MasterCare EMR selected by Adelaide Primary Health Network

13 January 2016: Global Health is pleased to announce the signing of a new contract with the Adelaide Primary Health Network (APHN) for the roll-out of MasterCare Electronic Medical Record (EMR). The agreement encompasses annual licensing, implementation and support for 250 concurrent users, and covers the Adelaide metropolitan region, home to 1.2m people.

The rollout of Mastercare EMR will allow APHN to support their Contracted Service Providers in delivering significant clinical and administrative service improvements through:

- Improved client management tools for all Contracted Service Providers;
- More consistent data capture and submission processes/formats;
- Enhanced capacity for APHN to self-administer and create new programs, reports and Contracted Service Providers;
- More comprehensive and flexible reporting to support APHN's federal reporting requirements, service planning and contract compliance;
- Access to the MasterCare Data Warehouse platform, which will provide consolidated, real-time dashboards for all programs and services, leading to better multi-dimensional insight into all mental health and chronic disease data.
- The ReferralNet secure messaging platform, which is included in the agreement, to support the electronic exchange of correspondence between GP's, Allied Health and Specialist providers using the Australian government mandated Secure Message Delivery (SMD) protocol.

This contract cements MasterCare's position as Australia's leading collaborative healthcare solution for multi-disciplinary, patient-centric healthcare providers, particularly those dealing with chronically ill patients. Global Health has been partnering with state and federal programs for over 10 years with the common goal of achieving productivity improvements and optimised patient outcomes.

Global Health CEO Mathew Cherian says:

“We are looking forward to working with APHN towards better health service outcomes through enhanced information management, improved efficiencies and ultimately an optimised patient experience. Mastercare EMR’s competitive advantages are becoming increasingly clear in a market driven by efficiency and patient experience.”
