**ASX Release**

## **Trust Property Acquisition Update**

---

On 8 September 2014, **IM Medical Limited** (ASX: IMI, IMIO) (**IMI** or **the Company**) announced an update to its proposed acquisition of ADX Management Limited and its intention to become manager of a proposed major data centre trust, the Australian Data Exchange Trust (**the Trust**). The Trust has an exclusivity agreement to acquire a property at Tullamarine, Victoria for conversion into a major data centre.

IMI has been advised that the exclusivity agreement has been extended on a basis agreed with the vendor to allow for certain clerical delays, and the Trust expects to enter into a contract for the acquisition of the Tullamarine site in coming weeks. The delays are not expected to have any impact on the completion date for the transaction of late November 2014 as announced on 8 September 2014.
