About IMX Resources Limited

IMX Resources Limited is an Australian-based exploration company, listed on the Australian Securities Exchange and Toronto Stock Exchange ('TSX'), with projects located in Australia and East Africa.

In Tanzania, IMX controls the Nachingwea Property in south-eastern Tanzania. The Nachingwea Property lies in the world-class Mozambique Belt which is prospective for graphite, nickel, gold and copper mineralization.

At Nachingwea, IMX is carrying out exploration at its Chilalo graphite prospect and at its Kishugu gold prospect and there is a significant nickel resource at its Ntaka Hill nickel project.

In Australia, IMX is also progressing development options for its Mt Woods Magnetite Project. Studies indicate that a smaller scale, lower cost project may be developed utilizing infrastructure that has been used by the Cairn Hill Mine. Efforts to secure a partner to support development of the Mt Woods Magnetite Project are continuing.

Cautionary Statement: The TSX does not accept responsibility for the adequacy or accuracy of this release. No stock exchange, securities commission or other regulatory authority has approved or disapproved the information contained herein.

On 19 June 2014, IMX announced the appointment of Voluntary Administrators to Termite Resources NL ("Termite"). Termite is wholly-owned by an incorporated joint venture entity, the board of which comprises nominees of IMX and Taifeng Yuanchuang International Development Co., Ltd. Termite holds the joint venture's interests in the Cairn Hill iron ore mine, located 55 kilometres south-west of Cooper Pedy in South Australia.

The first meeting of Termite creditors was held on 30 June 2014. The Voluntary Administrator's final report to creditors is expected to be issued on or around 15 September 2014 and the second meeting of creditors is anticipated to take place on

or before 24 September 2014. IMX continues to assist the Voluntary Administrators as appropriate, towards finding the best possible outcome for Termite.
