Principal activities

The Group offers an integrated platform that enables businesses across the supply chain to sell better and get paid faster. Spenda is both a software solutions provider and a payment processor, delivering the essential infrastructure to streamline processes before and after the payment event.

The payments solution has two components – Software, Payments and Lending – and enables end to end e-invoicing integration, rapid ordering, digital trust and automated reconciliation. Spenda creates an industry standard operating environment ('SoE') that enables the effective and seamless transfer of data from multiple, disparate software systems in one standardised technology solution. Spenda provides the services of five vendors into one solution with end-to-end software and supply integration as well as ledger-to-ledger integration to improve operational efficiency for all trading parties in the supply chain.

Spenda captures transactions and payments through the value chain, generating layered revenue streams from SaaS, both B2B and B2C payments and B2B supply chain finance. Spenda's ability to analyse and understand payment flows throughout these networks enables the Company to offer customised financing solutions to clients, to improve their working capital efficiency and cash utilisation throughout their operations.

Dividends

The Company did not pay any dividends during the 2025 financial year (2024: \$nil). The Directors do not recommend the payment of a dividend in respect to the 2025 financial year.

Review of results and operations

Results summary

Statutory net loss after income tax expense	(24,309,737)	(13,205,019)	(11,104,718)

Revenue for FY25 was \$11.1m compared to FY24 revenue of \$5.4m, representing an increase of \$5.7m or 106%. This increase was predominantly driven by the expansion of services provided to key strategic customers, the acquisition of Limepay Pty Ltd and new revenue streams generated through blending Software, Payments and Lending.

The statutory net loss after income tax expense for FY25 was \$24.3m (FY24: loss of \$13.2m). The FY24 results included the following non-cash items:

- \$13.8m impairment on goodwill and intangible assets;
- \$2.4m share-based payments expense;
- \$0.3m fair value adjustment through profit or loss;
- \$4.8m depreciation and amortisation expense; and
- \$0.3m borrowing costs.

Excluding the impact of accounting adjustments, the Company achieved substantial revenue growth with minimal increase in overhead expenses and intends to replicate this outcome in FY26.

Operations summary

In FY25, Spenda built on the foundations from the previous year to achieve long-term, sustainable revenue and earnings. In the past year, Spenda acquired Limepay Pty Ltd ('**Limepay**'), sold its invoice finance book to Grapple Fund Pty Ltd ('**Grapple**') and entered into a technology services agreement with APG Pay Pty Ltd ("**APG**") to develop and commercialise a closed loop corporate credit and payments platform. Additionally, the company continued to scale all product lines and increased payments volumes across the platform.

Spenda's One Platform Strategy

Across all partnerships, Spenda is focused on a **'One Platform'** strategy whereby Spenda's goal is to deliver a single integrated platform that streamlines business across the entire supply chain driving liquidity and payment. We do this by transforming the way businesses trade and get paid by automating workflow processes between and within a business, and improving the organisational visibility, efficiency and cash flow.

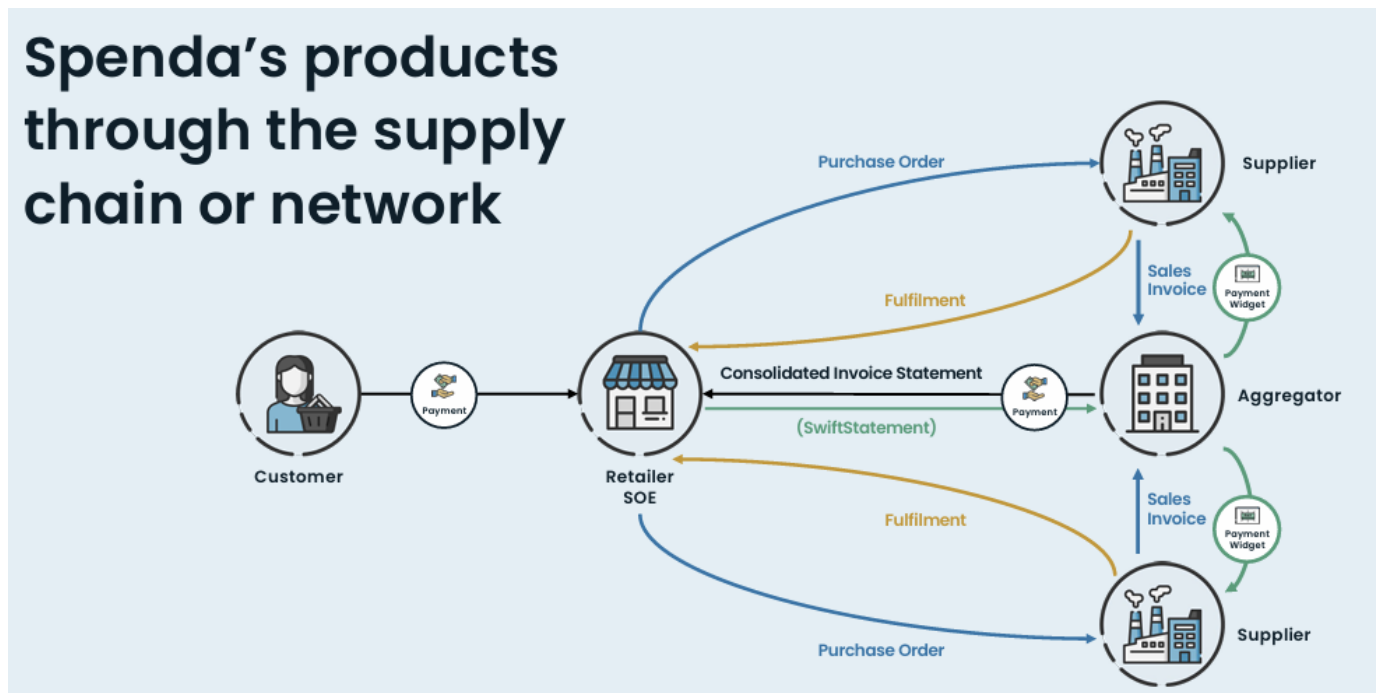

Figure 1. Spenda's One Platform Model

Spenda's strategy is to disintermediate supply chains and aggregator networks with an ecosystem that solves problems throughout the whole supply chain or network.

We do this by end to end digital workflow, with the system providing the quote, invoice payment and reconciliation. Additionally, all data is sync'd seamlessly through real time ledger to ledger integration. It also provides choice, with flexible finance options via embedded payment and credit choices. Finally, it provides a consolidated invoice statement (Swift Statement), which delivers the invoice, full reconciliation and payment all in one.

What this model does is provide business with faster payment flows, reduced operation and administrative costs, automates invoicing and reconciliation and provides enhanced financial insights.

Consistent quarterly growth in payments volume

Figure 2: Payments volumes on Spenda platform over past three financial years

Total payment volume on Spenda's platform was up 101% on pcp, from \$96m in FY23, \$250m in FY24 and \$363m in FY25 primarily due to increased volumes through the Carpet Court network and the acquisition of Limepay.

Significant changes in the state of affairs

During the financial year, the Company made a number of strategic initiatives to further refine its focus on key revenue drivers and bolster its service offerings to its customers.

As announced on July 2024, the Company signed a binding Share Sale Agreement ("**SSA**") to acquire 100% of the issued capital of Limepay Pty Ltd ("**Limepay**"), for up to \$8m, in an all-script transaction. The acquisition was completed on the 20th September 2024.

Additionally, the Company executed an asset sale agreement to sell its invoice financing portfolio to Grapple Fund Pty Ltd ("**Grapple**") for a consideration of \$2m, of which \$1.5m is deferred in 10 equal instalments to be paid no later than 1 year from completion date.

Lastly, the company entered into a working capital facility of \$3m with Capricorn Society Limited ("**Capricorn**"), repayable in quarterly equal instalments commencing April 2027.

Other than as referred to elsewhere in this report, there have been no other significant changes in the state of affairs.

Matters subsequent to the end of the financial year

On August 19th 2025, the Company entered into and drew down funding of a convertible note from Obsidian Global GP, LLC for a total of \$1.25M of a total facility limit of \$3.5M.

The terms of the note are as follows : -

- Maturity date of 2 years
- Face value of \$1.20 per note
- Issue of 100,000,000 placement shares with the investor given the right to buy these shares at a price equal to 90% of the average of the lowest 3 daily VWAP during 15 actual trading days prior.

Apart from the above, no material matters occurred subsequent to the end of the financial year.

Note 4 Income tax

The Company has not recognised any deferred tax assets or liabilities in respect to the current year (2024: \$nil).

At 30 June 2025, the net deferred tax assets have not been brought to account as realisation is not currently regarded as probable. Deferred tax assets on losses will only be available for recoupment if:

- (i) The Company derives future assessable income of a nature and of an amount sufficient to enable the benefits from the deduction for the losses to be realised; and
- (ii) The Company continues to comply with the conditions for deductibility imposed by the tax law.

Note 5 Loss per share

Basic loss per share is calculated by dividing net loss for the year attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year. The diluted loss per share is calculated by dividing the net loss attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

Share options are considered to be anti-dilutive.

¹ Spendax Cashflow Pty Ltd (“SCF”), a wholly owned subsidiary of the Company, holds 100% of the units on issue (being residual income and residual capital units) in a special purpose Australian law unit trust, called Spendax Cash Flow Trust 1 (“SCFT1”).

Restricted cash of \$5,439,920 relates to monies held by SCFT1 as at 30 June 2024 for use with its Invoice Finance clients. These monies are not available for use by the Group for purposes other than invoice financing. During the year as disclosed in note 4, the Company sold its invoice financing portfolio. Hence no restricted cash of this nature is held at 30 June 2025.

² Limepay Pty Ltd (“Limepay”), a wholly owned subsidiary of the Company holds monies to be sent on to merchant customers. These monies are not available for use by the Group for purposes other than merchant services, with the exception of historic profits that are held within this reserve. For the total payable balance as at 30 June 2025, refer to note 15.

(a) Software development costs

Software development costs relate to various forms of Intellectual Property, collectively referred to as the Spendu Product Suite. It comprises of customised applications that integrate data using cloud enabled technologies, payments infrastructure and various other technologies.

(b) Goodwill

Goodwill represents other intangible assets of the business not explicitly recognised on the statement of financial position and includes assembled workforce, technical expertise, distribution channels, customer service capability, product and service support and geographic presence. It will not be deductible for tax purposes. The Group tests whether goodwill has suffered any impairment on an annual basis. Goodwill on ASG relates to the goodwill acquired on the acquisition of Appstablishment Software Group Pty Ltd ('ASG') and Limepay Pty Ltd ('Limepay') and is allocated to the SaaS and payments CGU. Goodwill on Invigo relates to the goodwill acquired on the acquisition of Invigo Pty Ltd and is allocated to the lending CGU.

Assessment of Impairment

The Group is required to assess the recoverable value for the goodwill that has arisen on the acquisition of Appstablishment Software Group ('**ASG**'), Limepay Pty Ltd ('**Limepay**') and Invigo Pty Ltd ('**Invigo**'). In combination, the Company has identified two separate Cash Generating Units ('CGU'). The ASG & Limepay goodwill balance is in the SaaS and Payments CGU, which is distinguished by its cash flows derived from its software as a service and merchant payments income. The SaaS and payments CGU includes the goodwill of \$10,923,615 and intangible assets of \$12,447,893 at balance date that are tested for recovery.

The Invigo goodwill, software asset and customer list are included in the lending CGU, which is distinguished by its cash flows derived predominantly through loan interest income on lending products the Group offers. The lending CGU includes the goodwill of \$7,446,056 at balance date that are tested for recovery.

Impairment testing

SaaS and Payments CGU

The recoverable amount of the Group's goodwill and other intangibles has been determined by a value-in-use calculation using a discounted cash flow model, based on a 5-year projection period approved by management, together with a terminal value.

Key assumptions are those to which the recoverable amount of an asset or cash-generating units is most sensitive.

The following key assumptions were used in the discounted cash flow model for the SaaS and Payments CGU:

- 28% (2024: 25%) low pre-tax discount rate and 31% (2024: 28%) high pre-tax discount rate;
- 1.5% (2024: 1.5%) per annum projected long term revenue growth rate used in calculating the terminal value;
- 1.5% per annum increase in operating costs and overhead used in calculating the terminal value; and
- Growth rates of 91% in 2026, 129% in 2027, 4% in 2028, 4% in 2029, 4% in 2030 (2024: 281%, 160%, 4%, 4%, 4%).
- Cost of sales are forecast as a percentage of sales at 19% in 2026, 39% in 2027, 2028, 2029 and 2030 (2024: 44% & 49%)
- Overhead costs (largely being direct salary & wages) are forecast at \$3.8m in 2026, \$3.8m in 2027, \$3.9m in 2028, \$3.9m in 2029 and \$4m in 2030 (2024 : \$3.8m, \$3.8m, \$3.9m, \$3.9m and \$4m).

The discount rate reflects management's estimate of the time value of money and the Group's weighted average cost of capital, adjusted for the SaaS and payments division, the risk-free rate and the volatility of the share price relative to market movements.

Management believes the projected revenue growth rates are prudent and justified, based on the activity and its current deal flow. The significant growth rates in FY25 and FY26 relates to the provision of additional services to two key contracted customers of the group. After the implementation of these services, the forecast growth returns to steady state growth more aligned to long term average growth rate in the industries in which Spenda operates.

There were no other key assumptions for the SaaS and payments CGU.

During this analysis, it was identified that delays in contracted and forecast revenue had led to the recoverable amount exceeding the carrying amount of this CGU.

The directors have made judgments and estimates in respect of impairment testing of goodwill. Should these judgements and estimates not occur, further impairment may occur. An increase/(decrease) in the discount rate by 5% would lead to an increase/(decrease) in the impairment charge of \$1,626,960. An increase/(decrease) in revenue by 5% would lead to an increase/(decrease) in the impairment charge of \$1,945,625. The remaining recoverable amount of the CGU is \$8.4M.

Based on the above, an impairment charge of \$13,838,599 has been applied.

Lending CGU

The following key assumptions were used in the discounted cash flow model for the lending CGU:

- 26% (2024: 23%) low pre-tax discount rate and 31% (2024: 29%) high pre-tax discount rate;
- 5% (2024: 5%) per annum projected long term revenue growth rate used in calculating the terminal value; and
- 5% (2024: 5%) per annum increase in operating costs and overhead used in calculating the terminal value.
- Growth rates of 10% in 2026, 229% in 2027, 4% in 2028, 4% in 2029 and 4% in 2030 (2024: 110%, 137%, 4%, 4%, 4%).
- Cost of sales are forecast as a percentage of sales at 53.9% in 2026, 54.7% in 2027, 2028, 2029 and 2030 (2024 : 58% & 56%).
- Overhead costs (largely being direct salary & wages) are forecast at \$624k in 2026, \$654k in 2027, \$685k in 2028, \$717k in 2029 and \$751k in 2030. (2024: \$654k, \$654k, \$685k, \$717k & \$751k).

The discount rate reflects management's estimate of the time value of money and the Group's weighted average cost of capital adjusted for the lending division, the risk-free rate and the volatility of the share price relative to market movements.

Note 9 Intangible assets (continued)

Impairment testing (continued)

Management believes the projected revenue growth rate is prudent and justified, based on the activity and its current and projected deal flow. The significant growth rates in FY26 and FY27 are largely due to the key strategic relationship with APG (as noted in the review of results and operations) and the continued provision of these new services to prospective clients based on current deal flow and internal targets set.

There were no other key assumptions for the lending CGU.

The directors have made judgments and estimates in respect of impairment testing of goodwill. Should these judgements and estimates not occur, further impairment may occur. An increase/(decrease) in the discount rate by 5% would lead to an increase/(decrease) in recoverable amount of \$3,112,642. An increase/(decrease) in revenue by 5% would lead to an increase/(decrease) in the recoverable amount of \$2,172,711.

Based on the above, no impairment charge has been applied as the recoverable amount exceeded its carrying amount for the lending CGU.

Note 12 Segment reporting

The Group's operating segment is based on the internal reports that are reviewed and used by the Board of Directors (being the Chief Operating Decision Maker ('**CODM**')) in assessing performance and in determining the allocation of resources. The Group operates predominantly in the IT software, payments and non-bank lending industry sectors.

Segment	Principal Activities
SaaS and Payments	Provision of software as a service to business customers and merchant payment services.
Lending	Provision of lending services to business customers
Unallocated	Unallocated includes certain head office costs and costs not directly attributable to either segment.

Note 13 Business Combination

On 20 September 2024, Spenda acquired 100% of the ordinary share capital of Limepay Pty Ltd for a total up front consideration of \$2,049,587 by the issue of 204,958,678 ordinary shares and tranche 1 shares of 59,405,132. The company also agreed to deferred consideration of tranche 2 shares of \$2.4M on the Company achieving annual recurring revenue of \$4.8M or 3 months revenue of at least \$1.2M and tranche 3 shares of \$2.4M on the Company achieving annual recurring revenue of \$7.2M or 3 months revenue of at least \$1.8M. The goodwill of \$1,548,113 represents the expected synergies from merging the business with the existing payments infrastructure that Spenda currently operates within. The acquired business contributed revenue of \$3,318,550 to the Group for the period from 20 September 2024 to 30 June 2025 and net loss after tax of \$1,556,847. If the acquisition had occurred on 1 July, the total contribution to the Group would have been \$3,861,385 and a net loss after tax of \$2,941,501. The values identified in relation to the acquisition of Limepay Pty Ltd are final as at 30 June 2025. All transaction costs incurred were expensed (\$83,990).

In relation to the business acquisition, the consolidated entity has finalised the fair value of the assets and liabilities as at the date of the acquisition.
