EXPLANATORY STATEMENT

This Explanatory Statement has been prepared to provide information which the Directors believe to be material to Shareholders in deciding whether or not to pass the Resolutions.

1. ACQUISITION OF VOYAGER GLOBAL CHOICE PTY LTD

1.1 Background

On 13 May 2014, the Company announced to ASX that it had entered into a binding terms sheet (**Terms Sheet**) with Gemelli Nominees Pty Ltd trading as Titan Capital Partners (**Titan**) and Voyager Global Choice Pty Ltd (ACN 169 457 041) (**Voyager**). Under the Terms Sheet, the Company conditionally agreed to acquire 100% of the issued capital of Voyager by making an offer to each Voyager shareholder to acquire all of their respective Voyager shares (**Acquisition**).

Voyager holds the Voyager Global Choice business, which is a business model intended to facilitate the investment by Australian retail investors into a range of individual offshore-based fund managers. The proposed offshore-based fund managers will all be highly credible groups with large industry profiles and have an official investment-grade (or similar) rating from industry ratings group Morningstar or other similar groups (**Offshore Funds**).

The Acquisition is subject to the satisfaction of certain conditions precedent including shareholder approval under this Notice. For further details of the terms of the Terms Sheet refer to Section 1.7 below.

1.2 Background on Voyager

Voyager is a Sydney-based company established in 2014 by a small number of individuals who have extensive experience in the financial services sector. Further details on these key personnel are provided below.

Voyager has identified a market opportunity to provide an efficient conduit for domestic investors to access offshore investment funds. Specifically, self-managed super fund investors who represent a growing segment of the domestic superannuation sector, with assets currently exceeding \$500b. However, data sourced from the Australian Taxation Office suggests that exposure to overseas investments by self-managed super fund investors is approximately 1% while institutional superannuation funds have overseas exposure in most cases of approximately 30%.

To capture this commercial opportunity, the Principals of Voyager have conducted extensive due diligence on and entered into early stage discussions with, a range of offshore fund managers and related investment funds that it believes will be of interest to domestic investors. These discussions confirm that the Australian superannuation sector is of interest to offshore groups keen to tap into the growing demand for high quality, offshore investment products.

Voyager aims to develop a cost efficient platform for investors to gain access to these offshore fund managers and their related investment products.

These fund managers will be required to demonstrate:

- (a) Long term track records in managing their selected asset class;
- (b) High quality management teams;

- (c) A clearly defined investment process; and
- (d) High and consistent performance numbers and a willingness to commit to a growing Australian market place.

Voyager will invest in building a sales and marketing team and promoting these funds to Australian investors via Australian legal structures (i.e. managed investment schemes managed by Voyager) and the ASX mFund platform which:

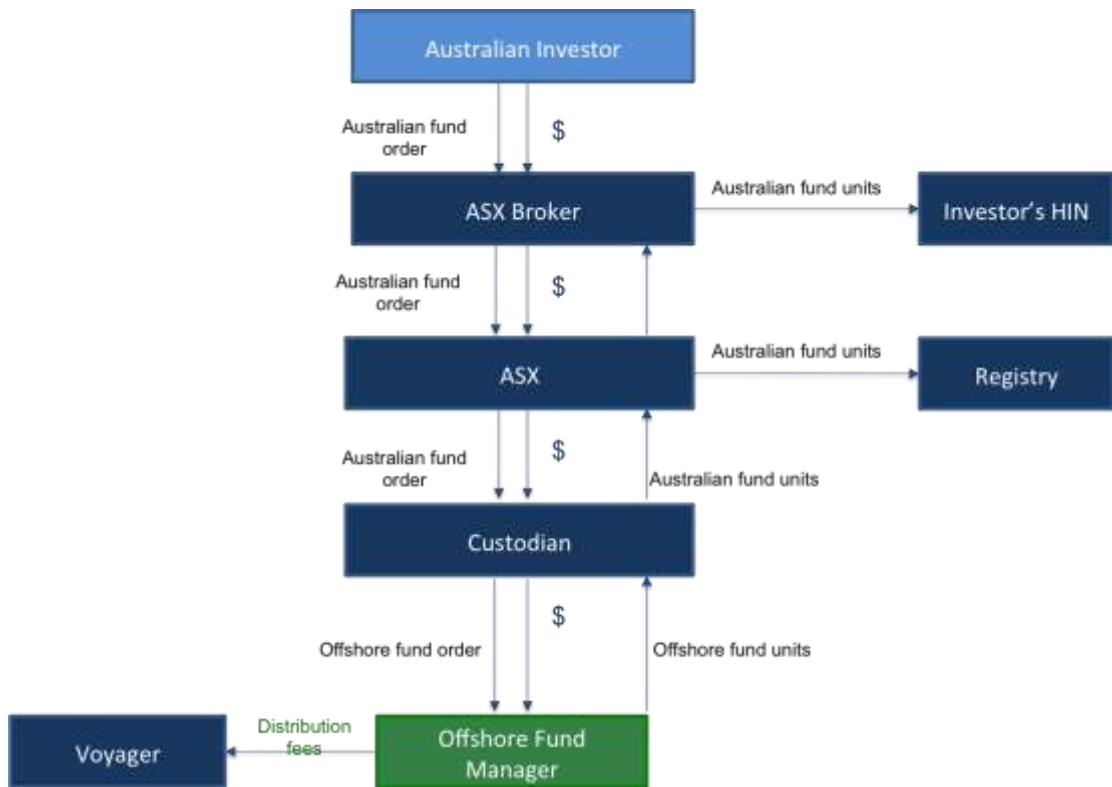

- (a) enables the automation of the settlement of applications and redemptions for managed funds on the ASX using its electronic settlement system, CHESS; and
- (b) provides fund managers with processing efficiencies and investors with execution, settlement and reporting benefits via ASX brokers. This platform essentially will allow Australian investors to access offshore investment products in exactly the same way as buying or selling shares listed on the Australian Securities Exchange significantly simplifying the process of investing offshore and increasing the choice of available investment opportunities.

Voyager will adopt a model that focuses on developing a strong internal capability in the sales and marketing space and out-sourcing most other functions including legal, settlement and regulatory functions.

Voyager will be required to hold or be an authorized representative of an Australian Financial Services Licence (**AFSL**) with the appropriate authorizations to enable it to conduct the proposed activities. Initially, Voyager will operate as a corporate authorised representative and will conclude current negotiations with potential licensors as a condition of re-listing on the ASX upon Settlement. It is the intention that Voyager move towards applying for its own AFSL once funding has been secured and operations commence.

In addition to the above AFSL, Voyager intends to out-source the provision of Responsible Entity Services to existing, highly experienced groups providing such services to a range of funds management groups in Australia.

It is not the intention that Voyager provides investment advice to investors or to manage investment pools internally. Voyager will focus solely on sales and marketing activities of selected fund managers and their related investment funds. It will be up to the individual investor to seek investment advice with Voyager merely facilitating the process of connecting investors with investment products.

1.3 Commercial Arrangements

As part of the development of Voyager's operations, the Company will seek commercial arrangements with those offshore fund managers who are benefitting from Voyager's activities. These arrangements will be structured to generate revenue for Voyager based on the quantum of assets under management at any given time and may also comprise contributions towards the sales and marketing activities of Voyager.

As Voyager is a newly incorporated entity designed to bring together key stakeholders it has no operating assets but does provide Sprint with access to a key executive team bringing with them their combined experiences, networks, relationships and expertise to implement Voyager's business plan and generate wealth for all shareholders.

The Directors of Sprint have structured the proposed transaction to ensure that the Shares to be issued to Voyager shareholders are subject to forfeiture and cancellation should the Voyager executive team fail to deliver minimum third party revenues (refer Section 1.7 below).

The consideration offered by Sprint for the acquisition of Voyager was negotiated on an arm's length basis between the Company and the vendors of Voyager.

In determining the appropriate level of consideration to be provided to Voyager shareholders for the sale of Voyager:

- (a) The Company took into account that it is essentially purchasing a business concept which will be conducted by several of the vendors of Voyager, each of which have extensive experience in the financial services industry and connections with overseas fund managers and, for this reason, it is difficult to value Voyager;
- (b) For the reasons set out in paragraph (a), it was determined that the consideration payable was to entirely consist of scrip which would be subject to escrow provisions (no cash component) so that the value of Voyager would ultimately be dependent upon the success of the business itself post completion of the acquisition. In addition, the Company negotiated that the consideration shares would be subject to forfeiture and cancellation as set out in section 1.7(a);
- (c) The number of Shares offered to the vendors of Voyager was ultimately determined by reference to the current market value of an ASX listed shell in the oil and gas space and the shareholding split between existing Sprint shareholders and Voyager shareholders in the Company following its re-compliance with Chapters 1 and 2 of the ASX Listing Rules.

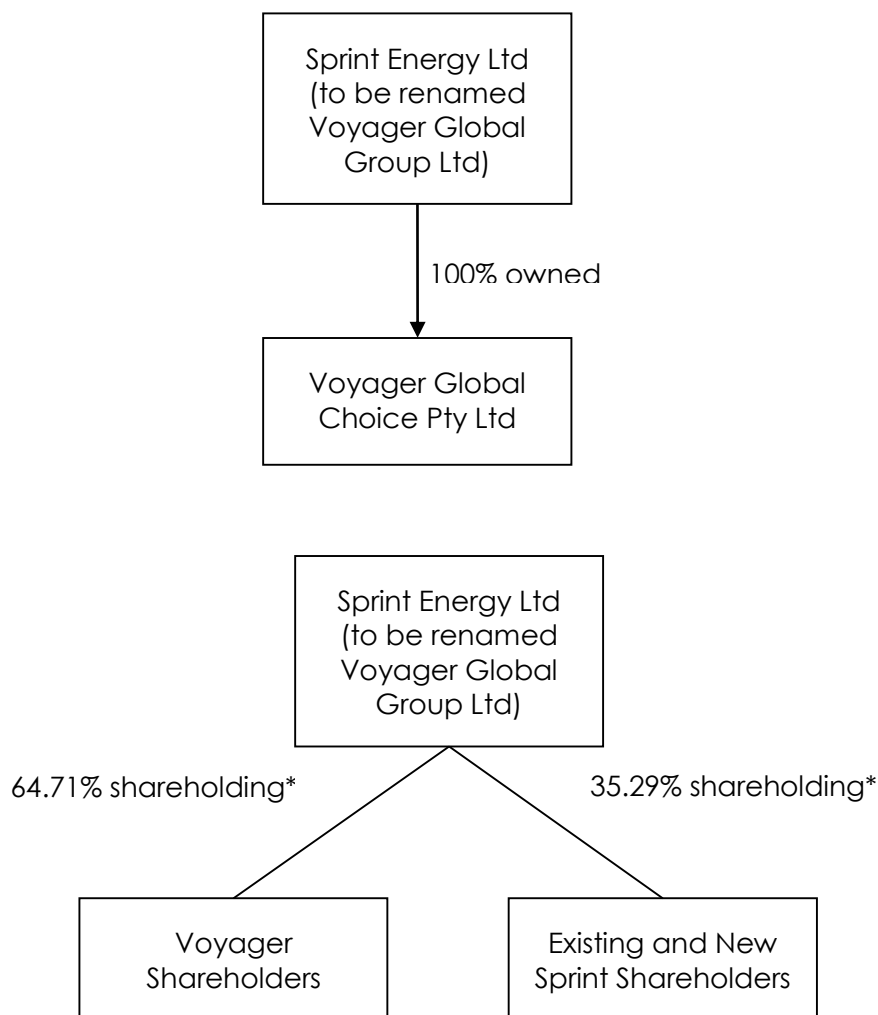

1.4 Existing Activities

Sprint is an independent oil and gas exploration and production Company listed on the Australian Securities Exchange (ASX: SPS).

After conducting a review of the Company's current suite of oil and gas assets in the Gulf of Mexico, Padre Island and the Tomsk Region, Russia and in conjunction with the Voyager Acquisition, the Board of Sprint will look to divest its Oil & Gas interests. Sprint will be concentrating on a strategy to maximise any divestment opportunities, including finding suitable joint venture partners.

1.5 Proposed Company Structure

Following settlement of the Acquisition, the corporate and ownership structure of the Company will be as set out below. The ownership structure is based on the assumption that no Voyager shareholders are issued any Shares under the Prospectus and that only \$3m will be raised under the Prospectus:

** Based upon a \$3m capital raising; the shareholding percentages will be 53.58% and 46.42% respectively following a \$7m capital raising*

1.6 Executive Team

It is proposed that upon completion of the Acquisition, Messrs Harry Karelis and David Jones-Prichard will be appointed to the board of the Company to replace Messrs Rod Corps and Gary Roper who intend to resign. Mr Andrew Chapman will also remain on the Board. This will provide the company with a relevant, highly experienced and qualified leadership team.

In addition, upon completion of the Acquisition, the Company will begin building a focused sales and marketing team with a key hire being the Strategic Head of Marketing who will lead a national sales team most likely from a Sydney base. This team will be responsible for the implementation of national sales and marketing activities including the use of seminars, on-line media and traditional advertising channels in both mainstream and industry-specific channels.

The Company will enter into certain consulting arrangements with key individuals the Board believes have the capacity to materially benefit the growth of the

Company. The intention is to secure the services of Mr Bill Ireland as a strategic consultant. Further details on Mr Ireland can be found below.

1.11 Advantages and disadvantages to the Acquisition

(a) Advantages

The Directors are of the view that the following non-exhaustive list of advantages may be relevant to a Shareholder's decision on how to vote on Resolution 1:

- (i) The Acquisition provides Sprint shareholders with a unique opportunity to tap into the potential growth of the Australian financial services industry and diversify away from the highly cyclical resources/energy sectors.
- (ii) Over time, as Voyager executes its business plan it will seek non-dilutive and non-recourse contributions to marketing overhead from Offshore Funds which may minimise ongoing dilution through additional equity raises, providing the management team with a sufficient financial runway to execute the business plan.
- (iii) A recurring income stream from trailing commissions is likely to be valued highly by investors as it provides opportunity for share price appreciation.
- (iv) The Acquisition brings to Sprint a seasoned and well-credentialed executive team in the financial services space.
- (v) The proposed executive team have a significant equity stake ensuring alignment with shareholders.
- (vi) The Acquisition provides future potential to exploit other attractive financial services opportunities.

- (vii) The Acquisition provides potential for a number of high profile offshore investment groups to become Sprint shareholders (via the options package) helping to align stakeholder interests.

(b) **Disadvantages**

The Directors are of the view that the following non-exhaustive list of disadvantages may be relevant to a Shareholder's decision on how to vote on the proposed Resolutions:

- (i) the Company will be changing the nature of its activities to become a financial services company, which may not be consistent with the objectives of all Shareholders;
- (ii) the Acquisition will result in the issue of Shares to Voyager Shareholders or their nominees which will have a dilutionary effect on the current holdings of Shareholders; and
- (iii) there are many risk factors associated with the change of nature of the Company's activities, or rather associated with its prospective business and operations. A non-exhaustive list of these risks is set out in Section 1.12 below.

1.12 Risk factors

Specific Risks

There are a number of specific risks involved for the Company, and consequently its Security holders, in the acquisition of Voyager, including risks specific to the business and assets of Voyager, which include the risk factors set out below.

(a) **Additional requirements for capital risk**

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in the future. Any additional equity financing will dilute shareholdings and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, the Company may be required to reduce the scope of its operations and scale back its mining and exploration programmes as the case may be.

(b) **Failure to negotiate Commercial Arrangements**

The Company may not be able to enter into any Commercial Arrangements with Offshore Funds. Should this occur, it may affect the profitability of the Company as it will increase the Company's overall marketing costs and therefore impact on its profitability.

(c) **Reinstatement to ASX's official list**

It is anticipated that the Company's Shares will be suspended or placed in a trading halt prior to market open on the date of the Meeting. In the event the Transaction Resolutions are approved at the Meeting, it is anticipated that the Company's securities will remain suspended until Completion of the Acquisition, re-compliance by the Company with Chapters 1 and 2 of the ASX Listing Rules and compliance with any further conditions ASX imposes on such reinstatement. There is a risk that the Company will not be able to satisfy one or more of those requirements and that its listed Securities may consequently remain suspended from quotation.

(d) **Competition Risk**

Voyager will be participating in a highly competitive market, however there are few if any specific competitors who have a dominant market share and dictate the structure or practices in the market.

The fact that there are no dominant competitors makes market entry and penetration easier but not without the need to ensure that Voyager can position and differentiate itself to gain market share. There is no certainty that Voyager will be successful in this market

(e) **Dilution Risk**

The Company currently has 151,733,359 Shares and 1,200,000 Options on issue (on a pre-Consolidation basis) equivalent to 18,966,670 Shares and 150,000 Options (on a post-Consolidation basis) and will issue up to a further 97,283,457 Shares and up to a further 17,437,519 Options (on a post-Consolidation basis) if the Transaction Resolutions are passed and the Acquisition is completed.

Upon issue of these securities and the minimum subscription of the Shares under the Prospectus (assuming no exercise of Options), the existing Shareholders will retain approximately 19.71% of the issued capital of the Company, new Shareholders investing via the Prospectus will hold approximately 15.58% with Voyager holding 64.71% of the issued capital of the Company respectively.

(f) **Key person risk**

The Company's ability to successfully execute against its business plan and exploit the market opportunity identified will be subject to the ability to attract and retain highly qualified and experienced executives and employees across all aspects of the business. The Company will ensure that it remains competitive in terms of employment conditions and salaries and to implement suitable incentive schemes to align the interests of employees and shareholders.

General risks

(a) **Potential acquisitions risk**

As part of its business strategy, the Company may make acquisitions of, or significant investments in, complementary companies or prospects although no such acquisitions or investments are currently planned. Any such transactions will be accompanied by risks commonly encountered in making such acquisitions.

(b) **Economic risks**

General economic conditions and movements in interest, inflation and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

(c) **Market conditions risk**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) interest rates and inflation rates;
- (iii) currency fluctuations;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular.

(d) **General economic and political risks**

Changes in the general economic and political climate in Australia and on a global basis may impact on economic growth, interest rates, the rate of inflation, taxation and tariff laws, domestic security which may affect the value and viability of any financial services activities that may be conducted by the Company.

(e) **Competition risk**

The Company will compete with other companies for a share of the financial services market. Some of these companies have greater financial and other resources than the Company and, as a result, may be in a better position to compete for future business opportunities. There can be no assurance that the Company can compete effectively with these companies.

(f) **Regulatory risk**

Changes in relevant taxes, legal and administration regimes, accounting practice and government policies may adversely affect the financial performance of the Company.

(g) **Insurance risk**

Insurance against all risks associated with the Company's activities is not always available or affordable. The Company will maintain insurance where it is considered appropriate for its needs. However, it will not be insured against all risks either because appropriate cover is not available or because the Directors consider the required premiums to be excessive having regard to the benefits that would accrue.

1.13 What if the Acquisition does not succeed?

If the conditions to the Acquisition are not satisfied or waived, including if the Transaction Resolutions are not passed, the Acquisition will not proceed and the Company will continue in its current form.

However, the Company is likely to continue to investigate new opportunities outside of its current oil and gas exploration and development sector.

1.14 Directors' Recommendation

No Director currently has any interest in Voyager Shares. The Directors recommend that Shareholders vote in favour of each of the Resolutions (including the Transaction Resolutions) and consider the Acquisition to be beneficial to Shareholders because of the advantages set out in Section 1.11(a).

2. RESOLUTION 1 – CHANGE OF NATURE AND SCALE OF ACTIVITIES

2.1 General

Resolution 1 seeks approval from Shareholders for a change to the nature and scale of the activities of the Company by the Acquisition. The Acquisition will change the nature of the Company's activities from an oil and gas exploration and development company to having financial services interests.

A detailed description of the Acquisition is set out above at section 1 of the Explanatory Statement.

2.2 ASX Listing Rule 11.1

ASX Listing Rule 11.1 provides that where an entity proposes to make a significant change, either directly or indirectly, to the nature and scale of its activities, it must provide full details to ASX as soon as practicable and comply with the following:

- (a) provide to ASX information regarding the change and its effect on future potential earnings, and any information that ASX asks for;
- (b) if ASX requires, obtain the approval of holders of its shares and comply with any requirements of ASX in relation to the notice of meeting; and
- (c) if ASX requires, meet the requirements of Chapters 1 and 2 of the ASX Listing Rules as if the company were applying for admission to the Official List of ASX.

Given the change in the nature and scale of the Company's activities upon completion of the Acquisition, the Company has been required by ASX to obtain Shareholder approval.

ASX has advised the Company that the proposed Acquisition will trigger a need to re-comply with the admission requirements set out in Chapters 1 and 2 of the ASX Listing Rules.

Accordingly, the Company is seeking Shareholder approval pursuant to Resolution 1 for the Company to change the nature and scale of its activities under ASX Listing Rule 11.1.3.

3. RESOLUTION 2 – CONSOLIDATION OF CAPITAL

3.1 Background

The Directors are seeking Shareholder approval to consolidate the number of Shares on issue on an 8:1 basis and otherwise on the terms and conditions set out in this Resolution, and to adjust the terms and conditions of all Options on issue in light of the Consolidation in accordance with ASX Listing Rule 7.22.1 (**Consolidation**). The Consolidation is required to ensure the capital of the Company is appropriate for the Company to re-comply with the requirements of Chapters 1 and 2 of the ASX Listing Rules.

Section 254H of the Corporations Act provides that a company may, by a resolution passed in a general meeting of shareholders, convert all or any of its shares into a larger or smaller number of shares.

If this Resolution is passed, the total number of Shares and Options on issue will be reduced in accordance with the table set out in Section 1.9. Further, the exercise price of the Options on issue as at the time the Consolidation becomes effective will increased by a multiple of 8.

As from the effective date of this Resolution (being the date on which the Company advises the ASX that this Resolution has been approved by Shareholders, assuming it is approved), all holding statements for Shares and Options will cease to have any effect, except as evidence of entitlement to a certain number of post-Consolidation Shares and Options. After the Consolidation becomes effective, the Company will arrange for new holding statements to be issued to Shareholders and Optionholders.

3.2 Fractional entitlements and taxation

Not all Shareholders and Optionholders will hold that number of Shares and Options which can be evenly divided by 8. Where a fractional entitlement occurs, the Company will round that fraction up to the nearest whole Share or Option.

It is not considered that any taxation consequences will exist for Shareholders or Optionholders arising from the Consolidation. However, Shareholders and Optionholders are advised to seek their own tax advice on the effect of the Consolidation. Neither the Company nor any member of the Board (or the Company's advisers) accepts any responsibility for the individual taxation consequences arising from the Consolidation.

4. RESOLUTION 3 – CHANGE OF COMPANY NAME

Section 157(1)(a) of the Corporations Act provides that a company may change its name if the company passes a special resolution adopting a new name.

Resolution 3 seeks the approval of Shareholders for the Company to change its name to Voyager Global Group Ltd. The Board proposes this change of name on the basis that it more accurately reflects the proposed operations of the Company upon the successful completion of the Acquisition.

If this Resolution is passed the change of name will take effect from the date of the Meeting and when ASIC alters the details of the Company's registration.

The proposed name has been reserved by the Company and if this Resolution is passed, the Company will lodge a copy of the special resolution with ASIC on successful completion of the Acquisition in order to effect the change.

5. RESOLUTIONS 4, 5 AND 6 – ISSUES OF SECURITIES

5.1 General

These Resolutions seek Shareholder approval for the issue of:

- (a) up to 35,000,000 Shares under the Prospectus (**Prospectus Shares**) (Resolution 4);
- (b) up to 62,283,457 Shares to Voyager shareholders as consideration under the Acquisition (**Consideration Shares**) (Resolution 5); and
- (c) up to 17,437,519 options to the Offshore Funds as part of the Commercial Arrangements, exercisable at \$0.20 on the date four (4) years from their issue date (Resolution 6) (**Fund Options**),

(together the **Transaction Securities**).

In each case the number of securities is on a post-Consolidation basis.

It is a condition precedent of the Acquisition that the Company issue the Prospectus and the Consideration Shares. The issue of the Fund Options is a condition subsequent to the Transaction.

Further details in relation to the Acquisition are set out in Section 1 of this Notice of Meeting. Details of the effect of the Acquisition on the capital structure of the Company are set out at Section 1.9.

ASX Listing Rule 7.1 provides that a company must not, subject to specified exceptions, issue or agree to issue more equity securities during any 12 month period than that amount which represents 15% of the number of fully paid ordinary securities on issue at the commencement of that 12 month period.

The effect of these Resolutions will be to allow the Directors to issue the Transaction Securities under the Acquisition during the period of 3 months after the General Meeting (or a longer period, if allowed by ASX), without using the Company's annual 15% placement capacity.

5.2 Technical information required by ASX Listing Rule 7.1

Pursuant to and in accordance with ASX Listing Rule 7.3, the following information is provided in relation to the Transaction Securities:

- (a) the maximum number of:

- (e) the Transaction Securities will be issued on the following terms:
- (i) Prospectus Shares and Consideration Shares: will be fully paid ordinary shares in the capital of the Company and will, upon issue, rank equally with all other Shares then on issue; and

- (f) no funds will be raised from the Consideration Shares or the Fund Options as they are being issued in consideration for the Acquisition and as part of the Commercial Arrangements;

Notes:

1. The above table is a statement of current intentions as of the date of this Notice of Meeting. As with any budget, intervening events and new circumstances have the potential to affect the ultimate way funds will be applied. The Board reserves the right to alter the way funds are applied on this basis.

Full and further details on the use of funds will be set out in the Prospectus.

6. RESOLUTIONS 7, 8 AND 9 PARTICIPATION OF ANDREW CHAPMAN, ROD CORPS AND GARY ROPER IN THE PROSPECTUS

6.1 General

Pursuant to Resolution 4 the Company is seeking Shareholder approval for the issue of the Prospectus Shares.

Andrew Chapman, Rod Corps and Gary Roper wish to participate in the issue of the Prospectus Shares (**Participating Directors**).

Resolutions 7, 8 and 9 seek Shareholder approval for the in the issue of up to:

- (a) 250,000 Shares to Mr Chapman (or his nominee);
- (b) 250,000 Shares to Mr Corps (or his nominee); and
- (c) 250,000 Shares to Mr Roper or his nominee,

arising from their participation in the issue of the Prospectus Shares (**Participation**).

Shareholder approval is also being sought under section 195 of the Corporations Act which provides that a director of a public company may not vote or be present during meetings of directors when matters in which that director holds a "material personal interest" are being considered, except in certain circumstances or unless non-interested directors pass a resolution approving the interested director's participation.

However, section 195(4) relevantly provides that if there are not enough directors to form a quorum for a directors' meeting because of this restriction, one or more of the directors may call a general meeting and the general meeting may pass a resolution to deal with the matter. As all Directors have expressed their intention to participate in the issue of the Prospectus Shares, the Directors have exercised their right under section 195(4) of the Corporations Act to put the issue to Shareholders to resolve.

6.2 Chapter 2E of the Corporations Act

For a public company, or an entity that the public company controls, to give a financial benefit to a related party of the public company, the public company or entity must:

- (a) obtain the approval of the public company's members in the manner set out in sections 217 to 227 of the Corporations Act; and
- (b) give the benefit within 15 months following such approval,

unless the giving of the financial benefit falls within an exception set out in sections 210 to 216 of the Corporations Act.

The Participation will result in the issue of Shares which constitutes giving a financial benefit and Messrs Chapman, Corps and Roper are related parties of the Company by virtue of being Directors.

It is the view of the Directors that Shareholder approval pursuant to Chapter 2E of the Corporations Act is not required as the Participation falls under the arms' length exception in section 210 of the Corporations Act as the Participation will be

on the same terms as those offered to other un-related investors and accordingly Shareholder approval is only being sought under Listing Rule 10.11.

The Directors unanimously recommend that Shareholders vote in favour of these Resolutions save that in relation to:

- (c) Resolution 7, Mr Chapman makes no recommendation as he has a material personal interest in the matter;
- (d) Resolution 8, Mr Corps makes no recommendation as he has a material personal interest in the matter; and
- (e) Resolution 9, Mr Roper makes no recommendation as he has a material personal interest in the matter.

6.3 ASX Listing Rule 10.11

ASX Listing Rule 10.11 also requires shareholder approval to be obtained where an entity issues, or agrees to issue, securities to a related party, or a person whose relationship with the entity or a related party is, in ASX's opinion, such that approval should be obtained unless an exception in ASX Listing Rule 10.12 applies.

As the Placement involves the issue of Shares to a related party of the Company, Shareholder approval pursuant to ASX Listing Rule 10.11 is required unless an exception applies. It is the view of the Directors that the exceptions set out in ASX Listing Rule 10.12 do not apply in the current circumstances.

6.4 Technical Information required by ASX Listing Rule 10.13

Pursuant to and in accordance with ASX Listing Rule 10.13, the following information is provided in relation to the Participation:

- (a) the Shares will be issued to the Participating Directors (or their nominee(s));
- (b) the maximum number of Shares to be issued is 250,000 to each Director for a total of 750,000;
- (c) the Shares will be issued no later than 1 month after the date of the Meeting (or such later date to the extent permitted by any ASX waiver or modification of the ASX Listing Rules) and it is intended that issue of the Shares will occur progressively. The Company has applied for a waiver to allow it to issue the Shares no later than 3 months from the date of the Shareholder approval and will update Shareholders by way of a clarifying announcement should the waiver be granted;
- (d) the issue price will be \$0.20 per Share, being the same as all other Shares issued under the Capital Raising;
- (e) the Shares issued will be fully paid ordinary shares in the capital of the Company issued on the same terms and conditions as the Company's existing Shares; and
- (f) the funds raised will be used for the same purposes as all other funds raised under the Capital Raising as set out in section 5.2 of this Explanatory Statement.

Approval pursuant to ASX Listing Rule 7.1 is not required for the Participation as approval is being obtained under ASX Listing Rule 10.11. Accordingly, the issue of Shares to the Participating Directors (or their nominee) will not be included in the use of the Company's 15% annual placement capacity pursuant to ASX Listing Rule 7.1.

7. RESOLUTION 10 – RATIFICATION OF PRIOR PLACEMENT OF SHARES

On 23 April 2014, the Company issued 11,168,000 Shares at an issue price of \$0.0125 per Share to raise \$139,600.

This Resolution seeks Shareholder ratification pursuant to ASX Listing Rule 7.4 for the issue of those Shares (**Ratification**).

A summary of ASX Listing Rule 7.1 is set out in section 5.1 above.

ASX Listing Rule 7.4 sets out an exception to ASX Listing Rule 7.1. It provides that where a company in general meeting ratifies the previous issue of securities made pursuant to ASX Listing Rule 7.1 (and provided that the previous issue did not breach ASX Listing Rule 7.1) those securities will be deemed to have been made with shareholder approval for the purpose of ASX Listing Rule 7.1.

By ratifying this issue, the Company will retain the flexibility to issue equity securities in the future up to the 15% annual placement capacity set out in ASX Listing Rule 7.1 without the requirement to obtain prior Shareholder approval.

7.1 Technical information required by ASX Listing Rule 7.4

Pursuant to and in accordance with ASX Listing Rule 7.5, the following information is provided in relation to the Ratification:

- (a) 11,168,000 Shares were issued;
- (b) the issue price was \$0.0125 per Share;
- (c) the Shares issued were all fully paid ordinary shares in the capital of the Company issued on the same terms and conditions as the Company's existing Shares;
- (d) the Shares were issued to investors and debt holders of the Company. None of these subscribers are related parties of the Company; and
- (e) the funds raised from this issue were used for the review of new projects and transactions as well as to continue the review of Sprint's current projects and for working capital requirements.

Instructions for Completing 'Appointment of Proxy' Form

1. **(Appointing a proxy):** A Shareholder entitled to attend and cast a vote at the Meeting is entitled to appoint a proxy to attend and vote on their behalf at the Meeting. If a Shareholder is entitled to cast 2 or more votes at the Meeting, the Shareholder may appoint a second proxy to attend and vote on their behalf at the Meeting. However, where both proxies attend the Meeting, voting may only be exercised on a poll. The appointment of a second proxy must be done on a separate copy of the Proxy Form. A Shareholder who appoints 2 proxies may specify the proportion or number of votes each proxy is appointed to exercise. If a Shareholder appoints 2 proxies and the appointments do not specify the proportion or number of the Shareholder's votes each proxy is appointed to exercise, each proxy may exercise one-half of the votes. Any fractions of votes resulting from the application of these principles will be disregarded. A duly appointed proxy need not be a Shareholder.
2. **(Direction to vote):** A Shareholder may direct a proxy how to vote by marking one of the boxes opposite each item of business. The direction may specify the proportion or number of votes that the proxy may exercise by writing the percentage or number of Shares next to the box marked for the relevant item of business. Where a box is not marked the proxy may vote as they choose subject to the relevant laws. Where more than one box is marked on an item the vote will be invalid on that item.
3. **(Signing instructions):**
 - **(Individual):** Where the holding is in one name, the Shareholder must sign.
 - **(Joint holding):** Where the holding is in more than one name, all of the Shareholders should sign.
 - **(Power of attorney):** If you have not already provided the power of attorney with the registry, please attach a certified photocopy of the power of attorney to this Proxy Form when you return it.
 - **(Companies):** Where the company has a sole director who is also the sole company secretary, that person must sign. Where the company (pursuant to Section 204A of the Corporations Act) does not have a company secretary, a sole director can also sign alone. Otherwise, a director jointly with either another director or a company secretary must sign. Please sign in the appropriate place to indicate the office held. In addition, if a representative of a company is appointed pursuant to Section 250D of the Corporations Act to attend the Meeting, the documentation evidencing such appointment should be produced prior to admission to the Meeting. A form of a certificate evidencing the appointment may be obtained from the Company.
4. **(Attending the Meeting):** Completion of a Proxy Form will not prevent individual Shareholders from attending the Meeting in person if they wish. Where a Shareholder completes and lodges a valid Proxy Form and attends the Meeting in person, then the proxy's authority to speak and vote for that Shareholder is suspended while the Shareholder is present at the Meeting.
5. **(Return of Proxy Form):** To vote by proxy, please complete and sign the enclosed Proxy Form and return by:
 - (a) post to Sprint Energy Limited, Level 1, 981 Wellington Street, West Perth WA 6005; or
 - (b) facsimile to the Company on facsimile number +61 8 9321 3102so that it is received not less than 48 hours prior to commencement of the Meeting.

Proxy Forms received later than this time will be invalid.
