

## IRESS APPOINTS NEW REGIONAL HEAD IN CANADA

IRESS has strengthened the leadership of its team in Canada with the appointment of Glenn Wilson as Managing Director and Regional Head, IRESS Canada.

The appointment is in support of IRESS' growth plans in the region. Mr Wilson brings extensive experience to the role, with 20 years of experience working for and delivering solutions in capital markets technology and execution, including a key role at Citigroup as COO of Electronic Execution. Most recently he has been responsible for building IRESS' Financial Markets offering in the UK.

Reporting to Matt Rady, IRESS Group Executive, Financial Markets, Mr Wilson will be supported in his new role by Michael Harrison, IRESS Managing Director, Sales and Strategic Relationships.

**Matt Rady, IRESS Group Executive, Financial Markets commented:** "We are excited about a range of growth initiatives that we have in Canada. Glenn's strong leadership skills and international financial markets experience will help in expanding our local team and presence in the region".

"We believe that the changing regulatory environment in Canadian financial services market will create an increasing need for the efficiency gains that leading edge technology can deliver and feedback we have received from the market gives us confidence that IRESS is well placed to support these requirements".

"We anticipate that our local Canadian team in Toronto will continue to grow in conjunction with business opportunities over the coming months."

Mr Wilson will commence his role on 1 September 2014.
