

Orion Minerals

**BUILDING
TOMORROW'S
MINES TODAY**

Accelerating towards production

Africa Down Under Conference

Denis Waddell – Chairman

September 2025

Important Notices & Disclaimer

This presentation contains summary information about Orion Minerals Ltd and its subsidiaries (Orion or Company) and their activities and is current as of 1 September 2025. The information in this presentation is a general background and does not purport to be complete or provide all information that an investor should consider when making an investment decision. By reviewing or retaining these materials, or attending or participating in this presentation, you acknowledge and represent that you have read, understood and accepted the terms of this "Important Notices & Disclaimer".

No representation or warranty, express or implied, is provided by any of Orion, its related bodies corporate and affiliates and their officers, employees, agents, associates and advisers in relation to the accuracy, reliability or completeness of the information.

Statements in this presentation are made only as of the date of this presentation unless otherwise stated and the information in this presentation remains subject to change without notice. It should be read in conjunction with the Company's other periodic and continuous disclosure announcements lodged with the Australian Securities Exchange (ASX), which are available at www.asx.com.au and the Johannesburg Stock Exchange (JSE), which are available at www.jse.co.za.

Subject to law, Orion assumes no obligation and does not undertake to update, review or revise any information contained in this presentation, whether as a result of new information, future events or otherwise.

Certain statements contained in this presentation, including information as to the future financial or operating performance of Orion and its projects, may contain forward-looking statements. The words 'believe', 'expect', 'anticipate', 'indicate', 'contemplate', 'target', 'plan', 'intends', 'continue', 'budget', 'estimate', 'may', 'will', 'schedule' and similar expressions identify forward looking statements. Such forward-looking statements:

- are necessarily based upon a number of estimates and assumptions that, while considered reasonable by Orion Minerals Ltd, are inherently subject to significant

technical, business, economic, competitive, political and social uncertainties and contingencies;

- involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward-looking statements; and
- may include, among other things, statements regarding targets, estimates and assumptions in respect of metal production and prices, operating costs and results, capital expenditures, mineral reserves and mineral resources and anticipated grades and recovery rates, and are or may be based on assumptions and estimates related to future technical, economic, market, political, social and other conditions.

All forward-looking statements made in this presentation are qualified by the foregoing cautionary statements. Investors are cautioned that forward-looking statements are not guarantees of future performance and accordingly investors are cautioned not to put reliance on forward-looking statements due to the inherent uncertainty therein.

All information in respect of Exploration Results and other technical information should be read in conjunction with the relevant ASX announcements released by the Company (as referenced in the presentation). Orion is not aware of any new information or data that materially affects the information relating to Exploration Results included in the relevant Orion ASX releases.

Orion is not aware of any new information or data that materially affects the information for the Mineral Resource and confirms that all material assumptions and technical parameters underpinning the estimates in the relevant Orion ASX releases (as referenced in the presentation) continue to apply and have not materially changed.

Orion is not aware of any new information or data that materially affects the production target or forecast financial information

derived from the production target and confirms that all material assumptions underpinning the production target and the forecast financial information in the relevant Orion ASX release (Feasibility Studies published on 28 March 2025) continue to apply and have not materially changed.

Orion confirms that the form and context in which the Competent Person's findings are presented have not materially changed.

To the maximum extent permitted by law, Orion and each of its related bodies corporate and affiliates and their officers, employees, agents, associates and advisers:

- disclaim any obligations or undertaking to release any updates or revisions to the information to reflect any change in expectations or assumptions;
- do not make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of the information in this presentation, or likelihood of fulfilment of any forward looking statement or any event or results expressed or implied in any forward-looking statement; and
- disclaim all responsibility and liability for these forward looking statements (including, without limitation, liability for negligence).

Nothing contained in this presentation constitutes investment, financial, legal, tax or other advice. Recipients should not rely on the information provided as advice for investment or other purposes and the information does not take into account the investment objectives, financial situation or particular needs of any recipient. Before making an investment decision, each recipient of this presentation should make its own assessment and take independent professional advice in relation to the information and any action taken on the basis of this presentation.

Competent Person Statements

The information in this presentation that relates to Orion's Exploration Results is a compilation of previously released reports to the ASX by Orion Minerals and is based on information compiled by Mr Paul Matthews (Pr.Sci.Nat.), a Competent Person who is a member of the South African Council for Natural Scientific Professionals, a Recognised Professional Organisation (RPO). Mr Matthews is a full-time employee of Orion. Mr Matthews has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the JORC Code.

The information in this presentation that relates to Orion's Mineral Resource for the Prieska Copper Zinc Mine, is a compilation of previously released reports to the ASX by Orion and is based on information compiled by Mr Sean Duggan, a Competent Person who is a Director and Principal Analyst at Z Star Mineral Resource Consultants (Pty) Ltd. Mr Duggan (Pr.Sci.Nat) is registered with the South African Council for Natural Scientific Professionals, an RPO. Mr Duggan has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the JORC Code.

The information in this presentation that relates to the Ore Reserves for Orion's Prieska Copper Zinc Mine, is a compilation of previously released reports to the ASX by Orion and is based on mining-related information incorporated under the supervision of Mr Etienne Oosthuizen, a Competent Person who is a Member of the South African Institute of Mining and Metallurgy (SAIMM) and a Member of the Institute of Materials, Minerals and Mining (IMMM), an RPO. Mr Oosthuizen is an employee of A & B Global Mining (Pty) Ltd which consults to Orion. Mr

Oosthuizen has sufficient experience that is relevant to the type of mining and type of deposit under consideration and to the activities being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the JORC Code. Orion confirms that the information prepared under the supervision of Mr Oosthuizen remains factually correct and it is not aware of any information that materially affects the Ore Reserves announced.

The information in this presentation that relates to Orion's Mineral Resource for the Okiep Copper Project, is a compilation of previously released reports to the ASX by Orion and is based on information compiled by Mr Sean Duggan, a Competent Person who is a Director and Principal Analyst at Z Star Mineral Resource Consultants (Pty) Ltd. Mr Duggan (Pr.Sci.Nat) is registered with the South African Council for Natural Scientific Professionals, an RPO. Mr Duggan has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the JORC Code.

The information in this presentation that relates to the Ore Reserves for Orion's Okiep Copper Project, is a compilation of previously released reports to the ASX by Orion and is based on mining-related information incorporated under the supervision of Mr Jonathan Hudson (Pr.Sci.Nat), a Competent Person who is a Fellow registered with the South African Institute of Mining and Metallurgy (SAIMM), an RPO. Mr Hudson is also a Professional Engineer registered with the Engineering Council of South Africa (ECSA). Mr Hudson has sufficient experience that is relevant for the Ore Reserve aspects of the release as Competent Person. Mr Hudson is an employee of JHK Consulting (Pty) Ltd. Mr Hudson has sufficient experience that is relevant to the type of mining and type of deposit

under consideration and to the activities being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the JORC Code. Orion confirms that the information prepared under the supervision of Mr Hudson remains factually correct and it is not aware of any information that materially affects the Ore Reserves announced.

All announcements are available to view on Orion's website: <http://www.orionminerals.com.au/investors/asx-jse-announcements/>

Company snapshot

Capital Structure Summary	Current	Post Proposed Share Issue
Shares on issue (1 Sep'25) ^{1,2}	7,502M	7,561M
Options on issue (1 Sep'25)	235M	235M
IDC Shareholder Loan ³		AUD6.8M (USD4.4M)
PCZM Project Financing ⁴		AUD31.7M (USD20.7M)
Market capitalisation (AUD1.1cps) ⁵		AUD82.5M (USD53.8M)

Significant Shareholders	Current Share Issue %

Patience Mpofu, NED	John Paul Hunt, Executive: Exploration
Mark Palmer, NED	Avishkar Nagaser, Executive: Corporate Communication & Investor Relations

- Orion is acquiring the controlling interest in the Okiep Copper Project. The purchase consideration payable by Orion is ~ZAR60M (~\$4.9M), which purchase consideration will be adjusted in certain inflation-related respects and settled partly in cash ~ZAR13M (~\$1.1M) and partly by way of Orion Shares ~ZAR47M (~\$3.8M). The first phase of settlement, totaling ~ZAR46M (~\$3.8M), was completed in May'24 by way of cash payment of ZAR11M and the issue of 206.6M (ZAR35M) Orion Shares. Settlement of second and third phases are pending, subject to certain completion conditions. Refer ASX/JSE releases 17 Apr'24, 8 May'24 and 18 Oct'24 for further detail.
- On 8 Jul'25, Orion announced a capital raising comprising a placement of ~289M Shares and agreement to convert outstanding loan amounts owed by Orion to equity via the issue of ~233M Shares, for a total aggregate value of ~A\$5.8M (~ZAR67M). In total, ~522M Shares will be issued under the placement and loan conversions, with 477M Shares having been issued to date. At the general meeting of Shareholders held on 28 Aug'25, Orion received shareholder approval for the issue ~14M Shares to Webb Street Capital in lieu of cash payment for services provided to Orion. The Webb Street Capital Shares will be issued in the coming month. Refer to ASX/JSE releases 8 Jul'25, 28 Jul'25 and 1 Sep'25 for more information.
- Refer to Orion's 31 Dec'24 Interim Financial Report for information on the agreement for pre-development funding at the Okiep Copper Project entered into with the Industrial Development Corporation of South Africa Limited (IDC). Balance shown as at 30 Jun'25.
- The Prieska Copper Zinc Mine (PCZM) project has two funding agreements in place, being the ZAR250M (~\$20M) IDC Convertible Loan and the \$10M (~ZAR122M) Triple Flag early Funding Arrangement (together PCZM Project Financing). Refer to 31 Dec'24 Interim Financial Report for further detail regarding PCZM Project Financing. Balance shown as at 30 Jun'25.
- Current Shares on Issue, volume weighted average price (30 day) at 29 Aug'25 of ORN Shares trading on the ASX and JSE.

Focus on two highly prospective regions

3,582km² of prime exploration and mining rights

Prieska Copper Zinc Mine and Flat Mines (at Okiep)

Two fully permitted, brownfield projects

PCZM DFS

- Total Mineral Resources: 31Mt @ 1.2% Cu and 3.6% Zn resulting in contained Cu of 370kt and contained Zn of 1.12Mt
- Total Probable Ore Reserves: 15.6Mt @ 1.1% Cu and 3.1% Zn resulting in contained Cu of 164kt and contained Zn of 458kt
- NPV: **AUD568 million**
- IRR (post tax): **26%**
- Peak Capital: **AUD578 million**
- AISC: **USD2.06/lb Cu**
- Capital Intensity: **USD9,174/t Cu Eq (pa)**

Flat Mines (OCP) DFS

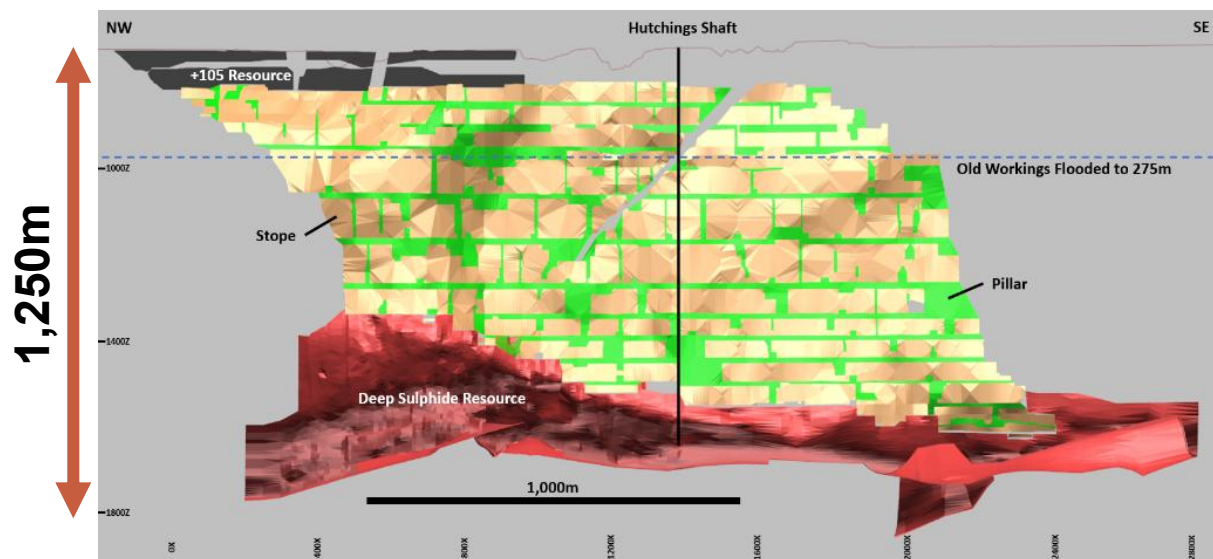

- Total Mineral Resources: 10Mt @ 1.3% Cu resulting in contained Cu of 132kt
- Total Probable Ore Reserves: 6.1Mt @ 1.2% Cu resulting in contained Cu of 71kt
- NPV: **AUD75 million**
- IRR (post tax): **19%**
- Peak Capital: **AUD103 million**
- AISC: **USD2.39/lb Cu**
- Capital Intensity: **USD10,383/t Cu (pa)**

PCZM

Cross and long sections

Orion Minerals

31Mt @ 1.2% Cu, 3.6% Zn

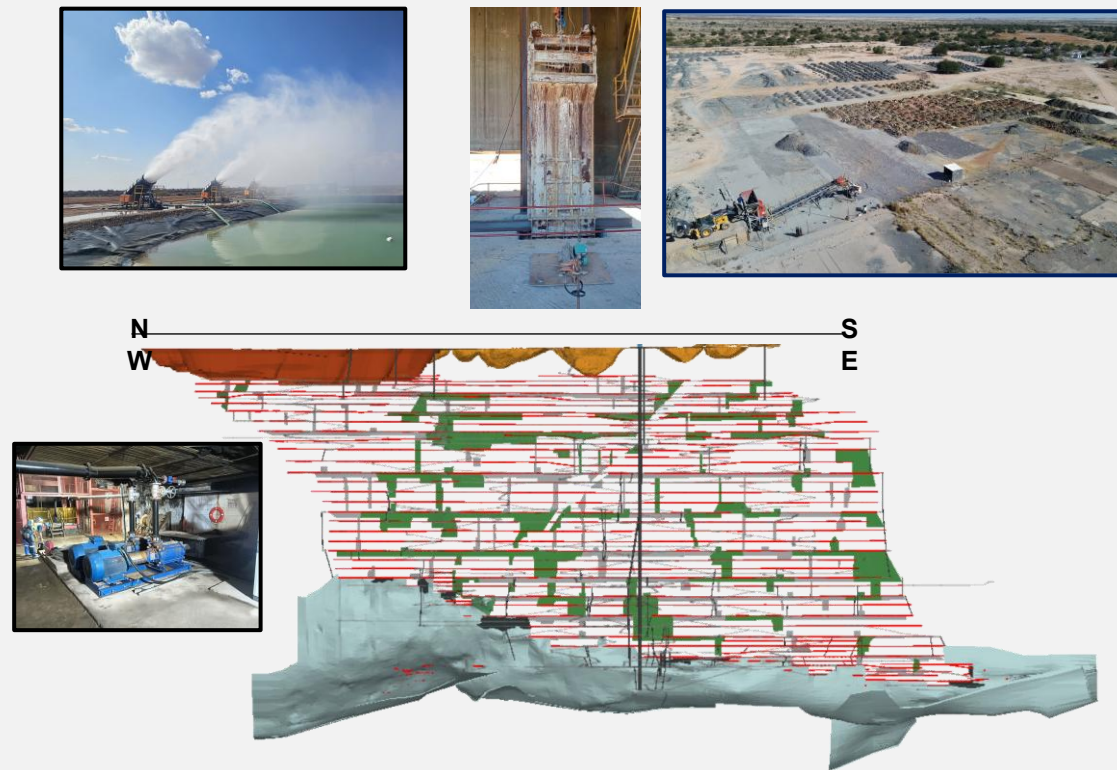

2.6km

Refer ASX/JSE release 25 July 2023

Phase 1: Shallow Mining Plan aims to target mining from shallow underground, while dewatering underway producing a bulk concentrate

Phase 2: Deeps Mining Plan – building up to annual production of 22kt copper and 65kt zinc

Refer ASX/JSE release 25 July 2023

Progressing into execution phase

Accelerating towards production

- Project development strategy
 - Two fully permitted brownfield projects with DFS's published in March 2025
 - Flagship project PCZM to be developed first – integrated project, commencing with Uppers and transitioning into Deeps
 - Flat Mines at OCP undergoing optimisation
- Range of funding options in progress
- Focus areas at PCZM
 - Project execution governance
 - Operational readiness
 - Value engineering
- Concentrate by Christmas 2026 - first concentrate from Uppers expected 13 months after financing
- Significant exploration upside across the portfolio – continuing work on upside at PCZM and OCP

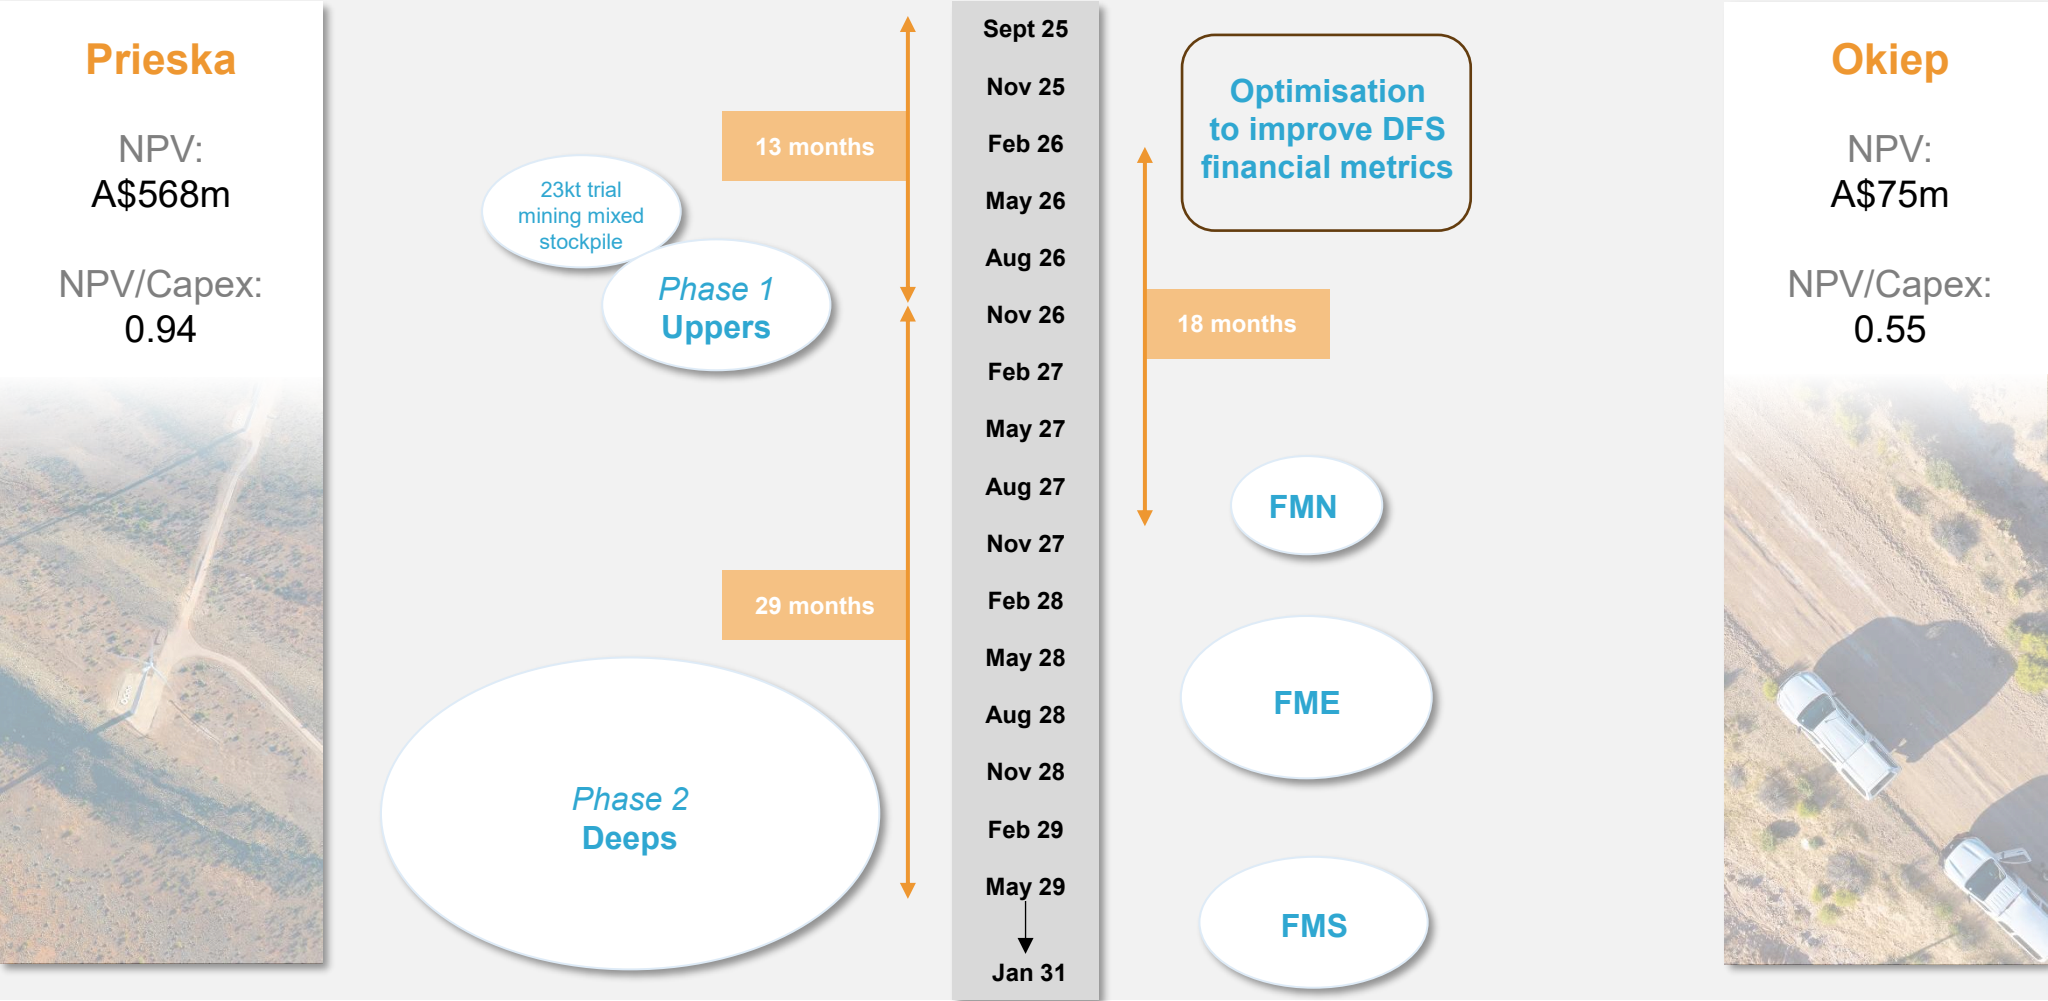

Orion development strategy

Macro view of defined orebodies

Funding + Project Deliver Governance + Value Engineering

Indicative timelines based on DFS's published 28 March 2025

Refer ASX/JSE Releases 28 March 2025

PCZM favourably positioned on the global cost curve

Optimisation targeting second quartile for Okiep

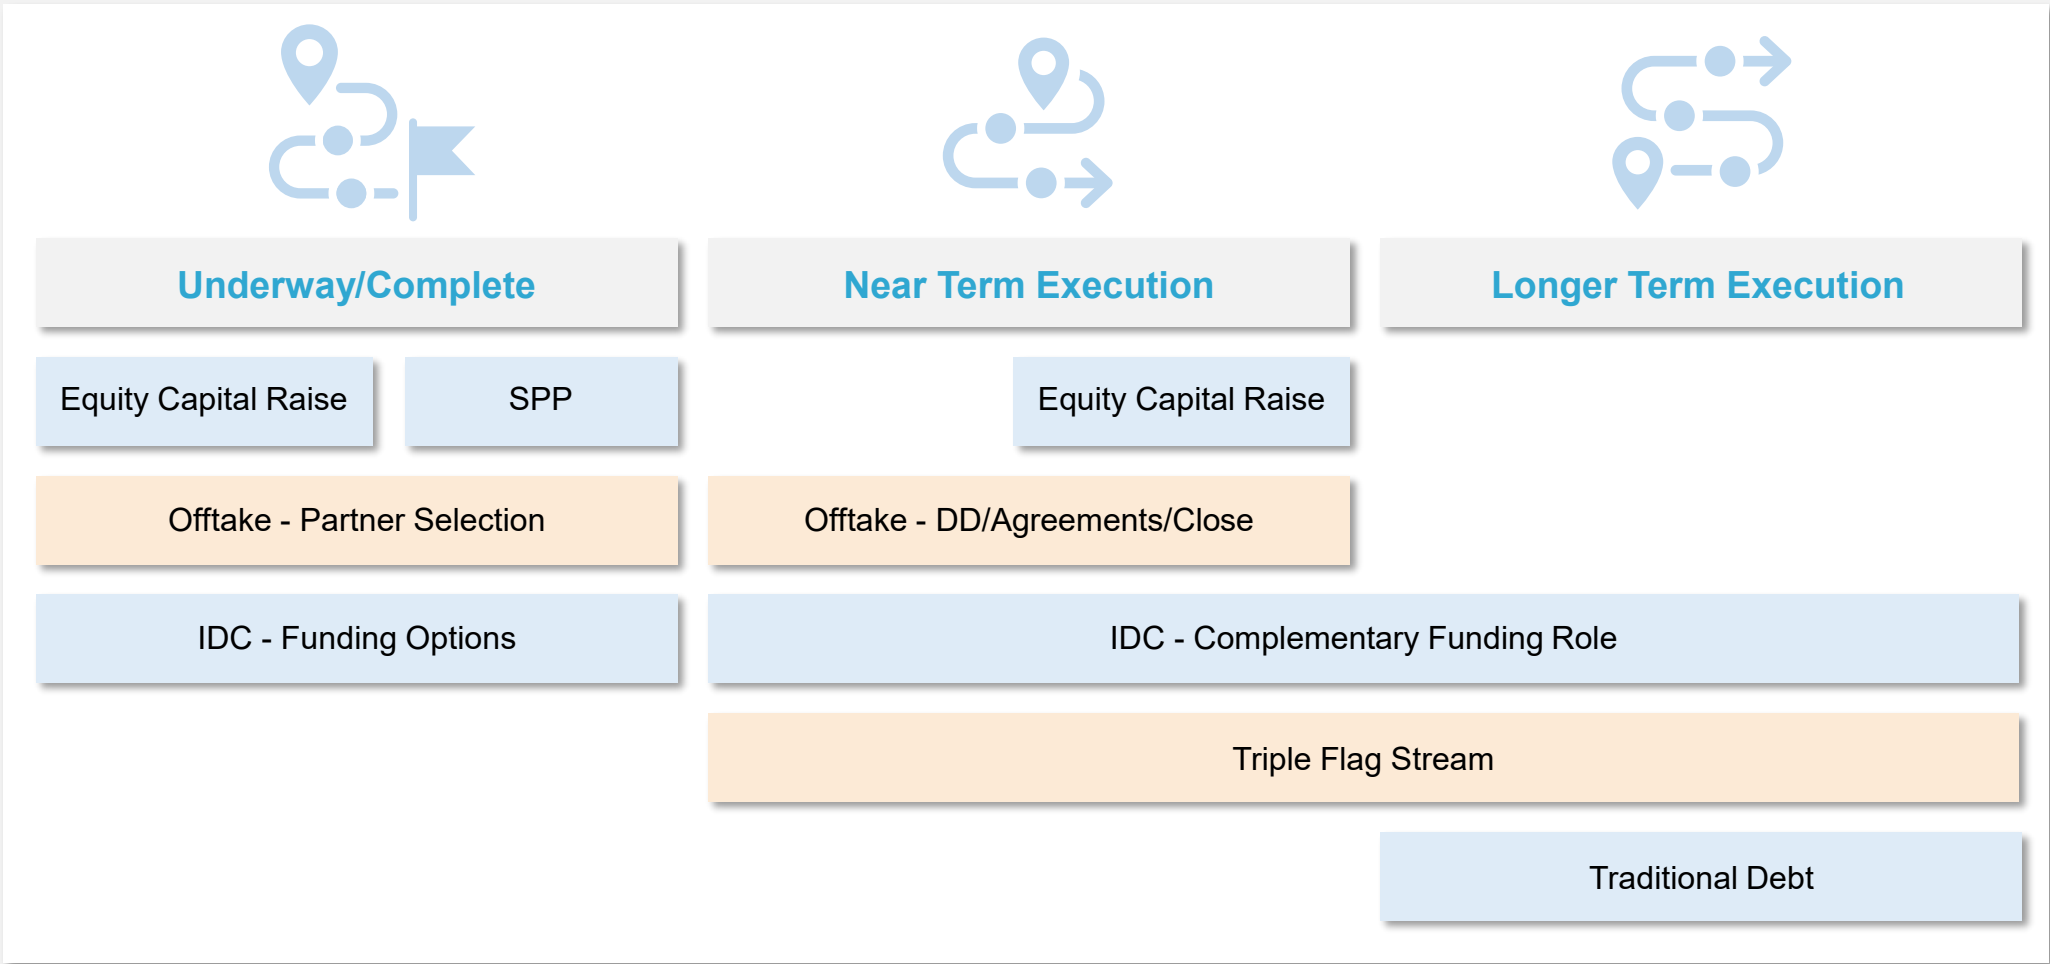

AISC net of by-product credits

Source: S&P Global Market Intelligence and Fraser McGill Workings

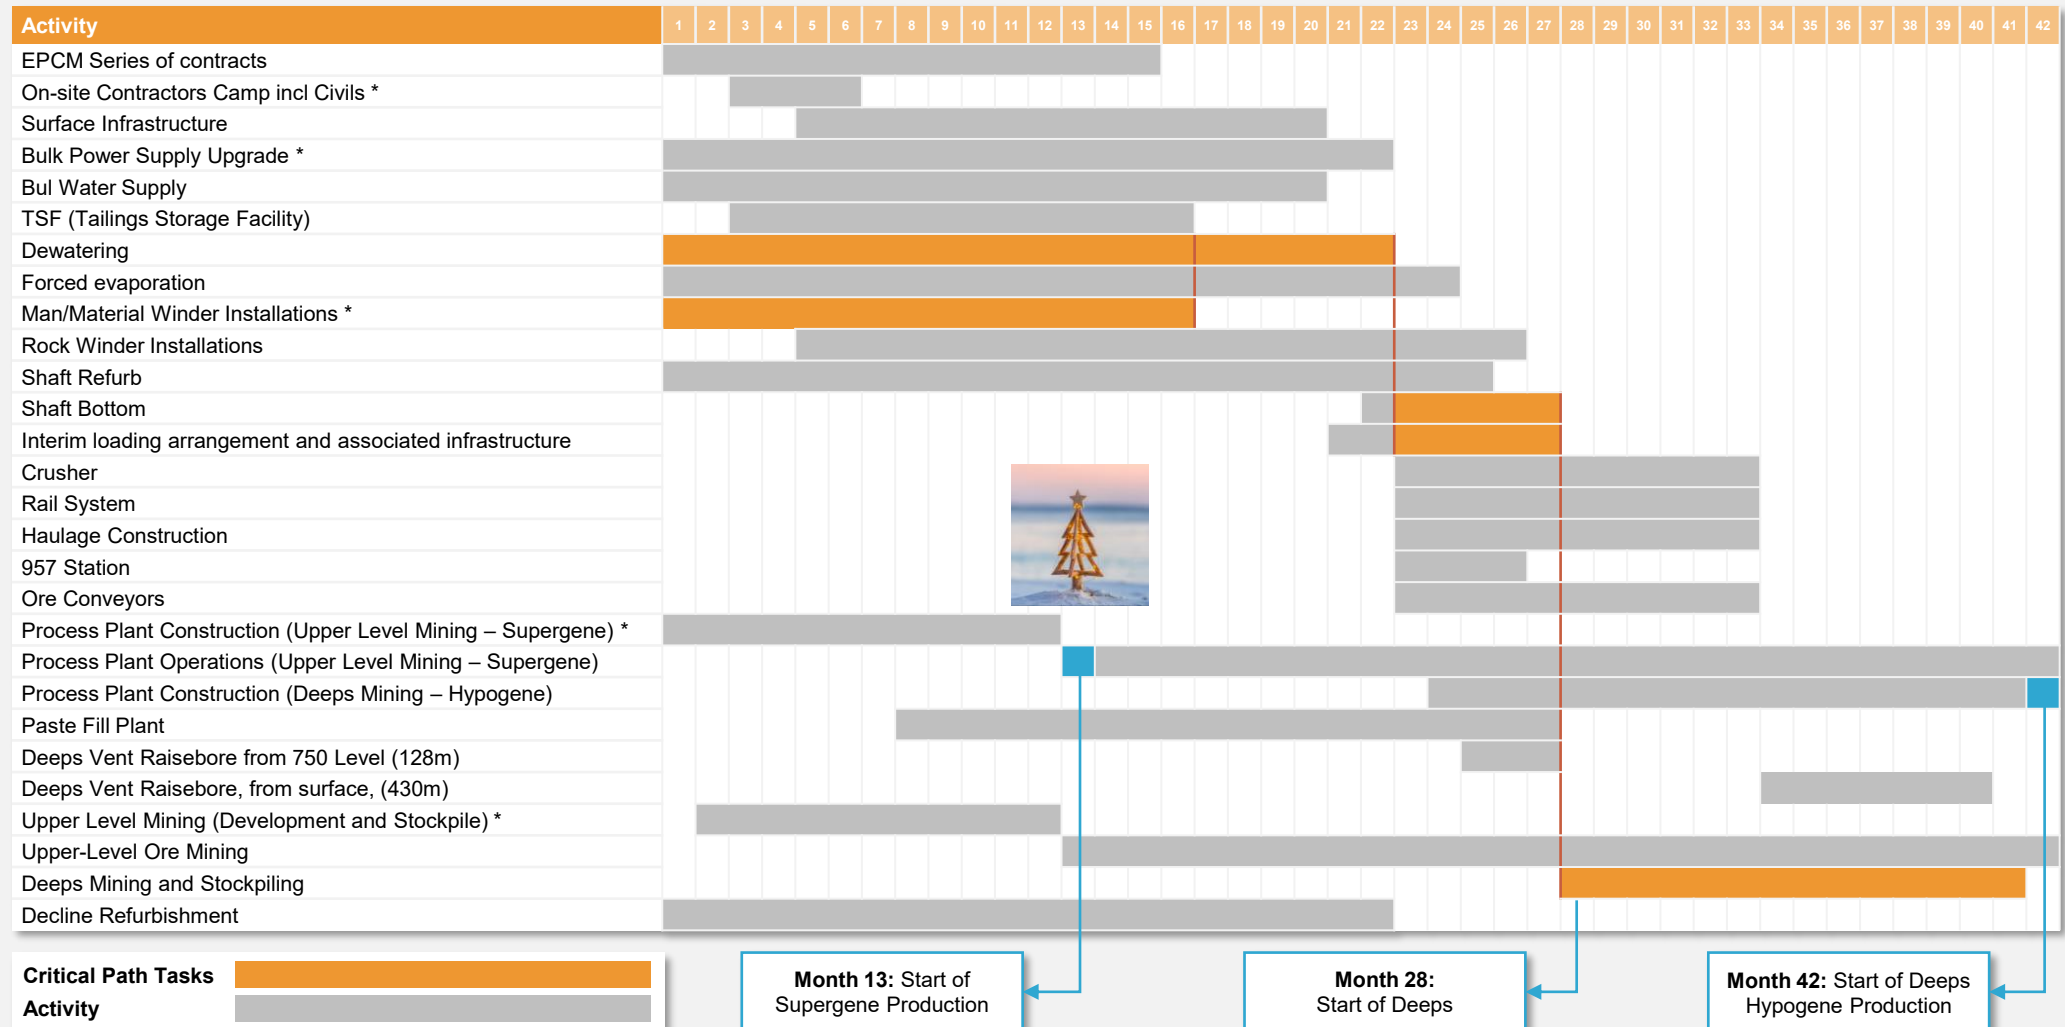

Funding workflow to unlock Uppers and then Deeps

Offtake negotiations underway

Outcomes - concentrate by Christmas 2026

PCZM integrated execution for phase 1 Uppers and phase 2 Deeps

Subject to being fully funded

* Early value engineering has commenced

Orion Minerals

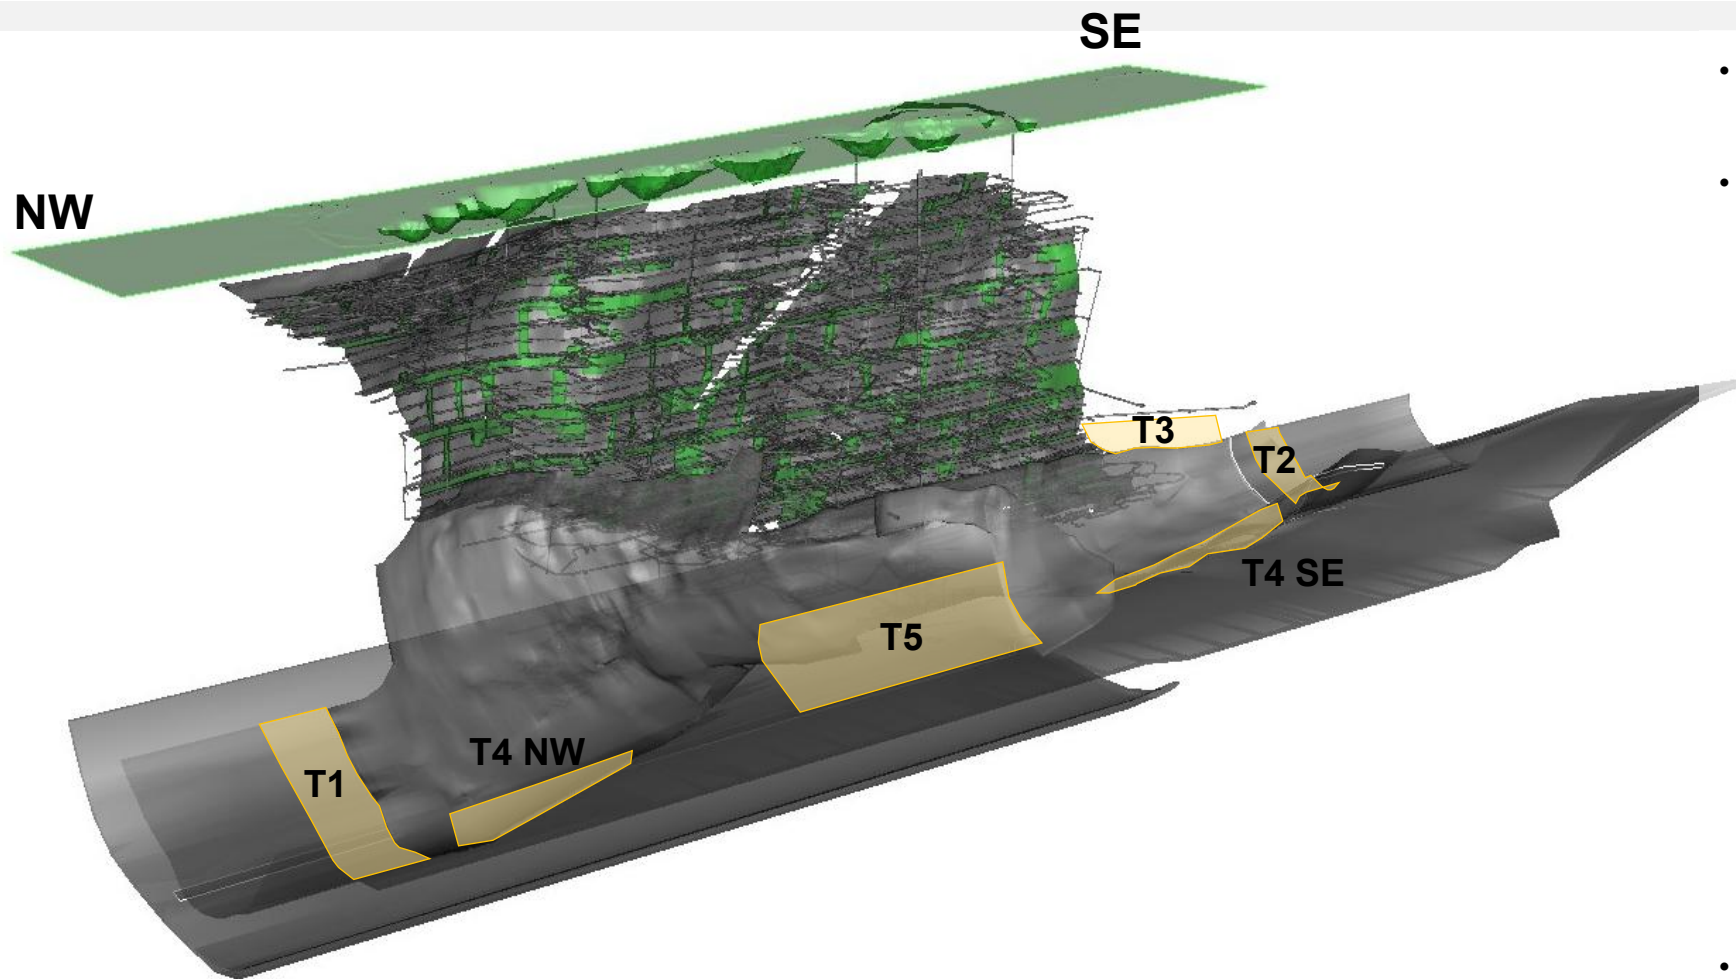

**BUILDING
TOMORROW'S
MINES TODAY**

Exploration opportunities at PCZM and OCP

PCZM – Near and medium-term exploration

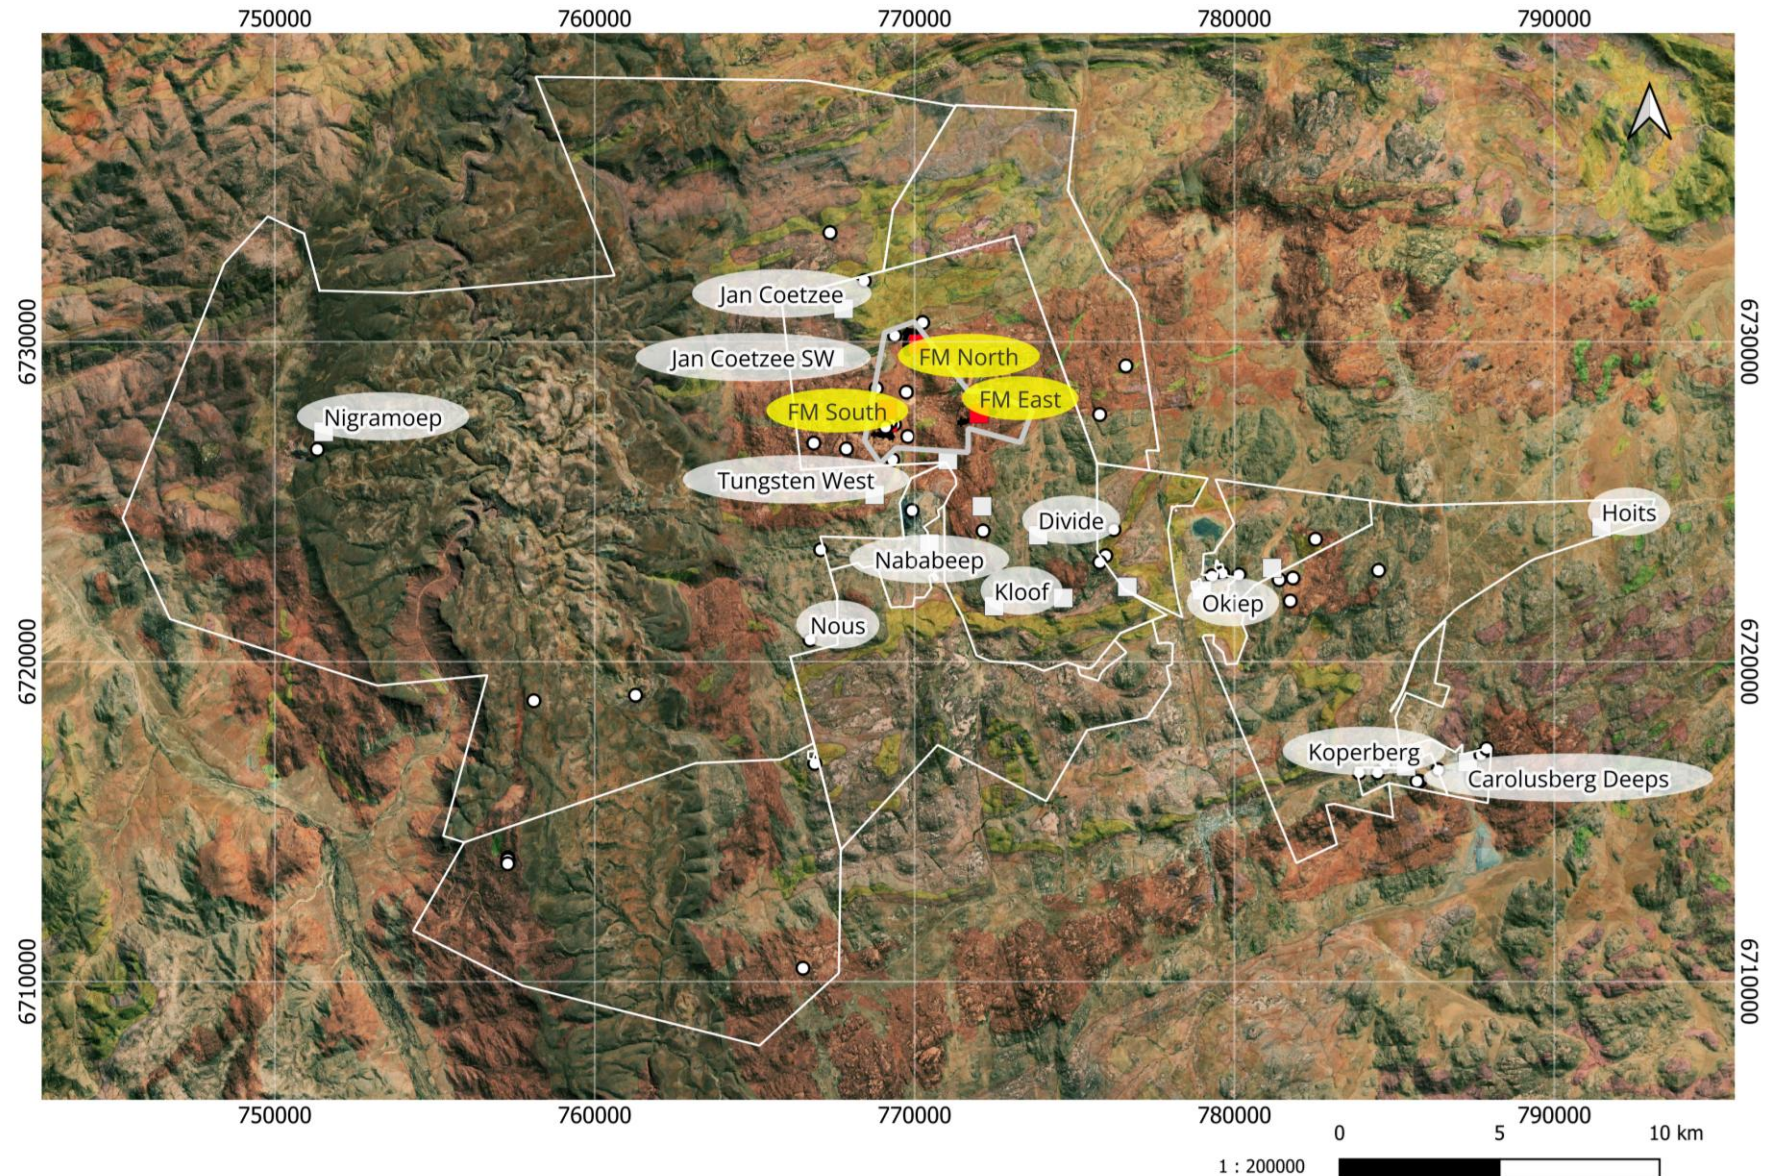

Medium-term plan for resource definition and target extensions

- 22,000m of resource definition drilling
- 72,000m from existing and planned development to target extensions
 - T1 – NW extension 400m+
 - T2 – SE extension to high grade, thickest intersections
 - T3 – SE extensions to historic stopes
 - T4 – Up-dip western fold limb
 - T5 – extensions to duplication footwall of mineralisation
- 36-month program

OCP – Near and medium-term exploration

Deposits and prospects under current evaluation

Orion Minerals

BUILDING
TOMORROW'S
MINES TODAY

Appendix

PCZM Project Mineral Resource Estimates

Resource	Classification	Tonnes	Cu (tonnes)	Cu (%)	Zn (tonnes)	Zn (%)
Deep Sulphide Resource	Indicated	19,000,000	220,000	1.17	670,000	3.60
	Inferred	10,000,000	120,000	1.1	420,000	4.1
+ 105m Level Oxides Resource	Indicated	700,000	5,000	0.73	5,000	0.77
	Inferred	300,000	3,000	1.0	2,000	0.8
+ 105m Level Supergene Sulphides and Hypogene Resource	Indicated	800,000	23,000	2.84	21,000	2.67
	Inferred	300,000	8,000	2.6	3,000	0.9
Total	Indicated	20,000,000	240,000	1.22	690,000	3.47
Total	Inferred	11,000,000	130,000	1.2	420,000	3.9
Grand Total		31,000,000	370,000	1.2	1,120,000	3.6

Note: Deep Sulphide Resource mineralisation interpretation wireframe cut-off = 3% Equivalent Zn ($ZnEq = Zn\% + Cu\% \times 2$). Resources stated at zero% Cu cut-off
+105m Level Mineral Resource oxide mineralisation interpretation wireframe cut-off = 0.3% Equivalent Cu ($CuEq = Cu\% + Zn\%/2$). Resource stated at 0.3% Cu cut-off
+105m Level Mineral Resource supergene sulphide and remnant hypogene mineralisation interpretation wireframe cut-off = 0.8% Cu. Resources stated at 0.7% Cu cut-off.
Numbers may not add up due to rounding in accordance with the JORC Code (2012).

Refer ASX/JSE Releases 28 March 2025, 25 July 2023

Deeps LoM Plan

The Deeps LoM plan contains 22.6Mt of material with an underground average mined grade of 1.0% Cu and 3.3% Zn, giving a Cu equivalent (CuEq) grade of 1.6% Cu. The CuEq (%) values presented for the Deeps LoM Plan and Deeps Probable Ore Reserve estimate were determined based on the following:

- Orion considers that both Cu and Zn have a reasonable potential to be recovered and sold.
- Assumed commodity prices of USD8,900/t Cu and USD2,450/t Zn based on analysts' consensus as at May 2024.
- Net smelter returns (NSRs) of 101.3% and 69.7% for Cu and Zn, respectively based on offtake proposals from concentrate traders and metallurgical details as detailed in JORC Table 1 (ASX/JSE release 28 March 2025).
- The following calculation formula which is consistent with BFS-20 refer ASX release 26 May 2020:

$$\text{CuEq (\%)} = \text{Cu (\%)} + 0.185 \times \text{Zn (\%)}$$

$$\text{Based on 1\% Zn} = \frac{(\text{Zn price} \times \text{Zn NSR}) \times (\text{Zn plant recovery})}{(\text{Cu price} \times \text{Cu NSR}) \times (\text{Cu plant recovery})} = \frac{(2,450 \times 69.7\%) \times (82.1\%)}{(8,900 \times 101.3\%) \times (85.8\%)} = 0.185\% \text{ Cu}$$

Combined Reserve plan

The combined Uppers and Deeps Levels Ore Reserves estimate is presented in the table below. A combined CuEq grade and CuEq metal is presented; however, the CuEq value presented for the Uppers deposit is equal to the Cu contribution as the zinc currently does not have reasonable potential to be recovered and sold from the Upper Levels. Orion confirms that all elements included in the metal equivalent calculations (Cu and Zn for Deeps and Cu only for Uppers) have a reasonable potential to be recovered and sold.

Metallurgical recoveries for copper and zinc are based on recovery models derived from test work reported in the BFS-20 and the feasibility study 2025.

Combined Uppers and Deeps Ore Reserve estimates, reported in accordance with the JORC Code (2012)

PCZM Combined Reserve Estimate Dated: 31 December 2024							
Combined Reserves Class	Tonnes (Mt)	Cu%	Zn%	Cu Tonnes (kt)	Zn Tonnes (kt)	CuEq Tonnes (kt)	CuEq Grade (%)
Probable Uppers	0,6	2,3	-	15	-	15	2,3
Probable Deeps	14,9	1,0	3,1	150	458	234	1,6
TOTAL PROBABLE	15,6	1,1	3,1	164	458	249	1,6

Project Ore Reserves estimated using financial assumptions and modifying factors stated in the FS-25. Tonnes are rounded, which may result in rounding errors. The corresponding Indicated Mineral Resources, disclosed are inclusive of these Ore Reserves.

OCP – Flat Mines Project Mineral Resource Estimates

Location	Date	Cut off % Cu	Classification	Tonnes	Grade % Cu	Contained Copper (t)
FMN	28 August 2023	0.7	Measured	440,000	1.13	5,000
			Indicated	940,000	1.42	13,000
			Inferred	200,000	1.5	4,000
Total FMN				1,600,000	1.3	22,000
FME	28 August 2023	0.7	Measured	---	---	---
			Indicated	3,400,000	1.37	47,000
			Inferred	1,000,000	1.0	9,000
Total FME				4,400,000	1.3	56,000
FMS	28 August 2023	0.7	Measured	---	---	---
			Indicated	2,600,000	1.35	35,000
			Inferred	800,000	1.6	13,000
Total FMS				3,400,000	1.4	48,000
FM-Nab	28 March 2025	0.5	Measured	---	---	---
			Indicated	300,000	1.07	3,000
			Inferred	300,000	1.0	3,000
Total FM-Nab				600,000	1.0	6,000
Total FM Project				10,000,000	1.3	132,000

Notes: Measured and Indicated tonnes rounded to two significant figures, copper grade rounded to two decimal places. Inferred tonnes rounded to one significant figure, copper grades rounded to one decimal places. All copper content tonnes rounded to the nearest thousand. Totals may not tally due to rounding. Reported in accordance with the JORC Code (2012) in Source: Z* (2023), ASX/JSE-20230828, Matthews (2024b). Refer ASX/JSE release 28 March 2025.
