Disclaimer

The material in this presentation has been prepared by SEEK Limited ABN 46 080 075 314 (“SEEK”).

Presentation

Includes general background information about SEEK’s activities, current as at the date of this presentation. The information is given in summary form and does not purport to be complete. The presentation is to be read alongside SEEK’s announcement lodged with the ASX on the same day.

Forward-looking statements

This presentation contains forward-looking statements, including opinions, estimates and indications of, and guidance on, future earnings and financial position and performance. While these forward-looking statements reflect SEEK’s expectations and assumptions at the date of this presentation, they are provided as a general guide only and are not guarantees or predictions of future performance or statements of fact. SEEK believes the forward-looking statements have a reasonable basis at the date of this presentation, but acknowledges that they involve known and unknown risks, uncertainties and other factors, many of which are beyond the control of SEEK, which may cause actual outcomes and developments to differ materially from those expressed or implied in the forward-looking statements.

Forward-looking statements provided in this presentation are based on assumptions and contingencies, including those set out on pages 32-33 and 37. Other factors which may affect SEEK’s outcomes and developments also include: general economic conditions in the markets in which SEEK operates; competition in the markets in which SEEK operates; the continuing growth in the markets in which SEEK operates; the implications of regulatory risks in the businesses of SEEK; technological changes taking place in SEEK’s industry; future changes to SEEK’s products and services; the risk of cyber and data security issues; the geopolitical environment (including impacts of actions and trade controls and broader supply chain impacts) and exchange rates.

The accuracy of SEEK’s greenhouse gas emissions data and other metrics may be impacted by various factors, including inconsistent data availability, a lack of common definitions and standards for reporting climate-related information, quality of historical

emissions data, reliance on assumptions and changes in market practice. These factors may impact SEEK’s ability to meet commitments and targets or cause SEEK’s results to differ materially from those expressed or implied in this presentation.

Readers should not place undue reliance on the forward-looking statements, and past performance cannot be relied on as a guide to future performance. To the maximum extent permitted by law, SEEK makes no representation, assurance or guarantee in connection with, and disclaims all responsibility for, the accuracy, completeness or likelihood of fulfilment of any forward-looking statement, any outcome expressed or implied in any forward-looking statement or any assumptions on which a forward-looking statement is based. Except as required by applicable laws or regulations, SEEK does not undertake to publicly update or review any forward-looking statements, whether as a result of new information or future events.

Non-IFRS financial information

This presentation includes certain non-IFRS financial measures. These measures include “Adjusted Profit”, “total expenditure”, “EBITDA”, and “significant items”. These measures are used internally by management to assess the performance of SEEK’s controlled entities, associates and joint ventures, and to make decisions on the allocation of resources and assess operational management.

Non-IFRS measures have not been subject to review or audit and should not be considered as alternatives to an IFRS measure of profitability, financial performance or liquidity.

Refer to SEEK’s Appendix 4E and Statutory Accounts for the year ended 30 June 2025 for IFRS financial information that is presented in accordance with all relevant accounting standards.

Amounts quoted in this presentation are in Australian dollars.

All information is current at 30 June 2025 (“FY25”). All growth rate comparisons are 30 June 2025 vs 30 June 2024 (“pcp”) unless otherwise specified.

Revenue presentation

Following SEEK’s reacquisition of Sidekicker on 30 May 2025, SEEK now reports both Sales revenue and Net revenue. Net revenue represents Sales revenue less Sidekicker’s contingent labour fulfilment costs and is considered by SEEK to be the key revenue metric. “Revenue” in this presentation refers to Net revenue unless specified. There is no change to pcp reported results.

See page 39 for definitions of terms used in this presentation.

SEEK acknowledges the Traditional Custodians of the lands on which it operates. We extend this acknowledgement to all First Nations peoples across the Asia Pacific region in which SEEK is proud to operate.

We pay respects to their rich cultures, to Elders past and present, and the continuing custodianship of the land, waterways and community on which we all rely.

We recognise the ongoing contribution of First Nations peoples to the diverse communities in which we belong.

The gum leaf represents a symbol of welcome and it acknowledges the diverse countries¹, environments and communities.

***Update to revenue disclosure:** Following SEEK's reacquisition of Sidekicker on 30 May 2025, SEEK now reports both Sales revenue and Net revenue. Net revenue represents Sales revenue less Sidekicker's contingent labour fulfilment costs and is considered by SEEK to be the key revenue metric. "Revenue" in this presentation refers to Net revenue unless specified. The results above reflect one month of Sidekicker operations. Refer page 36 for reconciliation to FY25 guidance.

Strategic delivery

Delivery against strategic objectives is continuing

Growing placements

ANZ placement share higher; Asia highest in recent history¹

- **Higher candidate engagement** through personalised recommendations
- **More suitable applications** supported by AI-driven matching
- **Increased hirer confidence** through verification of candidate identity using SEEK Pass

Growing yield

Double digit paid ad yield growth

- **Variable pricing** across all markets
- **Upgraded ad tiers** launched in ANZ with AI-driven high-fit targeting, new Advanced ad and ad enhancements
- **Freemium model** rollout in Asia, differentiating the performance and value of paid ads

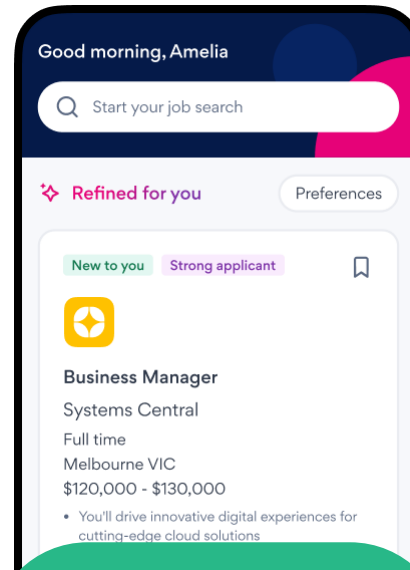

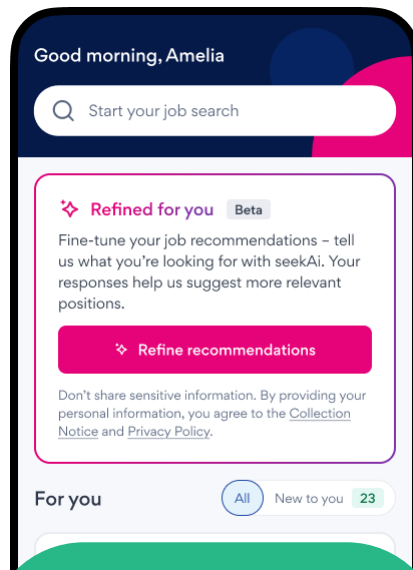

Operating leverage

Operating leverage and free cash flow growth

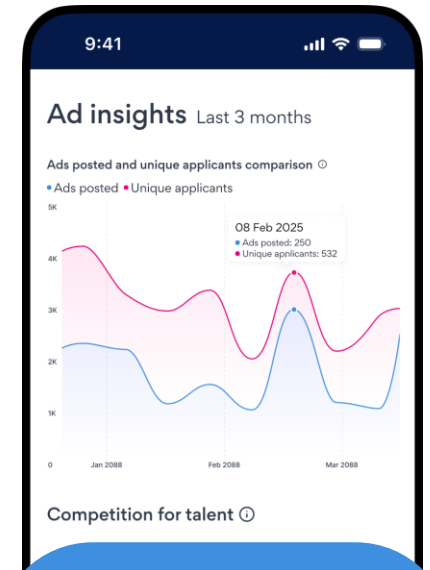

- **Investment prioritisation** of AI, data and trust initiatives, funded in part by run-the-business efficiencies
- **Platform Unification benefit realisation** enabling total expenditure reduction following program completion in FY24
- **Efficiencies realised** through post-unification APAC structure

AI capability and market scale are combining to improve marketplace effectiveness

Candidate

Upgraded ad tiers offer hirers more performance and choice than ever before

Estimated views	1x	1.5x	2.5x
Total applications	20	50	80
High-fit applications	5	15	30

Job ads

NEW

Lite

Find candidates with lower priority

Basic

For non-urgent, entry level roles

NEW

Advanced

Enhanced targeting for more high-fit candidates

Premium

Top performing ad for critical and hard-to-fill roles

AI-driven targeting

Higher-yielding ads offer exclusive value such as targeting to high-fit candidates, drawing on the combination of data scale and continuous investment in AI capability

Premium ads attract **54% more high-fit applications** than Basic ads¹

Clearer performance expectations

Upgraded ad tiers clearly communicate estimated performance and value to hirers, **driving depth adoption**

Premium ads deliver **2.5x more views** than Basic ads on average¹

New Advanced ad

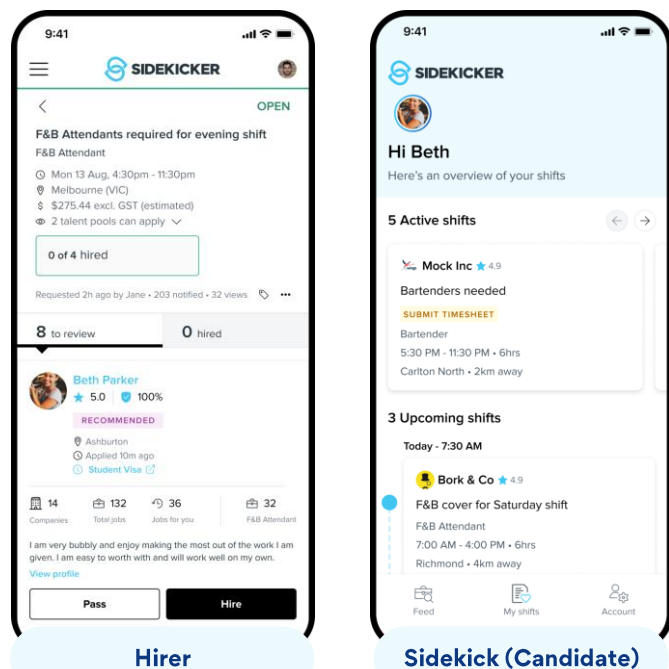

A **new ad type**, priced between Basic and Premium, offers hirers a balance of choice, greater exposure, and enhanced targeting—**now live in six of eight markets**

15% Advanced ad penetration in Australia¹

Sidekicker reacquisition enables growth into on-demand staffing

About Sidekicker

Sidekicker provides on-demand labour to businesses across a range of industries, such as hospitality, events, retail, customer service, aged care and warehouse and logistics

Sidekicker proposition

Sidekicker was a seed asset and incubated by the Fund, with SEEK having pre-emptive reacquisition rights. SEEK acquired 100% in May 2025, reacquiring the Fund's 88% stake and buying minority shares, at a total valuation of \$70.8m. SEEK incurred a net cash outflow of \$16.8m in FY25 after receiving the Fund's distribution of sale proceeds

Large
addressable
market

Contingent labour market represents a ~\$1.1bn revenue pool in ANZ¹, characterised by a fragmented competitive landscape

Marketplace
scale

Sidekicker has significant scale, serving over 20,000 on-demand workers and over 1,500 companies

Automation
opportunity

Increasing digitisation, self-service and automation benefit end-to-end platform propositions like Sidekicker

SEEK
synergies

Reacquisition allows SEEK to unlock latent SME demand through its distribution channels and strong brand

3. Basic ad was previously called Classic ad; Advanced ad was launched in FY25 with penetration at 15% in July 2025.

4. Customer mix, which was largely stable vs pcp, has been included in the appendix. Refer to metrics details (E) on page 38.

ANZ ad volume decline stabilised; candidate engagement grew

- Australia and New Zealand ad volumes were down 10% and 19% vs pcp respectively; the decline in volumes in both markets stabilised in H2 with absolute ANZ volumes in line with H1
- Candidate visits continued to rise, supported by more personalised experiences and improved targeting enabled by AI
- Applications per ad continued trending higher due to increased candidate engagement, even as ad volumes stabilised in recent months

3. Advanced ad was launched in Indonesia, Singapore and the Philippines in FY25 with penetration at 6% in July 2025.

Total ad volumes and hirers in Asia grew; candidate visits reached record levels

- Freemium delivered an increase in total ads (Lite and paid) and new hirers, with more than 30% growth in active hirers across the emerging markets
- Paid ad volume declined due to macroeconomic conditions, particularly in Hong Kong, and freemium impacts in the emerging markets, which more than offset growth in Malaysia
- Candidate visits reached record levels, underpinned by AI-driven targeting, consolidation of Jobstreet websites and marketing initiatives that boosted traffic

Monthly unique visitors

Monthly ad volumes and unique hirers¹ ('000s)

Revenue from emerging Asia markets returned to pre-freemium levels

Phase 0:

Evaluate and plan for launch

Phase 1:

Freemium launch

Phase 2:

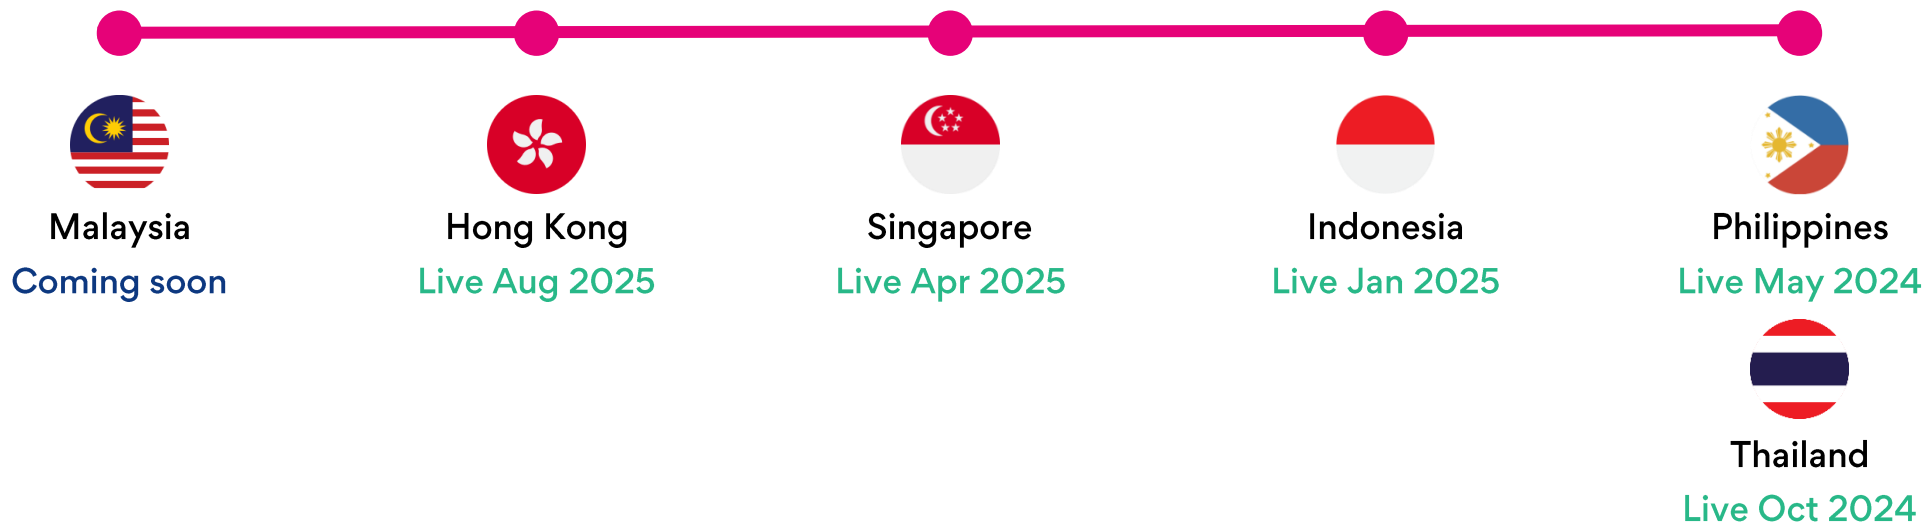

Deliver ad scale and manage revenue transition (~10% spin down at each launch)

Phase 3:

Offset revenue spin down (6-12 months)

Phase 4:

Deliver revenue growth through hirer acquisition and pricing to value

Freemium and benefits of the unified platform drove placements and supported yield

Growing placements¹

1. Following the Sidekicker reacquisition, SEEK now reports both Sales revenue and Net revenue. Net revenue represents Sales revenue less Sidekicker's contingent labour fulfilment costs and is considered by SEEK to be the key revenue metric. The results for FY25 reflect one month of Sidekicker operations. Refer page 36 for reconciliation to original guidance.

Costs grew slower than revenue despite ongoing investment in competitive foundations

Total expenditure (\$m)

- **Opex up 3%** driven by:
 - FX and inflationary impacts; and
 - a review of activity allocations in FY25 which resulted in a movement from capex to opex of \$11m vs pcp; partially offset by
 - roll-off of Platform Unification costs following completion in FY24
- **Capex down 19%** driven by:
 - roll-off of Platform Unification costs;
 - a movement from capex to opex of \$11m;
 - prior year office fit-outs in the Philippines and Indonesia; and
 - operating efficiencies which funded increased investment in AI, data and trust initiatives

Revenue up 5% vs total expenditure up 3% in H2 25 vs H2 24

FY25 RESULT: ADJUSTED PROFIT

Adjusted profit was impacted by lower EBITDA and higher D&A

- **Higher revenue** as yield growth offset lower job ad volumes
- **Higher opex** driven by FX and inflationary impacts, and movement of costs from capex to opex
- **Higher depreciation and amortisation** driven by completion of Platform Unification during FY24
- **Lower tax expense** due to reduction in earnings

Operating leverage increased free cash flow

Other investing and financing	(3.0)	(4.5)	1.5
Total cashflows from Continuing Operations	(54.2)	(54.5)	0.3

- Free cash flow of \$203m was 41% higher (up \$59m) due to:
 - a \$20m increase in operating cash flow, supported by an improvement in the cash conversion ratio which primarily reflected the timing of supplier payments; and
 - a \$39m reduction in cash capex, primarily due to the completion of Platform Unification
- Distributions received from the Fund (net of Sidekicker reacquisition) were used to repay debt

Distributions from the Fund reduced drawn debt

Consolidated net leverage ratio	2.1x	2.2x ¹	

Debt maturity profile at 30 June 2025 (A\$m)

- Net leverage ratio was lower vs pcg; well under SEEK's target of below 2.5x
 - Distributions from the Fund were used to reduce drawn debt
- Total facilities were A\$1,695m with A\$597m undrawn
 - Currency rebalance of debt was completed in H1 25 by converting the US\$275m term loan to A\$450m
 - The Sidekicker trade finance facility added A\$6m drawn debt to the FY26 maturity profile. The facility will terminate in September 25, replaced by SEEK's existing facilities
- The facilities are floating rate; approximately 70% of drawn debt is converted to fixed rate through hedging instruments

1. The FY24 results presentation included the Borrower Group net leverage at 2.4x. The Borrower Group includes SEEK Limited and all subsidiaries in which its ownership is at least 90%. For the purposes of covenant compliance, Borrower Group ratios are used which differ slightly to the consolidated ratios.
 2. FY26 debt maturity includes \$6m drawn and \$1m undrawn for Sidekicker's trade finance facility.

Total portfolio value ROI is 32%; up 7% in FY25

The Fund's FY25 performance

- The Fund's total portfolio value (portfolio valuation including distributions) was up 7% in FY25 to \$2,269m (FY24: \$2,123m) driven by:
 - the partial sell down of Employment Hero at a premium to the Fund's FY24 carrying value;
 - smaller realisations at a premium to FY24 carrying value; and
 - uplift in HR SaaS valuations due to transaction activity
- 80% of the portfolio valuation resides in Employment Hero, Go1, Hibob and OES (FY24: 78%)

The Fund's performance since creation

- Achieved ROI of 32% (IRR¹ of 9%)
- Gain on invested capital was largely driven by valuation increases in Hibob and Employment Hero (supported by external funding rounds), and Alura and Utel (driven by online demand)
- Distributions of \$198m represent 11% of invested capital (includes sale proceeds from Employment Hero and Sidekicker in FY25)

\$m	100% basis		SEEK share ²

SEEK's share of the Fund

- Share of total portfolio value is \$1,902m
- Received \$153m in distributions in FY25, bringing total distributions since creation to \$166m
- Share of carried interest liability decreased to \$1m (FY24: \$15m)

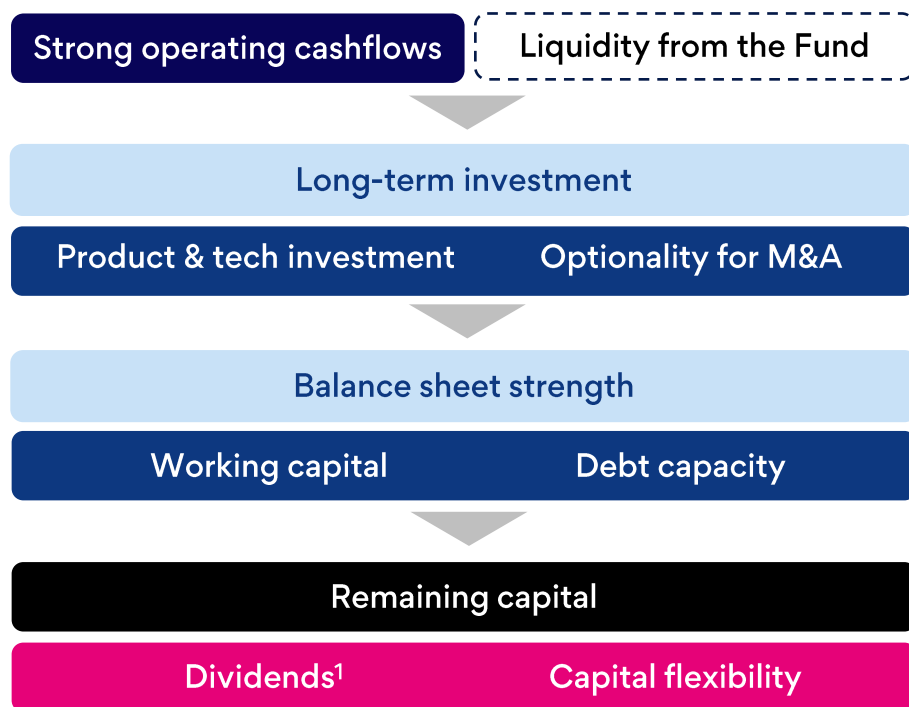

Refer pages 41-43 for further detail on the Fund.

1. Refer to metrics details (K) on page 38.

2. SEEK's share is determined on a unit holder basis and differs slightly to SEEK's 83.8% legal ownership of the Fund used for equity accounting.

3. The FY25 amount comprises \$499m capital called and \$8m short-term advance. SEEK's capital contribution in FY25 was \$17m which related to prior committed capital. SEEK share of uncalled committed capital is \$34m.

Approach towards capital management remained unchanged

- **Liquidity from the Fund:** SEEK received \$153m in cash distributions from the Fund in FY25 (or \$107m excluding Sidekicker proceeds), primarily from the Fund's partial sell-down of its Employment Hero stake in March 2025
- **Further liquidity from the Fund:** The Fund will open a liquidity window in the 2026 calendar year, following which the Fund must use reasonable endeavours to fulfil a liquidity request within 12 to 24 months²
- **Product and technology investment:** investment was prioritised towards AI, data and trust initiatives
- **Optionality for M&A:** SEEK incurred a net cash outflow of \$17m for the reacquisition of Sidekicker (resulting in an Sidekicker valuation of \$71m)
- **Debt capacity:** remaining distributions from the Fund in FY25 were used to reduce drawn debt
- **Dividends:** remaining capital from operating cashflows was used to pay cash to shareholders

Measurable progress made on key sustainability programs

FY25 highlights

Social impact

Achieved placement leadership in APAC helping deliver on SEEK's purpose

Human rights

Automatically scanned 100% of direct and indirect job ads for fair hiring risks

Data & cybersecurity

Completed multi-year Privacy and Cybersecurity remediation programs and responsible AI reviews

People

Maintained 50% gender diversity across the workforce

Environment

Achieved SEEK's FY25 target to reduce scope 1, 2 and 3 emissions by 40% from a FY22 baseline. Revised net zero emissions reduction target

Responsible business

Strengthened governance foundations through improvements in internal controls and compliance programs

Outlook

OUTLOOK

Growth foundations in place

Market leadership

Leading brand metrics and marketplace scale across APAC

Platform and innovation

Scalable platform enabling faster innovation through more efficient product delivery

AI and data

Differentiated AI capability due to scale of customer base, job-seeking data and local market presence

Balance sheet flexibility

Operating cash flows, returns from the Fund and sustainable debt levels enabling strategic investment and dividends

OUTLOOK

Strategic focus to strengthen SEEK's leadership

FY28 revenue aspiration will no longer be reported on, to focus on controllable strategic outcomes rather than macroeconomic forecasting

As previously noted, SEEK's \$2bn by FY28 aspirational revenue opportunity, first provided in April 2023, was not guidance nor a prediction of a future matter, and was subject to risks and uncertainties, including macroeconomic conditions and events beyond SEEK's control. Given the weakened macroeconomic environment since that time, SEEK has reassessed this aspiration. Medium-term illustrative revenue scenarios, cost and margin outcomes based on SEEK delivering the controllable levers above are provided on page 37.

OUTLOOK

FY26 guidance

	FY25	FY26 guidance (approximate)
Net revenue	\$1,090m	\$1.15bn – \$1.25bn
Total expenditure	\$761m	\$810m – \$840m
EBITDA	\$459m	\$510m – \$550m
Adjusted Profit	\$155m	\$190m – \$220m

For illustration, delivery of the mid points of these FY26 guidance ranges would result in the following growth rates vs FY25:

- 10% revenue
- 8% total expenditure
- 15% EBITDA
- 32% Adjusted Profit

FY26 key revenue and expenditure assumptions

- **Revenue assumptions** for the full financial year, which may be subject to fluctuations, are:
 - **ANZ:** revenue growth vs pcg driven by approximate 10% growth in yield, reflecting high-teens growth in H1 vs pcg before moderating in H2. Guidance assumes a base case of largely stable volumes through the year
 - In Australia, monetary policy easing should support economic activity but take time to benefit the labour market, with unemployment still expected to rise slightly and employment growth to slow
 - Each 1% change in ANZ volumes vs pcg impacts group revenue by approximately \$8m
 - **Asia:** mid-single digit revenue growth vs pcg, comprising double digit growth in the emerging markets and stable revenue in the developed markets as freemium impacts are managed
 - Ongoing economic uncertainty will weigh on near-term hiring activity
- **Total expenditure** range of approximately \$810m to \$840m will vary depending on revenue outcomes:
 - Opex: approximately \$655m to \$685m
 - Capex: approximately \$145m to \$165m
 - Capex increase directed towards “grow the business” investment in product innovation, AI, data and trust. Opex and capex ranges allow for changes in total allocation between opex and capex based on activity performed throughout the year
- Guidance includes a full year of Sidekicker operations

Other FY26 assumptions

- Depreciation and amortisation: approximately \$155m to \$165m

SEEK Growth Fund

- Refer to page 41

Significant items

- \$6.0m impairment following the cessation of Jobstreet Express and SEEK Recruiter Network; and
- \$0.6m of transaction costs associated with the terminated scheme of arrangement with Xref Limited; offset by
- \$2.0m tax benefit related to the above items

FY25: Discontinued Operations

Significant items

- \$2.5m tax adjustment related to after-tax gain on the sell down of SEEK's controlling interest in Zhaopin in FY21; offset by
- \$0.5m tax adjustment related to the after-tax loss on the LatAm sale in FY24

Financial impact of Sidekicker reacquisition

Transaction overview

- SEEK completed the 100% acquisition of Sidekicker on 30 May 2025, by acquiring the Fund's 88% stake plus remaining minority shares. Prior to the acquisition, SEEK had 'look through' ownership of ~74%
- The reacquisition valued Sidekicker at \$70.8m
 - SEEK incurred a net cash outflow in FY25 of \$16.8m
 - SEEK will pay \$7.1m of contingent consideration in FY26 gross of any distributions from the Fund

Reconciliation of the Sidekicker reacquisition impact on SEEK's FY25 result against prior guidance

\$m	FY25					
	SEEK's reported result	Sidekicker (one month) ¹	SEEK excluding Sidekicker	Guidance update on 21 May 2025 (excludes Sidekicker)

Adjusted Profit	155.2	(0.5)	155.7	135 – 160	Top half of range	

Like-for-like basis

1. Sidekicker was reacquired by SEEK on 30 May 2025. SEEK's FY25 result includes one month of Sidekicker operations, which is not necessarily representative of Sidekicker's annual financial performance.

Illustrative revenue and operating leverage scenarios over the medium term

Illustrative EBITDA margin outcomes					
Volume scenario		Yield growth p.a.		Cost growth p.a.	Margin
Unchanged from FY25	+	High single digit	+	Mid single digit	= ~50%
Return to FY23 levels	+	High single digit	+	High single digit	= ~55%

The illustrative revenue scenarios, cost and margin outcomes are not guidance nor a prediction of a future matter. These are provided as a one-time example of potential outcomes under different conditions beyond SEEK's control, including macroeconomic conditions and the geopolitical environment. For illustrative purposes, the revenue scenarios portray linear growth to achieve the volume scenarios, though we expect actual growth to follow a non-linear growth pattern. Scenarios are based on SEEK's assumptions, including adjustments for structural changes in SEEK's volumes.

Metrics

A	Placement share and brand awareness (Australian and Asia)	<p>Source: Independent research conducted on behalf of SEEK in Australia and Asia. Represents six months of recent survey results and reflects SEEK and Jora</p> <p>Placement survey is based on respondents who changed/started jobs in the last 12 months</p> <p>Australia: SEEK (34.9%), professional networks (9%), aggregators (5%), social networks (4%), online classifieds (1%), other online (13%), offline (33%)</p> <p>Asia: SEEK 26.2% has been weighted based on revenue contribution</p> <ul style="list-style-type: none"> - Developed markets (Hong Kong, Malaysia, Singapore): 29% SEEK placement share - Emerging markets (Indonesia, Thailand, Philippines): 21% SEEK placement share <p>Brand awareness represents unprompted brand awareness</p>
B	Product delivery statistics	Source: SEEK data
C	ANZ contingent labour market revenue pool	Source: SEEK analysis, based on ABS labour hire income data ('Jobs and Incomes of Employed Persons'), adjusted with proprietary market intelligence on geographic and income distribution and typical provider fee rates and management ratios
D	Yield growth rate	Yield growth rates calculated on a constant currency basis. Other revenue metrics disclosed based on reported currency
E	ANZ customer mix	Core job ads customer mix for FY25: SMEs – 42%, Corporates – 26%, Recruiters 22%, Government 10%. The customer mix has not been a major driver of yield in recent periods and accordingly will not be reported in future periods. For completeness, the allocation between SMEs and Corporates is being reviewed under new definitions, though this will not impact the recruiter mix or prior yield and financial disclosures
F	Monthly paid ad volumes	Paid ad volumes differs to the SEEK Employment Index (SEI) due to factors including seasonality adjustments and treatment of duplicate ads applied to the SEI
G	Applications per ad (Australia)	Applications per ad are seasonally adjusted; index 2013 = 100; reported with a one-month lag
H	Asia revenue	Asia revenue for FY25 comprises revenue from developed markets of \$174m (pcp: \$175m) and emerging markets of \$72m (pcp: \$69m)
I	Monthly ad volumes and unique hirers (Asia)	Total ad volumes includes Lite ads from the Philippines, Thailand, Indonesia and Singapore since launch of the new freemium model; excludes aggregated ads. Unique hirers represents hirers posting Lite and paid ads
J	Applications per paid ad (Asia)	Applications per ad index 2019 = 100
K	IRR	IRR (Internal Rate of Return) for the Fund is calculated based on total portfolio value. This does not represent an IRR on a unit holder basis and does not consider the provision of carried interest and fees

Definitions

APAC	SEEK's eight markets in Asia Pacific (Australia, New Zealand, Hong Kong, Malaysia, Singapore, Indonesia, Thailand and the Philippines)
Adjusted Profit/(Loss)	Reported Profit/(Loss) excluding the results from SEEK's interest in the Fund and significant items
Capex	Capital expenditure for intangibles and property, plant and equipment
Carried interest liability	Carried interest is a performance fee for the managing entity of the Fund. SEEK's share of carried interest, which varies per class of units, is subject to the Fund meeting required hurdles and conditions. The amount payable will depend on the performance from the creation of the Fund until the five-year anniversary in 2026
Cash Profit less capex	In the context of SEEK's dividend policy, Cash Profit less capex is defined as: Adjusted Profit plus or minus (+/-) depreciation and amortisation, share-based payments, share of associates, dividends received, fair value accounting adjustments and committed capex
Constant currency growth	Calculated based on translating current year data using prior year exchange rates
CPS	Cents per share
Depth adoption	Depth ads (including the Advanced ad, Premium ad, ad enhancements, and others) sold as a portion of total job ads sold
Developed markets – Asia	Hong Kong, Malaysia and Singapore
EBITDA	Earnings before interest, tax, depreciation and amortisation
Emerging markets – Asia	Indonesia, Thailand and the Philippines
ESV 'look-through' revenue	Early-stage ventures 'look-through' revenue represents net revenue of investments multiplied by the Fund's diluted ownership interest and calculated on a constant currency basis. Where applicable, growth rates are adjusted for acquisitions to allow comparison between periods
Free cash flow	Net cash from operating cash flows less cash outflows for capex
Lite ad	Free ads available in select markets as part of the freemium model in Asia
Net revenue	Sales revenue less Sidekicker's contingent labour fulfilment costs
Net debt	Borrowings less cash and short-term investments
Opex	Operating expenses
Placements	The matching of people (candidates) with organisations (hirers). Placement share represents SEEK's share of placements of the overall market
Platform Unification	Three-year business transformation program completed in FY24 to unify SEEK's core online marketplace platforms in ANZ and Asia. The program also involved the implementation of a enterprise resource planning system (Workday) and a customer relationship management system (Salesforce)
Reported Profit/(Loss)	Profit/(loss) after tax attributable to the owners of SEEK Limited, prepared in accordance with the <i>Corporations Act 2001 (Cth)</i> and the Australian Accounting Standards, which comply with the International Financial Reporting Standards
Sales revenue	Total income arising in the course of SEEK's ordinary activities, as defined by the International Financial Reporting Standards
Significant items	Comprises material non-recurring items. Management's view is that the exclusion of these items assists with presenting more meaningful financial information
Total expenditure	Comprises opex and capex. Capex is not included in Adjusted Profit
Total portfolio value	Total portfolio value equals the Fund's portfolio valuation plus distributions since creation
The Fund	SEEK Growth Fund
Unique visitor	Total number of distinct users who have interacted with a SEEK platform
Volumes	The number of job ads posted on platform
Yield (paid ad yield)	Revenue from core job ads and ad enhancements divided by the number of paid job ads. This excludes the impact of the freemium model in Asia and there is no change to the historical methodology. Reference to yield in this presentation refers to paid ad yield unless specified

\$m	FY25	FY24	Growth %
Share of associates (P&L)	6.6	2.8	136%

- Despite a 13% decline in revenue, driven by macroeconomic conditions, the wind-down of certain low-margin offline revenue streams and competitive pressures, EBITDA increased by 1% due to operational efficiencies across online and offline businesses
- SEEK's share of associates earnings benefited from lower D&A and ceased purchase price allocation amortisation in FY24
- The investment carrying value increased by \$18.7m, with \$12.3m due to FX movements (RMB to AUD). A corresponding decrease is recorded in SEEK's foreign currency translation reserve

1. SEEK's unitholder share of uncalled committed capital is \$34.0m (pcp \$50.8m).
 2. Excludes unitholder interests in the Fund which are recorded as a financial liability by SEEK.
