Domacom Fund Reopens

- **DomaCom Fund reopens after closure since July 2024**
- **Resumption of inflows and sub-fund launches**
- **Positions Assetora for significant revenue growth**

Assetora Limited (ASX: AOH) is pleased to announce that the DomaCom Fund (ARSN 167 020 626) has formally reopened for new business, following the suspension of inflows and new sub-fund launches since July 2024. This marks a pivotal milestone in Assetora's strategic growth plan, enabling the Company to scale revenue and broaden its investment offerings.

The reopening allows Assetora to resume onboarding new investors and launching sub-funds across its pipeline of real estate, private credit, health technology, and alternative asset opportunities. These new inflows are expected to significantly enhance recurring management revenues and position the Company for sustained, long-term growth.

Strategic Significance

The ability to originate and launch new sub-funds within the DomaCom Fund is a core driver of Assetora's business model. The reinstatement of this capability removes a key operational constraint, aligning with the Company's broader strategic objective of building a diversified and scalable investment platform.

Chairman of Assetora, Giuseppe Porcelli, commented:

"The reopening of the DomaCom Fund is a turning point for Assetora. It restores our capacity to execute on a substantial pipeline of opportunities and deliver on our growth ambitions. This is not simply about resuming business — it is about unlocking the next phase of our evolution as a fund manager, with a sharper focus on delivering sustainable value to our investors and shareholders."

Looking Ahead

With a robust operational framework in place and the removal of restrictions on new business, Assetora is now positioned to accelerate the rollout of its investment pipeline. The Company remains focused on maintaining disciplined governance, strengthening compliance and operational efficiency, and delivering consistent performance for unitholders.
