Operating and Financial Review

The Group recorded a statutory net profit after tax for the six months ended 31 December 2015 (1H16) of \$5.668 million (six months ended 31 December 2014 (1H15): \$7.604 million). Statutory net profit after tax has been prepared in accordance with the Corporations Act 2001 and Australian Accounting Standards, which comply with International Financial Reporting Standards.

The statutory net profit after tax includes a number of items that are non-recurring in nature, the table below provides a reconciliation from Statutory Profit to Underlying Profit.

Reconciliation of Statutory Profit to Underlying Profit		
	1H16	1H15
	\$ million	\$ million
Statutory Profit after tax	5.668	7.604
Less non-recurring items:		
Unrealised gain on fair value movements in derivatives	2.597	1.126
Impairment charges in relation to seed capital valuations	(0.598)	(3.137)
Accounting gains on sales of non-core assets	-	5.194
Tax impact of above non-recurring adjustments	(0.779)	(0.955)
Underlying Profit after tax	4.448	5.376

Underlying profit after tax is reported to give information to shareholders that provides a greater understanding of the performance of the Group.

Operational highlights for the respective divisions within the Group for the period were as follows:

Property Funds Management

Profit before tax for 1H16 was \$7.6 million, up 11.8% compared with 1H15 driven by the timing of performance fee recognition and a 25% increase in funds under management since 30 June 2015.

Investment Bonds

Statutory profit before tax for 1H16 was \$3.3 million, compared with a loss before tax of (\$1.0) million in 1H15. The statutory profit before tax includes \$1.7 million (1H15 (\$1.1) million in relation to the Benefit Funds. Adjusting for this and the seed capital impairment charges, the underlying profit before tax was \$2.2 million (1H15: \$3.3 million).

Reverse Mortgages

The contribution of the reverse mortgage portfolio was impacted by the sale of a substantial portion of the variable rate reverse mortgage portfolio in October 2014.

10. Financial instruments

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy for financial instruments measured at fair value. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

The table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

There were no transfers between Level 1, 2 and 3 in the period.

Whilst the consolidated results include the assets and liabilities of the Benefit Funds of Centuria Life Limited, these are not included in the table below.

10. Financial instruments (continued)

The Group determines Level 2 fair values for financial assets and liabilities without an active market based on broker quotes.

Level 2 fair values for simple over-the-counter derivatives are also based on broker quotes. Those quotes are tested for reasonableness by discounting expected future cash flows using market interest rates for a similar instrument at the measurement date. Fair values reflect the credit risk of the instrument and include adjustments to take account of the credit risk of the entity and counterparty where appropriate.

Set out below is a reconciliation of Level 3 fair value movements of financial assets and liabilities.

The Level 3 financial asset held by the Group is the fair value of the residential mortgage receivables attributable to interest rate risk. The Level 3 financial liability held by the Group is the fixed-for-life interest rate swaps. These items are designated in a fair value hedging relationship, with the fair value movements on the swaps, offset by the fair value movements in the mortgage receivables (refer to Note 5). However, as the Group has only designated the fair value movements attributable to interest rate risk in the hedging relationship, any other fair value movements impact the profit and loss directly, such as credit risk movements. Items such as credit risk, cannot be designed in a hedging relationship.

10. Financial instruments (continued)

(b) Significant assumptions used in determining fair value of financial assets and liabilities

The fair value of the 50 year residential mortgage loans and 50 years swaps are calculated using a valuation technique based on assumptions that are not supported by prices from observable current market transactions in the same instrument and not based on available observable market data due to the illiquid nature of the instruments. Use is made of discounted cash flow analysis using the applicable yield curve out to 15 years, with the yield curve at 15 years employed as the best proxy for subsequent rates due to non-observable market data.

Mortality rates for males and females have been assumed to be consistent with 2013 Life Tables. Mortality improvements of 3% p.a. are assumed starting at age 70. The improvement factor tapers down to 1% p.a. at age 90 and then zero at age 100. Joint life mortality is calculated based on last death for loans with joint borrowers. 50% of residential mortgage loan portfolio consists of joint lives.

Auditor's responsibility

Our responsibility is to express a conclusion on the interim financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the interim financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Group's financial position as at 31 December 2015 and its performance for the half-year period ended on that date; and complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. A review of an interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
