Amendment to Option Agreement with Azarga Resources

Anatolia Energy Limited (the **Company** or **Anatolia**), 100% owner of the high grade Temrezli Uranium Project in Turkey, announces that it has agreed with Azarga Resources Limited (**Azarga**) to amend the Put Option Agreement made between the two parties in September 2013.

Anatolia and Azarga have agreed that Azarga will pay \$375,000 to Anatolia in consideration for substituting the put option arrangement under the Put Option Agreement for a call option arrangement that will see Azarga subscribe for Call Options over 8.3 million shares in Anatolia at \$0.08 per share, maturing on 31 March 2015. Anatolia has already received the \$375,000 from Azarga.

Azarga subscribed to \$1 million at 12 cents per share in February 2014 under the original Put Option Agreement, increasing its shareholding to 15.14% which it retains and remains a strong supporter of Anatolia.

An Appendix 3B follows this announcement to confirm the issue of 8.3 million options.

About Anatolia Energy

Anatolia has a 100% interest in the Temrezli uranium project. We are Turkey's foremost uranium exploration company and hold 18 Exploration Licences most of which are located within a 40 km radius of the Temrezli deposit.

The Project is located within one of Turkey's key uranium regions, is close to established infrastructure and includes the Temrezli uranium deposit, one of Turkey's largest and highest grade uranium deposits, with a Mineral Resource Estimate of 17.41 Mlb of contained uranium at a grade of 1,170ppm (0.117%) eU₃O₈¹

The Mineral Resource Estimate was prepared in accordance with JORC 2012 edition as released to the market by the Company on 12 May 2014.
