UXC signs three-year plus contract with Ausgrid and Endeavour Energy Estimated Value of over \$25m

UXC Limited has signed a three-year contract with Ausgrid and Endeavour Energy to provide service desk and end user computing support services for 7,500 users across NSW. The agreement also includes the option of two two-year extensions. The estimated total value of the contract is in excess of \$25 million.

Mr Cris Nicolli, UXC's Managing Director, said: "Ausgrid and Endeavour Energy went through a rigorous procurement process. UXC's ability to meet core requirements around enhanced services, delivery quality and cost reduction through innovative approaches to service delivery, demonstrated our competitiveness to win the contract.

This multi-year contract is strategically important for UXC. Ausgrid and Endeavour Energy are significant companies in the Australian market and the contract award continues our success in winning the trust of clients over multi-year contracts, adding to our annuity services portfolio. It also provides the opportunity to support and extend the business relationship with Ausgrid and Endeavour into the future.

The award of a contract of this significance confirms that UXC is consistently viewed as a trusted and client centric organisation that can be relied on to support complex projects."

UXC has been providing services to Ausgrid since 2003 and is delighted to have been awarded a new contract as well as now having Endeavour as a new client.

Transitioning to delivery of services under the new contract has commenced.

This contract award was referred to in UXC's market announcement of 28 July 2015 as the NSW government agency contract.
