment of the exercise price into one Share in accordance with its terms.

On completion of the Entitlement Offers the Company will have on issue up to approximately 1,698,479,081 Shares, 1,918,650 unlisted convertible notes and 1,299,252,457 unlisted options and 27,479,536 stock appreciation rights.

As announced to the market on 19 May 2025, ADR has received firm commitments to raise a total of \$900,000 (initially via a loan) through the issue of approximately 900,000 convertible notes (with one attaching option for every two Shares issued under the convertible notes) subject to ADR Shareholder approval. Shareholder approval for the issue of the convertible notes is to be sought at the Company's upcoming AGM. If shareholder approval is not obtained, the loan of \$900,000 plus accrued interest will be repayable 12 months from the original advance.

**There is no minimum subscription amount under the Offers before the Company may use the funds raised after the close of the Offers (noting that the Institutional Entitlement Offer closes on 25 June 2025).**

### 2.4 Use of Funds

Where the Maximum Amount is raised under the Entitlement Offers of approximately \$4 million, the Company proposes to use these funds as follows:

Indicative expenditure*	A\$ (M)
Description	
Customer onboarding and scale up	0.8
Product development and capital expenditure	0.3
Sales Contractors	0.3
Data Scientists / Product impact evidence	0.7
CEO and sales team recruitment	0.2
General working capital	1.3
Costs of the Entitlement Offers	0.4
<b>Maximum funds raised under the Entitlement Offers</b>	<b>\$4 million</b>

*\* Notes: As at 30 May 2025 the Company's cash at bank was \$102,184. Many of the line items of expenditure / use of funds above are estimates only and do not reflect contractual commitments of the Company. Actual expenditures in the future may vary.*

## 2.5 Opening and closing dates

The Institutional Entitlement Offer and the Top-Up Offer will open for receipt of acceptances on 24 June 2025. The closing date under the Institutional Entitlement Offer is 5.00 pm (AEST) on 25 June 2025 (unless extended).

The Retail Entitlement Offer and the Top-Up Offer will open for receipt of acceptances on 1 July 2025. The Closing Date for acceptance of your Application is 5.00 pm (AEST) on 10 July 2025 (unless extended).

The Company reserves the right, subject to the Corporations Act and the Listing Rules, to extend the last date for the close of the Offers, or to delay or withdraw the Offers at any time without prior notice. Where an Offer is withdrawn, all Application Monies will be refunded (without interest) as soon as practicable by EFT to your bank account.

Any extension of the closing dates under the Institutional Entitlement Offer or Retail Entitlement Offer will have a consequential effect on the issue date of New Shares and New Options.

## 2.6 Entitlements

The Entitlement Offers and the Top-Up Offer are non-renounceable and therefore Eligible Shareholders cannot offer to sell or transfer any of their Entitlement on ASX or via an off-market transfer (or any other exchange or privately transferred).

Shareholders who do not take up their Entitlement in full will have their percentage interest in the Company diluted as compared to that percentage as at the date the Entitlement Offers are made.

Your Entitlement has been calculated and rounded up to the nearest whole number (at the offer ratio) and where the Company receives Applications in aggregate in excess of the maximum number of available Shares – all Applications will be pro rata reduced, but not below each Eligible Retail Shareholder's respective Entitlement.

As described in Sections 2.10 and 2.11, any New Shares and New Options not taken up by an Eligible Retail Shareholders by the Closing Date will form part of the Shares available under the Top-Up Offer and Shortfall Offer.

## 2.7 Entitlements and acceptance

The Entitlement of Eligible Retail Shareholders to participate in the Entitlement Offers will be determined on the Record Date. Your Entitlement is shown on the Entitlement & Acceptance form accompanying this Prospectus (or accessed online at [www.computersharecas.com.au/adroffer](http://www.computersharecas.com.au/adroffer)).

## 2.8 No cooling off rights

Cooling off rights do not apply to an investment in Offer Securities. You cannot withdraw your Application once it has been received.

## 2.9 Underwriting

The Offers are partially underwritten and details of the Underwriting Agreement are contained in Section 5.3. The Underwriter from the proceeds under the Entitlement Offers will be paid 6% of the funds raised.

## 2.10 Top-Up Facility

Eligible Shareholders may, in addition to taking up their Entitlements in full, apply for any number of Additional Securities in excess of their Entitlements by using the Top-Up Facility (**Top Up Offer**).

Additional Securities will only be available where the total number of New Shares the subject of all Applications received under the Entitlement Offers is less than the aggregate available under the Entitlement Offers. Any Additional Securities issued will be at the same Issue Price of \$0.005 per New Share together with the issue of 1 New Option (plus where a New Option is subsequently exercised prior to 15 November 2025, an additional Bonus Option) for every New Share issued to the same Eligible Shareholder under the Top Up Facility.

There can be no guarantee that there will be any allocation of Additional Securities under the Top-Up Facility. It is an express term of the Entitlement Offers that Eligible Shareholders who apply for Additional Securities are bound to accept a lesser number of Additional Securities than they applied for, or that they may be allocated no Additional Securities at all. In both cases, excess Application Monies will be refunded without interest. The Company reserves the right to scale back any applications for Additional Securities in its absolute and sole discretion where the aggregate of New Shares applied for under the Top-Up Offers exceeds the New Shares available from Shareholders who have not taken up, or are ineligible to take up, their Entitlement in full. When determining the amount (if any) by which to scale back an application, the Company may take into account a number of factors, including the size of an Applicant's shareholding in the Company, the extent to which an Applicant has sold or bought Shares in the Company before and after both the announcement of the Offers and the Record Date, as well as when the application was made.

For the avoidance of doubt, the prohibitions set out in section 606 of the Corporations Act on certain acquisitions of relevant interests in voting shares will apply to limit the acquisition of Additional Securities through the Top-Up Facility (as well as any other Shares issued under a Shortfall).

## 2.11 Shortfall Offer

The Directors also reserve the right, subject to the Corporations Act and the Listing Rules, to place any Shortfall at their discretion within 3 months after the close of the Entitlement Offers at a price not less than the Issue Price of \$0.005 per New Share plus the corresponding options (**Shortfall Offer**). In each case, the issue of any New Shares under the Shortfall Offer will be accompanied by the issue of 1 New Option plus for each New Option exercised before 5.00pm (AEDT) on 15 November 2025, 1 Bonus Option.

Application may only be made under the Shortfall Offer pursuant to a Shortfall Application Form and only upon invitation of the Company.

## 2.12 Issue and despatch

The issue of New Shares and New Options under the Institutional Entitlement Offer is expected to occur on 27 June 2025.

The issue of New Shares and New Options under the Retail Entitlement Offer is expected to occur on 17 July 2025.

It is the responsibility of Applicants to determine their allocation prior to trading in the New Shares. Applicants who sell New Shares without making such determination do so at their own risk. The Company will have no responsibility and disclaims all liability (to the maximum extent permitted by law) to persons who trade New Shares before the New Shares are listed on the official list of ASX or before they receive their holdings statements, whether on the basis of confirmation of the allocation provided by the Company, the Share Registry or otherwise.

## 2.13 ASX Listing

The Company has made an application for official quotation by ASX of the New Shares as offered under this Prospectus. If the New Shares are not quoted by ASX within 3 months after the date of this Prospectus, the Company will not issue any New Shares and all Application Monies received will be refunded (without interest) in full to the Applicants.

The fact that ASX may grant official quotation to the New Shares is not to be taken in any way as an indication of the merits of the Company or the New Shares, New Options or Bonus Options. Neither ASX nor any of its officers accepts or takes any responsibility for the contents of this Prospectus.

The Company does not intend to seek quotation by the ASX of the New Options or the Bonus Options – therefore there is no guarantee of any secondary trading in the New Options or the Bonus Options.

## 2.14 CHESS

The Company will apply to ASX to participate in CHESS for those Shareholders who have, or wish to have, a sponsoring stockbroker. Shareholders who do not wish to participate through CHESS will be issuer sponsored by the Company. Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, Shareholders will be provided with a statement (similar to a bank account statement) that sets out the number of New Shares and New Options allotted to them under this Prospectus. The notice will also advise Shareholders of their Holder Identification Number (**HIN**) and explain, for future reference, the sale and purchase procedures for the New Shares under CHESS and issuer sponsorship.

Further monthly statements will be provided to Shareholders if there have been any changes in their interest in the Company during the preceding month.

## 2.15 Ineligible Foreign Shareholders

In accordance with ASX Listing Rule 7.7.1 and Section 9A of the Corporations Act, the Company has decided that it is unreasonable to make the Entitlement Offer to any Shareholder who is not an Eligible Retail Shareholder as at the Record Date (**Ineligible Foreign Shareholder**), having regard to:

- a) the number of Shareholders with addresses in such other countries as a proportion of total Shareholders in the Company;
- b) the number and value of the New Shares applicable to those Shareholders would be offered under the Offer; and

- c) the cost to the Company of complying with applicable legal and regulatory requirements in such other countries.

To the extent that there are any Ineligible Foreign Shareholders registered at the Record Date, the Company will send details of the Entitlement Offer to each Ineligible Foreign Shareholder and advise each Ineligible Foreign Shareholder that they will not be offered New Shares and New Options under the Entitlement Offer.

## 2.16 Overseas shareholders

The Entitlement Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would be unlawful to make such an offer or to issue this Prospectus. In particular, this Prospectus may not be distributed to any person, and the New Shares and New Options may not be offered or sold, in any country outside Australia except to the extent permitted below for the Retail Entitlement Offer as well as the Institutional Entitlement Offer and Shortfall Offer.

Furthermore, any resale of the New Shares in the Province must be made in accordance with applicable Canadian securities laws. ## **Singapore**

This Prospectus and any other materials relating to the New Shares or New Options have not been, and will not be, lodged or registered as a prospectus in Singapore with the Monetary Authority of Singapore. Accordingly, this Prospectus and any other document or materials in connection with the offer or sale, or invitation for subscription or purchase, of New Shares or New Options, may not be issued, circulated or distributed, nor may the New Shares or New Options be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore except pursuant to and in accordance with exemptions in Subdivision (4) Division 1, Part 13 of the Securities and Futures Act 2001 of Singapore (the “SFA”) or another exemption under the SFA.

This Prospectus has been given to you on the basis that you are an “institutional investor” or an “accredited investor” (as such terms are defined in the SFA). If you are not such an investor, please return this Prospectus immediately. You may not forward or circulate this Prospectus to any other person in Singapore.

Any offer is not made to you with a view to the New Shares or New Options being subsequently offered for sale to any other party in Singapore. On-sale restrictions in Singapore may be applicable to investors who acquire New Shares or New Options. As such, investors are advised to acquaint themselves with the SFA provisions relating to resale restrictions in Singapore and comply accordingly.

### **2.17 Custodians and nominees**

Eligible Retail Shareholders who are nominees or custodians must comply with the following paragraphs in relation to the participation of any underlying beneficial owners (**UBH**) of Shares in the Offers.

The offer to apply for Additional Securities under the Top-Up Facility will be available to the UBH of custodians / nominees to the extent the UBH is (i) resident in Australia or New Zealand; or (ii) is in such other jurisdiction as the Company may determine is permissible taking into account applicable laws. Due to legal restrictions, nominees and custodians may not send this Prospectus to any person outside Australia except a beneficial shareholder in New Zealand or who is and Eligible Institutional Shareholder.

Each custodian or nominee who is applying for Additional Securities on behalf of their individual UBH will need to submit a schedule showing the Record Date holding, the Entitlement and the amount of Entitlement and Additional Securities taken up for each UBH.

Each UBH will need to apply for their maximum Entitlement before applying for Additional Securities under the Top-Up Offer. Therefore, the requirement to fulfil a shareholders maximum Entitlement before applying for Additional Securities under the Top-Up Facility won't apply to the registered custodian / nominee holding – the Company intends to process the amount of New Shares as Entitlement Offer acceptance and also the amount of Additional Securities as additional acceptance under the Top-Up Offer (per schedule supplied by the Custodian).

Eligible Retail Shareholders who are nominees, trustees or custodians must comply with the restrictions discussed above. The Retail Entitlement Offer is being made to all Eligible Retail Shareholders. The Company is not required to determine whether or not any Eligible Retail Shareholder is acting as a nominee or the identity or residence of any beneficial owners of Shares.

### **2.18 Rights and liability attaching to New Shares / New Options / Bonus Options**

The New Shares issued under the Offers will be on a fully paid basis and will rank equally in all respects with existing Shares. Full details of the rights and liabilities attaching to Shares are set out in the Company's constitution, a copy of which is available for inspection at the Company's registered office during normal business hours. You may also contact the Company's Share Registry on 1300 850 505 (within Australia) or +61 3 9415 4000 (outside Australia) to request a copy of the Company's constitution.

A summary of the important rights attaching to the New Shares is contained in Section 5.1 of this Prospectus. The Company will be making application for quotation of the New Shares.

The terms and conditions of the New Options and the Bonus Options are described in Annexure A to this Prospectus and are otherwise subject to the ASX Listing Rules. The Company will not be making an application for quotation of the New Options or the Bonus Options.

#### 2.19 **Brokerage and Stamp Duty Costs**

No brokerage or stamp duty is payable by Eligible Retail Shareholders on the issue of New Shares or New Options / Bonus Options under this Prospectus.

#### 2.20 **Risks**

There are a number of risks associated with an investment in New Shares and New Options / Bonus Options in the Company.

A brief overview of some of the key risks is outlined in Section 6. In particular, as the Issue Price is at a material discount to the recent market price for the Company's shares, there may be a material number of New Shares issued under the Offers. Failing to take up an Entitlement in full means that that Eligible Shareholder could therefore be diluted (and significantly, depending upon their holding size) as a result of the issue of the New Shares and New Options / Bonus Options.

An investment in the Company carries certain risks that may impact on the future profitability of the Company and the value of the Company's securities. The Offer Securities should be considered speculative. The Directors recommend that potential investors carefully consider this Prospectus and consult their professional advisors before deciding whether to apply for Offer Securities pursuant to this Prospectus.

**Some of the key risk factors affecting an investment in the Company are discussed in Section 6 of this Prospectus.**

### 3. EFFECT OF THE ENTITLEMENT OFFER

#### 3.1 Effect of the Offer on the capital structure of the Company

The total number of Offer Securities that may be issued under the Entitlement Offers (the exact number depends on the level of acceptances), if the Maximum Subscription Amount under the Retail Entitlement Offer and the Institutional Entitlement Offer is achieved, will be up to approximately 898,479,081 New Shares, 898,479,081 New Options and 898,479,081 Bonus Options (if all New Options are exercised before 5.00pm (AEDT) on 15 November 2025).

The tables below set out, for illustrative purposes only, the existing Share capital structure together with the impact of the issue of the New Shares, New Options and Bonus Options under the Offers. It assumes that no existing options or convertible notes are exercised prior to the Record Date.

	Number of Options	Number of Shares
Existing Shares as at date of this Prospectus	-	898,479,081
Existing options as at date of this Prospectus	499,252,457	-
Balance of existing convertible notes* (assuming all existing issued convertible notes are exercised and the Company issues Shares and options to the noteholders in accordance with the terms of the convertible notes)	191,865,000	383,730,000
Maximum number of New Shares that may be issued under the Entitlement Offers (subject to rounding) assuming the Maximum Subscription Amount is raised	-	800,000,000
Maximum number of New Options that may be issued under the Entitlement Offers (subject to rounding) assuming the Maximum Subscription Amount is raised	800,000,000	-
Maximum number of Bonus Options that may be issued under the Entitlement Offers (subject to rounding)	800,000,000	-
<b>Total Shares and Options on issue following completion of the Entitlement Offers</b> (approximate subject to rounding) assuming maximum raising under this Prospectus and including Shares which may be issued under any Shortfall, but <b>excluding</b> any future issues under the convertible notes, the New Options or the Bonus Options	1,491,117,457	2,082,209,081

**Note\*:** The number of existing convertible notes does not include (1) the 900,000 convertible notes subject to ADR shareholder approval or (2) any Shares which may be issued to the convertible note holders in satisfaction of any interest accrued on the existing convertible notes.

	Other convertible securities on issue
Existing stock appreciation rights as at date of this Prospectus (with various vesting and exercise conditions), comprising:	
<ul style="list-style-type: none"> <li>stock appreciation rights which are vested and exercisable to Shares (one to one basis) on or before 20 September 2031</li> </ul>	4,611,204 stock appreciation rights
<ul style="list-style-type: none"> <li>stock appreciation rights, which are vested and exercisable to Shares on or before 17 April 2029 on the basis of (i) 20-day volume weighted average price (VWAP) of Shares prior to exercise minus a base price of \$0.063 (ii) divided by the VWAP price (iii) multiplied by the number of stock appreciation rights being exercised</li> </ul>	1,968,780 stock appreciation rights
<ul style="list-style-type: none"> <li>other stock appreciation rights</li> </ul>	20,899,552 stock appreciation rights
Existing convertible notes on issue as at the date of this Prospectus*	1,918,650 notes

**Note\*:** This does not include the proposed 900,000 convertible notes subject to ADR shareholder approval as announced on the ASX on 19 May 2025.

The effect of the Offers, if the Maximum Subscription Amount to be accepted is achieved (including under both the Retail Entitlement Offer and the Institutional Entitlement Offer), will be to increase the number of Shares on issue in the Company and increase the cash held by the Company (before taking into account the expenses of the Offer) by up to approximately \$4 million.

To the extent any New Options (and/or Bonus Options) are exercised, the Company will receive \$0.005 in relation to the exercise of that relevant New Options (and/or Bonus Options).

Cash expenses of the Entitlement Offers are expected to be approximately \$377,243.

### 3.2 Potential effect on control of the Company

Eligible Retail Shareholders who take up their Entitlements in full should not have their interest in the Company diluted by the Offers.

The potential effect the Offers (including those New Shares which may be issued to take up a Shortfall) will have on the control of the Company, and the consequences of that effect, will depend on a number of factors, including investor demand, such as:

- If all Eligible Retail Shareholders take up their Entitlements under the Entitlement Offers, then the Offers will have no significant effect on the control of the Company.
- If some Eligible Retail Shareholders do not take up all of their Entitlements under the Entitlement Offers, then the interests of those Eligible Retail Shareholders will be diluted.
- The proportional interests of Ineligible Foreign Shareholders will be diluted because those Ineligible Foreign Shareholders are not entitled to participate in the Entitlement Offers.
- Shareholders that apply for Additional Securities under the Top-Up Offer may increase their percentage interests beyond their Entitlement. This would result in the dilution of holdings of the Ineligible Foreign Shareholders and those Shareholders who did not accept their Entitlements in full.
- There is no Shareholder who would on the completion of the Offers have an interest which would exceed 19.9% (unless in compliance with the provisions of the Corporations Act).

- f) If any Eligible Retail Shareholders do not take up all of their Entitlements under the Entitlement Offers, the Company has reserved the right to issue the Shortfall to eligible investors within 3 months after the close of the Entitlement Offer. This placement of the Shortfall could result in new investors having interests in the Company. If there is a Shortfall, the Board may decide to issue Additional Securities or Shares under the Shortfall to other investors, depending on the size of any Shortfall, which may potentially result in a new investor having a substantial interest in the Company.

### 3.3 Pro Forma Balance Sheet

The following pro-forma unaudited consolidated balance sheet illustrates the effect of the Entitlement Offer on the Company. It has been prepared based on the reviewed statement of financial position as at 31 December 2024, adjusted to include the maximum cash proceeds that could be received from the Entitlement Offers. It is not intended to represent the actual financial position of the Company upon completion of the Offers, but rather it is provided as an illustration of the likely effect of the Offers. The actual impact on the Company is dependent on a range of factors, many of which are outside the control of the Company and unknown at this stage.

The pro-forma balance sheet has been prepared to provide Eligible Retail Shareholders with information on the pro-forma assets and liabilities of the Company. The historical and pro-forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements.

	31 Dec 2024 A\$	Impact of equity raise (net costs) A\$	Pro forma A\$
Cash and cash equivalents	387,209	4,000,000	4,387,209
Other current assets	4,369,318	-	4,369,318
Total current assets	4,756,527	-	8,756,527
Total non-current assets	116,080	-	116,080
<b>Total assets</b>	<b>4,872,607</b>	-	<b>8,872,607</b>
Total current liabilities	3,376,511	-	3,376,511
Total non-current liabilities	82,132	-	82,132
<b>Total liabilities</b>	<b>3,458,643</b>	-	<b>3,458,643</b>
<b>Total equity</b>	<b>1,413,964</b>	<b>4,000,000</b>	<b>5,413,964</b>

The pro forma balance sheet has been prepared on a going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

The pro forma statement of financial position is based on the reviewed financial position as at 31 December 2024 and is adjusted to reflect the following assumptions:

- (a) the Maximum Subscription Amount of \$4 million (before costs) is raised; and
- (b) the estimated expenses of the Entitlement Offers are recognised in net issued capital.

Other than in the ordinary course of business or as described above, there have been no other material changes to the Company's financial position between 31 December 2024 and the date of this Prospectus.

### 3.4 Market Price of Shares

The highest and lowest closing market prices of the Shares on ASX during the 3 months of trading up to and including 20 June 2025 and the respective dates of those sales, are:

Highest:	\$0.012 on 28 March 2025
Lowest:	\$0.006 on 17 June 2025

The volume weighted average sale price on ASX of the Shares during the 3 months immediately preceding the date of lodgement of this Prospectus with ASIC (**VWAP**) is \$0.0079 (with the Issue Price being a 37% discount to this VWAP price).

The Issue Price represents a discount of:

- 29% to the Company's closing price on 20 June 2025 of \$0.007;
- 27% to the Company's 10 day VWAP of \$0.0068; and
- 33% to the Company's 30 day VWAP of \$0.0074.

Shareholders will note that the Issue Price is a significant discount to the above Share prices. Notwithstanding that the Issue Price is at a discount, it may therefore result in a material dilution to those Eligible Retail Shareholders who do not apply for the New Shares (and accompanying New Options).

### 3.5 Impact of change in ASX Market price

The market price of the Company's Shares on the ASX may change between the date of this Prospectus and the date of issue of Shares under the Retail Entitlement Offer.

If there is a decrease in that market price, this will result in a corresponding proportionate decrease in the market value of Shares issued to the Applicant. If there is an increase in that market price, this will result in a corresponding proportionate increase in the market value of Shares issued to the Applicant.

However, any increase or decrease in market value will not alter the issue price per New Share, nor the number of New Shares to be issued, under the Retail Entitlement Offer.

## 4. ACTION REQUIRED BY ELIGIBLE RETAIL SHAREHOLDERS

### 4.1 Eligible Institutional Shareholders

## 6. RISKS

Shareholders should consider the investment in the context of their individual risk profile for speculative investments, investment objectives and individual financial circumstances. Each Shareholder should consult their own stockbroker, solicitor, accountant or other professional adviser before deciding whether or not to invest in the Offer Securities. This is not an exhaustive list of the relevant risks and the risks set out below are not in order of importance. Many of the risks below are outside the control of the Company and its directors. These risks and other risks not specifically referred to below, may in the future materially adversely affect the value of the Company's Shares and their performance.

An investment in Offer Securities should be regarded as very speculative and involves many risks. The New Shares carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Shares.

If any of the following risks actually occurs, our business, prospects, financial condition and results of operations could be materially and adversely affected, the trading price of the Shares could decline and you could lose all or part of your investment.

This section identifies some of the major risks associated with an investment in the Company. There may be other risks which the Directors and/or management of the Company are unaware which may impact upon the Company, its operations and/or the value and performance of the New Shares and the Company generally. Intending Applicants should, before any decision is made to subscribe for shares, read the Company's prior continuous disclosure announcements to the ASX market in order to fully appreciate the risks particular to an investment in a medical technology company such as Adherium Limited and in particular the risks faced by the Company in the continued development and proposed commercialisation of its Hailie® respiratory medication monitoring technology.

### 6.1 Speculative nature of investment:

Any potential investor should be aware that subscribing for New Shares (including on the exercise of any New Options and / or Bonus Options) involves various risks. The New Shares to be issued carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those shares. An investment in the Company should therefore be considered very speculative.

### 6.2 Business risks associated with the Company

#### a) Business risks

Eligible Retail Shareholders should consider the various risks and difficulties frequently encountered by companies early in their commercialisation, particularly companies that develop and sell medical devices. These risks include the Company's ability to: (a) implement and execute its business strategy; (b) expand its sales team and marketing programs; (c) increase awareness of its brand and products, and build adoption by healthcare participants; (d) manage expanding operations; and (e) respond effectively to competitive pressures and developments. As announced to the market on 24 June 2025, the Company has ~1,500 patients on its platform and anticipates on onboarding 6,500 patients by December 2025. There is no guarantee that the Company will onboard this number of patients by December 2025.

#### b) Regulatory risks

The Company's services and products are subject to various laws and regulations including but not limited to product and quality compliance. Although the Company has obtained US FDA and other clearances for a number of its products, there is no guarantee that compliance for future products will be achieved to support the Company's commercialisation plans. Regular reviews by regulatory bodies are also a feature of the medical device industry the Company operates in, and if non-compliance is identified the Company may be subject to warning letters, penalties, restriction or suspension of activities or product recall. Changes in laws and regulations (including interpretation and enforcement) could also adversely affect the Company's ability to market, distribute and sell its products and services. It is not possible to predict the likelihood, nature or extent of changes in government regulation that may arise.

## c) Failure to retain existing customers and attract new customers

The Company's success depends on its ability to continue to retain its current customer base, grow the service requirements of those existing customers and attract new customers. This depends to a large extent on adoption of the Company's product offering by patients, physicians, disease management organisations, hospitals and payers. Failure to retain existing customers or attract new customers would materially impact the Company's ability to generate revenue which will have an adverse effect on the Company's operating and financial performance.

## d) Reliance on key personnel

The Company employs, or engages as consultants, a small management and development team. The loss of key personnel could cause a material disruption and adversely affect the Company including the achievement of its product and software development and commercialisation.

## e) Developing technology and competitive risk

The medical device industry is highly competitive and subject to rapid technology change. The industry includes companies with significantly greater financial, technical, human, research and development, and marketing resources than the Company. Competitors may commercialise products that compete directly or indirectly with the Company's products. If competitors develop products or technologies that are more effective, the Company's current or future products may become obsolete or uncompetitive.

## f) Sufficiency of funding

The Company is currently not profitable and does not expect to become profitable until after achieving successful commercialisation of its products to allow sufficient sales revenue to fund on-going company operations. The Company may need to finance its future cash needs through equity offerings, debt financing or corporate collaboration. There is no assurance that additional funding would be available in the future or would be secured on acceptable terms.

## g) Product liability risk

As with all medical device products, despite regulatory approvals, there is no assurance that unforeseen adverse events or manufacturing defects will not arise. The Company may be exposed to the risk of product liability claims, which are inherent in the design, manufacturing, marketing, and use of medical devices. While the Company holds a level of product liability insurance, that insurance may not sufficiently cover the claims of a product liability suit. Product liability claims may damage the Company's reputation and may destroy or substantially diminish the Company's business. Defending a suit, regardless of its merits, could be costly and could divert management attention from core business activities.

## h) Disruption of business operations

The Company and its customers are exposed to a large range of operational risks relating to both current and future operations. Such operational risks include occupational health & safety and natural disasters. A disruption in the Company's operations or those of its customers may have an adverse impact on the Company's growth prospects, operating results and financial performance.

## i) Cyber security and data protection issues

The Company collects a wide range of confidential information. Cyber-attacks may compromise or breach the technology the Company uses to protect confidential information.

Despite its efforts, there is a risk that the Company's security measures may not be sufficient to detect or prevent unauthorised access to, or disclosure of, confidential information held by the Company. Data security breaches could result in the loss of information integrity or breaches of the Company's obligations under applicable laws and agreements. This could lead to increased security costs and a slower take up of the Company's products and services by customers, and may adversely impact the Company's reputation, value and financial performance.

## j) Value of the New Options and/or Bonus Options

The New Options (and where applicable, the Bonus Options) that are being issued as part of the Offers are issued for no additional consideration but require the exercise price for each Option to be paid at the time of exercise. If the prevailing trading price of the Company's shares during the Option's exercise period is lower than the exercise price for the New Options (and where applicable, the Bonus Options), then it is likely that the New Options (and where applicable, the Bonus Options) will not be exercised. In this case, for investors, the unexercised New Options (and where applicable, the Bonus Options) will not have a value and will lapse on the respective expiry dates of the New Options (and where applicable, the Bonus Options). If the New Options (and where applicable, the Bonus Options) are not exercised, or only some are exercised, then the Company may not receive the proceeds that would otherwise be generated if option holders pay the option exercise price. This possibility may reduce the amount of capital that the Company would receive if all of the New Options (and where applicable, the Bonus Options) are exercised on or before the respective Option expiry dates.

k) General risks

There are risks associated with any share market investment. These include market fluctuation, liquidity, general economic conditions, and taxation amongst others. Other risks include those normally found in conducting business, including litigation resulting from breach of agreements or in relation to employees or any other cause. These could adversely affect the Company's operations or the value of its shares.

### 6.3 Concluding Comment

The above list of risk factors ought not to be taken as an exhaustive one of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Shares, New Options and Bonus Options offered under this Prospectus.

Investment in the Company must be regarded as highly speculative and neither the Company nor any of its Directors or any other party associated with the preparation of this Prospectus guarantee that any specific objectives of the Company will be achieved or that any particular performance of the Company or of the New Shares, New Options and Bonus Options, including those offered by this Prospectus, will be achieved.

## 7. ADDITIONAL INFORMATION

### 7.1 Nature of the Prospectus

This Prospectus is a transaction specific prospectus issued under section 713 of the Corporations Act which allows the issue of a transaction specific prospectus in relation to offers of securities (or options to acquire such securities) where those securities are of a class which have been quoted for 3 months before the date of that prospectus.

### 7.2 Indemnification of Directors

To the extent permitted by law, the Company indemnifies every person who is or has been a Director or officer of the Company against reasonable legal costs incurred in defending an action for a liability incurred or allegedly incurred by the person as an officer of the Company.

### 7.3 Taxation

The acquisition of Offer Securities and disposal of Offer Securities by investors or Shareholders will have tax consequences, which will differ depending on the individual financial affairs of each Shareholder or investor. All potential investors in the Company are urged to take independent financial advice about the consequences of acquiring Offer Securities from a taxation viewpoint and generally.

The Directors consider that it is not appropriate to give advice regarding the taxation consequences associated with a purchase or subsequent disposal of any Offer Securities subscribed for under this Prospectus as it is not possible to provide a comprehensive summary of the possible taxation positions of Shareholders. The Directors recommend that all Eligible Retail Shareholders consult their own professional tax advisers.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability or responsibility with respect to the taxation consequences of subscribing for New Shares under this Prospectus.

## Annexure A - Option Terms and Conditions

Each option (**Option**) entitles the holder (**Option Holder**) to subscribe for and be issued one fully paid ordinary share (**Share**) in **Adherium Limited** ACN 605 352 510 (**Company**) on the following terms:

1. Subject to clause 2 and any restrictions imposed by the ASX Limited (**ASX**), each Option is exercisable at any time after the date it is issued (**Issue Date**), until and including their expiry date –
  - (a) in the case of the New Options, 5pm (AEST) on 31 July 2026; or
  - (b) in the case of the Bonus Options, 5pm (AEDT) on 15 November 2026,**(Expiry Date)**. Any Options not exercised by the Expiry Date will automatically lapse at 5pm on the Expiry Date.
2. The Options may be exercised for part or all of the Options held at a particular time by the Option Holder paying to the Company at its registered office prior to the Expiry Date the exercise price of A\$0.005 per Option (**Exercise Price**).
3. On receipt by the Company of the payment of the Exercise Price, the Company must, within 4 Business Days and if the Shares are listed on the ASX within the time period prescribed by the Listing Rules of the ASX (**ASX Listing Rules**):
  - (a) allot to the Option Holder one Share in the Company for each Option exercised by the Option Holder;

  - (c) issue (if applicable) a new holding statement (or option certificate) for the balance of the Options that remain unexercised.

Shares allotted on the exercise of Options will rank equally in all respects with the then existing issued ordinary fully paid shares in the capital of the Company (except in respect to any dividends which shall have been declared but not yet distributed before the actual exercise of an Option) and will be subject to the provisions of the Constitution of the Company.
5. The Options are transferable in accordance with the ASX Listing Rules.
6. If any reorganisation (including consolidation, subdivision, reduction, return or cancellation) of the issued capital of the Company occurs before the expiry of any Options, the number of Options to which each Option Holder is entitled or the Exercise Price of his or her Options or both must be reorganised in accordance with the ASX Listing Rules applying to a reorganisation at the time of the reorganisation (which adjustment formula will apply even where the Company is not admitted to the ASX Official List).
7. An Option does not confer the right to participate in new issues of capital offered to holders of Shares (**Rights Entitlement**) during the currency of the Options without exercising the Options.
