## **Appointment of New Director**

3D Medical Limited (ASX: **3DM**) (the “Company”) announces that Dr Nigel Finch has been appointed a director of the Board.

Dr Finch joins the Company at a time when 3DM is focussed on rapid market penetration for its launch products and services. Dr Finch is an experienced investor and advisor to emerging growth enterprises. He is the Principal of Saki Partners, an advisory firm that consults on strategy, financial performance and corporate transactions.

He has held director and senior management roles focused on strategy execution and managing financial performance in both early-stage and mature firms across a range of sectors and has significant experience in economic development and institution building throughout Asian markets.

Previously he was Associate Dean at the University of Sydney Business School. His successful academic career was preceded by a 20-year career as a financial controller, investment manager and company director. Dr Finch is currently a Non-Executive Director of Skydive the Beach Group Limited (ASX: SKB) and a number of private companies.

Dr Finch holds degrees in accounting, business and law and a PhD in business law. His professional qualifications include Certified Practising Accountant, Chartered Accountant, Chartered Tax Adviser and a fellow of the Financial Services Institute of Australasia, the Taxation Institute of Australia, the Australian Institute of Company Directors and CPA Australia.

### **About 3D Medical Limited:**

At 3D Medical our aim is to aid medical professionals in the facilitation of improved clinical care, improving medical procedures, diagnostics and ultimately improving patient outcomes.

3D Medical is a medical specific 3D printing and holographic projection and data integrations provider. Our services 3D Medical Printing; EchoPixel (holographic projection technology); Mach 7 (enterprise imaging solution provides healthcare organisations with the ability to archive, consolidate, access, and share medical imaging data across departments, locations and regions) and MediDATA service provides medical practices the opportunity to leverage their analytical capabilities to gain an improved understanding of the characteristics of the patients which drive their business.

These new and innovative products leverage data already captured by conventional imaging modalities and apply it in more meaningful ways to deliver improved economic and patient outcomes.
