ASX ANNOUNCEMENT

9 September 2014

digitalBTC Launches Pre-Enrolments for digitalX Pocket

BOSTON, Massachusetts / PERTH, Australia — leading digital currency company digitalBTC has launched pre-enrolments to participate in its **digitalX Pocket** consumer application.

digitalX homepage now live at: digitalx.com

digitalX Pocket pre-enrolments are now live at: pocket.digitalx.com

Company Strategy for digitalX Pocket is to:

- **Create a simpler and more secure way to pay online**
- **Allow seamless cross-border transactions**
- **Eliminate transaction cut-off times**
- **Allow instant transfers of funds**
- **Integrate social media**
- **Combine security and usability**

Through pre-enrolment the Company will allow consumers to gain access to the beta phase of the product expected in early 2015, as well as receiving free bitcoins for pre-enrolling and referring other potential users.

digitalBTC's Executive Chairman, Mr Zhenya Tsvetnenko, said that digitalBTC is focused on security and an "easy to use" approach for digitalX Pocket, capitalising on the rapidly increasing demand for simple digital currency applications.

"digitalX Pocket will allow consumers all over the world to join the digital currency revolution and transact with anyone, anywhere, anytime with cutting edge security," said Mr Tsvetnenko.

"Only when both security and simplicity of use can be offered to consumers, without one adversely affecting the other within the one product, will digital currencies reach their maximum mainstream adoption".

"The launch of the digitalX Pocket pre-enrolments represents our first public milestone for the consumer applications division of digitalBTC. It's an important step as we build towards launching many digitalX products which can be used by consumers worldwide," said Mr Tsvetnenko.

digitalX Pocket is the first in a series of planned digitalX products which will bring digital currency to mainstream use in the online payments community.
