

## SCEE awarded Yarnima E&I works

3 July 2014

## ASX & media announcement

ASX code: SXE

### Highlights

- SCEE awarded contract at Yarnima Power Station
- SCEE Infrastructure to perform E&I works
- Scope of over \$25m awarded to date

SCEE advises that it has been awarded Electrical and Instrumentation (E&I) works at BHP Billiton Iron Ore's Yarnima Power Station, located near Newman in Western Australia.

The work is being performed by SCEE Infrastructure on site with over \$25m of scope awarded to date.

SCEE's Managing Director Simon High said: "We are pleased to have been given the opportunity to execute the E&I works at Yarnima and look forward to continuing to develop our relationship with BHP Billiton Iron Ore."

### About SCEE

SCEE is an emerging Tier One provider of specialised electrical and instrumentation services to Australia's resources sector.

Delivering life-of-project electrical infrastructure, construction and support services to its blue-chip customers for more than 30 years, SCEE also has a strong reputation for safety and excellence.

Our expertise and capacity enables us to undertake complex large-scale projects in harsh and remote environments.

Committed to our people with a strong focus on training and development, our track-record and collaborative, flexible approach has seen us continually expand our operations.

SCEE was established in 1978 and was listed on the Australian Securities Exchange in 2007 under the code SXE.
