4. DETAILS OF THE OFFER

4.1 Background to the Offer

As announced on 15 July 2025, the Company is undertaking a capital raising to raise up to \$2,600,000 via a placement through the issue of approximately 200,000,000 Shares at an issue price of \$0.013 per Share, together with 1 free-attaching Option (exercisable at \$0.016 each on or before 31 December 2027) for every Share issued, with the issue of all securities subject to shareholder approval at a meeting to be held in August 2025. In order to provide existing shareholders with the same opportunity, the Company is undertaking a non-renounceable entitlement offer to raise up to \$2,262,296 on the same terms.

4.2 The Offer

The Offer is for a non-renounceable entitlement offer of approximately 174,022,737 Shares at an issue price of \$0.013 per Share, on the basis of 2 Shares for every 5 Shares held by Eligible Shareholders as at the Record Date, together with 1 New Option for every 1 Share subscribed for and issued, exercisable at \$0.016 each on or before 31 December 2027. Fractional entitlements will be rounded up to the nearest whole number.

The Offer is non-renounceable. Accordingly, Entitlements cannot be traded on the ASX, nor can they be sold, transferred or otherwise disposed of.

Based on the capital structure of the Company as at the date of this Prospectus (and assuming no existing Options or Performance Rights are exercised prior to the Record Date), a maximum of approximately 174,022,737 Shares and 174,022,737 New Options will be issued pursuant to the Offer to raise up to approximately \$2,262,296 (before costs of the Offer).

As at the date of this Prospectus the Company has 129,426,764 Options on issue all of which may be exercised prior to the Record Date in order to participate in the Offer.

As at the date of this Prospectus the Company has 19,101,040 Performance Rights on issue which remain subject to vesting conditions and as such, cannot be exercised prior to the Record Date in order to participate in the Offer. Please refer to Section 5.4 of this Prospectus for information on the Performance Rights on issue.

All of the Shares offered under the Offer will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 6.1 for further information regarding the rights and liabilities attaching to the Shares.

All of the New Options offered under the Offer will be issued on the terms and conditions set out in Section 6.2 of this Prospectus.

All Shares issued on conversion of the New Options will rank equally with the Shares on issue at the date of this Prospectus.

The purpose of the Offer and the intended use of funds raised under the Offer are set out in Section 5 of this Prospectus.

4.3 Offer

Eligible Shareholders are invited to participate in the Offer under the Prospectus.

Eligible Shareholders who wish to acquire Shares and New Options under the Offer will need to complete a BPay® or EFT payment using the reference number on their personalised Entitlement and Acceptance Form that will be mailed to them accompanying a copy of the Prospectus.

4.4 Minimum subscription

There is no minimum subscription to the Offer.

4.5 Your choices as an Eligible Shareholder

Eligible Shareholders may do any of the following:

- (a) take up their full Entitlement under the Offer;
- (b) take up their full Entitlement under the Offer and apply for Shortfall;
- (c) partially take up their Entitlement and allow the balance to lapse; or
- (d) decline to take up their Entitlement by taking no action.

4.6 Acceptance

If you are an Eligible Shareholder and you wish to take up all or part of your Entitlement, your acceptance of the Offer must be made by making a payment by BPay® or EFT using the personal reference number on the Entitlement and Acceptance Form accompanying this Prospectus so that the payment is received prior to the Closing Date of the Offer. Your acceptance must not exceed your Entitlement as shown on that form, unless you intend to apply for additional Shares under the Shortfall Offer (refer to Section 4.12 for further information), in which case the additional Shares applied for will be deemed to be an application for Shares under the Shortfall Offer.

You may participate in the Offer as follows:

- (a) if you wish to accept your **full** Entitlement:
 - (i) complete the Entitlement and Acceptance Form (form not required if payment made by BPAY® or EFT); and
 - (ii) by completing a BPAY® or EFT payment in Australian currency, for the amount indicated on and in accordance with the instructions referred to on the Entitlement and Acceptance Form and in this Prospectus; and
- (b) if you wish to apply for **additional** shares after accepting your full Entitlement in accordance with Section 4.6(a), then:
 - (i) fill in the number of additional Shares you wish to apply for in the space provided on the Entitlement and Acceptance Form (form not required if payment made by BPAY® or EFT); and
 - (ii) complete a BPAY® or EFT payment in Australian currency for the appropriate Application Monies and in accordance with the instructions referred to on the Entitlement and Acceptance Form and in this Prospectus; or
- (c) if you only wish to accept **part** of your Entitlement:

- (i) fill in the number of Shares you wish to accept in the space provided on the Entitlement and Acceptance Form (form not required if payment made by BPAY® or EFT); and
 - (ii) complete a BPAY® or EFT payment in Australian currency, for the appropriate Application Monies and in accordance with the instructions referred to on the Entitlement and Acceptance Form and in this Prospectus; or
- (d) if you do not wish to accept all or part of your Entitlement, you are not obliged to do anything.

4.7 Payment by BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form and quote your personalised reference number that has been provided on the personalised Application Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (a) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form; and
- (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application Monies.

4.8 Payment by EFT

For payment by EFT, please follow the instructions on the Entitlement and Acceptance Form and quote your personalised reference number that has been provided on the personalised Application Form. Please note that should you choose to pay by EFT:

- (a) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form; and
- (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application Monies.

It is your responsibility to ensure that your BPAY® or EFT payment is received by the share registry by no later than 5:00 pm (AEST) on the Closing Date. You should be aware that your financial institution may implement earlier cut-off times with regards to electronic payment and you should therefore take this into consideration when making payment. Any Application Monies received for more than your final allocation of Shares (only where the amount is \$1.00 or greater) will be refunded. No interest will be paid on any Application Monies received or refunded.

4.9 Implications of an acceptance

Paying any Application Monies by BPAY® or EFT will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety; and
- (b) you acknowledge that once an Entitlement and Acceptance Form is returned, or a BPAY® or EFT payment instruction is given in relation to any Application Monies, the application may not be varied or withdrawn except as required by law.

4.10 Underwriting and sub-underwriting

The Offer is not underwritten.

4.11 Effect on control of the Company

No Shareholder is likely, as a result of the Offer, to increase their relevant interest in the Company to above 20%. This could only happen if a substantial Shareholder applied for significant Shortfall Shares under the Shortfall Offer, and other Shareholders did not take up the Offer. X2M considers this to be highly unlikely.

Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 40% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus). Examples of how the dilution may impact Shareholders (assuming no Options or Performance Rights exercised, and no additional Shares are issued) is set out in the table below:

Holder	Holding as at Record Date	% at Record Date (undiluted)	Entitlements under the Offer	Holdings if Offer not taken Up	% post Offer (undiluted)
Shareholder 1	50,000,000	11.49	16,666,667	50,000,000	8.21
Shareholder 2	25,000,000	5.75	8,333,334	25,000,000	4.10
Shareholder 3	10,000,000	2.30	3,333,334	10,000,000	1.64
Shareholder 4	1,000,000	0.23	333,334	1,000,000	0.16
Shareholder 5	100,000	0.02	33,334	100,000	0.016

Notes:

- The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted are placed under the Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

4.12 Shortfall Offer

Any Entitlement not taken up pursuant to the Offer will form the Shortfall Offer.

The Shortfall Offer is a separate offer made pursuant to this Prospectus and will close on the Closing Date. The issue price for each Share and New Option to be issued under the Shortfall Offer shall be \$0.013 and nil being the price at which Shares and New Options respectively have been offered under the Offer.

Shareholders who wish to subscribe for Shares above their Entitlement are invited to apply for additional Shares under the Shortfall Offer by completing the appropriate section on their Entitlement and Acceptance Form.

The allocation of the Shortfall Securities will be at the discretion of the Board. If the Board allocates Shortfall Securities, and if there are more applications under the Shortfall Offer than available Shortfall Shares so that a scale back is required, the Board's intention is to allocate Shortfall Securities on a parri passu basis.

If after the Shortfall Offer is completed, there are unallocated Shortfall Shares, the Company reserves the right to place these Shares within 3 months of the Close Date, and has granted Cygnet a firm right to carry out such a placement.

The Company notes that no Shares will be issued to an applicant under this Prospectus or via the Shortfall Offer if the issue of Shares would contravene the takeover prohibition in section 606 of the Corporations Act. Similarly, no Shares will be issued via the Shortfall Offer to any related parties of the Company.

4.13 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made in accordance with the timetable set out at the commencement of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of 3 months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application Monies for the Securities within the time prescribed under the Corporations Act, without interest.

In addition, application for Official Quotation of the Options offered pursuant to this Prospectus will be made subject to the Company satisfying the quotation requirements of the ASX.

The fact that ASX may grant Official Quotation to the Securities is not to be taken in any way as an indication of the merits of the Company or the Securities now offered for subscription.

4.14 Issue of Securities

Securities issued pursuant to the Offer will be issued in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus.

Where the number of Securities issued under the Shortfall Offer is less than the number applied for, or where no issue is made, surplus Application Monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer. If there is an oversubscription under the Shortfall Offer and the Board elects to allocate Shortfall Securities, securities will be scaled back and issued to applicants on a parri passu basis.

Pending the issue of the Securities or payment of refunds pursuant to this Prospectus, all Application Monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Securities issued under the Offer will be mailed in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus and for Shortfall Securities issued under the Shortfall Offer as soon as practicable after their issue.

4.15 Overseas shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Securities will not be issued to Shareholders with a registered address which is outside Australia, New Zealand and Singapore.

New Zealand

The Securities are not being offered to the public within New Zealand other than to existing shareholders of the Company with registered addresses in New Zealand to whom the offer of these securities is being made in reliance on the transitional provisions of the Financial Markets Conduct Act 2013 (New Zealand) and the Financial Markets Conduct (Incidental Offers) Exemption Notice 2016 (New Zealand).

This Prospectus has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority. This document is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

Singapore

The Securities are not being offered to the public within Singapore other than to existing shareholders of the Company with registered addresses in Singapore.

This Prospectus and any other materials relating to the Securities have not been, and will not be, lodged or registered as a prospectus in Singapore with the Monetary Authority of Singapore. Accordingly, this Prospectus and any other document or materials in connection with the offer or sale, or invitation for subscription or purchase, of Securities, may not be issued, circulated or distributed, nor may the Securities be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore except pursuant to and in accordance with exemptions in Subdivision (4) Division 1, Part 13 of the Securities and Futures Act 2001 of Singapore (the "SFA") or another exemption under the SFA.

This document has been given to you on the basis that you are an "institutional investor" or an "accredited investor" (as such terms are defined in the SFA). If you are not such an investor, please return this document immediately. You may not forward or circulate this document to any other person in Singapore.

Any offer is not made to you with a view to the Securities being subsequently offered for sale to any other party. There are on-sale restrictions in Singapore that may be applicable to investors who acquire Securities. As such, investors are advised to acquaint themselves with the SFA provisions relating to resale restrictions in Singapore and comply accordingly.

Nominees and custodians

Nominees and custodians may not submit an Entitlement and Acceptance Form on behalf of any Shareholder resident outside Australia, New Zealand and Singapore without the prior consent of the Company, taking into account relevant securities law restrictions. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

	Total	4.9	100%

Notes:

1. Indicative only.
2. Refer to Section 8.8 for further details.

The above tabled expenditures represent a statement of current intentions as of the date of this Prospectus. In particular, the Placement is subject to Shareholder approval which may not be given, meaning all funds referred to may not be received. As with any budget, intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the business strategies and objectives, or the way funds are applied, on this basis.

5.2 Effect of the Offer

The principal effect of the Offer, assuming all Entitlements are accepted and no Options or Performance Rights were exercised prior to the Record Date, will be to:

- (a) increase the cash reserves by approximately \$2,292,296 (before the expenses of the Offer) immediately after completion of the Offer;

- (b) increase the number of Shares on issue from 435,056,842 as at the date of this Prospectus to approximately 609,079,579 Shares following completion of the Offer; and

The Company confirms there will be no change to the number of Performance Rights on issue as a result of the Offer.

The Company notes that the Placement will be carried out in parallel with the Offer and that there are Share and Option issues currently pending shareholder approval from an existing placement. The above does not take into account the issue of Shares or Options under the Placement as if Shareholder approval is not given the securities will not be issued. Eligible Shareholders should refer to the announcement of the Placement on 15 July 2025 for further details of the Placement, and the Notice of General Meeting lodged on 2 July 2025 for further details of other securities to be issued subject to Shareholder approval.

5.3 Pro-forma statement of financial position

The reviewed balance sheet as at 31 December 2024 has been prepared on the basis of the accounting policies normally adopted by the Company and reflect the changes to its financial position.

The pro-forma balance sheet has been prepared assuming all Entitlements are accepted, including expenses of the Offer.

The pro-forma balance sheet has been prepared to provide investors with information on the assets and liabilities of the Company and pro-forma assets and liabilities of the Company as noted below. The historical and pro-forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements.

The potential funds on completion of the Offer (using the 31 December 2024 closing cash as a starting point) does not represent the actual or prospective cash or financial position of the Company. The below table does not take into account activities of the Company since 31 December 2024 and this expenditure is not recognised in the pro-forma Statement of Financial Position. Shareholders should refer to other filings by the Company concerning its financial position for further information, such as the 31 March 2025 Quarterly Report lodged on 30 April 2025.

Further, the Company's cash position following the Offer will be impacted by its use of funds set out in section 5.1, in particular repayment of \$2,000,000 debt.

6. RIGHTS AND LIABILITIES ATTACHING TO SECURITIES

6.1 Rights attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to the Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend rights

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The allotment and issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, written notice of at least 28 days must be given specifying the intention to propose the resolution as a special resolution.

6.2 **Rights attaching to Options to be issued under the Offer**

(a) **Entitlement**

Each New Option entitles the holder to subscribe for one Share upon exercise of the Option.

(b) **Exercise Price**

Subject to paragraph (i), the amount payable upon exercise of each New Option will be \$0.016 (**Exercise Price**)

(c) **Expiry Date**

Each New Option will expire at 5:00 pm (AEST) on 31 December 2027 (**Expiry Date**). A New Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

(d) **Exercise Period**

The New Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**).

(e) **Notice of Exercise**

The New Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the New Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each New Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(f) **Exercise Date**

A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each New Option being exercised in cleared funds (**Exercise Date**).

(g) **Timing of issue of Shares on exercise**

Within 15 Business Days after the Exercise Date, the Company will:

- (i) issue the number of Shares required under these terms and conditions in respect of the number of New Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;
- (ii) if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and
- (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the New Options.

If a notice delivered under (g)(ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(h) **Shares issued on exercise**

Shares issued on exercise of the New Options rank equally with the then issued shares of the Company.

(i) **Reconstruction of capital**

If at any time the issued capital of the Company is reconstructed, all rights of a New Option holder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.

(j) **Participation in new issues**

There are no participation rights or entitlements inherent in the New Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the New Options without exercising the New Options.

(k) **Change in exercise price**

A New Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the New Option can be exercised.

(l) **Transferability**

The New Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

(m) **Quotation**

Subject to meeting the ASX's requirements to list, the Company will apply to have the New Options quoted on the ASX. Listing of securities is at the discretion of ASX.

7. RISK FACTORS

7.1 Introduction

The Securities offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Securities.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

7.2 Company specific

(a) Going concern risk

The X2M Group consolidated financial statements for the FY2024 period were audited by Grant Thornton. The HY2025 period has been reviewed by Grant Thornton. An unqualified audit and review opinion (as the case may be) was issued for each of those periods but each included an emphasis of matter on material uncertainty around going concern.

Notwithstanding the 'going concern' qualification included in the reports for these periods, the Directors believe that upon the successful completion of the Offer, the Company will have sufficient funds to adequately meet the Company's current operational commitments and short-term working capital requirements. In the event that the Offer is not completed successfully there is significant uncertainty as to whether the Company can continue as a going concern, and which is likely to have a material adverse effect on the Company's activities.

(b) Potential for dilution

Upon implementation of the Offer, assuming all Entitlements are accepted, and no Options or Performance Rights are exercised prior to the Record Date, the number of Shares in the Company will increase from 435,056,842 currently on issue to 609,079,579. This means that each Share will represent a lower proportion of the ownership of the Company. Shareholders should also note there may be further dilution should Shares the subject of the Placement be issued.

It is not possible to predict what the value of the Company or a Share will be following the completion of the Offer being implemented and the Directors do not make any representation as to such matters. The last trading price of Shares on ASX prior to the prospectus being lodged is not a reliable indicator as to the potential trading price of Shares after implementation of the Offer.

(c) **Product quality risks**

The Company is dependent on the effective performance, reliability and availability of its technology platforms, hardware, software, third party data centres and communication systems. Therefore, there is a risk that the infrastructure and technology solutions supplied by the Company to customers may not be functional, may be faulty, or not meet customers' expectations. This may lead to the Company being required to repair or improve its products after sale and or installation, which may diminish operating margins or lead to losses.

For those systems which the Company retains an ownership in and operates on behalf of the customer under long term agreements, or which the Company maintains under long term maintenance agreements, the Company may be made responsible if such systems are not functional or faulty. The Company may face claims from customers if its products do not meet standards that were contractually agreed upon.

(d) **Disruption of key business processes risk**

The Company's business model relies on the execution of several critical business processes, particularly to support servicing of customers and to process transactions on their behalf. Key business processes could be disrupted by events outside of the Company's control such as system infrastructure disruption, system failures, service outages, corruption of information technology network or information systems as a result of computer viruses, bugs, worms or cyber-attacks, as well as natural disasters, fire, power outages or other events outside the control of the Company, and those measures implemented by the Company to protect against such events are ineffective.

Any systemic failure could cause significant damage to the Company's reputation and its ability to process transactions for customers. Such systemic failure could also impact the Company's ability to retain existing, and generate new customers, any of which could have a material adverse impact on the Company's business, operating and financial performance, and/or growth.

(e) **Price risks**

The price of the Company's products may be too high compared to other products, in particular within emerging markets and the APAC region where the Company operates in, where there is a high price pressure. This may lead to difficulties in the market acceptance for the Company's products, as customers may switch to cheaper products, which may require the Company to decrease prices. As a result, there could be lower operating margins.

(f) **Supplier and manufacturing risks**

The Company sources certain key components for its devices from third party suppliers and outsources manufacturing of products to third parties.

The delivery of such components may be delayed, or a specific supplier may not be able to deliver at all, which may lead to a longer sales cycle or may force the Company to shift to another supplier. There is a risk that the Company could be disrupted if no alternative suppliers were able to be sought. There is a current global shortage of certain critical components which increases the magnitude and likelihood of this risk. There is a risk that key components provided by third party suppliers may be defective. The Company's products may be subject to product quality risks. The products supplied by the Company may not be functional or not meet customer's expectations. This may lead to requirements for the Company to improve or refine its products, which may diminish operating margins or lead to losses.

(g) Contract non-renewal risk and key customers

The Company's contracts with customers are generally long term contracts of several years. Further the nature of the Company's business means it contracts with relatively few but large customers. There is a risk that when these large customers reach the end of their service contracts, they will not renew the term of their contract which may materially impact the Company's expected revenue.

(h) New markets

Whilst the Company is of the view that the 2020 Foreign Investment Negative List (Negative List) does not apply to the existing operations in China, the Negative List may be expanded to capture the Company's activities, at which time, any expansion into China would be adversely impacted.

(i) Competition risk

The utility industry in which the Company operates is subject to competition. Current or future competitors may come up with new, better or cheaper products and solutions. The Company's competitors include both small and medium enterprises and large, established corporations or multinationals. Those may decide to enter the Company's target markets and be able to fund aggressive marketing strategies. They may also have stronger financial capabilities than the Company which may negatively affect the operating and financial performance of the business.

Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's business.

(j) Cyber security and protections

Given the nature of the Company's Software as a Service business, the Company collects and holds some personal information about its customers and their end customers in Japan, South Korea and Taiwan.

Notwithstanding that the Company has currently adopted a number of policies and procedures regarding information security protection, the Company's systems, or those of its third party providers, may fail, or be subject to disruption as a result of external threats or system errors. Cyber-attacks could also compromise or breach the safeguards implemented by the Company to maintain confidentiality in such information.

The Company obtained ISO 27001:2013 certification in 2021 (which covers all existing jurisdictions). The certification expired in late 2024 however the Company continues to employ the same processes and procedures. The Company intends to seek recertification on the recently revised standards ISO 27001:2022 which will be subject to an annual audit by an independent third party, which involves a review of the Company's cybersecurity and data protection measures. However, certification and an annual audit process does not offer the Company absolute protection against cyber-attacks.

(k) Legal proceedings

Legal proceedings may arise from time to time in the course of the business of the Company including enforcing or defending its intellectual property rights against infringement and unauthorised use by the competitors or in relation to a contract dispute. As at the date of this Prospectus, there are no legal proceedings affecting the Company and the Directors are not aware of any other legal proceedings pending or threatened against or affecting the Company.

(l) Additional requirements for capital

The Company is targeting to grow revenue at a greater rate than expenses. However, there is a risk that expenses cannot be contained to the expected level and will exceed management expectations. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

(m) Intellectual property risk

The Company has a patent portfolio of over 40 patents, which are largely built around remote programming and control of devices, autonomous decentralised logic, remote communication with devices and information transfer between machines over multiple service providers. The Company relies on laws relating to patents to assist to protect its proprietary rights.

The success of the Company's technology depends largely on the ability of the Company to protect its intellectual property rights (including, the underlying know how) while not infringing the proprietary rights of others. Many of its inventions are protected based on a strategy of securing the underlying trade secrets – which are remote programming and control of devices, autonomous decentralised logic, remote communication with

devices and information transfer between machines over multiple service providers.

There is a risk that unauthorised use or copying of the Company's software, data or platforms will occur. If the Company fails to protect its intellectual property, know-how or trade secrets, competitors may gain access to its proprietary information which could harm the Company's businesses.

There is a risk that the Company will be unable to register or otherwise protect new intellectual property it develops in the future. Competitors may be able to work around any of the applications or other intellectual property rights used by the Company, or independently develop technologies or competing products that are not covered by the Company's intellectual property rights. Further, there is no assurance that others will not be able to copy the technology. This may materially adversely impact the Company's revenue, legal expenses and profitability.

If the Company believes its intellectual property rights have been infringed, it may initiate or otherwise be involved in litigation against third parties for infringement, or to establish the validity, of the Company's rights. Any litigation, whether or not it is successful, could result in significant expense to the Company and divert the efforts of its personnel.

(n) **Personal information collation risk**

The Company collects, stores and processes highly sensitive, highly regulated and confidential information. The provision of secure and reliable information storage and processing services is integral to the businesses and operations of the Company in the utility management industry. While the Company has in place strict policies and procedures when collecting data, if the Company's systems or data is compromised for any reason there is a risk that the Company may become involved in legal action due to breaching data confidentiality agreements.

(o) **Sales cycle**

It takes considerable time for the Company's customers to evaluate, test and make a final decision about the purchase of its technology solution. The Company mainly deals with large corporations and municipal organisations, which are subject to certain formal administrative procedures and requirements which increase the time required for approval of a transaction and or sale.

(p) **Legal title to intellectual property risk**

On 26 February 2020, the Company, Freestyle and liquidators of Freestyle entered into an asset sale agreement (**Asset Sale Agreement**) under which Freestyle agreed to sell certain assets to the Company and novate certain contracts to the Company.

Whilst completion of the sale under the Asset Sale Agreement occurred on 26 February 2020, there has been a delay in transferring legal title to some of the assets to the Company, specifically, a number of patents. If the intellectual property rights of the Company are infringed before the intellectual property is registered in the Company's name, the Company may have limited recourse to enforce its legal and beneficial rights to the

intellectual property, which may have an adverse effect on the Company and its operations.

(q) South Korean lease

The Company, via its wholly owned South Korean subsidiary Freestyle Technology Co., Ltd, has leased part of a building located in the Seoul Digital National Industrial Complex for use as its head office.

Whilst the Company has entered into a lease for the office, at the date of this Prospectus, the Company has not entered into an occupancy agreement with the relevant management agency of the industrial complex.

Under the South Korean Industrial Cluster Development and Factory Establishment Act (South Korean Act), a company that wishes to lease part of a building located in an industrial complex is required to execute an occupancy agreement with the management agency of the industrial complex. The Company is in the process of entering into an occupancy agreement as required under the South Korean Act. Until such time as the process is completed, there is a risk that the Company may be sanctioned for failing to have the occupancy agreement in place in accordance with applicable laws.

(r) Asset Sale Agreement risk

The Company and Freestyle have entered into the Asset Sale Agreement under which completion occurred on 26 February 2020. Notwithstanding completion occurring, as at the date of this Prospectus, the transfer of legal title to certain assets acquired under the Asset Sale Agreement from Freestyle to the Company including a number of patents has not been completed. As such, until such time as the Company is recorded as legal owner of those assets, the Company may have limited recourse to enforce its legal and beneficial rights to the assets. Furthermore, there are risks that other matters unknown at this time may arise related to the Asset Sale Agreement.

(s) Ukraine and Middle East Conflict

The existing conflict between Ukraine and Russia (**Ukraine Conflict**) and military activities involving Israel and its neighbours (**Israel Conflict**) are impacting global economic markets. The nature and extent of the effect of the Ukraine Conflict and the Israel Conflict on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by the Ukraine Conflict and the Israel Conflict.

The Directors are continuing to closely monitor the potential secondary and tertiary macroeconomic impacts of the unfolding events, including the changing pricing of commodity and energy markets and the potential of cyber activity impacting governments and businesses. Further, any governmental or industry measures taken in response to the Ukraine Conflict and Israel Conflict, including limitations on travel and changes to import/export restrictions and arrangements involving Russia, may adversely impact the Company's operations and are likely to be beyond the control of the Company. The Company is monitoring the situation closely and considers the impact of the Ukraine Conflict and the Israel Conflict on the Company's business and financial performance to,

at this stage, be limited. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain.

7.3 Industry specific

(a) Infrastructure and technology failure

The Company relies on its infrastructure and technology to provide its customers with a highly reliable service. There may be a failure to deliver this level of service as a result of numerous factors, including human error, power loss, equipment failure, improper maintenance including by landlords and security breaches. Service interruptions, regardless of their cause, may cause contractual and other losses to the Company.

(b) Technology risk

The Company's market involves rapidly evolving products and technological change. The Company cannot guarantee that it will be able to engage in research and development at the requisite levels. The Company cannot assure investors that it will successfully identify new technological opportunities and continue to have the needed financial resources to develop new products in a timely or cost-effective manner. At the same time, products, services and technologies developed by others may render the Company's products and services obsolete or non-competitive.

(c) Security risk

As with all technology companies, the Company is reliant on the security of its products and associated technologies. Breaches of security could impact customer satisfaction and confidence in its products, and some breaches, including cyber-attacks, could render the services and related products unavailable through a disrupted denial of service or other disruption. Unavailability of the Company's services could impact the Company's financial performance. Further, it could hinder the Company's ability to retain existing customers.

(d) Regulatory risk

The Company is subject to continuing regulation, including quality regulations applicable to the manufacture and operation of its devices and privacy regulations concerning personal identifying data. Whilst the Company currently meets the regulations applicable to its products and services, there can be no guarantee that the regulatory environment in which the Company operates may not change in the future which may impact on the Company's existing approvals and products. There is a risk that the Company may inadvertently breach a regulation despite the controls implemented to prevent this. There is a risk that a breach of or change in regulations may have a material impact on the Company's activities.

The Company intends to expand its operations into target jurisdictions in the short to medium term (including India and USA). Further regulatory approvals may be required to expand into these jurisdictions including but not limited to safety, electromagnetic radiation and interference requirements and other product quality and safety standards specific to the target jurisdiction. However, as at the date of this Prospectus, the Company is not aware that any further regulatory approvals are required. If further regulatory approvals are required, the Company may not be able to obtain the necessary approvals and clearances in a timely fashion or may not be able to obtain the necessary approvals and clearances at all.

7.4 General risks

(a) Operational risks

While the Company implements measures and procedures to manage operational risk, the Company's profitability will continue to be subject to a variety of strategic and business decisions (including any future operational risks arising from inadequate or failed internal processes, people and systems, or external events) including:

- (i) fraud and other dishonest activities;
- (ii) workplace safety;
- (iii) compliance and regulatory risk;
- (iv) business continuity and crisis management;
- (v) key person and personnel risk;
- (vi) information systems integrity; and
- (vii) outsourcing risk.

(b) Contractual disputes

There are a number of risks associated with contracts or arrangements entered into by the Company, including the risk that those contracts or arrangements may contain unfavourable provisions, or be terminated, lost or impaired, or renewed on less favourable terms. There is a risk that the business could be disrupted in situations where there is a disagreement or dispute in relation to a term of the contract or arrangement. Should such a disagreement or dispute occur, this may have an adverse impact on the Company's operations and performance generally. It is not possible for the Company to predict or protect itself against all such risks.

Further, from time to time, as part of its Business, the Company has entered and will continue to enter into contracts which are governed by the laws of countries other than Australia. Should a contractual dispute result in court action or should the Company be required to enforce its rights, the procedure of the courts in the various foreign jurisdictions may be different to those in Australia.

(c) Future capital needs and additional funding

The future capital requirements of the Company will depend on many factors, including the pace and magnitude of its development of its business and sales. The Company believes that its available cash and the net proceeds of the Public Offer will be adequate to satisfy its anticipated current working capital and other capital requirements as set out in this Prospectus. Should the Company require additional funding, there can be no assurance that additional financing will be available on acceptable terms or at all.

Volatility in the financial markets could also have a material adverse effect on the Company's ability to equity or debt fund its business operations or future acquisitions. The Company's ability to raise additional funds will be subject to, among other things, factors beyond the control of the Company and its Directors, including cyclical factors affecting the economy and share markets generally. In addition, any deterioration in global financial markets could impact risk appetite among lending institutions which may impact the Company's ability to enter into new loan facilities or replace existing facilities. The Directors can give no assurance that future funds can be raised by the Company on favourable terms, if at all.

If the Company is unable to obtain additional funding as needed, or is unable to do so on acceptable terms, it may be required to reduce the scope of its operations and scale back its programs as the case may be, which may have a material adverse effect on the Company's business, financial condition and results of operations.

(d) Policies and legislation

Any material adverse changes in government policies or legislation of markets in which the Company's products are sold, or any other country that the Company has economic interests in, may affect the viability and profitability of the Company.

(e) Economic

General economic conditions, introduction of tax reform, new legislation, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's development and expansion activities, as well as on its ability to fund those activities.

(f) Market conditions

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and

- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

- you represent and warrant that you have read and understood the Prospectus and that you acknowledge the matters, and make the warranties and representations contained therein and in this Entitlement and Acceptance Form; and
- you provide authorisation to be registered as the holder of new securities acquired by you and agree to be bound by the Constitution of the Company.

1 Acceptance of full or partial Entitlement

If you wish to accept your full Entitlement:

- make payment by BPAY or EFT for your full Entitlement by following the instructions on this Entitlement and Acceptance Form.

If you only wish to accept part of your Entitlement:

- calculate the payment amount for the portion of your Entitlement that you wish to take up in accordance with the partial Entitlement section of this Entitlement and Acceptance Form and
- make payment by BPAY or EFT for that portion of your Entitlement by following the instructions on this Entitlement and Acceptance Form.

2 Application for Shortfall Shares

If you accept your full Entitlement and wish to apply for Shortfall Shares in excess of your Entitlement:

- make payment by BPAY or EFT for the total payment amount of your full Entitlement AND your participation in the Shortfall Offer by following the instructions on this Entitlement and Acceptance Form.

Note your Shortfall payment should be calculated separately by multiplying the number of Shortfall Shares you wish to apply for by the issue price, rounded up to the nearest cent.

Your application for Shortfall Shares may not be successful (wholly or partially). The decision in relation to the number of Shortfall Shares in excess of your Entitlement to be allocated to you will be final. No interest will be paid on any Application Monies received and returned.

3 Payment

By making a payment via BPAY or EFT, you agree that it is your responsibility to ensure that funds are submitted correctly and received by the Share Registry by the Closing Date and time. Payment must be received by the Share Registry by 5.00pm (AEST) on the Closing Date.

By making payment of Application Monies, you certify that you wish to apply for Shares under the Offer as indicated on this Entitlement and Acceptance Form and acknowledge that your acceptance is irrevocable and unconditional.

It is your responsibility to ensure your BPAY reference number or unique entitlement reference number is quoted, as per the instructions in Section 3. If you fail to quote your BPAY reference number or unique entitlement reference number correctly, Automic Group may be unable to allocate or refund your payment. If you need assistance, please contact Automic Group.

Payment by BPAY: You can make a payment via BPAY if you are the holder of an account with an Australian financial institution that supports BPAY transactions. To BPAY this payment via internet or telephone banking use your CRN on this Entitlement and Acceptance Form. Multiple acceptances must be paid separately.

Payment by EFT: You can make a payment via Electronic Funds Transfer (EFT). Multiple acceptances must be paid separately. Please use your unique entitlement reference number on this Entitlement and Acceptance Form. This will ensure your payment is processed correctly to your application electronically.

Applicants should be aware of Automic's financial institution's cut off-time, their own financial institution's cut-off time and associated fees with processing a funds transfer. It is the Applicant's responsibility to ensure funds are submitted correctly by the Closing Date and time, including taking into account any delay that may occur as a result of payments being made after 5.00pm (AEST) and/or on a day that is not a business day (payment must be made to be processed overnight). You do not need to return this Entitlement and Acceptance Form if you have made payment via BPAY or EFT. Your BPAY reference number or unique entitlement reference number will process your payment to your application electronically and you will be deemed to have applied for such Shares for which you have paid.

4 Elect to receive communications electronically

As a valued shareholder, the Company encourages shareholders to elect to receive their shareholder communications electronically. This will ensure you receive all future important shareholder communications in a faster and more secure way and reduce the environmental footprint of printing and mailing.
