New CEO commences role at Gentrack

Further to previous announcements, Gentrack Group Limited (NZX/ASX: GTK) is pleased to advise that Ian Black has today commenced as CEO of the company. Ian has had an international career in Oracle and SAP, culminating as CEO of SAP in New Zealand, and COO of SAP in Australia and New Zealand. For the last 3 years he has been involved in a number of innovative start-up software and SaaS businesses and is therefore well qualified to lead Gentrack and continue its track record of growth and innovation in the utilities and airports markets.

James Docking begins his new role as a Non-Executive Director having completed his term as Gentrack CEO.

About Gentrack

Auckland-based Gentrack is a developer of specialist software for energy utilities, water companies and airports around the world. It employs over 200 people in offices in Auckland, Melbourne and London and services utility and airport sites across four continents.

Gentrack is comprised of two leading software products - Gentrack Velocity and Airport 20/20. Gentrack Velocity is a specialist billing and CRM product designed for energy utilities and water companies in competitive and regulated utilities markets. Airport 20/20 is a comprehensive Airport Operational System engineered to optimise an airport's operations through intelligent collaboration, streamlining airport information flows and transforming the passenger experience.
