About Connexion Media

Connexion Media is an ASX listed Internet of Things (IoT) technology company revolutionising smart car technology for the automotive industry.

The Company has secured commercial agreements with leading automotive industry players to roll out its proprietary smart car technologies to potentially millions of vehicles in the coming three years.

Connexion Media has developed two flagship Software as a Service (SaaS) products that deliver cutting edge technology to the automotive industry, Flex and miRoamer.

Flex is a highly sophisticated smart car solution that allows car fleet managers to manage an entire fleet of vehicles from a mobile phone or computer and deliver cost efficiencies through reduced maintenance costs. Flex is able to track a range of real time and historical data including vehicle locations, distance travelled, fuel consumption, battery life, engine performance and absolute and average speeds travelled. It is also able to monitor driver behaviour and instantly send notifications and alarms to vehicle owners and fleet managers.

miRoamer is a next generation internet radio product that allows users to pick up radio stations from broad geographies, including international stations. miRoamer has become the world leader in internet radio technology, delivering a superior understanding of the technical, content and marketing demands of radio manufacturers and car makers alike.

Connexion Media is based in Melbourne, Australia, with offices in Detroit and Seattle, USA, Cambridge UK and Kochi India.
