

> Milling Campaign Underway

Highlights

➤ First Milling campaign has commenced

Vector Resources Ltd (ASX: VEC) is pleased to announce that processing of ore has commenced on the bulk sample program from its Gwendolyn Gold Project in WA as part of its Phase 1 operations. The mill (ROM) ore pad has approximately 14,500 tonnes of ore ready for processing and road haulage will continue till the mine ROM stock is depleted. It is expected that in excess of 30,000 tonnes of ore will be processed.
