Dividend Reinvestment Plan (“DRP”)

Katana Capital notes that its dividend reinvestment plan (“DRP”) applies to this dividend, the key terms of the DRP are as follows:

- (i) Shareholders may elect to receive Katana Capital shares instead of cash for dividends declared by Katana Capital in respect of all or part of their holdings of Shares (at their election). All shareholders are eligible to participate in the DRP, and participation is optional.
- (ii) Every shareholder wishing to participate in the DRP will need to apply directly to Katana Capital share registry.
- (iii) The DRP will involve the transfer to participating shareholders of existing Katana Capital shares to the value of a shareholder’s total dividend entitlement. These shares will be acquired on-market for the purposes of the DRP by a nominated broker, at a price per share up to a maximum price determined by the board, which will be set at a specified discount to Katana’s NTA per share.
- (iv) To the extent sufficient shares to meet shareholders’ entitlements under the DRP cannot be purchased at a price less than the specified maximum price per share, Katana Capital will issue additional new shares to participating shareholders again at a specified discount to the company’s NTA per share.
- (v) There will not be a discount for DRP participation
- (vi) Ranking of securities to be issued pursuant to the DRP will be equal to current class of Ordinary Shares quoted on the Australian Securities Exchange
- (vii) The pricing methodology used to determine the DRP price will be the weighted average share price during the on-market DRP buyback programme

The intent of the DRP is that the buying of shares on-market at a discount to Katana’s NTA will facilitate additional liquidity in the shares of the company. Details and instructions for participation in the DRP are noted in Annexure A.

For a complete copy of the DRP please refer to the company’s website:
