Gentrack Changes ASX Listing Categories

Gentrack Group Limited (NZX/ASX: GTK) advises that it will be changing listing categories on the ASX from a Standard Listing to an ASX Foreign Exempt Listing, effective from commencement of trading on Wednesday 30th March 2016. This prospective change in listing categories was advised to shareholders in the presentations accompanying the Annual Meeting last month and follows amendments to the ASX Listing Rules announced on 10 September 2015 that allow an entity with its primary listing on the NZX Main Board to alleviate its compliance burden as a dual-listed entity.

About Gentrack

Auckland-based Gentrack is a developer of specialist software for energy utilities, water companies and airports around the world. It employs over 200 people in offices in Auckland, Melbourne and London and services utility and airport sites across four continents. Gentrack is comprised of two leading software products - Gentrack Velocity and Airport 20/20. Gentrack Velocity is a specialist billing and CRM product designed for energy utilities and water companies in competitive and regulated utilities markets. Airport 20/20 is a comprehensive Airport Operational System engineered to optimise an airport's operations through intelligent collaboration, streamlining airport information flows and transforming the passenger experience.
