

**Announcement to Market  
28 July 2014**

---

**Completion of Ongoing Monitoring Program**

Centrepont is pleased to announce the conclusion of Professional Investment Services' Ongoing Monitoring Program (OMP) with ASIC.

This is another important milestone in the execution of the Group's key strategy of increasing the quality of financial advice Australians receive.

Professional Investment Services entered into the OMP for its financial advice risk management framework following the conclusion of its Enforceable Undertaking in 2013. Following the conclusion of the OMP, Professional Investment Services is not subject to any ongoing regulatory actions and does not have any non-standard conditions that apply to its licence.
