## **BRIERTY AWARDED \$45 MILLION CONTRACT TO UPGRADE GREAT NORTHERN HIGHWAY**

---

### **HIGHLIGHTS**

- Approx \$45 million Construction Contract for Main Roads Western Australia
  - 80 week Contract term commencing August 2014
  - Builds on Brierty's long-standing history of delivering Main Roads projects in Regional WA
- 

Diversified contractor Brierty Limited (ASX: BYL) is pleased to announce it has been awarded a \$45 million contract by Main Roads Western Australia for the upgrade of Great Northern Highway between Batty Bog and Walebing in the Wheatbelt Region approximately 120km north of Perth, Western Australia.

The Project is to construct approximately 21 kilometres of road, which will include earthworks, pavements, drainage and associated road infrastructure, and is due to commence in August 2014 with an expected duration of 80 weeks.

Brierty Managing Director, Peter McBain, said that being selected by Main Roads Western Australia was a reflection of Brierty's road building expertise.

"Brierty has a long successful history with Main Roads and we have continued to win repeat business by consistently delivering projects safely and well," Mr McBain said.

"Road construction is a core capability at Brierty, we have been prequalified to Main Roads' highest road building level since 2007 and have completed many significant projects including the 120 km Access Alliance Project involving a similar upgrade to a nearby stretch of the Great Northern Highway."

"The award of this project adds to the recently awarded design and construct contract to upgrade part of the Great Eastern Highway from Coolgardie to Bullabulling and the successful completion of the Coalfields Highway Climbing Lanes works in the State's South West.

"We greatly value Brierty's longstanding relationship with Main Roads and look forward to the safe and successful delivering on this project."
