ASX Announcement

Takeover bid for Vision Eye Institute

- ▶ **Pulse Health Limited** (“Pulse”; ASX: PHG) is pleased to announce a takeover bid for **Vision Eye Institute Limited** (“Vision”; ASX: VEI) comprising an offer to acquire all of the ordinary voting shares in Vision (“**Vision Shares**”) for consideration of 1.60 fully paid ordinary shares in Pulse (“**Pulse Shares**”) for each Vision Share (“**Offer**”).
- ▶ The Offer implies a value of \$0.88 per Vision Share¹, representing a 31% premium to Vision's last closing price² and a 47% premium to the price at which Vision raised equity in October 2014.
- ▶ The merger will create one of Australia's leading providers of specialist healthcare services through its combined network of niche hospitals, surgery centres and ophthalmic practices (“**Merged Group**”).
- ▶ The Merged Group is estimated to have underlying pro forma FY15 EBITDA of \$32.3 million, pro forma FY15 net debt of \$35.6 million and an implied pro forma FY15 enterprise value (“**EV**”)/EBITDA multiple of 9.0x³.
- ▶ The Merged Group is expected to deliver double digit earnings per share (“**EPS**”) accretion relative to a Pulse stand-alone pro forma FY15 EPS of 3.5 cents⁴.
- ▶ The Merged Group will have significant brownfield, greenfield and acquisitive growth opportunities supported by balance sheet capacity and an attractive capital markets profile.
- ▶ Pulse's surgery centre expertise will be enhanced by a proposed services agreement with an entity controlled by Mr David Manning. Mr Manning was a co-founder of AmSurg Corp. (“**AmSurg**”), operator of the largest eye surgery network and one of the largest surgery centre networks in the United States. The proposed services agreement will provide the Merged Group with access to AmSurg's unique intellectual property and systems.
- ▶ Viburnum Funds, the manager of a 15.9% shareholding in Vision (and a 29.8% shareholding in Pulse), has stated its support for the Offer in the absence of a superior proposal (as determined by Viburnum Funds), but Pulse will need to obtain shareholder approval for Viburnum Funds to accept the Offer.

¹ Based on a valuation of each Pulse Share of \$0.55, the 5-day volume weighted average price (“**VWAP**”) of Pulse Shares to 3 July 2015, being the last trading day prior to the date of this announcement.

² On 3 July 2015.

³ The Merged Group unaudited underlying pro forma FY15 EBITDA is based on the combination of Pulse's earnings guidance release to ASX on 30 June 2015 (with pro forma underlying unaudited FY15F EBITDA of \$10.7 million) and Vision's earnings guidance released to ASX on 13 May 2015 (with underlying unaudited FY15F EBITDA of \$25 - \$26 million), excluding synergies and adjusted for announced asset transactions. The Merged Group pro forma FY15 net debt is based on the combination of pro forma FY15 net debt for Pulse and Vision, including \$9.0 million of anticipated transaction costs relating to the Offer. The pro forma EV of the Merged Group is estimated to be \$291 million and is based on the market capitalisation of Pulse immediately prior to the announcement of the Offer and the implied market capitalisation of Vision at the implied value of the Offer of \$0.88 per Vision Share plus the pro forma FY15 net debt of the Merged Group. Refer Bidder's Statement for more details.

⁴ EPS accretion calculated on a pro forma unaudited basis. The pro forma FY15 EPS of the Merged Group includes full year contributions from Pulse and Vision, and pre-tax cost-synergies realised in the first twelve months of \$1.5 million (of the total \$2 million of identified synergies), as though the transaction was effected and fully integrated on 1 July 2014. The Merged Group pro forma FY15 EPS includes anticipated interest expense associated with the Offer, and interest and earnings effects from asset transactions announced to ASX. It does not include direct transaction or integration costs. Pulse stand-alone unaudited pro forma FY15 EPS estimate has been calculated as 3.5 cents. Acquisition accounting adjustments have not yet been undertaken and pro forma EPS accretion is before any amortisation on intangibles identified as part of this process. Australian Accounting Standards allow for twelve months from completion to finalise accounting and purchase price allocation.

Pulse has announced an off-market takeover bid for Vision with the aim of creating one of Australia's leading providers of specialist healthcare services through its combined network of niche hospitals, surgery centres and ophthalmic practices.

The takeover bid comprises an offer by Pulse for all Vision Shares. Under the Offer, Vision Shareholders will receive 1.60 Pulse Shares for each Vision Share, implying a value of \$0.88 per Vision Share, based on a valuation of each Pulse Share of \$0.55, reflecting the 5-day VWAP⁵ of Pulse Shares.

The implied value of the Offer consideration provides a significant premium for Vision Shareholders representing a:

- ▶ 31% premium to the last closing price⁵ of Vision Shares of \$0.68;
- ▶ 33% premium to the 5-day VWAP⁵ of Vision Shares of \$0.66;
- ▶ 31% premium to the 30-day VWAP⁵ of Vision Shares of \$0.67; and
- ▶ 47% premium to the price at which Vision raised equity in October 2014 of \$0.60 per Vision Share.

The Offer is subject to a number of conditions which are contained in the Bidder's Statement accompanying this announcement.

Strategic rationale

Pulse is a private hospital and surgery centre operator growing via development and acquisition. In collaboration with specialist doctors and in locations in which they wish to live and work, Pulse is developing and acquiring specialist surgical, rehabilitation and mental health hospitals as well as surgery centres. Pulse believes that the merger presents an attractive opportunity for both Vision and Pulse Shareholders for the following reasons:

- ▶ **Strategic alignment of Pulse and Vision:** The combination of the two companies will create one of Australia's leading providers of specialist healthcare services, through its network of niche hospitals, surgery centres and ophthalmic practices. The two businesses operate complementary networks of niche specialist hospitals, surgery centres and ophthalmic practices, and partner with high quality healthcare professionals to deliver best-in-class outcomes for doctors and patients. Both companies have a stated and overlapping growth strategy of expanding their facilities footprint and diversifying their network into complementary specialties. The Merged Group will be a leader in the surgery centre market and will be well positioned to consolidate this attractive and fragmented market.
- ▶ **Proven management capability:** Pulse's proven management team have successfully executed an organic and acquisition-based growth strategy. With the recent departure of Vision's previous Managing Director, Mr Brett Coverdale, the Offer provides Vision Shareholders with a proven management capability at a time when it is searching for new senior leadership.
- ▶ **Pulse's surgery centre expertise enhanced by proposed appointment of Mr David Manning to the Board should the Offer be successful:** Mr Manning has over 35 years of surgery centre experience including having co-founded NASDAQ listed AmSurg. AmSurg operates the largest eye surgery network and one of the largest surgery centre networks in the United States, with a market capitalisation of approximately US\$3.4 billion. Mr Manning's strategic relationship with AmSurg will provide the Merged Group with access to global best practice in surgery centre development and operation via AmSurg's unique IP and systems.

⁵ As at 3 July 2015 the last trading day prior to the announcement of the Offer on ASX.

- ▶ **Synergies:** Pulse estimates conservative annual pre-tax cost synergies of \$2 million. Synergies are expected to be realised from various operational efficiencies, including a reduction in public company costs as well as head office and administrative functions. There are potential revenue synergies available from improved optimisation of the Merged Group's facilities network.
- ▶ **Greater scale and financial strength to capitalise on growth opportunities in the healthcare market:** The Merged Group is estimated to have underlying pro forma FY15 EBITDA of \$32.3 million³, pro forma market capitalisation of approximately \$255 million⁶ and pro forma FY15 EV of approximately \$291 million³. The Merged Group will have greater balance sheet capacity with a FY15 pro forma net debt of \$35.6 million³. Shareholders of the Merged Group should benefit from owning shares in a company with greater liquidity and improved access to capital markets to fund growth opportunities.
- ▶ **EPS accretion:** The Merged Group is expected to deliver double digit EPS accretion relative to a Pulse stand-alone pro forma FY15 EPS of 3.5 cents⁴.

Pulse Chairman Stuart James said: "We believe the merger creates a compelling opportunity for both Vision and Pulse Shareholders through the creation of one of Australia's leading providers of specialist healthcare services, with a broad network of niche hospitals, surgery centres and ophthalmic practices."

Pulse Managing Director and CEO, Phillipa Blakey added: "We look forward to combining Pulse's and Vision's strengths into one of Australia's leading healthcare services providers. Vision's strong ophthalmic service and surgery centre network, combined with Pulse's hospital network and expertise in providing doctors with the service, environment and support they need to fully focus on treating their patients will create a first-class healthcare organisation. We look forward to engaging with Vision's highly regarded doctor partners, associates and visiting surgeons."

Support of major Vision Shareholder

Viburnum Funds, the manager of a 15.9% shareholding in Vision (and a 29.8% shareholding in Pulse), has stated its support for the Offer in the absence of a superior proposal, but Pulse will need to obtain shareholder approval for Viburnum to accept the Offer.

1. Chairman's Letter

6 July 2015

Dear Vision Shareholder,

Off-market takeover bid for Vision Eye Institute Limited (Vision)

On behalf of the Board of Pulse Health Limited (**Pulse**), we are pleased for Pulse to offer you a significant premium and substantial value for your ordinary voting shares in Vision, as well as an opportunity to participate in the creation of one of Australia's leading providers of specialist healthcare services, through its network of niche hospitals, surgery centres, and ophthalmic practices.

Pulse is offering 1.60 Pulse Shares for each Vision Share (**Offer**). The Offer implies a value of **\$0.88 per Vision Share**, based on a valuation of each Pulse Share of \$0.55 reflecting the 5-day VWAP of Pulse Shares to 3 July 2015¹.

The value of the Offer Consideration comprising \$0.88 per Vision Share² represents a significant premium to recent trading levels of Vision Shares, being a:

- 31% premium to the closing price of Vision Shares on 3 July 2015¹ of \$0.68;
- 33% premium to the 5-day VWAP of Vision Shares to 3 July 2015¹ of \$0.66;
- 31% premium to the 30-day VWAP of Vision Shares to 3 July 2015¹ of \$0.67; and
- 47% premium to the offer price of \$0.60 for Vision Shares under Vision's institutional placement completed in October 2014.

The Offer provides Vision Shareholders with the opportunity to participate in the value creation strategy that Pulse has developed for the merger of Pulse and Vision (**Merged Group**) underpinned by:

- Strategic alignment in operating complementary networks of niche specialist hospitals, day surgery centres and ophthalmic practices. The Merged Group will be a leader in the surgery centre market and will be well positioned to consolidate this attractive and fragmented market.
- Pulse's proven management team which has successfully executed an organic and acquisition based growth strategy.
- Pulse's surgery centre expertise will be enhanced by a proposed services agreement with an entity controlled by Mr David Manning. Mr Manning is also proposed to be appointed as a Non-Executive Director to the Pulse Board if the Offer is successful. Mr Manning has over 35 years of surgery centre experience including having co-founded NASDAQ listed AmSurg Corp. (**AmSurg**). AmSurg operates the largest eye surgery network and one of the largest surgery centre networks in the United States, with a market capitalisation of approximately US\$3.4 billion. Mr Manning's strategic relationship with AmSurg will provide the Merged Group with access to global best practice in surgery centre development and operation via AmSurg's unique IP and systems.

¹ The last trading day prior to announcement of the Offer to ASX.

² Based on a valuation of each Pulse share of \$0.55, the 5-day volume weighted average price (**VWAP**) of Pulse shares to 3 July 2015, being the last trading day prior to the date of this announcement

- Potential annual pre-tax cost-synergies estimated at \$2.0 million.³
- Greater scale and financial strength. The Merged Group is estimated to have underlying unaudited pro forma FY15 EBITDA of \$32.3 million, a pro forma market capitalisation of approximately \$255 million and a pro forma FY15 enterprise value (“EV”) of \$291 million⁴. The Merged Group will have a greater balance sheet capacity with a FY15 pro forma net debt of \$35.6 million⁴. Shareholders of the Merged Group should benefit from owning shares in a company that will have greater liquidity, a larger balance sheet and greater capacity to access capital to fund further growth opportunities.

Vision and Pulse are highly complementary businesses and have a strong strategic fit. The proposed acquisition is in line with Pulse’s strategy to develop and acquire niche specialist hospitals and surgery centres.

Our strategy for the Merged Group is expected to provide strong benefits for the doctors, employees and shareholders of both organisations.

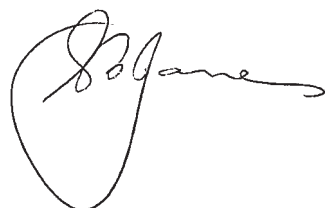

The Offer is subject to some conditions, full details of which are contained in section 15.7.

The Pulse Board believes that the Offer is compelling for Vision Shareholders, providing an attractive premium for your Vision Shares.

3. Access to global surgery centre expertise through partnership with David Manning

Pulse's surgery centre expertise will be enhanced by a proposed services agreement with an entity controlled by Mr David Manning. Mr Manning is also proposed to be appointed as a Non-Executive Director to the Pulse Board if the Offer is successful. Mr Manning has over 35 years of surgery centre experience including having co-founded NASDAQ listed AmSurg. AmSurg operates the largest eye surgery network and one of the largest surgery centre networks in the United States, with a market capitalisation of approximately US\$3.4 billion. Mr Manning's strategic relationship with AmSurg will provide the Merged Group with access to global best practice in surgery centre development and operation via AmSurg's unique IP and systems.

Refer to section 5.5 for further information on Mr Manning.

4. Synergies

- Pulse management's analysis and review of publicly available information on Vision and its experience with previous industry integration has led it to conclude that, if Pulse acquires 100% of the Vision Shares, potential pre-tax cost synergies of approximately \$2.0 million should be realised once fully implemented.
- The potential synergies have been assessed by Pulse management as realisable through:
 - removing duplication of costs across the operations of the Merged Group including such areas as head office, senior executives, audit and corporate services;
 - removing costs associated with Vision being listed on ASX and its board; and
 - leveraging best practice for corporate processes and systems.
- The potential synergies are based on estimates by Pulse management. Pulse has not discussed its analysis of achievable synergies with Vision management and does not have available to it (based on the publicly available information) sufficient information to develop a detailed integration plan to achieve the synergies.
- There are potential revenue synergies available from better optimisation of the Merged Group's facilities network.
- The extent and timing of the benefit of the potential synergies is currently uncertain and will depend on, among other things, whether or not Pulse is able to acquire 100% of Vision and the results of the operational review that Pulse intends to conduct following the conclusion of the Offer, as referred to in sections 10.3 and 10.4.
- The full benefit of the potential synergies would not be available if Pulse acquires less than 100% of Vision. Relevantly, Pulse reserves its right to declare the Offer free from the Minimum Acceptance Condition (or any other Condition) to the Offer.

Refer to section 9.4 for financial information on the Merged Group.

5. Greater Scale and Financial Strength

The Merged Group is estimated to have underlying unaudited pro forma FY15 EBITDA of \$32.3 million and a pro forma market capitalisation of approximately \$255 million based on the market capitalisation of Pulse immediately prior to the announcement of the Offer and the implied market capitalisation of Vision at the value of the Offer price of \$0.88 per Vision Share⁷. The Merged Group is also estimated to have a pro forma FY15 enterprise value of \$291 million (based on an unaudited pro forma FY15 net debt of the Merged Group of \$35.6 million). Holding shares in the Merged Group compared to Vision Shares should result in owning shares in a company with a larger balance sheet, greater liquidity and greater capacity to access capital to fund further growth opportunities.

Refer to section 9.4 for financial information on the Merged Group.

⁷ The Merged Group unaudited underlying pro forma FY15 EBITDA is based on the combination of Pulse's earnings guidance release to ASX on 30 June 2015 (with pro forma underlying unaudited FY15F EBITDA of \$10.7 million) and Vision's earning guidance released to ASX on 13 May 2015 (with underlying unaudited FY15F EBITDA of \$25 - \$26 million), excluding synergies and adjusted for announced asset transactions. The Merged Group pro forma FY15 net debt is based on the combination of pro forma FY15 net debt for Pulse and Vision, including \$9.0 million of anticipated transaction costs relating to the Offer. The pro forma EV of the Merged Group is estimated to be \$291 million and is based on the market capitalisation of Pulse immediately prior to the announcement of the Offer and the implied market capitalisation of Vision at the implied value of the Offer of \$0.88 per Vision Share plus the pro forma FY15 net debt of the Merged Group. Refer Bidder's Statement for more details

2.3 Vision Shareholders will not have to pay stamp duty and may not have to pay brokerage on the transfer of their Vision Shares under the Offer

1. Issuer Sponsored Holding

If your Vision Shares are registered in an Issuer Sponsored Holding in your name and you deliver them directly to Pulse, you will not incur any brokerage fees or be obliged to pay stamp duty in connection with your acceptance of the Offer.

2. CHESS Holding

If your Vision Shares are registered in a CHESS Holding, or if you are a beneficial owner whose Vision Shares are registered in the name of a broker, bank, custodian, or other nominee, you will not be obliged to pay stamp duty by accepting the Offer, but you should ask your Controlling Participant (usually your broker) or that nominee whether it will charge any transactional fees or service charges in connection with acceptance of the Offer.

3. Foreign Shareholder

If you are a Foreign Shareholder, brokerage will be payable in respect of the Pulse Shares sold under the nominee facility described in section 15.6 and will be deducted from the proceeds of sale.

2.4 Vision Shareholders may be eligible for CGT rollover relief in respect of the transfer of their Vision Shares under the Offer

Should Pulse be successful in acquiring more than 80% of Vision Shares, Vision Shareholders who are deemed Australian residents for tax purposes and who would otherwise derive a capital gain in respect of the exchange of Vision Shares for Pulse Shares should be entitled to choose scrip for scrip rollover relief.

The effect of this would be that the capital gain arising from the exchange of Vision Shares for Pulse Shares would effectively be disregarded for CGT purposes until a later CGT event happens in respect of the Pulse Shares acquired.

Please refer to section 13 for a general summary of Australian tax considerations for Vision Shareholders.

2.5 No other proposal has been provided for your Vision Shares at the date of this Bidder's Statement

As at the date of this Bidder's Statement, no other proposal for your Vision Shares has been announced by Vision or another party.

2.6 The Vision Share price and liquidity may fall if Vision Shareholders do not accept the Offer

The closing price of Vision Shares on the ASX prior to the announcement of the Offer was \$0.68. Pulse believes that if the Offer does not succeed, and if there are subsequently no other alternative offers or proposals for Vision Shares, it is likely that the trading price of Vision Shares may fall from the prevailing trading price during the Offer Period.

Depending on the level of acceptances that Pulse receives under the Offer, the market for your Vision Shares may become less liquid or less active. If Vision remains listed on the ASX following the close of the Offer, it is likely that the market for your Vision Shares will become less liquid than the market for those Vision Shares as it is after the Announcement Date. A less active or liquid market for Vision Shares may result in increased difficulty in selling your Vision Shares on market at a date after the close of the Offer.

RISKS OF ACCEPTING THE OFFER

2.7 There are risks associated with accepting the Offer

Some of the risks associated with accepting the Offer include:

- The consideration being offered for your Vision Shares consists of a specified number of Pulse Shares. Accordingly, the value of the consideration will fluctuate depending upon the market value of the Pulse Shares.
- There are risks that integration of the businesses of the Pulse Group and the Vision Group may take longer than expected and that anticipated benefits of that integration may be less than estimated.
- It is possible that the change in control of Vision that will arise as a result of the Offer may trigger termination rights under material contracts to which Vision or its Subsidiaries are a party.
- Both Pulse and Vision operate in the private healthcare industry and, accordingly, any investment in the Merged Group will remain subject to the risks affecting that industry, including changes in government policies, uncertainties in relation to contract negotiations and renewals with private health insurance funds, litigation and insurance risks and project development risks.

Refer to section 12 for further information about these risks and additional risks associated with accepting the Offer.

Can I withdraw my acceptance?

Once you accept the Offer, you cannot withdraw your acceptance unless a withdrawal right arises under the Corporations Act. If this occurs, a notice will be sent to you at the relevant time that explains your rights to withdraw your acceptance of the Offer.

What if I am a Foreign Shareholder?

Foreign Shareholders, being Vision Shareholders with a registered address outside of Australia or its external territories, who accept the Offer will not be entitled to receive Pulse Shares.

Instead, the Pulse Shares that Foreign Shareholders would have been entitled to receive will be issued to, and sold by, a Nominee and the net proceeds will be paid to each relevant Foreign Shareholder pro rata according to their respective holdings of Vision Shares by cheque in Australian dollars drawn on an Australian bank account.

Vision will also issue a Target's Statement which includes further information in relation to the Offer.

Do I have to pay brokerage or stamp duty if I accept the Offer?

If your Vision Shares are registered in an Issuer Sponsored Holding in your name and you deliver them directly to Pulse, you will not incur any brokerage fees or be obliged to pay stamp duty in connection with your acceptance of the Offer.

If your Vision Shares are registered in a CHESS Holding, or if you are a beneficial owner whose Vision Shares are registered in the name of a broker, bank, custodian, or other nominee, you will not be obliged to pay stamp duty by accepting the Offer, but you should ask your Controlling Participant (usually your broker) or that nominee whether it will charge any transactional fees or service charges in connection with acceptance of the Offer.

If you are a Foreign Shareholder, brokerage will be payable in respect of the Pulse Shares sold under the Nominee facility described in section 15.6 and will be deducted from the proceeds of sale.

Following the Offer, will Vision remain a company listed on the ASX?

This depends on the number of Vision Shares acquired by Pulse pursuant to the Offer.

If Pulse acquires a Relevant Interest in 90% or more of Vision Shares, Pulse will seek to delist Vision from ASX.

Refer to section 10 for further information on Pulse's intentions for Vision.

c. **Pulse management discussion of historical financial performance**

Statement of comprehensive income of Pulse for year ended 30 June 2014

The following management discussion in relation to the statement of comprehensive income of Pulse for year ended 30 June 2014 has been extracted from the 2014 Annual Report of Pulse lodged with ASX on 29 August 2014:

- The year ended 30 June 2014 (FY14) saw revenue growth of 9% to \$52.4 million and EBITDA of \$4.7 million.
- Revenue growth was driven by additional capacity at Eden Rehabilitation Hospital, with 12 additional beds and Westmead Rehabilitation Hospital (**WRH**) with 5 additional beds. Throughout FY14, with these additional beds and the acquisition of Mackay Rehabilitation Hospital, Pulse increased total bed capacity by 22%.
- In addition, surgical activity at key surgical sites grew well, up 11% on the previous year, but the growing trend to day surgery and shorter length of stay resulted in reduced utilisation of surgical beds.
- There was no uplift in FY14 EBITDA. Underlying this was the market rent now payable at WRH as a consequence of the FY13 change in the WRH ownership structure. Lease interest and intangible asset amortisation were removed and replaced with market rent.
- During FY14, Pulse incurred acquisition and integration costs of \$0.8 million in the acquisition of Mackay Rehabilitation Hospital together with costs associated with the development of the acquisition pipeline.

Statement of comprehensive income of Pulse for half year to 31 December 2014

The following management discussion in relation to the statement of comprehensive income of Pulse for half year ended 31 December 2014 has been extracted from the 2015 Half Yearly Reported Accounts of Pulse lodged with ASX on 25 February 2015:

- The half year ended 31 December 2014 (1H15) saw revenue increase by 12% to \$29.7 million and EBITDA increase to \$2.9 million compared to 1H14, driven by the newly acquired Mackay Rehabilitation Hospital and increased activity across most hospitals, most notably Eden Rehabilitation Hospital and Gympie Private Hospital. Surgical activity was up 13% on 1H14, partly due to a large public surgical contract at Gympie Private Hospital. Also, back-office savings from the establishment of centralised shared services together with improved skill-mix, roster management and procurement savings drove margin improvement.
- During 1H15, Pulse incurred corporate acquisition and integration costs of \$0.3 million in the development of the Gold Coast Surgical Hospital, together with costs associated with development of the acquisition pipeline.

6.4 Summary of Key Terms of Pulse Shares

1. Introduction

The rights and liabilities attaching to the Pulse Shares which will be issued as the consideration under the Offer are determined by Pulse’s constitution and the Corporations Act.

Pulse Shares are fully paid ordinary shares which have no par value and Pulse does not have a limited amount of authorised capital.

The main rights and liabilities attaching to the Pulse Shares are summarised below.

2. Meetings of shareholders and voting

Pulse shareholders are entitled to attend general meetings of Pulse and vote:

- a. in person or, where a shareholder is a body corporate, by its representative;
- b. by proxy; or
- c. by attorney.

Subject to any rights or restrictions attached to any Pulse Shares, at a general meeting:

- a. on a show of hands, every shareholder present in person or by proxy, attorney or representative has one vote; and
- b. on a poll, every shareholder present has:
 - i. one vote for each fully paid share held by the shareholder and in respect of which the shareholder is entitled to vote; and

- ii. a fraction of a vote for each partly paid share held by the shareholder and in respect of which the shareholder is entitled to vote, equivalent to the proportion which the amount paid up (not credited) on the share bears to the total amounts paid and payable (excluding amounts credited). Amounts paid or credited as paid in advance of a call are ignored when calculating the fraction.

Where a person present at a general meeting represents personally or by proxy, attorney or representative more than one shareholder:

- a. on a show of hands the person is entitled to one vote only despite the number of shareholders the person represents; and
- b. that vote will be taken as having been cast for all the shareholders the person represents.

3. Dividends

Pulse may pay any interim and final dividends that, in the judgment of the Directors, the financial position of Pulse justifies, or pay any dividend required to be paid under the terms of issue of a Pulse Share.

When determining a dividend is payable, the Directors of Pulse may fix the date for payment and method of payment. Without prejudice to any other method of payment the Directors may adopt, the Directors may direct payment of the dividend wholly or partly by the distribution of specific assets, including paid-up shares of Pulse or of another body corporate, or payment may be made in cash or by cheque.

All dividends in respect of Pulse Shares must be paid to the shareholders in proportion to the number of shares held by a shareholder but, where shares are partly paid, all dividends must be apportioned and paid proportionately to the amounts paid (not credited) on the shares. All dividends must be apportioned and paid proportionately to the amounts so paid (not credited) during any portion or portions of the period in respect of which the dividend is paid. Interest is not payable by Pulse in respect of any dividend.

Pulse may deduct from any dividend payable to a shareholder all sums of money presently payable by the shareholder to Pulse for calls that have not been paid, and apply the amount deducted in or towards satisfaction of the money owing.

Where a person is entitled to a Pulse Share as a result of a share transfer, the Directors may, but are not obliged to, retain any dividends payable in respect of that share until that person becomes registered as the holder of the share or transfers it.

Where any dividend is unclaimed, Pulse is entitled to deal with it in accordance with the provisions of the *Unclaimed Monies Act 1962* (Vic) and no interest is payable on any unclaimed dividends.

4. Winding up

Subject to the Pulse constitution and to the rights or restrictions attached to any Pulse Shares, if Pulse is wound up and the property of Pulse is more than sufficient to pay all of the debts and liabilities of Pulse and the costs, charges and expenses of the winding up, the excess must be divided among the Pulse shareholders in proportion to the number of Pulse Shares held by them, irrespective of the amounts paid or credited as paid on the shares. For the purpose of calculating the excess, any amount unpaid on a Pulse Share is to be treated as property of Pulse.

The amount of the excess that would otherwise be distributable to the holder of a partly paid Pulse Share must be reduced by the amount unpaid on that share at the date of the distribution. If the effect of the reduction would be to reduce the distribution payable to a negative amount, the shareholder must contribute that amount to Pulse.

In the event that Pulse is wound up, the liquidator may, with the sanction of a special resolution passed by Pulse shareholders, divide among the shareholders the whole or any part of the property of Pulse and determine how the division is to be carried out as between the shareholders.

Any division made by the liquidator may be otherwise than in accordance with the legal rights of Pulse shareholders. However, where a division is otherwise than in accordance with legal rights, a shareholder is entitled to dissent and to exercise the same rights as if the special resolution sanctioning the division were a special resolution passed under section 507 of the Corporations Act.

5. Transfer

Subject to the Pulse constitution and any rights and restrictions attached to any Pulse Shares by virtue of the ASX Listing Rules or the Corporations Act, Pulse Shares may be freely transferred via a proper ASX Settlement and Transfer Corporation transfer or any other written instrument approved by the directors of Pulse.

The Directors of Pulse may decline to register an instrument of transfer where the transfer is not in registrable form or the refusal to register the transfer is permitted under the ASX Listing Rules. Reasons for refusal may include (but are not limited to) that the registration may break an Australian law, or that Pulse has a lien on the securities under the ASX Listing Rules.

Under certain rules in the Pulse constitution, the Directors of Pulse are entitled to sell a holding of Pulse Shares which constitutes less than a marketable parcel by sending a written notice to the shareholder advising the shareholder of the intended sale. The shareholder may elect to be exempt from these rules or to increase their shareholding to a marketable parcel, in which case the rules allowing Directors to sell the parcel will no longer apply.

6. Alteration of rights attaching to Pulse Shares

Subject to section 246B of the Corporations Act, Pulse may vary or abrogate the rights attaching to Pulse Shares by special resolution passed at a meeting of Pulse shareholders holding shares in the class to be varied, or with the written consent of shareholders with at least 75% of the votes in the class.

6.5 Summary of Key Terms of Pulse Performance Rights

c. Vision management discussion of historical financial performance

Statement of comprehensive income of Vision for year ended 30 June 2014

The following management discussion in relation to the statement of comprehensive income of Pulse for year ended 30 June 2014 has been extracted from the 2014 Annual Report of Vision lodged with ASX on 26 August 2014:

- Operating revenue for Vision was \$110.6 million, an increase of \$3.5 million (3.3%) on FY13. The increase was due to:
 - An increase in theatre procedures, with surgery centre revenue increasing \$2.4 million (6.7%); and
 - An increase in consulting and surgical revenue \$1.3 million (2.1%).
- Industry data indicates that demand for ophthalmic procedures continue to increase. This was reflected by the increase in procedures at Vision's day surgery facilities. The consulting and surgical revenue growth was mainly due to the introduction of additional doctors in Victoria who were able to meet further demand and improve utilisation of our facilities.
- During the financial year ended 30 June 2014, Vision benefited from insurance claims of \$1.9 million.

 - Theatre revenue increased \$0.8 million (4%) predominantly driven by an increase in intravitreal injection procedures which is consistent with industry trends;
 - Consulting and Surgical Revenue declined \$0.2 million (<1%) with an increase in Victoria from three new partner doctors, offset by a decrease in Queensland where there was three less partner doctors than the same period last year; and

5. Forecast Financial Information

The Merged Group is expected to deliver double digit accretion relative to a Pulse stand-alone pro forma FY15 earnings per share ("**EPS**") of 3.5 cents.

EPS accretion is calculated on a pro forma unaudited basis. The pro forma FY15 EPS of the Merged Group includes full year contributions from Pulse and Vision, and pre-tax cost-synergies realised in the first twelve months of \$1.5 million¹⁹ as though the transaction was effected on 1 July 2014.

The Merged Group pro forma FY15 EPS includes anticipated interest expense associated with the Offer, and interest and earnings effects from asset transactions announced to the ASX. It does not include direct transaction or integration costs.

Acquisition accounting adjustments have not yet been undertaken and pro forma EPS accretion is before any amortisation on intangibles identified as part of this process. Australian Accounting Standards allow for twelve months from completion to finalise accounting and purchase price allocation

Basis for calculating pro forma FY15 EPS of the Merged Group

a. Pulse stand-alone pro forma FY15 EPS

Pulse stand-alone pro forma FY15 EPS has been calculated on the basis of the Investor Update released by Pulse to ASX on 30 June 2015 with pro forma underlying unaudited FY15F EBITDA of \$10.7 million, with the following adjustments:

- Sale and leaseback of Gympie Private Hospital: the additional rental expense associated with this transaction has been included for the full year
- Interest revenue/expense as well as depreciation and amortisation has been adjusted for the full year effect of the sale and leaseback of Gympie Private Hospital, the sale of North Coast Community Care and the acquisition of The Hills Clinic
- Anticipated ramp-up costs associated with the Gold Coast Surgical Hospital have not been included.
- Corporate tax rate assumed at 30%

This results in a Pulse stand-alone pro forma FY15 EPS estimated at 3.5 cents.

¹⁸ Based on a valuation of each Pulse Share of \$0.55 reflecting the 5-day VWAP of Pulse Shares to 3 July 2015

¹⁹ Pulse management expects potential pre-tax cost synergies of approximately \$2.0 million should be realised once integration and implementation has occurred. Refer to section

b. Vision stand-alone pro forma FY15 EPS

Vision stand-alone pro forma FY15 EPS has been calculated on the basis of the earnings guidance released by Vision to ASX on 25 May 2015 with underlying unaudited FY15F EBITDA of \$25 - \$26 million, with the following adjustments and assumptions:

- Sale of the of the Gold Coast clinic assets: announced to have a \$1.7 million EBIT impact, and depreciation has been adjusted for the sale of the associated \$1.1 million in assets.
- Intended sale of the Southport Day Surgery business: estimated to have a \$1.7 million EBIT impact.
- Interest expense as per the midpoint of guidance of \$1.3 - \$1.4 million.
- Corporate tax rate assumed at 30%

This results in a Vision stand-alone pro forma FY15 EPS estimated at 6.1 cents.

c. Pro forma FY15 EPS of the Merged Group

Based on the Investor Update released by Pulse to ASX on 30 June 2015 with pro forma underlying unaudited FY15F EBITDA of \$10.7 million and the earnings guidance released by Vision to ASX on 25 May 2015 with underlying unaudited EBITDA of \$25 - \$26 million, adjusted in accordance with the sections above, the unaudited FY15F EBITDA of the Merged Group is estimated to be \$32.3 million (exclusive of synergies).

Pro forma FY15 EPS of the Merged Group has been calculated on the basis of the estimated Pulse stand-alone pro forma FY15 EPS of 3.5 cents and the estimated Vision stand-alone pro forma FY15 EPS of 6.1 cents, adopting the following assumptions:

- The acquisition by Pulse of 100% of Vision Shares occurred on 1 July 2014.
- The issue of approximately 294.8 million Pulse Shares to Vision Shareholders.
- Additional financing costs incurred associated with funding transaction costs relating to the Offer.
- Pre-tax cost synergies realised in the first twelve months estimated at \$1.5 million of the total \$2.0 million of identified pre-tax cost synergies.
- No revenue or costs adjustments have been made with regard to the strategic partnership involving David Manning.

Disclaimer

The financial information presented in this section 9.4 in relation to Vision has been prepared by Pulse using publicly available information that has not been independently verified. Pulse has not been provided with non-public due diligence information on Vision as at the date of this Bidder's Statement and is not in a position to provide forecast financial information for the Merged Group.

Pulse has relied on the information in the audited full year financial report of Vision for the year ended 30 June 2014, the reviewed half year financial report of Vision for the period ended 31 December 2014 and the Vision announcements to ASX referred to in this section 5.7 and section 7.7 above to prepare the financial information in relation to Vision contained in this Bidder's Statement.

Accordingly, Pulse does not, subject to the Corporations Act, make any representation or warranty, express or implied, as to the accuracy or completeness of this information. It is expected that Vision will release financial information in its Target's Statement that will be sent to Vision Shareholders and made publicly available. The financial information regarding Pulse, Vision and the Merged Group in this Bidder's Statement should not be regarded as comprehensive and readers should have regard to the risks outlined in section 12.

10. Pulse's Intentions for Vision

10.1 Introduction

This section 10 sets out Pulse's intentions for the Vision Group, which are based on the information concerning the Vision Group and its business known to Pulse at the time of preparation of this Bidder's Statement. Pulse will only make final decisions in light of the material information available to it and circumstances at the relevant time.

The statements set out in this section are therefore statements of current intentions only, which may vary as new information becomes available or circumstances change. Pulse will only make final decisions on the courses of action and intentions set out in this section after undertaking a review of the Vision Group and following receipt of appropriate legal, taxation and financial advice, and in light of the material circumstances at the relevant time, including each Vision Director's obligations to act in the best interests of Vision and Vision Shareholders. In addition, Pulse's intentions must be read subject to the requirements of the Corporations Act and ASX Listing Rules (if Vision remains listed) including in relation to Related Party transactions.

10.2 Continuation of Operations

Whether Vision becomes wholly or partly owned by Pulse, except as set out elsewhere in this section 10, it is Pulse's current intention:

- to continue the business of Vision;
- not to make any major changes to the business of Vision; and
- to continue the employment of the present employees of Vision, including each doctor engaged by Vision, subject to the outcomes of the integration review and assessment of the Merged Group (see 10.3), which may result in changes for management and head office employees

10.3 Integration and Strategy Review

If Pulse acquires control of Vision under the Takeover Bid, Pulse and Vision would be combined to form the Merged Group, a leading provider of specialist healthcare services, through its network of niche hospitals, surgical centres and ophthalmic practices.

Pulse does not anticipate making any immediate material changes to the business operations of Pulse or Vision. Instead, Pulse will undertake an integration review and assessment of the Merged Group. In the absence of a Chief Executive Officer of Vision, Vision management will maintain their existing responsibilities with oversight and support from the Pulse's Managing Director (Phillipa Blakey) and Pulse's other senior executives until the outcomes of the integration review and assessment is complete.

Key areas of focus for Pulse's integration review and assessment will include:

- Doctor engagement;
- Organisation and management structure;
- Brand strategy – optimising the Vision and the Pulse brands;
- Potential support services agreement integration;
- System integration;
- Facilities optimisation;
- Target markets; and
- Acquisition opportunities.

10.4 Specific intentions if Pulse becomes entitled to proceed with compulsory acquisition

If Pulse acquires 90% or more of the Vision Shares and becomes entitled to compulsorily acquire all of the Vision Shares and Vision Non-Voting Shares (and any Vision Shares issued on conversion of Vision Non-Voting Shares) in accordance with Parts 6A.1 and 6A.2 of the Corporations Act, its current intentions for Vision, in addition to the integration and strategy review contemplated in section 10.3, are as follows:

1. Corporate Matters

Pulse intends to proceed with compulsory acquisition of all remaining:

- a. Vision Shares and, if it does so, will give a notice of compulsory acquisition to the holders of the remaining Vision Shares, even if the Vision Shares to which those notices relate are issued:
 - i. after the Offer closes but before the notices are given (pursuant to section 661A(4)(b) of the Corporations Act); or
 - ii. on conversion or exercise of rights attaching to securities convertible into Vision Shares, up to six weeks after the notices are given (pursuant to section 661A(4)(c) of the Corporations Act); and
- b. Vision Non-Voting Shares which have not been acquired by Pulse or cancelled prior to the Closing Date in accordance with the arrangements contemplated in section 14.6.

2. ASX listing

If Pulse proceeds with the compulsory acquisition of all of the Vision Shares and Vision Non-Voting Shares, Pulse will procure that Vision be removed from the official list of the ASX.

3. Structure of Vision Board

Subject to the Corporations Act and the constitution of Vision, Pulse will consider an appropriate structure for the boards of Vision and its Subsidiaries as part of the integration and strategy review contemplated in section 10.3.

4. Head office

Pulse intends to centralise corporate head office functions of Vision, such as company secretarial, treasury, financial management, legal, risk management and overall corporate administration of the Merged Group operations, to reduce and eliminate duplication where appropriate. The relevant business units will perform any remaining head office functions.

Pulse will seek to allocate alternative responsibilities to any Vision head office employees whose responsibilities currently include head office activities that are duplicated. If Pulse considers that it is not feasible to allocate alternative responsibilities to any such employee having regard to the centralisation of head office functions, then an appropriate redundancy package would be made available to the employee. Pulse has not yet determined the identity of any such employee.

5. Divestment policy

Pulse does not currently intend to dispose of any assets of Vision.

6. Vision Shares held by Viburnum

As set out in section 14.1, ASX Listing Rule 10.1 prohibits Pulse from acquiring the 28,560,215 Vision Shares held by Viburnum without first obtaining Pulse Shareholder approval. Pulse would therefore currently need to obtain shareholder approval before it can acquire these Vision Shares under the Offer or pursuant to compulsory acquisition. Pulse may seek shareholder approval to do so during or after the Offer Period. Pulse's ability to implement its intentions in this section may be dependent upon its ability to acquire the Vision Shares held by Viburnum.

10.5 Specific intentions for Vision as a partly owned company

Pulse reserves its right to declare the Offer free from the Minimum Acceptance Condition (or any other condition) to the Offer. However, Pulse has not decided whether it will free the Offer from the Minimum Acceptance Condition (or any other condition).

This section 10.5 describes Pulse's intentions, in addition to the integration and strategy review contemplated in section 10.3, if it were to declare the Offer free of the Minimum Acceptance Condition and if Vision becomes a controlled entity of Pulse, but Pulse is not entitled to proceed to compulsory acquisition in accordance with Parts 6A.1 and 6A.2 of the Corporations Act.

1. Corporate Support

Pulse intends to provide strategic and managerial support to Vision.

2. Structure of Vision Board

Subject to the Corporations Act and the constitution of Vision, it is Pulse's intention to replace some or all of the Vision Directors with Pulse's nominee Directors, so as to reflect Pulse's ownership interest in Vision. The board structure and identity of Pulse's nominees in these circumstances have not yet been determined by Pulse.

3. ASX listing

Subject to the ASX Listing Rules, it is Pulse's intention for Vision to continue to be listed on the ASX. The ability of Vision to remain listed on ASX will be subject to the ongoing requirements of the ASX Listing Rules (including there being a sufficient number and spread of Vision Shareholders) being satisfied. If Vision is not able to satisfy those requirements, ASX may require Vision be delisted, regardless of the result of the review of the Directors of Vision.

4. Further acquisition of Vision Shares

Pulse may acquire additional Vision Shares, including under the "creep" provisions of the Corporations Act and by other means. In summary the "creep" provisions would allow Pulse and its Associates to acquire up to 3% of Vision Shares every six months. Pulse has not decided whether it will acquire further Vision Shares, as that will be dependent upon (among other things) the extent of the Voting Power of Pulse in Vision and market conditions at the time.

Pulse would only make a decision on these courses of action following receipt of appropriate legal, taxation and financial advice, and in light of the material circumstances at the relevant time, including Vision Director's obligations to have regard to the interests of Vision and all Vision Shareholders. Pulse's intentions must also be read subject to the requirements of the Corporations Act and the ASX Listing Rules (if Vision remains listed) in relation to Related Party transactions.

10.6 Intentions for Vision as a partly owned company

Pulse's intentions, if it were to declare the Offer free of the Minimum Acceptance Condition and if Pulse does not acquire control of Vision, are to seek to obtain representation on the Vision Board.

10.7 Conflicts

Pulse intends that the Vision Directors appointed by it will act at all times in accordance with their fiduciary duties as required by law and that all legal requirements are complied with in pursuing the intentions outlined in this Bidder's Statement. Those requirements may, in some circumstances, require the approval of minority Vision Shareholders in order to effect the implementation of any particular objective.

11. Offer Consideration

11.1 Offer Consideration

The consideration for the acquisition of the Vision Shares to which the Offer relates will be satisfied by the issue of Pulse Shares to Vision Shareholders.

The maximum number of Pulse Shares which would need to be issued under the Offer if Pulse acquires all Vision Shares and Vision Non-Voting Shares (and Vision Shares issued on conversion of Vision Non-Voting Shares) on issue as at the date of this Bidder's Statement is approximately 294,835,658 Pulse Shares.

Pulse has the capacity to issue the maximum number of Pulse Shares which it may be required to issue under the Offer.

Pulse intends to apply for the quotation of Pulse Shares issued under the Offer on the ASX within 7 days of the date of this Bidder's Statement in accordance with the Corporations Act.

11.2 Provision of Consideration by Pulse

Pulse believes that it has reasonable grounds for holding the view, and Pulse does hold the view, that Pulse will be able to provide the consideration offered under the Offer.

12. Risk Factors

12.1 Introduction

If the Offer becomes unconditional, Vision Shareholders who accept the Offer will become Pulse Shareholders, and Pulse will acquire an interest in Vision. In that event, Vision Shareholders will continue to be indirectly exposed to the risks associated with having an interest in Vision's assets and general economic, share market and industry risks. There are also additional risks relating to the Offer and the Merged Group, to which Vision Shareholders will be exposed through their holding of Pulse Shares.

12.2 Risks relating to the Offer and the Merged Group

1. Issue of Pulse Shares as consideration

Vision Shareholders are being offered consideration under the Offer that consists of a specified number of Pulse Shares, rather than a number of Pulse Shares with a specified market value. As a result, the value of the consideration will fluctuate depending upon the market value of the Pulse Shares.

Furthermore, under the Offer, Pulse will issue a significant number of Pulse Shares. Some Vision Shareholders may not intend to continue to hold their Pulse Shares and may wish to sell them on ASX. There is a risk that if a significant number of Vision Shareholders seek to sell their Pulse Shares, this may adversely impact the price of Pulse Shares.

2. Acquisition of less than 100% of Vision shares

The Offer is conditional on Pulse becoming entitled to at least 90% of Vision Shares, and therefore being able to compulsorily acquire any remaining Vision Shares that Pulse is not entitled to. While Pulse has no present intention to waive this condition, it is possible that Pulse will acquire less than 100% of Vision Shares under the Offer.

The impact of this will depend on the level of ownership that is ultimately acquired but, in any event, any minority interest in Vision may have an impact on the Merged Group's capacity to integrate the businesses of the Pulse Group and the Vision Group and realise synergies from the acquisition by Pulse of Vision.

Additionally, if Pulse does not ultimately hold 80% or more of the Vision Shares at the end of the Offer Period, Vision Shareholders who are Australian residents for income tax purposes and who would make a capital gain from the disposal of their Vision Shares will be unable to elect for a rollover of that capital gain, resulting in a capital gain crystallising at the time of the sale of the Vision Shares. Please refer to section 13 for a general overview of the Australian income tax and capital gains tax implications for Vision Shareholders who accept the Offer.

3. Integration risks

There are risks that integration of the businesses of the Pulse Group and the Vision Group and other acquisitions by Pulse may take longer than expected and that anticipated benefits of that integration may be less than estimated. These risks include possible differences in the management culture of the two groups, inability to achieve synergy benefits and cost savings, and the potential loss of key personnel.

4. Termination of contracts

A change in control of Vision may occur as a result of the Offer. It is possible that material contracts to which Vision is a party, such as debt facilities, leases and contracts with Vision Doctors, may be subject to review or termination upon this change of control.

While Pulse is not aware of any counterparty that may wish to terminate a material contract, should any such contracts be terminated the Merged Group would lose the benefit of the contract and may not be able to obtain similarly favourable terms upon entry into replacement arrangements (should replacement arrangements be available).

5. Limited access to Vision information

Pulse has had no access to information on Vision beyond that which is available in the public domain. Therefore, there remains uncertainty associated with the information disclosed in this Bidder's Statement relating to Vision. Pulse does not, except as required by law, make any representation or warranty, express or implied, as to the accuracy or completeness of this information.

12.3 Risks relating to the healthcare industry

Both Pulse and Vision operate in the private healthcare industry which itself is exposed to a number of risk factors. Accordingly, any investment in the Merged Group will remain subject to the following industry risks.

1. Government Policies

The healthcare industry is subject to extensive laws and regulations relating to the conduct of operations, licencing and accreditation of facilities, and the addition and development of facilities and services, among other things.

There are several government policies and regulations that could have a material adverse impact on the performance of the Merged Group if changed, including but not limited to changes to initiatives that promoted private health insurance (**PHI**), changes to regulations relating to PHI funds, changes to hospital licensing policy, changes to medical negligence legislation, and changes to public hospital policy that may encourage patients to use public facilities instead of private facilities.

2. Private Health Insurance

A large portion of the revenue received by the Merged Group will be derived from PHI funds, many of which have negotiated schedules of fees with Pulse and Vision such that the latter receive preferred rates. Failure to successfully renegotiate such commercial agreements with PHI funds as they come up for renewal could have a material adverse impact on the profitability of the Merged Group. Additionally, should PHI fund membership decrease as a result of worsening economic conditions, changes in economic incentives, increased PHI fund premiums, or otherwise, or PHI fund members elect to decrease their coverage, this could materially impact on the number of patients electing for services in private healthcare facilities such as those operated by Pulse and Vision.

3. Labour

The Merged Group will rely on Accredited Medical Practitioners (AMPs) as a source of patient referrals to their facilities. For those AMPs that are not currently employed by or remunerated by Pulse or Vision, there is a risk that they may choose to refer their patients to, and perform their services at, facilities other than those operated by the Merged Group.

Additionally, the Merged Group will face competition in attracting and retaining nursing staff, who constitute the majority of people employed by Pulse and Vision. In service areas where there is a relative shortage of available nursing staff, there is a risk that the Merged Group is unable to properly staff its facilities to meet demand, which could have a material adverse impact on earnings.

Separately, from time to time the Merged Group may need to renegotiate enterprise bargaining agreements with its staff, and in such cases there is a risk that such negotiations could result in a staff strike or other form of service interruption, or increased direct and indirect labour costs of the Merged Group, both of which would have a negative impact on earnings.

4. Litigation and Insurance

Private hospital operators such as Pulse and Vision are exposed to the risk of medical indemnity claims and litigation. It is possible that a current or past patient of either Pulse or Vision may commence or threaten litigation for medical negligence against the Merged Group, which could have a negative impact on the financial performance, financial position, and future prospects of the Merged Group.

Separately, while both Pulse and Vision maintain insurance coverage consistent with industry practice, there is no guarantee that such insurance will be available in the future for the Merged Group on commercially reasonable terms or that any cover will be adequate and available to cover all or any future claims.

5. Development Projects

Many private healthcare facilities operators such as Pulse and Vision will from time to time undertake development projects to expand their current facilities, and to create new facilities. There is a risk that any such developments by the Merged Group experience cost overruns and or delays in construction, or that the business in the new facility does not perform as anticipated, all of which can have a material negative impact on the earnings of the Merged Group.

12.4 General risks

The following risks have been identified as being key risks specific to investing in the Merged Group. These risks have the potential to have a significant adverse impact on the Merged Group which may in turn affect the financial position, prospects and price of its listed securities. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, others can be covered by insurance, but some are outside the control of Pulse and cannot be mitigated or insured against.

1. Economic risks

Economic conditions: The economic condition of both domestic and global markets may affect the performance of the Merged Group. Factors such as fluctuations in currencies, commodity prices, inflation rate, interest rates, supply and demand and industrial disruption may have an impact on operating costs and therefore future possible revenues and the share market price.

Future capital requirements: The continued operations of the Merged Group will be dependent on its ability to obtain financing through debt, equity financing or capital raising. There is a risk that the Merged Group may not be able to access capital for future projects or developments due to factors beyond its control which could have a material adverse impact on the Merged Group's business and financial condition.

Business factors: The continuing economic viability of the Merged Group will be dependent on managing risk factors normally found in conducting a business, including management of contractual risks, litigation due to breach of agreements or in relation to employees (through personal injuries, industrial matters or otherwise), strikes, lockouts or loss of services of key management or operational personnel.

There can be no assurance that parties with whom the Merged Group has entered into commercial arrangements will adhere to the terms of the contracts and arrangements. There is the potential of material failure by or insolvency of any contractor used by the Merged Group in any of its activities. Such being the case, this could cause disruption to the operations of the Merged Group. The Merged Group is unable to predict the risk of insolvency or other managerial failure by any of its contractors or other service providers used by the Merged Group.

All of the mentioned business factors could have a material adverse effect on the results of the operations or the financial condition of the Merged Group.

2. Share market conditions

Securities listed on a stock market can experience price and volume fluctuations that are often unrelated to the performance of the company. General factors that may affect the market price of Pulse Shares include economic conditions, both locally and internationally, the global security situation, the possibility of terrorist disturbances and changes in government legislation or policy.

3. Increased competition

Both Pulse and Vision operate in competitive markets. In general, the entry of new competitors in those markets or changes in the strategy of existing competitors (possibly as a result of the formation of the Merged Group) may have an adverse effect on the Merged Group.

13. Taxation Considerations

13.1 Introduction

The information in this section is intended to provide a general overview of the Australian income tax and capital gains tax (**CGT**) implications for Vision Shareholders who accept the Offer.

This summary is not intended to be comprehensive and is based upon Pulse's interpretation of legislation currently in force at the date of this Bidder's Statement. Vision Shareholders should not rely on the information in this section as advice in relation to their own affairs. The Australian taxation laws are complex and there could be implications in addition to those described in this section. Vision Shareholders should seek independent professional advice in relation to their own particular circumstances. Shareholders who are not resident in Australia should seek advice concerning tax implications in their country of residence.

The information in this section does not apply to the following Vision Shareholders, who should obtain their own independent advice:

- non-resident Vision Shareholders who hold a non-portfolio interest in Vision for purposes of section 960-195 of the Australian *Income Tax Assessment Act 1997* (broadly, this means shareholders who together with associates hold or have held 10% or more of the Vision Shares at any time during the 2 years preceding the date of acceptance of the Offer);
- non-resident Vision Shareholders who hold their Vision Shares in connection with a permanent establishment in Australia;
- Vision Shareholders who have received their Vision Shares in their capacity as employees or directors of Vision; and
- holders of Vision Non-Voting Shares.

13.2 Australian tax consequences

The Australian tax consequences of disposing of your Vision Shares will depend on a number of factors, including:

- whether you are an Australian resident or non-resident for tax purposes;
- whether you hold your Vision Shares on capital or revenue account;
- the cost of acquiring your Vision Shares;
- when you acquired your Vision Shares;
- whether you are an individual, a company, a trustee of a trust or a complying superannuation entity; and
- whether Pulse acquires 80% or more of the Vision Shares as a result of the Offer.

13.3 Holding Vision Shares on revenue or capital account

Broadly, if you acquired your Vision Shares as part of a share trading business, as part of certain other businesses (eg, banking and insurance) or for the purpose of reselling them at a profit, then you may be treated as holding your Vision Shares on revenue account.

If, on the other hand, you acquired your Vision Shares as a passive investment, for example, with the intention of generating dividend income and/or long term capital growth, then you may be treated as holding your Vision Shares on capital account.

13.4 Vision Shares held on revenue account

If you are an Australian resident and hold your Vision Shares on revenue account, then you will be liable to Australian tax on any gain you make on the disposal of your Vision Shares by accepting the Offer. Broadly, the amount of the gain liable to Australian tax will be the amount by which the disposal proceeds exceed the cost of the Vision Shares you hold. The disposal proceeds will be equal to the capital proceeds (refer to section 13.6 below). You must include any gain in your assessable income and it will be subject to Australian tax at applicable rates.

If, on the other hand, the cost of the Vision Shares you hold exceeds the disposal proceeds you receive in respect of those Vision Shares, then you will incur a loss equal to the excess. This loss may be offset against your assessable income, and if your losses exceed your assessable income in that year, the difference may be carried forward and used in future income years subject to satisfying certain conditions.

If you are not an Australian resident and hold your Vision Shares on revenue account, then you may be liable to Australian tax on any gain you make on the disposal of your Vision Shares by accepting the Offer, if the gain has an Australian source and subject to any protection you are afforded from such taxation by a relevant double taxation agreement. The source of any gain will depend on a number of factors, including the place of contract to acquire and dispose of your Vision Shares and the place of any activities relevant to the holding of your Vision Shares.

If there is a double taxation agreement between Australia and the country in which you are resident, it may, for example, protect you from Australian tax on income if the gain is a business profit and you do not have a permanent establishment in Australia.

Non-resident shareholders should seek their own independent taxation advice.

13.5 Vision Shares held on capital account

Vision Shareholders who accept the Offer will dispose of their Vision Shares by way of transfer to Pulse. This disposal will constitute a CGT event for Australian CGT purposes.

If you are an Australian resident and hold your Vision Shares on capital account, in the absence of CGT scrip for scrip roll-over relief applying, you will make a capital gain or capital loss, depending on whether the capital proceeds from the transfer exceed or are less than the cost base of your Vision Shares (see section 13.6 below).

The capital gains and capital losses of a taxpayer are aggregated for all CGT events that occur during an income year to determine whether there is a net capital gain or net capital loss for the income year (carry forward capital losses from previous income years must also be applied). The CGT discount (refer to section 13.7 below) and/or other CGT concessions may then be applied in order to further reduce or eliminate an assessable net capital gain.

Any net capital gain is included in the Vision Shareholder's assessable income. Any net capital loss may not be offset against other income for income tax purposes, but may be carried forward to offset against future capital gains subject to satisfying certain conditions.

If you are not an Australian resident, you hold your Vision Shares on capital account and your holding is a portfolio interest (i.e. an interest in Vision of less than 10% held by you and your associates in the 2 years preceding the date of acceptance of the Offer), you will not be liable to CGT in respect of the disposal of your Vision Shares. If your holding is a non-portfolio interest in Vision, you should seek independent taxation advice as to the Australian tax consequences of the disposal of your Vision Shares.

13.6 Calculating the capital gain or loss

If you accept the Offer, the capital proceeds received by you will be the market value of the Pulse Shares you receive immediately after such Pulse Shares are issued to you.

Your cost base in your Vision Shares is used to determine whether any capital gain or loss arises for CGT purposes. Generally, cost base is made up of a number of elements. Broadly, this includes the acquisition cost, incidental costs of acquisition (such as broker's fees and stamp duty), and costs of owning, enhancing or preserving title to the asset which are not otherwise tax deductible.

Modifications to the general cost base rules may apply in certain circumstances, for example, if you have inherited shares by bequest or otherwise acquired shares on a non-arm's length basis.

Broadly, the amount of your capital gain will be the amount (if any) by which the capital proceeds received exceed the cost base of your Vision Shares.

Vision Shareholders whose cost base of their Vision Shares is greater than the capital proceeds received will make a capital loss.

13.7 CGT discount

If you are an Australian resident individual, the trustee of an Australian resident trust, or an Australian resident complying superannuation entity, then you may reduce any capital gain otherwise liable to Australian tax provided that you acquired your Vision Shares more than 12 months before disposing of them by accepting the Offer. However, if you are an Australian resident individual, and you have had a period of foreign or temporary residency, this may affect the calculation of your CGT discount and you should seek specific tax advice regarding your circumstances.

The CGT discount applicable to an individual or to the trustee of a trust is one half. The CGT discount applicable to a complying superannuation entity is one third. That is, the capital gain (after deduction of any capital losses) you take into account in working out your assessable income is reduced by one half or one third as appropriate. Trustees should seek specific tax advice concerning the tax consequences of distributions to beneficiaries attributable to discounted capital gains.

13.8 CGT scrip for scrip roll-over relief

If:

- as a result of the Offer, Pulse acquires 80% or more of the Vision Shares; and
- you would otherwise make a capital gain on the disposal of your Vision Shares,

then you may choose CGT scrip for scrip roll-over relief to apply to the capital gain.

If you choose to obtain the CGT scrip for scrip roll-over relief, then your capital gain will be disregarded, and your cost base of the Pulse Shares you receive will include an amount referable to the cost base of the Vision Shares. Taxation of the capital gain is effectively deferred until the Pulse Shares you received are disposed of. If you choose CGT scrip for scrip roll-over relief, then the choice must be made by the day you lodge your income tax return for the income year in which you accept the Offer. The way in which a Vision Shareholder prepares its income tax return is evidence of the choice. There is no need to lodge a notice with the Australian Taxation Office.

Holders of Vision Shares seeking to choose CGT scrip for scrip roll-over relief should confirm the actual acceptance level for the Offer.

CGT scrip for scrip roll-over relief is not available if you would otherwise make a capital loss on the disposal of your Vision Shares.

13.9 Future income derived from Pulse

If you accept the Offer and are an Australian resident shareholder, you will be assessed on any dividends paid to you by Pulse. The dividends may be franked or unfranked. If any dividends are franked (in whole or in part), you should consult an independent professional advisor to confirm whether an imputation credit is available to you, and if so, how to account for the imputation credit in your income tax return.

13.10 Goods and services tax and stamp duty

No Australian goods and services tax or stamp duty will be payable by you as a consequence of accepting the Offer.

14. Other Material Information

14.1 Vision shareholder support

Viburnum holds 28,560,215 (15.91%) Vision Shares and 48,998,923 (29.84%) Pulse Shares as trustee and manager for the Viburnum Funds. The Offer includes an offer by Pulse to acquire the 28,560,215 Vision Shares held by Viburnum.

However, ASX Listing Rule 10.1.3 provides that an ASX-listed entity must ensure that it does not acquire, without the approval of holders of the entity's ordinary securities, a "substantial asset" from a "substantial holder" of the entity if that person and the person's associates have a relevant interest in at least 10% of the total votes attaching to the voting securities in the entity.

Viburnum is a "substantial holder" of Pulse for the purposes of ASX Listing Rule 10.1.3. In addition, the 28,560,215 Vision Shares held by Viburnum constitute a "substantial asset". Accordingly, ASX Listing Rule 10.1 prohibits Pulse from acquiring the 28,560,215 Vision Shares without first obtaining Pulse Shareholder approval.

In order to facilitate Pulse making the Offer without risk of breaching ASX Listing Rule 10.1, Viburnum has informed Pulse that it will not accept the Offer in respect of the 28,560,215 Vision Shares it holds for so long as ASX Listing Rule 10.1 would not allow Pulse to acquire those shares. Viburnum has also informed Pulse that if during the Offer Period Pulse becomes able to acquire the 28,560,215 Vision Shares held by Viburnum in accordance with ASX Listing Rule 10.1, it intends to accept the Offer in the absence of a Superior Proposal.

Pulse may convene a meeting of Pulse Shareholders during or after the Offer Period for the purposes of seeking Pulse Shareholder approval to acquire the 28,560,215 Vision Shares held by Viburnum.

14.2 Viburnum interests in relation to Pulse and Vision

As noted in section 14.1, Viburnum holds 28,560,215 (15.91%) Vision Shares as trustee and manager of the Viburnum Funds. Viburnum also holds 48,998,923 (29.84%) Pulse Shares as trustee and manager of the Viburnum Funds.

Viburnum conceived the merger of Pulse and Vision and presented it to Pulse to undertake, in the interests of creating value for shareholders in both Pulse and Vision. The conduct of Viburnum and Pulse in respect of the Offer would constitute them acting in concert in relation to the affairs of Vision for the purposes of sections 12 and 53 of the Corporations Act and they are therefore Associates. As a result of the commitment Viburnum has given to Pulse to not accept the Offer described in section 14.1 and this Associate relationship, Pulse has a Relevant Interest and Voting Power in the Vision Shares held by Viburnum.

Pulse's financial advisor to the Takeover Bid, Allier Capital, has sub-contracted Viburnum to assist it in its advisory role to Pulse. Viburnum will be paid up to \$1,350,000 for these services by Allier Capital if the Takeover Bid is successful (as disclosed in section 14.18).

Viburnum has established conflict management protocols and implemented an information barrier to separate its division which is providing assistance to Allier Capital from that which is responsible for managing the relevant shareholdings in Pulse and Vision in order to ensure that the team providing assistance to Allier Capital is not conflicted and Viburnum continues to act in the best interests of the investors in the Viburnum Funds with respect to its shareholdings in Vision and Pulse. Accordingly, with respect to the Vision Shares which Viburnum holds in Vision, Viburnum has informed Pulse that if Pulse becomes able to acquire those Vision Shares under the Offer, Viburnum intends to accept the Offer, but has reserved its right to accept a Superior Proposal.

Mr Craig Coleman, an existing director of Pulse, is also a director of Viburnum. The conflict management protocols established by Viburnum also provide for an independent Viburnum committee to be established to consider and approve all matters in relation to the Takeover Bid which could give rise to a conflict of interest in relation to Mr Coleman's duties as a director of Viburnum and his duties as director of Pulse (including considerations and deliberations as to the acceptance of any offer by Pulse or an alternative bidder in relation to Vision Shares held by Viburnum).

14.3 Pulse conflicts management protocol

As noted in section 14.2 above, Mr Craig Coleman is a director of both Pulse and Viburnum.

The Pulse Board has adopted a conflict management protocol under which an independent committee of the Pulse Board has been established to consider and approve all matters in relation to the Takeover Bid which could give rise to a conflict of interest in relation to Mr Coleman's duties as a director of Viburnum and his duties as a Director of Pulse.

- Pulse does has a Relevant Interest in the 28,560,215 (15.91%) Vision Shares held by Viburnum (as trustee and manager of the Viburnum Funds) as a result of the commitment Viburnum has given to Pulse to not accept the Offer, as described in section 14.1; and

According to Vision's latest *Appendix 3B – New issue announcement* lodged on the ASX Markets Announcement Platform on 31 March 2015, Vision currently has 4,725,849 Vision Non-Voting Shares on issue.

Pulse understands that the Vision Non-Voting Shares have been issued to Vision Doctors, Vision Associates, Visiting Surgeons and other eligible staff as part consideration for ophthalmology practices acquired by the Vision Group. Pulse understands that each Vision Non-Voting Share is subject to a voluntary escrow arrangement which provides that the Vision Non-Voting Share will convert into a Vision Share, on a 1:1 basis, at the end of the relevant escrow period.

The Offer **does not** relate to Vision Non-Voting Shares. However, in accordance with section 15.1, the Offer will extend to holders of Vision Shares that are issued during the period from the Register Date to the end of the Offer Period due to the conversion of those Vision Non-Voting Shares into Vision Shares (i.e. as a result of the relevant voluntary escrow period lapsing).

Pulse intends to enter into discussions with holders of Vision Non-Voting Shares with a view to negotiating arrangements under which, subject to the Offer being successful, the registered holders of Vision Non-Voting Shares agree to transfer their Vision Non-Voting Shares to Pulse, or otherwise agree to cancel their Vision Non-Voting Shares, in consideration for the issue of equivalent securities in Pulse.

As noted in section 14.10, if satisfactory arrangements cannot be agreed between Pulse and holders of Vision Non-Voting Shares for the transfer to Pulse, or cancellation, of all Vision Non-Voting Shares and Pulse is entitled to compulsorily acquire any outstanding Vision Non-Voting Shares after the Offer Period, Pulse will seek to exercise its rights to compulsorily acquire the Vision Non-Voting Shares pursuant to Part 6A.2 of the Corporations Act.

Pulse also reserves its right to make an offer in accordance with Chapter 6 of the Corporations Act for the Vision Non-Voting Shares.

14.8 No pre-offer benefits

which is not offered respectively to all Vision Shareholders under the Offer.

Please refer to sections 14.2 and 14.18 for details of the interests of Viburnum, the holder of 28,560,215 (15.91%) Vision Shares as trustee and manager of the Viburnum Funds, in its capacity as a sub-contractor to Allier Capital (Pulse's financial advisor in relation to the Offer).

14.9 No escalation agreements

Neither Pulse nor any Associate of Pulse has entered into any escalation agreement that is prohibited by section 622 of the Corporations Act.

14.10 Compulsory Acquisition

If Pulse and its Associates have a Relevant Interest in at least 90% of the Vision Shares at the end of the Offer Period, Pulse will seek to compulsorily acquire the remaining Vision Shares, and if so will give a notice of compulsory acquisition to the holders of the remaining Vision Shares, even if the Vision Shares to which those notices relate are issued:

- after the Offer closes but before the notices are given (pursuant to section 661A(4)(b) of the Corporations Act); or
- on conversion or exercise of rights attaching to securities convertible into Vision Shares, up to six weeks after the notices are given (pursuant to section 661A(4)(c) of the Corporations Act).

If Pulse and its Associates obtain a Relevant Interest in at least 90% of Vision Shares and a full beneficial interest in at least 90% by value of all securities issued by Vision that are either Vision Shares or convertible into Vision Shares, Pulse will be entitled to compulsorily acquire any outstanding securities which are convertible into Vision Shares (including all Non-Voting Vision Shares) pursuant to Part 6A.2 of the Corporations Act.

If not all of the Vision Non-Voting Shares are acquired by Pulse or cancelled pursuant to the agreements or other arrangements contemplated in section 14.6, and Pulse is entitled to compulsorily acquire any outstanding Vision Non-Voting Shares, Pulse intends to seek to compulsorily acquire or cancel any outstanding Non-Voting Shares pursuant to Part 6A.2 of the Corporations Act.

Annexure A – Announcement in relation to the Offer

6 July 2015

ASX Announcement

Takeover bid for Vision Eye Institute

- ▶ **Pulse Health Limited** ("Pulse"; ASX: PHG) is pleased to announce a takeover bid for **Vision Eye Institute Limited** ("Vision"; ASX: VEI) comprising an offer to acquire all of the ordinary voting shares in Vision ("Vision Shares") for consideration of 1.60 fully paid ordinary shares in Pulse ("Pulse Shares") for each Vision Share ("Offer").
- ▶ The Offer implies a value of \$0.88 per Vision Share¹, representing a 31% premium to Vision's last closing price² and a 47% premium to the price at which Vision raised equity in October 2014.
- ▶ The merger will create one of Australia's leading providers of specialist healthcare services through its combined network of niche hospitals, surgery centres and ophthalmic practices ("**Merged Group**").
- ▶ The Merged Group is estimated to have underlying pro forma FY15 EBITDA of \$32.3 million, pro forma FY15 net debt of \$35.6 million and an implied pro forma FY15 enterprise value ("**EV**")/EBITDA multiple of 9.0x³.
- ▶ The Merged Group is expected to deliver double digit earnings per share ("**EPS**") accretion relative to a Pulse stand-alone pro forma FY15 EPS of 3.5 cents⁴.
- ▶ The Merged Group will have significant brownfield, greenfield and acquisitive growth opportunities supported by balance sheet capacity and an attractive capital markets profile.
- ▶ Pulse's surgery centre expertise will be enhanced by a proposed services agreement with an entity controlled by Mr David Manning. Mr Manning was a co-founder of AmSurg Corp. ("**AmSurg**"), operator of the largest eye surgery network and one of the largest surgery centre networks in the United States. The proposed services agreement will provide the Merged Group with access to AmSurg's unique intellectual property and systems.
- ▶ Viburnum Funds, the manager of a 15.9% shareholding in Vision (and a 29.8% shareholding in Pulse), has stated its support for the Offer in the absence of a superior proposal (as determined by Viburnum Funds), but Pulse will need to obtain shareholder approval for Viburnum Funds to accept the Offer.

¹ Based on a valuation of each Pulse Share of \$0.55, the 5-day volume weighted average price ("**VWAP**") of Pulse Shares to 3 July 2015, being the last trading day prior to the date of this announcement.

² On 3 July 2015.

³ The Merged Group unaudited underlying pro forma FY15 EBITDA is based on the combination of Pulse's earnings guidance release to ASX on 30 June 2015 (with pro forma underlying unaudited FY15F EBITDA of \$10.7 million) and Vision's earnings guidance released to ASX on 13 May 2015 (with underlying unaudited FY15F EBITDA of \$25 - \$26 million), excluding synergies and adjusted for announced asset transactions. The Merged Group pro forma FY15 net debt is based on the combination of pro forma FY15 net debt for Pulse and Vision, including \$9.0 million of anticipated transaction costs relating to the Offer. The pro forma EV of the Merged Group is estimated to be \$291 million and is based on the market capitalisation of Pulse immediately prior to the announcement of the Offer and the implied market capitalisation of Vision at the implied value of the Offer of \$0.88 per Vision Share plus the pro forma FY15 net debt of the Merged Group. Refer Bidder's Statement for more details.

⁴ EPS accretion calculated on a pro forma unaudited basis. The pro forma FY15 EPS of the Merged Group includes full year contributions from Pulse and Vision, and pre-tax cost-synergies realised in the first twelve months of \$1.5 million (of the total \$2 million of identified synergies), as though the transaction was effected and fully integrated on 1 July 2014. The Merged Group pro forma FY15 EPS includes anticipated interest expense associated with the Offer, and interest and earnings effects from asset transactions announced to ASX. It does not include direct transaction or integration costs. Pulse stand-alone unaudited pro forma FY15 EPS estimate has been calculated as 3.5 cents. Acquisition accounting adjustments have not yet been undertaken and pro forma EPS accretion is before any amortisation on intangibles identified as part of this process. Australian Accounting Standards allow for twelve months from completion to finalise accounting and purchase price allocation.

Pulse has announced an off-market takeover bid for Vision with the aim of creating one of Australia's leading providers of specialist healthcare services through its combined network of niche hospitals, surgery centres and ophthalmic practices.

The takeover bid comprises an offer by Pulse for all Vision Shares. Under the Offer, Vision Shareholders will receive 1.60 Pulse Shares for each Vision Share, implying a value of \$0.88 per Vision Share, based on a valuation of each Pulse Share of \$0.55, reflecting the 5-day VWAP⁵ of Pulse Shares.

The implied value of the Offer consideration provides a significant premium for Vision Shareholders representing a:

- ▶ 31% premium to the last closing price⁵ of Vision Shares of \$0.68;
- ▶ 33% premium to the 5-day VWAP⁵ of Vision Shares of \$0.66;
- ▶ 31% premium to the 30-day VWAP⁵ of Vision Shares of \$0.67; and
- ▶ 47% premium to the price at which Vision raised equity in October 2014 of \$0.60 per Vision Share.

The Offer is subject to a number of conditions which are contained in the Bidder's Statement accompanying this announcement.

Strategic rationale

Pulse is a private hospital and surgery centre operator growing via development and acquisition. In collaboration with specialist doctors and in locations in which they wish to live and work, Pulse is developing and acquiring specialist surgical, rehabilitation and mental health hospitals as well as surgery centres. Pulse believes that the merger presents an attractive opportunity for both Vision and Pulse Shareholders for the following reasons:

- ▶ **Strategic alignment of Pulse and Vision:** The combination of the two companies will create one of Australia's leading providers of specialist healthcare services, through its network of niche hospitals, surgery centres and ophthalmic practices. The two businesses operate complementary networks of niche specialist hospitals, surgery centres and ophthalmic practices, and partner with high quality healthcare professionals to deliver best-in-class outcomes for doctors and patients. Both companies have a stated and overlapping growth strategy of expanding their facilities footprint and diversifying their network into complementary specialties. The Merged Group will be a leader in the surgery centre market and will be well positioned to consolidate this attractive and fragmented market.
- ▶ **Proven management capability:** Pulse's proven management team have successfully executed an organic and acquisition-based growth strategy. With the recent departure of Vision's previous Managing Director, Mr Brett Coverdale, the Offer provides Vision Shareholders with a proven management capability at a time when it is searching for new senior leadership.
- ▶ **Pulse's surgery centre expertise enhanced by proposed appointment of Mr David Manning to the Board should the Offer be successful:** Mr Manning has over 35 years of surgery centre experience including having co-founded NASDAQ listed AmSurg. AmSurg operates the largest eye surgery network and one of the largest surgery centre networks in the United States, with a market capitalisation of approximately US\$3.4 billion. Mr Manning's strategic relationship with AmSurg will provide the Merged Group with access to global best practice in surgery centre development and operation via AmSurg's unique IP and systems.
- ▶ **Synergies:** Pulse estimates conservative annual pre-tax cost synergies of \$2 million. Synergies are expected to be realised from various operational efficiencies, including a reduction in public company costs as well as head office and administrative functions. There are potential revenue synergies available from improved optimisation of the Merged Group's facilities network.

⁵ As at 3 July 2015 the last trading day prior to the announcement of the Offer on ASX.

- ▶ **Greater scale and financial strength to capitalise on growth opportunities in the healthcare market:** The Merged Group is estimated to have underlying pro forma FY15 EBITDA of \$32.3 million³, pro forma market capitalisation of approximately \$255 million⁶ and pro forma FY15 EV of approximately \$291 million³. The Merged Group will have greater balance sheet capacity with a FY15 pro forma net debt of \$35.6 million³. Shareholders of the Merged Group should benefit from owning shares in a company with greater liquidity and improved access to capital markets to fund growth opportunities.
- ▶ **EPS accretion:** The Merged Group is expected to deliver double digit EPS accretion relative to a Pulse stand-alone pro forma FY15 EPS of 3.5 cents⁴.

Pulse Chairman Stuart James said: "We believe the merger creates a compelling opportunity for both Vision and Pulse Shareholders through the creation of one of Australia's leading providers of specialist healthcare services, with a broad network of niche hospitals, surgery centres and ophthalmic practices."

Pulse Managing Director and CEO, Phillipa Blakey added: "We look forward to combining Pulse's and Vision's strengths into one of Australia's leading healthcare services providers. Vision's strong ophthalmic service and surgery centre network, combined with Pulse's hospital network and expertise in providing doctors with the service, environment and support they need to fully focus on treating their patients will create a first-class healthcare organisation. We look forward to engaging with Vision's highly regarded doctor partners, associates and visiting surgeons."

Support of major Vision Shareholder

Viburnum Funds, the manager of a 15.9% shareholding in Vision (and a 29.8% shareholding in Pulse), has stated its support for the Offer in the absence of a superior proposal, but Pulse will need to obtain shareholder approval for Viburnum to accept the Offer.

Acceptance Form

CHESS

Your form must be received with sufficient time to allow processing prior to the end of the Offer Period.

This form and the Bidder's Statement are important documents that require your immediate attention. This form relates to an Offer (**Offer**) by Pulse Health Limited ABN 69 104 113 760 (**Pulse**) to acquire all of your fully paid ordinary voting shares in Vision Eye Institute Limited ABN 21 098 890 816 (**Vision**) the terms and conditions of which are set out in the Bidder's Statement from Pulse dated 6 July 2015 as replaced or supplemented (**Bidder's Statement**). Capitalised terms used in this form have the same meaning as in the Bidder's Statement, unless otherwise defined.

If you are in doubt about how to deal with this Offer, please contact your financial or other professional advisor.

Note this form can only be used in relation to the securityholding represented by the details printed above and overleaf.

Step 1: Registration Name & Offer Details

Your Offer Consideration will be issued to the name(s) as they appear on the latest copy of the Vision register, as provided to Pulse.

The current address recorded by Pulse is printed above and overleaf. If you have recently bought or sold Vision Shares your holding may differ from that shown. If you have already sold all your Vision Shares, do not complete or return this form.

Step 2: Accept the Offer

Only sign and return this form if you wish to accept the Offer for ALL of your Vision Shares.

As your Vision Shares are in a CHESS holding, you may contact your Controlling Participant directly (normally your stockbroker) with instructions to accept the Offer. If you do this, your Controlling Participant will provide you with details as to what they require in order to accept the Offer on your behalf. If you want Pulse to contact your Controlling Participant on your behalf, sign and return this form to the address above so that it is received in sufficient time to allow your instruction to be acted upon by the close of the Offer Period. This will authorise Pulse and Computershare Investor Services Pty Limited ("CIS") to request your Controlling Participant to initiate acceptance of the Offer on your behalf.

By signing this form, you warrant to Pulse (and authorise Pulse to warrant on your behalf) that you have full legal and beneficial ownership of the Vision Shares to which this form relates and that Pulse will acquire them free from all mortgages, charges, liens, encumbrances (whether legal or equitable), restrictions on transfer of any kind and free from any third party rights. You should allow sufficient time for your Controlling Participant or Pulse to initiate the acceptance of Pulse's Offer on your behalf. Neither Pulse or CIS will be responsible for any delays incurred by the process of requesting your Controlling Participant to accept the Offer.
