### About Immuron

Immuron (ASX:IMC) is a Melbourne based biopharmaceutical company focused on the development of oral immunotherapy treatments using dairy-derived antibody products. Immuron has a unique technology platform producing products all with a very high safety profile. Immuron sells Travelan®, the world's first effective over-the-counter preventative for travellers' diarrhoea, currently available in Australia and Canada. Two Phase II trials of IMM-124E for the treatment of inflamed fatty liver diseases are about to commence. In addition, Immuron is progressing preclinical trials for IMM-529 for the treatment of *Clostridium difficile* infection due to the overuse of antibiotics. Immuron's main scientific alliances are with Hadassah Medical Center (Israel) and Monash University (Australia).
