Dividend

	Amount per Security	Franked amount per Security
Interim Dividend - Current period	Nil	Nil
- Previous corresponding period	Nil	Nil
Final Dividend - Current period	Nil	Nil
- Previous corresponding period	Nil	Nil

Brief explanation of any of the figures reported above or other item(s) of importance not previously released to the market.

The company has completed a major transformation over the past 12 months. The restructuring of the Appliance parts and Industrial Manufacturing Business was completed with both divisions now profitable and the company established its Technologies division which specialises in the design, manufacture and distribution of commercial and industrial lighting and audio visual products and services.

During the year the company also acquired the business assets (predominantly inventory) of ANZ Appliance Parts and Janda Electric Co, two Melbourne-based appliance parts and service businesses to strengthen its appliance parts and services division.

In November 2013 the company raised \$2.01 million via placement of shares, and in June 2014 the Company raised \$2.55 million via non renounceable rights issue of Convertible Notes, these funds have been used to restore working capital reduce debt and expand the technologies division.

The new technologies division of lighting and audio visual products and services has made excellent progress and achieved revenues of \$2.1 million the majority of which was achieved in the second half. There have been some major contract wins and we have now established a pipeline of potential opportunities to drive growth in 2015.

Major change in the trading result for the year ended 30 June 2014, as compared to the previous corresponding period is attributable to a number of factors which include the major restructuring the company undertook in 2013

With a strong start to the new financial year we are looking forward to another productive 12 months as the company continues its major transformation.

Con Scrinis
Managing Director

Melbourne

Notes to the financial statements for Financial Year ended 30 June 2014

Note 1: Basis of preparation

This preliminary final report has been prepared in accordance with ASX Listing Rule 4.3A and the disclosure requirements of ASX Appendix 4E.

The accounting policies adopted in the preparation of the preliminary final report are consistent with those adopted and disclosed in the 2013 annual financial report.

The financial report has been prepared in accordance with generally accepted accounting principles which are based on the company and consolidated entity continuing as going concerns.

The Group's forward budget and cash flow projections are based on the effects of the restructuring program and new revenues from acquisitions (of business assets) completed including ANZ appliance parts and Janda Electric Co and revenues from the new technology division. The ability of the Group to generate cash flow from operating activities, maintain debt levels and continue as a going concern is dependent on realisation of these projections and the management of other cash flows within the Group's funding facilities.

The Group continues to have the support of its financier. The directors have reviewed and approved the Group's forward budget and cash flow projections

The directors believe that the group will continue as a going concern and consequently will realise assets and settle liabilities and commitments in the ordinary course of business and at the amounts stated in the financial report.

Note 2: Income and expenses

	2014 \$	2013 \$

The audit has not yet been completed. The Annual financial report is not likely to contain an independent audit report that is subject to a modified opinion emphasis of matter or other matter paragraph

Notes to the financial statements for Financial Year ended 30 June 2014

Note 13: Operating segment

(a) Segment information

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors in assessing performance and determining the allocation of resources.

The Group is managed primarily on the basis of product category and service offerings. Operating segments are therefore determined on the same basis.

Reportable segments disclosed are based on aggregating operating segments where the segments are considered to have similar economic characteristics and are also similar with respect to the following:

- The products sold and/or services provided by the segment;
- The manufacturing process;
- The type or class of customers for the products or services;
- The distribution method; and
- Any external regulatory requirements.

Assets and liabilities of the entity are used across all of the above operating segments and are not identified and allocated to each operating segment.

Notes to the financial statements for Financial Year ended 30 June 2014

Note 13: Operating segment (cont'd)

Types of products and services

The Manufacturing segment manufactures electric elements and metal components for industrial and household products, Appliance Parts segment is distribution of appliance parts for white goods, Services segment is providing repairs and maintenance of white goods and Technologies segment is distributing LED lights, and audio visual products primarily for the domestic market.

(b) Segments performance
