GINDALBIE METALS LTD DIRECTORS' REPORT For the year ended 30 June 2014

2. COMPANY SECRETARY

Mr Christopher Gerrard was appointed as Company Secretary of Gindalbie Metals Limited on 7 December 2012.

Prior to his appointment Mr Gerrard was General Counsel and Company Secretary of Karara Mining Limited (KML), Gindalbie's incorporated Association with Anshan Iron & Steel Corporation, throughout design, construction and delivery of Gindalbie's flagship Karara Project. Mr Christopher Gerrard retains primary responsibility for oversight and management of KML's legal work and corporate governance.

Prior to joining KML, Mr Gerrard was Commercial Manager and General Counsel of ASX-listed global defence prime contractor, Austal Limited.

Mr Gerrard has a solid background in general commercial law, having practised law for several years in a variety of substantive areas including corporate law, trade practices, intellectual property and finance with leading firms Herbert Smith Freehills and Minter Ellison where he acted for a diverse range of industrial and resources companies and governmental clients at state and federal levels.

Mr Gerrard holds honours degrees in Law and Economics. He is admitted as a Barrister and Solicitor of the High Court of Australia.

Mr Michael Weir was appointed as an additional Company Secretary on 14 March 2014. Mr Weir had worked for Gindalbie since November 2007 as the Manager Corporate and Investor Relations. Mr Weir resigned as Company Secretary on 14 May 2014 and is no longer employed by the Company.

Following Mr Weir's resignation Ms Jan Horsman was appointed as an additional Company Secretary from 20 May 2014. Ms Horsman has worked for Gindalbie since August 2010 and has extensive corporate experience working with listed and unlisted companies within the mining industry.

3. PRINCIPAL ACTIVITIES

The principal activities of the Company during the year were exploration for and evaluation of iron ore projects and joint venturing with other mining companies to explore for minerals. During the year the Company's primary mining activities related to its 47.84% Associated interest in the Karara Project ("Karara"), and exploration and potential development of its 100% owned iron ore projects. Gindalbie sold its 100% owned Shine hematite deposit for \$12 million plus a trailing price participation royalty in March 2014. There has been no significant change in the nature of these activities during the year

During the year Gindalbie's proportional equity interest in KML fell from 50% to 47.84% as a result of the issue of new share capital to Ansteel (on conversion of Ansteel loans to equity) and Ansteel became entitled to appoint the majority of the directors of KML (including the chairman). KML was previously a jointly controlled entity (50%). As a result Gindalbie no longer has joint control of KML.

Uncertainties with respect to KML's financial position due to lower production volumes of the magnetite processing plant, high cash operating costs, the volatility of iron ore prices, and the capacity of KML to comply prospectively with debt covenants have created uncertainty in relation to Gindalbie's ability to continue as a going concern and realise the carrying value of its assets in the normal course of business. KML is reliant on Ansteel to provide or arrange provision of additional necessary financing to meet any forecast funding shortfalls. Inherent uncertainty exists should any required funding not be provided or arranged on time, including the risk that KML may default under its senior secured bank debt facilities.

During the period Gindalbie recorded an impairment loss with respect to its subordinated loan and equity interest in KML so that the value of that investment is now carried at zero. In the event of default by KML under its debt facilities, Gindalbie's potential obligation as guarantor to repay its proportional share of KML's debt exceeds Gindalbie's net assets.

In light of these significant changes to the state of affairs of Gindalbie and the current market and operating environment, during the year Gindalbie implemented a corporate rationalisation and cost reduction program. Staffing levels were reduced and consolidated into the areas of Finance, Company Secretarial and Administration. The Company's highest priority remains its support for its investment in KML and the Karara Project.

4. RESULT OF OPERATIONS

The net loss for the year ended 30 June 2014 was \$585.6 million, (2013 - net loss of \$144.3 million).

The loss for the year includes a \$592.3 impairment of investment in KML and a \$38.6 impairment of loan to KML, a \$2.9 million net loss for Gindalbie, representing corporate overheads (\$7 million), non-cash impairment charge related to assets (\$2.4 million) and loss of control of KML (\$3.3 million), which was partially offset by profit on sale of assets (\$0.2 million) and interest income (\$9.6 million).

As at the reporting date the Company has approximately \$43 million of cash reserves, including \$24.5 million in term deposits over 3 months maturity.

5. DIRECTORS' MEETINGS

The number of Directors' meetings (including meetings of Committees of Directors) and number of meetings attended by each of the Directors of the Company during the financial year were:

Director	Directors Directors Meetings			k Committee tings	Remuneration & Nomination Committee Meetings (D)		
	А	В	А	В	Α	В	
Mr K F Jones	10	10	3	3	-	-	
Mr T Netscher	2	3	-	-	-	-	
Mr D Harris	5	5	-			-	
Mr MJ O'Neill	9	10	3	3	3 -		
Mr Y Wanyuan	7	10	2	3	-	-	
Mr C Ping (C)	10	10	1	1	-	-	
Mr R Marshall	10	10	3	3	-	-	
Mr P Hallam	8	10	3	3	-	-	
Mr T Fuping	7	10	-	-			

- A. Number of meetings attended
- B. Number of meetings held during the time the Director held office during the year
- C. Mr C Ping attended 1 Audit & Risk Committee Meeting as Alternate Director for Mr Y Wanyuan
- D. No Remuneration & Nomination committee meetings were held during the year as remuneration matters were dealt with by the full board.

6. CORPORATE STRATEGY & LIKELY DEVELOPMENTS

The Company's primary short term focus will be to support the continued ramp-up of the Karara Project. In addition the Company will consider other iron ore exploration and development opportunities through joint ventures, sole funded exploration activity and acquisitions.

7. EVENTS SUBSEQUENT TO REPORTING DATE

In August 2014, KML subsidiary Karara Power Pty Ltd completed the sale of the 330kV double circuit transmission line to Western Power for the net sale price of \$82,633,000.

The Associate entity KML ("Associate") obtained a bank loan facility of US\$400 million in August 2014 for the purpose of additional working capital support on terms and conditions including security arrangements substantially similar to those of existing debt finance facilities (refer Note 14).

8. ENVIRONMENTAL REGULATION

The Company's current exploration and development activities are conducted in accordance with environmental regulations under both Commonwealth and State legislation.

As stated in the Environmental Policy, the Company is committed to achieving superior standards in its environmental performance. It has employed environmental professionals to monitor this area of operating performance, with responsibility for monitoring of environmental exposures and compliance with environmental regulations.

Compliance with the requirements of environmental regulations and with specific requirements of the relevant managing authorities including the Department of Environment and Conservation, and the Department of Industry and Resources was achieved across all aspects of the current operations.

There were no instances of non-compliance in relation to any instructions or directions from the relevant governing agencies. The Board is not aware of any significant breaches during the period covered by this report.

For the year ended 30 June 2014

9. REMUNERATION REPORT - Audited

9.1. Key management personnel disclosures

The following were key management personnel of the Company at any time during the reporting period and unless otherwise indicated were key management personnel for the entire period:

Executive Directors

Mr T C Netscher - Managing Director & CEO (resigned 31 December 2013)
Mr D Harris - Managing Director (commenced 14 October 2013 and resigned 30 April 2014)
Mr M J O'Neill - Acting Managing Director (commenced 14 April 2014)

Non-Executive Directors

Mr K F Jones – Chairman Mr M J O'Neill (until 14 April 2014) Mr A R Marshall Mr F Tang Mr W Yu Mr P Chen Mr P Hallam

Executives

Mr D Richardson - Chief Financial Officer (resigned 24 January 2014)
Mr W Zekulich - Chief Financial Officer (commenced 13 January 2014 and resigned 30 June 2014)
Mr C Gerrard - Company Secretary

9.2. Principles of compensation

Remuneration is referred to as compensation throughout this report.

Key management personnel have authority and responsibility for planning, directing and controlling the activities of the Company. Key management personnel include the Directors of the Company and senior executives for the Company, in accordance with S300A of the *Corporations Act 2001*.

Compensation levels for Directors and key management personnel of the Company are competitively set to attract and retain appropriately qualified and experienced Directors and executives. The Remuneration and Nomination Committee obtains independent data on compensation packages and trends in comparative companies, and this information is used as one of the determinants in deciding the appropriateness of the Company's compensation strategy.

The compensation structures explained below are designed to attract suitably qualified candidates, reward the achievement of strategic objectives, and achieve the broader outcome of creation of value for shareholders. The compensation structures take into account:

- the capability and experience of the key management personnel;
- the key management personnel's assessed contribution to the Company's financial and operational performance.

Key management personnel can receive a portion of base remuneration as non-cash benefits. Non-cash benefits typically include payment of motor vehicle expenses. Any fringe benefit tax on these benefits is generally borne by the executive.

Compensation packages for key management personnel include a mix of fixed and variable compensation and short-term and long-term performance-based incentives.

The below table represents the target remuneration mix for executives in the current year. The short-term incentive is provided at target levels, and the long-term incentive amount is provided based on the value granted in the current year.

		At Risk
Fixed remuneration	Short-term incentive	Long-term incentive
100%	-	-
100%	-	-
44%	25%	31%
44%	25%	31%
44%	25%	31%
	100% 100% 44% 44%	Fixed remuneration Short-term incentive 100% - 100% - 44% 25% 44% 25%

GINDALBIE METALS LTD DIRECTORS' REPORT

For the year ended 30 June 2014

9. REMUNERATION REPORT – Audited (Continued)

9.2. Principles of compensation (Continued)

Fixed compensation

Fixed compensation consists of base compensation (which is calculated on a total cost basis and includes any fringe benefits tax charges related to employee benefits including motor vehicles), as well as employer contributions to superannuation funds.

Compensation levels are reviewed annually by the Remuneration and Nomination Committee through a process that considers individual performance and overall performance of the Company. In addition, external consultants may be used to provide benchmark data to the Committee who ensure that key management personnel compensation is competitive in the market place. Key management personnel compensation is also reviewed on promotion. Compensation increases are usually effective from 1 July each year, however in June 2013 the Board approved a recommendation not to increase fixed compensation for all employees. This decision was reviewed in December 2013 and an increase of 2% was approved from 1 January 2014.

Performance-linked compensation

Performance linked compensation includes both short-term and long-term incentives, and is designed to reward key management personnel for meeting or exceeding company objectives (both financial and non-financial). The short-term incentive plan (STI) is a discretionary 'at risk' bonus provided in the form of cash. The deferred compensation scheme incorporates the issue of options over ordinary shares of the Company under the rules of the employee share plan, which vest over a three year period.

Short-term incentive bonus

The short-term incentive plan is intended to focus employee behaviour towards the achievement of activities and milestones that contribute to the Company meeting its business objectives for the financial year. In addition, it also provides clear alignment between personal and business performance and remuneration. Company objectives are used to determine the performance rating. The Managing Director evaluates the Company's strategic goals for the forthcoming financial year and identifies Key Performance Indicators (KPI's) which are deemed to be critical to the Company achieving its mission each financial year. For performance linked compensation purposes the Company is defined to include the Karara Project, a 47.84% owned Associate of the Company. These objectives are reviewed and if considered appropriate approved by the Remuneration and Nomination Committee.

At the end of the financial year the Managing Director assesses the Company's performance against the Company KPI's to determine the overall business score. The Company performance ratings are applied against the Company KPIs to determine the overall performance score.

The performance rating will range between 50% for minimum performance, 75% for target performance and 100% for stretch performance. No bonus is awarded where performance does not meet minimum performance standards. The Remuneration and Nomination Committee recommends the cash incentive to be paid to the individuals for approval by the board.

Employees are eligible for a short term incentive award of between 8% and 25% of Total Fixed Remuneration (base salary plus superannuation) dependent on their role and responsibilities within the Company.

The KPI's for the 2013/4 financial year were:

КРІ	Maximum STI Award for 2013/4	Outcome
Number of lost time injuries – GBG employees (minimum threshold – 2)	20%	20%
Karara Mining Ltd earnings before interest, tax, depreciation and unrealised FX gains/losses (minimum threshold – budget)	15%	-
Change in GBG share price relative to ASX Small Resources Index (minimum threshold – GBG share price movement at least 90% of index change)	40%	-
Development and delivery of strategic plan for GBG's non-KML related assets.	25%	18.75%

GINDALBIE METALS LTD DIRECTORS' REPORT

For the year ended 30 June 2014

9. REMUNERATION REPORT – Audited (Continued)

9.2. Principles of compensation (Continued)

As an example an executive entitled to a maximum STI bonus of 25% of total fixed remuneration assuming the executive achieves 38.75% of the above 100% they will receive an 2013/4 STI bonus of 9.69%. The weighting of KPI's is adjusted to reflect the importance of the KPI to the Company's performance. Only the achievement of a "stretch" KPI target results in a maximum STI award for each individual KPI. The final assessment and payment of 2013/14 STI awards occurred in August 2014.

The STI bonus scheme has been suspended for the 2014/15 year.

Long Term Incentive Deferred Compensation Scheme - share options

Options are issued under the Employee Share Option Plan (made in accordance with the criteria as set out in the plan approved by shareholders at the 2006 AGM). The total value of share options issued to eligible employees is equivalent to 1.25 times the value of the employee's STI award for the prior financial year (i.e. calculation of the maximum award is dependent upon satisfaction of STI performance hurdles). These share options vest subject to specific service conditions. All options are issued for no consideration, and are therefore similar in substance to "performance rights". There were 2,336,756 options granted to key personnel during the year ended 30 June 2014 (2013 – 5,216,963 options granted).

Specific service conditions:

- One third of option award (Tranche 1) Continuous employment with the Company until 1 July 2014;
- One third of option award (Tranche 2) Continuous employment with the Company until 1 July 2015;
- One third of option award (Tranche 3) Continuous employment with the Company until 1 July 2016

All Directors and employees participating in any Company equity incentive plan are prevented from hedging the economic benefit of any unvested performance shares or options under such plans, as such arrangements have been prohibited by law since 1 July 2011. Hedging is permitted in respect of any performance shares or options that have vested.

2,560,693 share options issued under the Employee Share Option Plan vested during 2013/14, as the designated minimum service conditions were satisfied as at 30 June 2014.

Short-term and long-term incentive structure

Each year the Managing Director recommends the KPIs for the key management personnel, which are approved by the Remuneration and Nomination Committee. The Remuneration and Nomination Committee considers that the performance-linked compensation structure provides appropriate incentives to key management personnel.

Consequences of performance on shareholder wealth

In considering the Company's performance and benefits for shareholder wealth during the year ended 30 June 2014, the Board believes that, safety performance, profitability, share price performance and achievement of specific strategic development objectives are the key links between the Company's performance and the attainment of increased shareholder wealth.

	2014	2013	2012	2011	2010
Total comprehensive income attributable to owners of the company (\$000)	(588,792)	(136,643)	(37,372)	13,946	(2,534)
Change in share price (\$)	(0.06)	(0.33)	(0.39)	(0.20)	0.26

Service agreements

All key management personnel are employed under standard Company employment contracts except the Acting Managing Director and the Chief Financial Officer who are employed under a service contract.

The following key terms apply in respect of each of the contracts:

Position	Term	Notice Period	Redundancy Terms
Chairman (Mr K Jones)	Unlimited	Nil	Nil
Acting MD (Mr M O'Neill)	Unlimited	Nil	Nil
CFO (Mr W Zekulich)	Fixed term (13 Jan 14 - 30 June 14)	Nil	Nil
General Counsel (Mr C Gerrard)	Unlimited	8 weeks	6 months' salary

9. REMUNERATION REPORT – Audited (Continued)

9.2. Principles of compensation (Continued)

The Company retains the right to terminate the contract immediately by the payment of the redundancy term.

The key management personnel are also entitled to receive on termination of employment their statutory entitlements of accrued annual and long service leave, together with any superannuation benefits.

The service and employment contracts outline the components of compensation paid to the key management personnel but do not prescribe how compensation levels are modified year to year. Compensation levels are reviewed each year to take into account cost of living changes, any change in the scope of the role performed and any changes required to meet the principles of the compensation policy.

There is no entitlement to termination payment in the event of removal for misconduct.

Non-Executive Directors

Total compensation for all Non-Executive Directors, last voted upon by shareholders at the 2010 AGM, is not to exceed \$1,000,000 per annum and is set based on advice from external advisors with reference to fees paid to other Non-Executive Directors of comparable companies.

Effective from 1 October 2013 the Non-Executive Director's base remuneration was reduced to \$66,000 per annum (previously \$82,500 per annum). The Chairman's remuneration was reduced to \$236,000 per annum (previously \$295,000 per annum). Effective from 1 October 2014, the Non-Executive Director's remuneration will be reset to \$82,500 per annum with the Chairman's base remuneration increasing to the previous \$295,000 per annum.

Directors' fees cover all board activities. Effective from 1 September 2012 Committee fees were increased to \$42,000 per annum (previously \$35,000) and are payable to those Non-Executive Directors who sit on two or more Committees (including Committees of KML). Non-Executive Directors do not generally receive bonuses but may be issued with employee options under the Employee Share Option Plan or via the express approval of shareholders/Board of Directors. Nevertheless the Board charter has been amended to formally recognise that at this stage of the Company's development no further options will be issued to Non-Executive Directors.

9.3. Analysis of STI bonuses included in remuneration

Details of the vesting profile of the short-term cash bonuses awarded as remuneration to each director of the Company, and other key management personnel are detailed below:

	Included in remuneration	Short- term incentive bonus			
	A\$	% vested in year	% forfeited in year		
Director					
Mr D Harris	36,625	38.75%	61.25%		
Executive					
Mr C Gerrard	12,925	38.75%	61.25%		

For the year ended 30 June 2014

9. REMUNERATION REPORT – Audited (Continued)

9.4. Directors' and executive officers' remuneration

Details of the nature and amount of each major element of remuneration of each Director of the Company and each of the key management personnel of the Company are listed below. Directors and executive officers remuneration amounts include the accrual of cash bonuses and long term incentives, accruals of annual leave and long service leave.

Total, all key management personnel	2014 2013	2,439,076 2,641,715			4,563 43,169	,		31,841 - 33,425	2,885,965 3,308,256		-

NB: The amount included as share based payments remuneration is not indicative of the benefit (if any) that individual executives may ultimately realise should the equity instrument vest (refer to 9.4(a)&(b)).

Mr C Gerrard is contracted out to Karara Mining Limited for 60% of his time; the numbers quoted in this table reflect 100% remuneration.

For the year ended 30 June 2014

9. REMUNERATION REPORT – Audited (Continued)

9.4. Directors' and executive officers' remuneration (Continued)

Notes to the table of Directors and executive officers remuneration

(a) Each option entitles the holder to purchase one ordinary share in the Company. The options are unlisted and cannot be transferred. The fair value of the options with non market conditions is calculated at the date of grant using a Black-Scholes model and allocated to each reporting period evenly over the period from grant date to vesting date.

Options with market conditions are determined using the Binomial model simulation in which the market conditions have been taken into account in the valuation of the option. The value disclosed above is the portion of the fair value of the options allocated to this reporting period.

(b) This remuneration includes a proportion of the fair value of equity compensation granted or outstanding during the year. The fair value of equity instruments is determined based on the fair value at grant date, and is expensed progressively over the vesting period. The amount included as remuneration is not indicative of the benefit (if any) that individual executives may ultimately realise should the equity instrument vest. The following factors and assumptions were used in determining the fair value of options on grant date:

Grant Date	Expiry Date	Fair value per option	Exercise price	Number of options	Expected volatility	Risk free interest rate	Option Pricing model
16-Nov-12	15-Nov-16	\$0.305	\$0.00	5,403,312	83%	2.54%	Black Scholes
31-Oct-13	31-Oct-17	\$0.132	\$0.00	2,336,756	66%	3.35%	Black Scholes

(c) The Company pays insurance premiums that cover key management personnel. The premium is split between the directors and officers of the Company only. The average premium per person has been included in remuneration.

9.5. Equity Instruments

All options refer to options over ordinary shares in the Company, which are exercisable on a one-for-one basis under the Employee Share Option Plan.

9.6. Options and rights over equity instruments granted as compensation

Details of options over ordinary shares in the Company that were granted as compensation to each key management person during the reporting period and details on options that vested during the reporting period are as follows:

Executive	Number of options granted during 2014	Grant Date	Number of options forfeited during 2014	Fair value per option at grant date(\$)	Exercise price per option (\$)	Expiry Date	Number of options vested during 2014
Mr D Richardson	-	16-Nov-12	324,904	\$0.3050	\$0.00	15-Nov-16	162,452
Mr D Richardson	280,320	31-Oct-13	280,319	\$0.1320	\$0.00	31-Oct-17	-
Mr C Gerrard	-	16-Nov-12	-	\$0.3050	\$0.00	15-Nov-16	62,645
Mr C Gerrard	236,889	31-Oct-13	-	\$0.1320	\$0.00	31-Oct-17	-

The options granted were provided at no cost to the key management personnel.

All options expire on the earlier of their expiry date or within 3 months of termination of the individual's employment. The options are exercisable at any time from their vesting date. Further details, including grant dates and exercise dates regarding options granted to executives are disclosed in Note 23 to the financial statements.

For the year ended 30 June 2014

9. REMUNERATION REPORT – Audited (Continued)

9.7. Modification of terms of equity-settled share-based payment transactions

No terms of equity-settled share-based payment transactions (including options and rights granted as compensation to a key management person) have been altered or modified by the issuing entity during the reporting period or the prior period.

9.8. Exercise of options granted as compensation

During the reporting period, the following shares were issued on the exercise of options previously granted as compensation:

Executive	Number of Shares	Amount paid \$/share
Mr D Richardson	162,452	\$0.00
Mr T Netscher	382,941	\$0.00

9.9. Details of equity incentives affecting current and future remuneration - audited

Details of vesting profiles of the rights and options held by each key management person of the Company are detailed below.

Executive :-	Instrument	Grant date	% vested in year	% forfeited in year (a)	Financial years in which grant vests
Mr D Richardson	Option 162,452	16-Nov-12	100.00%	0.00%	3-Jul-13
	Option 162,452	16-Nov-12	0.00%	100.00%	n/a
	Option 162,452	16-Nov-12	0.00%	100.00%	n/a
	Option 93,440	31-Oct-13	0.00%	100.00%	n/a
	Option 93,440	31-Oct-13	0.00%	100.00%	n/a
	Option 93,439	31-Oct-13	0.00%	100.00%	n/a
Mr T Netscher	Option 382,941	16-Nov-12	100.00%	0.00%	3-Jul-13
	Option 382,941	16-Nov-12	0.00%	100.00%	n/a
	Option 382,940	16-Nov-12	0.00%	100.00%	n/a
Mr C Gerrard	Option 62,645	16-Nov-12	100.00%	0.00%	3-Jul-13
	Option 62,645	16-Nov-12	0.00%	0.00%	3-Jul-14
	Option 62,645	16-Nov-12	0.00%	0.00%	3-Jul-15
	Option 78,963	31-Oct-13	0.00%	0.00%	1-Jul-14
	Option 78,963	31-Oct-13	0.00%	0.00%	1-Jul-15
	Option 78,963	31-Oct-13	0.00%	0.00%	1-Jul-16

⁽a) The percentage forfeited in the year represents the reduction from the maximum number of instruments available to vest due to vesting criteria not being met.

For the year ended 30 June 2014

9. REMUNERATION REPORT - Audited (Continued)

9.10. Analysis of movements in options

The movement during the reporting period, by value, of options over ordinary shares in the Company held by each key management person is detailed below:

	Granted in year ^(a) \$	Value of Options exercised in year ^(b) \$	Value of Options lapsed/forfeited in year ^(c) \$
Mr D Richardson	37,002	17,870	136,098
Mr C Gerrard	31,269	-	-

- (a) The value of options granted in the year is the fair value of the options calculated at grant date using either the Black-Scholes or Binomial option pricing models. The total value of the options granted is included in the table above. This amount is allocated to remuneration over the relevant vesting period.
- (b) The value of options exercised during the year is calculated as the market price of shares of the Company on the Australian Securities Exchange as at close of trading on the date the options were exercised after deducting the price paid to exercise the option.
- (c) The value of the options that lapsed during the year represents the benefit foregone and is calculated at the date the option lapsed using a Black-Scholes model.

9.11. Key management personnel transactions

(a) Loans to Key Management personnel and their related parties

There were no loans or other transactions made to/with key management personnel.

(b) Other transactions with key management personnel

A number of key management persons, or their related parties, hold positions in other entities that result in them having control or significant influence over the financial and/or operating policies of those entities.

The aggregate amounts recognised during the year relating to key management personnel and their related parties were \$nil (2013: \$nil).

There were no loans or other transactions made to/with key management personnel.

(c) Movement in shares

The relevant interest of each director in the share capital of the company, as notified by the Directors to the Australian Securities Exchange in accordance with S205G(1) of the Corporations Act 2001, at the date of this report is as follows:

Director	Held at 1 July 2013	Options over ordinary shares	Held at 30 June 2014
Mr K F Jones	300,000	-	300,000
Mr M J O'Neill	1,437,655	-	1,437,655
Mr A R Marshall	200,000	-	200,000
Mr P D Hallam	100,000	-	100,000

For the year ended 30 June 2014

10. SHARE OPTIONS

10.1 Unissued shares under option

At the date of this report unissued ordinary shares of the Company under option are:

Expiry date	Exercise Price	Number of Options
15 November 2016	\$0.00	914,234
31 October 2017	\$0.00	<u>1,186,622</u>
		<u>2,100,856</u>

All options are employee options and expire on the earlier of their expiry date or three months after the termination of the employee's employment unless extended by the directors of the Company.

The above options do not entitle the holder to participate in any potential share issue of the Company.

10.2 Shares issued on exercise of options

During the financial year, the Company has issued 1,853,080 ordinary shares as a result of the exercise of options (exercise price of \$0.00).

11. LEAD AUDITOR'S INDEPENDENCE DECLARATION & NON-AUDIT SERVICES

The Lead Auditor's Independence Declaration is set out on page 17 and forms part of the Directors' Report for the year ended 30 June 2014.

During the year KPMG, the Company's auditor, has performed certain other services in addition to their statutory duties. The Board has considered the non-audit services provided during the year by the auditor and in accordance with written advice provided by resolution of the Audit Committee, is satisfied that the provision of those non-audit services during the year by the auditor is compatible with, and did not compromise, the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services were subject to the corporate governance procedures adopted by the Company and have been reviewed by the Audit Committee to ensure they do not impact the independence and objectivity of the auditor.
- the non-audit services provided do not undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants, as they did not involve reviewing or auditing the auditor's own work, acting in a management or decision making capacity for the Company, acting as an advocate for the Company or jointly sharing risks and rewards.

Details of the amounts paid to the auditor of the Company, KPMG, and its related practices for audit and non-audit services provided during the year are set out below:

services provided during the year are ser our below.	2014 \$	2013 \$
Audit services:		
Auditors of the Company- KPMG Australia		
- audit and review of financial reports	249,500	86,676
Other services:		
Auditors of the Company - KPMG Australia		
- taxation services	11,742	4,734
- other assurance services	12,000	-
	273,242	91,410

12. ROUNDING OFF

The Company is of a kind referred to in ASIC Class Order 98/100 dated 10 July 1998 and in accordance with that Class Order, amounts in the financial report and Directors' Report have been rounded off to the nearest 000 dollars, unless otherwise stated.

For the year ended 30 June 2014

13. INDEMNIFICATION AND INSURANCE - OFFICER OR AUDITOR

The Company, during the financial year, in respect of any person who is or has been an officer or auditor of the Company:

- has not indemnified or made any relevant agreement for indemnifying against a liability incurred as an officer or auditor.
- paid a premium of \$41,958 for a policy of insurance to cover legal liability and expenses for the Directors and
 executive officers in the event of any legal action against them arising from their actions as officers of the
 Company.

The insurance policy does not contain details of the premiums paid in respect of individual officers of the Company.

Signed in accordance with a resolution of directors at Perth, WA on 22 September 2014.

M J O'Neill Director K F Jones Director

AUDITOR'S INDEPENDENCE DECLARATION For the Year Ended 30 June 2014

Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To: the directors of Gindalbie Mining Limited

I declare that, to the best of my knowledge and belief, in relation to the audit for the financial year ended 30 June 2014 there have been:

- no contraventions of the auditor independence requirements as set out in the Corporations Act 2001 in relation to the audit; and
- no contraventions of any applicable code of professional conduct in relation to the audit.

INDEPENDENT AUDITOR'S REPORT For the Year Ended 30 June 2014

Independent auditor's report to the members of Gindalbie Metals Ltd

Report on the financial report

We have audited the accompanying financial report of Gindalbie Metals Ltd (the Company), which comprises the balance sheet as at 30 June 2014 and statement of comprehensive income, statement of changes in equity and statement of cash flows for the year ended on that date, notes 1 to 26 comprising a summary of significant accounting policies and other explanatory information and the directors' declaration.

Directors' responsibility for the financial report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement whether due to fraud or error. In note 2(a), the directors also state, in accordance with Australian Accounting Standard AASB 101 Presentation of Financial Statements, that the financial statements of the Company comply with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We performed the procedures to assess whether in all material respects the financial report presents fairly, in accordance with the Corporations Act 2001 and Australian Accounting Standards, a true and fair view which is consistent with our understanding of the Company's financial position and of its performance.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

> KPMG, an Australian partnership and a member firm of the KPMG network of independent member firms affiliated with KPMG International Cooperative (*KPMG International*), a Swiss entity.

Liability limited by a scheme approved under Professional Standards Legislation,

INDEPENDENT AUDITOR'S REPORT For the Year Ended 30 June 2014

Auditor's opinion

In our opinion:

- (a) the financial report of Gindalbie Metals Ltd is in accordance with the Corporations Act 2001, including;
 - giving a true and fair view of the Company's financial position as at 30 June 2014 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001
- (b) the financial report also complies with International Financial Reporting Standards as disclosed in note 2(a).

Material uncertainty regarding continuation as a going concern

Without modification to the opinion expressed above, attention is drawn to note 2(c) to the financial report. The Company's principal asset is a 47.84% equity interest in Karara Mining Ltd (KML). As stated in note 2(c), the Company's ability to continue as a going concern is dependent on Anshan Iron and Steel Group Corporation (Ansteel), the 52.16% equity owner of KML, to either provide or arrange for additional financing to KML to meet their current and future financial obligations and the continued support of the Chinese Banking Syndicate to maintain the Senior Debt Facility. Due to a combination of agreements explained in note 2(c), should KML default on its debt facility, the Company may become liable under guarantees to the Chinese Banking Syndicate and Ansteel for 47.84% of the secured debts of KML. The continued support from Ansteel and the Chinese Banking Syndicate cannot be determined with certainty, although as outlined in note 2(c), the Directors believe that Ansteel and the Chinese Banking Syndicate will continue to financially support KML and accordingly the financial report has been prepared on a going concern basis.

The existence of this uncertainty, and other uncertainties as set out in note 2(c) may cast significant doubt about the Company's ability to continue as a going concern and therefore, the Company may be unable to realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

Report on the remuneration report

We have audited the Remuneration Report included in section 9 of the directors' report for the year ended 30 June 2014. The directors of the Company are responsible for the preparation and presentation of the remuneration report in accordance with Section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with auditing standards.

INDEPENDENT AUDITOR'S REPORT For the Year Ended 30 June 2014

Auditor's opinion

In our opinion, the remuneration report of Gindalbie Metals Ltd for the year ended 30 June 2014 complies with Section 300A of the Corporations Act 2001.

DIRECTORS' DECLARATIONS For the Year Ended 30 June 2014

- 1. In the opinion of the Directors of Gindalbie Metals Ltd ("the Company"):
 - (a) the financial statements and notes, and the Remuneration Report set out in section 9 of the Directors' Report, are in accordance with the Corporations Act 2001, including;
 - (i) giving a true and fair view of the financial position of the Company as at 30 June 2014 and of its performance, for the financial year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001; and
 - (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
- 2. The Directors have been given the declarations required by section 295A of the Corporations Act 2001 from the Managing Director and Chief Financial Officer for the financial year ended 30 June 2014.
- 3. The Directors draw attention to Note 2(a) to the financial statements, which includes a statement of compliance with International Financial Reporting Standards.

Dated at Perth this 22nd day of September 2014.

Signed in accordance with a resolution of the Directors.

Cash and cash equivalents at 30 June	9	18,505	9,166

The statement of cash flows is to be read in conjunction with the notes to the financial statements set out on pages 26 to 54. Refer to Note 2 (a) on basis of preparation.

1. REPORTING ENTITY

Gindalbie is a company domiciled in Australia.

The address of the Company's registered office is Level 9, 216 St Georges Terrace, Perth. These financial statements comprise the Company and its interest in Associated entities. During the year all subsidiaries were liquidated. The liquidated subsidiaries had no material impact on the Company's financial statements for both the 2014 and 2013 year and the Consolidated financial statements for the prior period and current period until the date of liquidation are the same as Company financial statements.

The Company is a for-profit entity primarily involved in iron ore exploration and development activities.

2. BASIS OF PREPARATION

(a) Statement of compliance

The financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards (AASBs) adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The financial statements comply with International Financial Reporting Standards (IFRSs) adopted by the International Accounting Standards Board (IASB).

The financial statements were authorised for issue by the Directors on 22 September 2014.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis.

(c) Going Concern - Associate Entity

The financial statements of the Company have been prepared on the going concern basis. The primary asset of Gindalbie is a 47.84% associate equity interest in KML, a special purpose entity established to develop and operate the Karara Project in Western Australia. The remaining 52.16% is ultimately owned by Anshan Iron and Steel Group Corporation (Ansteel). KML was previously a jointly controlled entity (50%), however due to Ansteel converting debt to equity in KML, Gindalbie no longer has joint control. Further details of the Gindalbie equity investment in the Associate, including security, indemnities and guarantees provided by Gindalbie in relation to KML and defined capitalised terms below are included in Note 14 to this financial report. At the date of this report the financial position, including debt obligations of KML, create an inherent uncertainty with respect to Gindalbie's ability to continue as a going concern and realise the carrying value of its assets, in the normal course of business. The investment in KML is carried at nil (2013: \$551 million) due to Gindalbie recording an impairment loss of \$592 million. The loan to KML of \$39 million was also impaired to nil value. Gindalbie's other assets are primarily cash, term deposits and exploration assets.

Through a combination of the provisions of the Senior Debt Facility, the shareholder guarantee and share mortgage provided by Gindalbie to the Chinese Banking Syndicate and the indemnity and share mortgage provided by Gindalbie to Ansteel, if there is an Event of Default by KML under the Senior Debt Facility and a call by the Chinese Banking Syndicate for repayment of the Senior Debt by KML which is not met in full by KML, or by Gindalbie or Ansteel under the shareholders' guarantees, then the Chinese Banking Syndicate (or Ansteel as sponsor if Ansteel paid the debt under its sponsor guarantee) has the right to take ownership of Gindalbie's shares in KML under their respective share mortgages. Under the indemnity provided by Gindalbie to Ansteel, where Ansteel has repaid the total loans outstanding, Ansteel also has the right to recover (as an unsecured creditor) any loss it may have suffered after sale of Gindalbie's KML shares from Gindalbie.

If Gindalbie is required to repay its proportional share of the Senior Debt, either to the Chinese Banking Syndicate or to Ansteel, the potential obligation is currently in excess of the value of the shares in KML and net assets of Gindalbie.

The Directors of Gindalbie have identified inherent uncertainties regarding the potential future funding requirements of KML. The uncertainties primarily relate to one or more of the following events:

- Karara achieving production quantities and cost profiles in accordance with the planned ramp up schedule;
- Future Australian dollar iron ore prices;
- The ability of KML to either deliver into the prepaid sale agreements, settle these within the prescribed terms of the agreement or else renegotiate the settlement terms of the prepaid sales agreements;
- The continued support of the Chinese Banking Syndicate to maintain the Senior Debt Facility and to waive any breach
 or breaches of cover ratios which are not expected to be met by KML on consecutive quarterly dates as at June 2014,
 30 September 2014 and 31 December 2014; and
- The continued provision of financial support by Ansteel to KML as required.

2. BASIS OF PREPARATION (Continued)

(c) Going Concern - Associate Entity (Continued)

The Directors acknowledge KML's future funding requirements have the potential to impact Gindalbie. If KML defaults under the Senior Debt Facility, Gindalbie may be required, if called on, to meet the shareholder guarantee provided to the

Chinese Banking Syndicate or the indemnity provided to Ansteel. Failure to do so may result in the loss and/or sale of its mortgaged shares in KML. However, the Directors believe that the going concern basis of preparation remains appropriate for the following reasons:

- A member of the Chinese Banking Syndicate provided an AUD\$95 million bank guarantee facility to KML in August 2014 for the purpose of completion of sale of the transmission line by KML to Western Power
- Two members of the Chinese Banking Syndicate provided an additional US\$400m working capital funding facility to KML in August 2014.
- Negotiations have been initiated by KML with the Chinese Banking Syndicate to obtain waivers of breaches of cover ratio covenants under the Senior Debt Facility;
- KML has historically received financial support from Ansteel and the Chinese Banking Syndicate (or a member or members of the syndicate) for provision of additional funding facilities and Ansteel has successfully arranged these facilities as and when required in the past.

The Directors acknowledge that KML is reliant on Ansteel to either provide or arrange for provision of additional financing to KML to meet KML's current forecast 2014/15 funding shortfall and to enable KML to meet currently forecast financial obligations, including the impending debt repayment obligations and costs of completion of Karara including capital expenditure. An inherent uncertainty therefore exists that KML and Ansteel may not be successful in efforts to negotiate additional debt facilities or raise further additional equity, or that Ansteel will not provide or arrange for provision of additional funding to KML (or a combination of the foregoing). If the funding needed is not raised and KML defaults under the Senior Debt Facility, the Company may become liable under the guarantees to the Chinese Banking Syndicate and Ansteel for its proportional share of the secured debts of KML. This may impact on Gindalbie's ability to continue as a going concern and therefore it may be unable to realise its assets and extinguish its liabilities in the normal course of business and of the amounts stated in the financial report.

(d) Functional and presentation currency

These financial statements are presented in Australian dollars, which is the Company's functional currency. All financial information has been rounded to the nearest 000 dollars, unless otherwise stated.

(e) Use of estimates and judgements

The preparation of financial statements in conformity with AASB's requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following Note:

• Note 7 – Income Tax Expense – deferred tax recognition

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following Notes:

- Note 12 and 14 Impairment test: key assumptions underlying recoverable amounts
- Note 21 Financial Instruments
- Note 23(b) Share-Based Payments
- Note 25 Contingent Liabilities

(f) Changes in accounting policies

(i) AASB 19 Employee Benefits (2011)

In the current year, the Company adopted AASB 119 *Employee Benefits* (2011), which revised the definition of short-term employee benefits to benefits that are expected to be settled wholly within 12 month after the end of the annual reporting period in which the employees render the related service.

2. BASIS OF PREPARATION (Continued)

(f) Changes in accounting policies (Continued)

As a result of the change, the annual leave liability for certain of the Company's employees is now considered to be another long-term employee benefit, when previously it was a short-term benefit. The Company's obligation is determined as the amount of future benefit that employees have earned in return for their service in the current and prior periods, and discounted to determine its present value. Re-measurements are recognised in profit or loss in the period in which they arise.

The impact of applying AASB119 is not material to the financial statements of the Company.

All other new or amended accounting standards have been adopted and have no material impact on the financial statements. This includes AASB 10 "Consolidated Financial Statements", AASB 11 "Joint Arrangements", AASB 12 "Disclosure of Interests in Other Entities" and AASB 13 "Fair Value Measurement".

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, and have been applied consistently.

(a) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities controlled by the Company. Control exists when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiaries are included in the financial statements from the date that control commences until the date that control ceases.

Investments in subsidiaries are carried at cost in the Company's financial statements less impairment losses.

(ii) Non-controlling interests

For each business combination, the Company elects to measure any non-controlling interests at their proportionate share of the acquiree's identifiable net assets, which are generally at fair value.

Changes in the Company's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

(iii) Loss of control

On the loss of control, the Company derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Company retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost.

(iv) Investments in equity accounted investees

The Company's interests in equity-accounted investees comprise interests in associates.

Associates are those entities in which the Company has significant influence, but not control or joint control, over the financial and operating policies. Jointly controlled entities are those entities over whose activities the Company has joint control, whereby the Company has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in associates and jointly controlled entities are accounted for under the equity method. They are initially recognised at cost, which includes transaction costs.

Subsequent to initial recognition, the financial statements include the Company's share of the profit and loss and other comprehensive income of equity accounted investees, until the date that significant influence or joint control ceases.

(b) Foreign currency

Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currency of the Company at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the foreign exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the period, adjusted for payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the period. Foreign currency differences arising on retranslation are recognised in profit or loss.

GINDALBIE METALS LTD NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2014

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Financial instruments

(i) Non-derivative financial instruments

Non-derivative financial instruments comprise investments in equity securities, trade and other receivables, cash and cash equivalents and trade and other payables.

Non-derivative financial instruments are recognised initially at fair value plus, for instruments not at fair value through profit or loss, any directly attributable transaction costs, except as described below. Subsequent to initial recognition non-derivative financial instruments are measured as described below.

A financial instrument is recognised if the Company becomes a party to the contractual provisions of the instrument. Financial assets are derecognised if the Company's contractual rights to the cash flows from the financial assets expire or if the Company transfers the financial asset to another party without retaining control of substantially all of the risks and rewards of the asset. Regular purchases and sales of financial assets are accounted for at trade date, i.e., the date that the Company commits itself to purchase or sell the asset. Financial liabilities are derecognised if the Company's obligations specified in the contract expire or are discharged or cancelled.

Financial liabilities (including liabilities designated at fair value through profit or loss) are recognised initially on the trade date at which the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Non-derivative financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest rate method.

Financial liabilities comprise loans and borrowings, bank overdrafts and trade and other payables.

Cash and cash equivalents comprise cash balances and call deposits.

Accounting for finance income and expenses is discussed in Nnote 3(k).

(ii) Investments at fair value through profit or loss

An instrument is classified as at fair value through profit or loss if it is held for trading or is designated as such upon initial recognition. Financial instruments are designated at fair value through profit or loss if the Company manages such investments and makes purchase and sale decisions based on their fair value in accordance with the Company's documented risk management or investment strategy. Upon initial recognition, attributable transaction costs are recognised in profit or loss when incurred. Financial instruments at fair value through profit or loss are measured at fair value, and changes therein are recognised in profit or loss.

(iii) Other

Other non-derivative financial instruments are measured at amortised cost using the effective interest method, less any impairment losses.

(iv) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to issue of ordinary shares and share options are recognised as a deduction from equity, net of any related income tax benefit.

(d) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located and capitalised borrowing costs. Cost also may include transfers from other comprehensive income of any gain or loss on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(d) Property, plant and equipment (Continued)

The gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognised net within other income/other expenses in profit or loss.

(ii) Mine properties and development

When proved reserves are determined and development is sanctioned, capitalised exploration and evaluation expenditure is reclassified as mine properties and development, and is disclosed as a component of property, plant and equipment. All subsequent development expenditure is capitalised and classified as mine properties and development. Development expenditure is net of proceeds from the sale of ore extracted during the development phase.

(iii) Depreciation and amortisation

Depreciation is recognised in profit or loss on a straight line basis over the estimated useful lives of each part or item of property, plant and equipment. Land is not depreciated.

The estimated useful lives for the current and comparative periods are as follows:

buildings
machinery
motor vehicles
furniture fittings and equipment
leased plant and equipment
14 years
10-15 years
3-7 years
3-8 years
5-15 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

(e) Impairment

(i) Financial assets

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its current fair value.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in the Company that share similar credit risk characteristics.

All impairment losses are recognised in profit or loss. Any cumulative loss in respect of an available-for-sale financial asset recognised previously in equity is transferred to profit or loss.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognised. For financial assets measured at amortised cost and available-for-sale financial assets that are debt securities, the reversal is recognised in profit or loss. For available-for-sale financial assets that are equity securities, the reversal is recognised directly in equity.

(ii) Non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset of the Company that generates cash flows that are largely independent from other assets. Impairment losses are recognised in profit or loss.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

GINDALBIE METALS LTD NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2014

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Employee benefits

(i) Defined contribution superannuation funds

Obligations for contributions to defined contribution superannuation funds are recognised as an expense in profit or loss when they are due.

(ii) Other long-term employee benefits

The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods plus on-costs; that benefit is discounted to determine its present value. The discount rate is the yield at the reporting date on AA credit-rated (Commonwealth Government) bonds that have maturity dates approximating the terms of the Company's obligations.

(iii) Termination benefits

Termination benefits are recognised as an expense when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to terminate employment before the normal retirement date.

(iv) Short-term benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognised for the amount expected to be paid under short-term cash bonus plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(v) Share-based payment transactions

The grant date fair value of options granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period during which the employees become unconditionally entitled to the options. The amount recognised as an expense is adjusted to reflect the actual number of share options that vest, except where forfeiture is only due to share prices not achieving the threshold for vesting.

(g) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, the risks specific to the liability.

(h) Revenue

Revenue is measured at the fair value of the gross consideration received or receivable. The Company recognises revenue when the amount of revenue can be reliably measured, and when it is probable that future economic benefits will flow to the entity.

(i) Sale of goods

Revenue from the sale of goods and disposal of other assets is recognised when persuasive evidence, usually in the form of an executed sales agreement, or an arrangement exists, indicating there has been a transfer of risks and rewards to the customer, no further work or processing is required by the Company, the quantity and quality of the goods has been determined with reasonable accuracy, the price can be reasonably estimated, and collectability is reasonably assured.

(i) Trade receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. An allowance for impairment of trade receivables is established when there is objective evidence that the Company will not be able to collect all amounts due.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off by reducing the carrying amount directly. An allowance account is used when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the trade receivable is impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short term receivables are not discounted if the effect of discounting is immaterial.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Trade receivables (Continued)

The amount of the impairment loss is recognised in the Statement of Comprehensive Income within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

(j) Lease payments

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

(k) Finance income and expenses

Finance income comprises interest income on funds invested, and gains on the disposal of available-for-sale financial assets. Interest income is recognised as it accrues, using the effective interest method.

Finance expenses comprise interest expense on borrowings, bank charges, unwinding of the discount on provisions and performance bond facility fees.

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

Foreign currency gains and losses are reported on a net basis either as finance income or finance costs depending on whether they are in a net gain or loss position.

(I) Income Tax

Income tax expense comprises current and deferred tax. Income tax expense is recognised in profit or loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(m) Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, which comprise share options granted to employees.

(n) Intangible assets

Exploration and evaluation assets

Exploration and evaluation costs, including the costs of acquiring licences, are capitalised as exploration and evaluation assets on an area of interest basis. Costs incurred before the Company has obtained the legal rights to explore an area are recognised in the income statement.

Exploration and evaluation assets are only recognised if the rights of tenure to the area of interest are current and either:

(i) the expenditures are expected to be recouped through successful development and exploitation of the area of interest; or

GINDALBIE METALS LTD NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2014

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(n) Intangible assets (Continued)

(ii) activities in the area of interest have not at the reporting date, reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves and active and significant operations in, or in relation to, the area of interest are continuing.

Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest that the carrying amount exceeds the recoverable amount (see impairment accounting policy 3(e)). For the purposes of impairment testing, exploration and evaluation assets are allocated to cash-generating units to which the exploration activity relates. The cash generating unit shall not be larger than the area of interest.

Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable, exploration and evaluation assets attributable to that area of interest are first tested for impairment and then reclassified from intangible assets to mining property and development assets within property, plant and equipment.

Exploration and evaluation costs are not amortised until such time as they are transferred to mine properties and production has commenced.

(o) Segment reporting

Determination and presentation of operating segments

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components. All operating segments' operating results are reviewed regularly by the Company's Managing Director to make decisions about resources to be allocated to the segment and to assess its performance, and for which discrete financial information is available.

Segment results that are reported to the Managing Director include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets (primarily the Company's headquarters), head office expenses, and income tax assets and liabilities.

Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment, and exploration expenditure.

(p) New Standards and interpretations not yet adopted

The following standards, amendments to standards and interpretations have been identified as those which may impact the entity in the period of initial application. They are available for early adoption at 30 June 2014, but have not been applied in preparing this financial report.

(i) AASB 9 Financial Instruments includes requirements for the classification and measurement of financial assets resulting from the first part of Phase 1 of the project to replace AASB 139 Financial Instruments: Recognition and Measurement. AASB will become mandatory for the Company's 30 June 2016 financial statements. Retrospective application is generally required. The Company has not yet determined the potential effect of the standard.

4. DETERMINATION OF FAIR VALUES

A number of the Company's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. Where applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

(i) Share-based payment transactions

The fair value of employee stock options is measured using the Black-Scholes or Monte Carlo formula. Measurement inputs include share price on measurement date, exercise price of the option, expected volatility (based on weighted average historic volatility adjusted for changes expected due to publicly available information), expected life of the option, expected dividends, and the risk-free interest rate (based on government bonds). Service and non-market performance conditions attached to the option are not taken into account in determining fair value.

(ii) Financial instruments

The fair value is the amount for which an asset could be exchanged in an arm's-length transaction between knowledgeable, willing parties. Loans shall be recognised at fair value, the difference between the fair value and cash consideration provided under the loan will be recognised in the income statement as interest expense over the life of the loan. Refer to Note 21.

5. Financial Risk Management

(a) Overview

The Company has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk

This note presents information about the Company's exposure to each of the above risks, their objectives, policies and processes for measuring and managing risk, and the management of capital including risks resulting from its investment in equity accounted Associate. Further quantitative disclosures are included throughout this financial report.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. The Board has established the Audit and Risk Committee, which is responsible for developing and monitoring risk management policies. The Committee reports regularly to the Board of Directors on its activities.

Risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Audit and Risk Committee oversees how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

(b) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's cash and cash equivalents.

(c) Guarantees

The Company's policy is to provide financial guarantees where contractually necessary to certain suppliers or on behalf of wholly-owned subsidiaries and equity accounted Associates. Refer to Note 14 and 25 for a list of outstanding performance guarantees at balance date.

(d) Investments

The Company limits its exposure to credit risk on cash balances by only investing in liquid securities and only with counterparties that have credit ratings of between A2 and A1+ from Standard & Poor's and A from Moody's, with more weighting given to investments in the higher credit ratings. Given these credit ratings, management does not expect any counterparty to fail to meet its obligations. The Company has formed a Treasury Committee that considers and implements appropriate investment strategies and ensures investment policies are adhered to. Also refer to Note 21. The Company is not responsible for any investments made by KML and this policy does not apply to KML.

(e) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Typically the Company ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 180 days, including the servicing of financial obligations. Refer to Note 2 (c), 13 and 21 for more information.

(f) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Company engages external treasury consultants in order to manage market risks. All transactions are carried out within Treasury Policy guidelines (refer to Note 5(d)), and these are considered and monitored by the Treasury Committee.

5. Financial Risk Management (Continued)

(g) Currency risk

The Company is exposed to currency risk via its Associate on purchases and borrowings that are denominated in a currency other than the respective functional currencies of the Associate, namely the Australian dollar (AUD). The currencies in which these transactions primarily are denominated are United States dollars (USD), Euro, Chinese Yuan (RMB) and Japanese Yen.

At any point in time the Associate may hedge its estimated foreign currency exposure in respect of forecast sales and purchases over the following months. The Associate may also hedge a percentage of all trade receivables and trade payables denominated in a foreign currency. The Associate may use forward exchange contracts to hedge its currency risk. No forward exchange contracts or other currency hedging instruments were entered into during the year by Gindalbie directly.

(h) Interest rate risk

It is policy to protect the Company from exposure to increasing interest rates. Accordingly, the Company may enter into interest rate swap (IRS) contracts under which it is obliged to receive interest at variable rates and to pay interest at fixed rates. No IRS contracts were entered into during the year by the Company. The Associate has entered into IRS contracts during the period.

(i) Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Company manages its capital to ensure its entities will be able to continue as going concerns while maximising the return to shareholders through the optimisation of its capital structure comprising equity and debt.

The capital structure of the Company consists of equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings as disclosed in Notes 15 and 16 respectively.

During 2014 the Company has maintained the capital base through a clear cash management strategy. Refer to Note 2 (c).

There were changes in the Company's approach to capital management during the year. The revised investment policy incorporates the following changes:

The maximum available limits in each rating category have changed as follows:

Asset Concentration	Previous Max %	New Max %
A-1+	100%	100%
A-1	75%	50%
A-2	25%	25%

• The individual counterparty credit limit structure is as follows:

Short term rating	Previous exposure \$ Max	New Max exposure %
A-1+	\$20m	40%
A-1	\$15m	25%
A-2	\$10m	25%

Neither the Company nor any of its subsidiaries are subject to externally imposed capital requirements.

(j) Price risk

The Company is exposed to iron ore commodity price risk, through its Associate investment.

6. REVENUE AND EXPENSES

ENUE AND EXPENSES	2014 \$'000	2013 \$'000
(a) Other income

Other associated personnel expenses	(231)	(213)
Redundancy payments	(477)	-
Contributions to defined contribution superannuation funds	(185)	(177)
Increase in liability for annual leave	(104)	(170)
Decrease in liability for long service leave	45	(19)
Increase in liability for bonuses	(2)	(141)
Equity Settled share based payment transaction	(133)	(312)
	(3,423)	(3,412)

7. INCOME TAX EXPENSE

	2014 \$'000	2013 \$'000
Current tax expense		
Current year	-	<u>-</u>
Deferred tax expense		
Origination and reversal of temporary differences	1,168	(650)
Adjustments in relation to prior periods		
Benefit of tax losses and other deferred tax benefits not recognised	(1,168)	650
Total income tax expense/(benefit)	-	
Numerical reconciliation between current tax expense/(benefit) and pre-tax net profit/(loss)		
Loss before tax	(585,629)	(144,381)
Income tax using the domestic corporation tax rate of 30% (2013: 30%) Increase in income tax expense due to: Non-deductible expenses/assessable income	(175,689)	(43,314)
Decrease in income tax expense due to:		
Non-assessable income	-	-
Equity accounting for share of (profit)/ loss of Associate	(14,453)	40,064
Impairment of net investment in Associate	189,267	-
Losses (recognised)/not recognised	875	3,250
Total income tax expense/(benefit)	-	

Gindalbie has estimated unrecouped tax losses of \$111,278,940 (2013: \$112,271,341) available to be offset against future taxable income. The net deferred tax asset of 30% of \$111,278,970 (2013: \$112,271,341) for the Company has not been recognised by the Company on the basis that it is not probable that there will be future taxable income available against which the tax losses can be utilised. A deferred tax asset has not been recognised in equity in respect to the Company's share of the change in fair value of cash flow hedges of the Associate of \$1,897,000 (2013: deferred tax liability \$4,310,000).

7. INCOME TAX EXPENSE (Continued)

Tax assets and liabilities

Deferred tax assets and liabilities are attributable to the following:

		Assets	Li	abilities		Net
	2014 \$'000	2013 \$'000	2014 \$'000	2013 \$'000	2014 \$'000	2013 \$'000
	φ 000	Ψ 000				
Accrued interest	-	-	48	2	48	2
Accrued royalties	-	-	300	-	300	-
Diesel fuel rebate	-	-	1	-	1	-
Property, plant & equipment	(41)	-	-	5	(41)	5
Exploration expenditure	-	-	3,535	7,414	3,535	7,414
Capital raising costs	(863)	(1,586)	-	-	(863)	(1,586)
Provisions	(114)	(226)	-	-	(114)	(226)
Accrued superannuation	(11)	(10)	-	-	(11)	(10)
Accrued expenditure	(15)	(8)	-	-	(15)	(8)
Tax loss carry forward	(2,840)	(5,591)	-	-	(2,840)	(5,591)
Tax (assets)/liabilities	(3,884)	(7,421)	3,884	7,421	-	-
Set off of tax	3,884	7,421	(3,884)	(7,421)	-	
Net tax (assets)/liabilities	-	-	-	-	-	-

The deductible temporary differences and tax losses do not expire under current tax legislation. Deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profit will be available against which the Company can utilise the benefits there from.

8. AUDITOR'S REMUNERATION

11. PROPERTY, PLANT AND EQUIPMENT (Continued)

11.1 Reconciliations

Reconciliations of the carrying amounts for each class of property, plant and equipment are set out below:

	30 June 2014 \$'000	30 June 2013 \$'000
Land & buildings		\$ 000
Carrying amount at beginning of year	1,517	1,438
Additions	-	162
Depreciation	(82)	(83)
Carrying amount at end of year	1,435	1,517
Plant & equipment		
Carrying amount at beginning of year	362	545
Additions	2	89
Depreciation	(202)	(272)
Carrying amount at end of year	162	362
Mine Infrastructure		
Carrying amount at beginning of year	7	22
Depreciation	(5)	(15)
Carrying amount at end of year	2	7

12. EXPLORATION AND EVALUATION ASSETS

Costs carried forward in respect of areas of interest in: Exploration and evaluation assets	30 June 2014 \$'000	30 June 2013 \$'000
Carrying amount at beginning of year	24,715	25,560
Additions	2,774	4,607
Sale of assets	(13,327)	-
Impairment of exploration and evaluation assets	(2,384)	(5,452)
Carrying amount at end of year	11,778	24,715

Exploration programs in each area of interest continue but have not reached a stage which permits a reasonable assessment of economically recoverable reserves. The recoverability of the carrying amounts of exploration and evaluation assets is dependent on the successful development and commercial exploitation or sale of the respective area of interest.

At the balance date the Directors have reviewed the Company's exploration assets and determined that certain areas of interest have been impaired to nil as either the tenements have been relinquished or no further exploration is planned in the area. Accordingly, \$2,384,000 has been recognised as an impairment expense.

13. TRADE AND OTHER PAYABLES

	2014 \$'000	2013 \$'000
Current		
Trade creditors	167	372
Other creditors and accruals	856	994
	1,023	1,366

14. INVESTMENT IN ASSOCIATE

(a) Associate investments and principal activities

The Company has a 47.84% (2013: 50%) interest in Karara Mining Ltd (KML) and its unincorporated subsidiaries.

KML is a company incorporated and domiciled in Australia, owned by Gindalbie Metals Ltd (Gindalbie) and Ansteel, a major Chinese state owned iron and steel producer.

The principal activities of KML during the course of the year were the exploration, development and operation of the Karara Project. There were no significant changes in the nature of the activities of KML during the year.

On 19 March 2014 as a result of Ansteel converting two loans to KML into equity, Gindalbie's proportional equity interest in KML decreased from 50% to 47.84%. In addition Gindalbie and Ansteel agreed to the following changes to the governance of KML as a consequence of the change of their respective proportional equity interests:

- The KML board has been increased from 4 to 5 directors 3 from Ansteel and 2 from Gindalbie.
- The Chairman of KML will be one of the three Directors appointed by Ansteel and will have a casting vote at KML board meetings
- All board decisions are to be made by ordinary resolution of the Board apart from decisions concerning the
 pricing and quality of product sold by KML to Ansteel, any amendment to existing off take sales agreements and
 the pricing policy of KML products. These matters require unanimous resolution of the Directors of KML.

As a result of Ansteel conversion of its two shareholder loans on 19 March 2014, GBG's equity interest in KML decreased by 2.16% and the carrying value of its equity investment in KML was adjusted resulting in a dilution loss.

The dilution loss is the difference between the carrying amounts of the investment in the equity accounted investee, immediately before and after the transaction that resulted in the dilution. The loss on the dilution of an interest in an equity accounted investee is recognised in the profit or loss.

Carrying value of investment in KML pre dilution @ 50%	583,604
Carrying value of investment post dilution @ 47.84%	580,264
Loss on dilution	(3,340)

The Company has fair valued its investment in KML and recorded an investment impairment expense of \$592 million and loan impairment expense of \$39 million, a total impairment in net investment of Associate of \$631 million as set out below:

	2014 \$'000	2013 \$'000
Company's 47.84% interest (2013: 50% interest)	600,459	558,785
Less: intercompany eliminations	(8,181)	(8,181)
Carrying value of Associate net assets	592,278	550,604

14. INVESTMENT IN ASSOCIATE (Continued)

	2014 \$'000	2013 \$'000
Investment in Associate accounted for using the equity method		
Associate opening balance	550,604	653,000
Share of profit	48,177	(133,584)
Other Comprehensive income/(loss)	(3,163)	7,738
Payments for investments	-	2,700
Interest free loan investment	-	20,714
Loss on dilution	(3,340)	-
Impairment of investment	(592,278)	-
Associate accounted for using the equity method	-	550,604
Loan to Associate entity		
Carrying amount at beginning of year	59,931	-
Additions/(Repayments)	(30,000)	80,000
Fair Value adjustment (refer below)	8,681	(20,069)
Impairment of loan	(38,612)	<u>-</u>
Carrying amount at end of year	-	59,931

The recoverable amount of equity accounted investment in Associate, KML, has been determined based on fair value less costs of disposal applying a discounted cash flow methodology.

The Directors believe that changes in the key fundamentals underpinning Karara has caused Gindalbie's carrying value in KML to exceed its recoverable amount. In particular the production profile of the magnetite processing plant has not reached targeted levels as set out in the plant design. Iron ore prices remain soft and have significantly decreased over the last year, cash operating costs remain high due to economies of scale from increased production not eventuating as expected and the Australian Dollar increasing in value over the last year.

The Company has provided interest free loans to Associate entity KML totalling \$50 million (2013: \$80 million) as at the reporting date. These loans are unsecured and are subordinate to the existing project finance facility, and therefore are not generally repayable until after the project finance facility has been repaid in full or 31 December 2022. In accordance with Australian Accounting Standards these loans were based on the expected life of the loans and the prevailing market interest rate on a similar loan at the time the loans were granted. During the year a portion of the loan was repaid and interest income of \$8.6 million was recognised with the balance of the loan impaired to nil at 30 June 2014.

(b) Associate Project Finance Facility

On 21 June 2010, KML entered into a project finance agreement with the Chinese Banking Syndicate in respect of a US\$1.2 billion facility for the development of Karara. Pursuant to an amendment agreement entered into in February 2013, the size of the facility was increased to US\$1.536 billion (Senior Debt Facility). The total of (Senior Debt Facility provided by the Chinese Banking Syndicate has been fully drawn by KML.

Under the terms of the Senior Debt Facility, KML is required to comply and report compliance with specified cover ratios comprising the (i) debt equity ratio (ii) debt service cover ratio, and (iii) life of loan cover ratio ("LLCR"). KML did not comply with the debt service cover ratio (DSCR) on 31 December 2013 and 31 March 3014 and obtained a waiver of these non-compliances from the Facility Agent on behalf of the Chinese Banking Syndicate.

KML is forecast not to comply with the LLCR on 30 June 2014, 30 September 2014 and 31 December 2014. KML is forecast not to comply with the DSCR on 30 September 2014 and 31 December 2014. If KML is in breach of a cover ratio for two consecutive quarterly dates, and one (or both) of which is not waived by the Facility Agent, or cured by an equity contribution from shareholders within 30 days of notification from the Facility Agent, this is an Event of Default under the Senior Debt Facility and the Facility Agent has the right to call for repayment by KML of the total loans outstanding. Requests for waivers of these non-compliances have been submitted to the Facility Agent.

14. INVESTMENT IN ASSOCIATE (Continued)

(b) Associate Project Finance Facility (Continued)

China Merchants Bank Hong Kong Branch provided a USD\$300 million loan facility as an additional funding facility for KML in May 2014. The facility has been used for a combination of scheduled debt and interest repayments, capital expenditure to address plant bottlenecks and working capital requirements. The funding was fully drawn as at 30 June 2014.

China Development Bank and Bank of China provided a USD\$400 million syndicated loan facility as an additional funding facility for KML in August 2014. The facility will be used for working capital requirements.

Security under Senior Debt Facility

The following security arrangements are in place to secure repayment of the Senior Debt Facility:

- i) KML has granted a charge over all of its assets in favour of the Chinese Banking Syndicate.
- ii) Gindalbie and Ansteel subsidiary Angang Group Investment (Australia) Pty Ltd (Angang) have each provided a several undertaking to fund any shortfall if project costs exceed the funds available to KML until project completion occurs, the Shareholder Guarantee.
- iii) Gindalbie and Angang have each severally guaranteed KML's obligations under the facility until project completion occurs, the Shareholder Guarantee.
- iv) Ansteel has provided a sponsor guarantee, under which it guarantees Gindalbie's and Angang's payment obligations under the undertakings and guarantees referred to in paragraphs (ii) and (iii) above, until project completion occurs, the Sponsor Guarantee.
- v) Gindalbie and Angang have each provided a limited recourse first ranking share mortgage in favour of the Chinese Banking Syndicate over all of their shares in KML.
- vi) Gindalbie has provided an indemnity to Ansteel in order to pay Ansteel any amount paid by Ansteel on Gindalbie's behalf pursuant to the sponsor guarantee, and has granted a second ranking share mortgage over its shares in KML in favour of Ansteel to secure any amounts owing under the indemnity. The indemnity and second ranking share mortgage will both expire once the undertaking and guarantee given by Gindalbie to the Chinese Banking Syndicate falls away at project completion.
- vii) Gindalbie has granted a featherweight charge, which only becomes operative if a default occurs and an administrator is appointed over Gindalbie. The featherweight charge allows the Chinese Banking Syndicate to appoint a receiver and enforce their rights under the share mortgage.
- viii) Gindalbie and Angang have each provided a cross charge to the other over their shares in KML to secure their obligations under the joint development agreement, and to ensure that the undertakings and guarantees above are effectively confined to each party's respective proportional interest in KML (Gindalbie: 47.84%).

If an Event of Default occurred under the Senior Debt Facility and the Chinese Banking Syndicate were to accelerate the repayment of project finance debt prior to project completion occurring, then the Chinese Banking Syndicate or Ansteel could act under the share mortgage security. Gindalbie has a contingent liability by reason of an indemnity given to Ansteel so that if there is a loss after exercise of the security, Ansteel could seek to recover the loss from Gindalbie.

No dividends have been received from KML during the period. Under the terms of the Senior Debt Facility, KML is prohibited from paying dividends to shareholders or making loans to shareholders if the Company is in breach of financial covenants. Further, no dividend payments or loans to shareholders are permitted until after the fourth anniversary of the first utilisation date under the Senior Debt Facility (6 August 2010).

14. INVESTMENT IN ASSOCIATE (Continued)

(c) Associate entity financial statements

The summarised financial information of KML below represents amounts shown in the associate's management accounts for the 12 months ended 30 June 2014.

KARARA MINING LIMITED AND CONTROLLED ENTITIES SUMMARISED FINANCIAL INFORMATION For the 12 months ended 30 June 2014

	Co	Consolidated	
	2014 \$'000	2013 \$'000	
Continuing Operations			
Revenue	485,703	249,259	
Profit/(loss) after tax *	84,046	(48,364)	
Other comprehensive Income	-	-	
Effective portion of changes in fair value of cash flow hedge net of tax	(6,476)	15,475	
Total comprehensive Income	77,570	(251,620)	
Total Current Assets	194,889	141,634	
Total Non-Current Assets	3,973,349	3,510,449	
Total Current Liabilities	(708,317)	(588,111)	
Total Non-Current Liabilities	(2,204,781)	(1,946,401)	
NET ASSETS	1,255,140	1,117,571	

KML has recorded a profit after tax for the year ended 30 June 2014 due to profitable hematite iron ore sales and foreign exchange gain on USD debt. Magnetite operating losses are capitalised as the plant is still in the commissioning phase.

Gindalbe's net share of the investment and loans in KML totalled \$631 million. As detailed in section 14 (a), the full carrying value of these assets were written down.

(d) Ansteel Funding and Options for Equity Conversion and Subscription

In September 2013 Ansteel arranged the provision of US\$230 million of additional short term funding to KML. This working capital facility was made available through a prepaid sales agreement for delivery of magnetite concentrate to an Ansteel subsidiary (US\$100 million) and a new US\$130 million bank debt facility (guaranteed by Ansteel). A condition to arrangement of this additional working capital facility was that at Ansteel's option KML's financial obligations under the prepaid sales agreement and the bank debt facility could be repaid using proceeds received by KML through issue of new KML equity share capital to Ansteel at \$3.02 per share. The potential impact of the conversion is KML issuing 80,848,132 new shares to Ansteel which would decrease Gindalbie's equity by 9.60%.

15. RETAINED EARNINGS

	2014 \$'000	2013 \$'000
Retained earnings at beginning of year	(116,318)	28,063
Net loss attributable to members of the Company	(585,629)	(144,381)
Retained earnings at end of year	(701,947)	(116,318)

16. CAPITAL AND RESERVES

(a) Issued Capital

(a) Issued Capital	2014 2013 Number of ordinary shares fully paid		2014 \$'000	2013 \$'000
	1,494,007,381	1,492,154,301	753,965	753,965
Ordinary shares				
Movements during the year				
Balance at beginning of year	1,492,154,301	1,247,487,454	753,965	693,173
Shares issued				
- Issue of ordinary shares	-	244,666,847	-	62,390
- Exercise of options	1,853,080	-	-	-
- Transaction costs of share issues	-	-	-	(1,598)
Balance at end of year	1,494,007,381	1,492,154,301	753,965	753,965

During the year the Company:

Issued 1,853,080 shares at 0.00 cents on exercise of options.

During the comparative year the Company:

- Issued 87,804,101 shares at 25.5 cents to Ansteel raising \$22,390,045.
- Issued 156,862,746 shares at 25.5 cents on a share purchase plan and institutional placement raising \$40,000,000.

Terms and conditions

Holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at shareholders meetings. In the event of winding up of the Company, ordinary shareholders rank after all other shareholders and creditors and are fully entitled to any proceeds of liquidation. Note 23 provide details of shares issued on exercise of options.

(b) Equity Settled Share Based Payments Reserve

	2014	2013
	\$'000	\$'000
Balance at beginning of year	9,410	7,829
Equity settled share based payments	29	1,581
Balance at end of year	9,439	9,410

The equity settled share based payments reserve comprises the net value of options expensed in the year calculated at grant date using the Black-Scholes or Monte Carlo model, depending on whether they contain market performance conditions. For options with a future vesting period the option value is bought to account progressively over the term of the vesting period.

(c) Equity accounted Associate fair value of cash flow hedge

Balance at beginning of year	(1,292)	(9,030)
Changes in fair value of cash flow hedges	(3,163)	7,738
Balance at end of year	(4,455)	(1,292)

The recognition of other comprehensive income of Associate entity comprises changes to the fair value of cash flow hedges.

2013

2017

17. CAPITAL AND OTHER COMMITMENTS

(a) Exploration expenditure commitments

In order to maintain current rights of tenure to exploration tenements, the Company is required to perform minimum exploration work to meet the minimum expenditure requirements specified by various State governments. These requirements are subject to renegotiation when application for a mining lease is made and at other times.

	2014 \$'000	2013 \$'000
Payable no later than one year:		·
Rents and rates	333	194
Exploration	1,059	1,070
Total commitments	1,392	1,264

18. OPERATING LEASES

Leases as lessee

Non-cancellable operating lease rentals are payable as follows:

Less than one year	746	913
Between one and five years	783	1,732
	1,529	2,645

The Company leases office space under a non-cancellable operating lease expiring in two years. Leases generally provide the Company with a right of renewal at which time all terms are renegotiated.

19. SEGMENT INFORMATION

The Company has two reportable segments, as described below, which are the Company's strategic business units. The strategic business units have different ownership and operating structures and are managed separately for this reason. For both of the strategic business units, the Board reviews internal management reports on at least a quarterly basis. The following summary describes the operations in each of the Company's reportable segments:

- Karara Project includes the Company's share of this incorporated Associate
- All other segments includes all other 100% owned or Joint Venture projects.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before income tax as included in the internal management reports that are reviewed by the Board. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Inter-segment pricing is determined on an arm's length basis.

(a) Reconciliation of reportable segment assets and liabilities:

Information about reportable segments	Karar	a Project	All ot	her segments	s T	Total		
	2014	2013	2014		2014	2013

Geographical information

The Iron Ore segment is managed and operates processing facilities in Australia.

20. EARNINGS PER SHARE

Basic earnings per share

The calculation of basic earnings per share at 30 June 2014 was based on the loss attributable to ordinary shareholders of \$585,629,000 (2013: loss \$144,381,000) and a weighted average number of ordinary shares outstanding during the financial year ended 30 June 2014 of 1,493,328,070 (2013: 1,359,301,092) calculated as follows:

Basic earnings per share

	2014 \$'000	2013 \$'000
Lost attributable to ordinary shareholders	(585,629)	(144,381)
Weighted average number of ordinary shares	2014 No. of shares	2013 No. of shares
Issued ordinary shares at 1 July	1,492,154,301	1,247,487,454
Effect of share placement/ issue	-	111,813,638
Effect of shares issued on exercise of share options	1,173,769	-
Weighted average number of ordinary shares at 30 June	1,493,328,070	1,359,301,092

In 2014 and 2013, as the potential ordinary shares on issue would decrease the loss per share, they are not considered dilutive.

21. FINANCIAL INSTRUMENTS

(a) Credit Risk

Exposure to credit risk

The carrying amount of the Company's financial assets represents the maximum credit exposure. Refer to note 5 for the credit management process. The Company's maximum exposure to credit risk at the reporting date was:

	Note	2014 \$'000	2013 \$'000
Interest receivable	10	160	7
Cash security for performance bonds (current and non-current)	10	331	36
Trade receivables	10	311	839
Other receivables	10	1,026	57
Loan to joint venture entity	14	-	59,931
Term deposits over 3 months in maturity	10	24,500	-
Cash and cash equivalents	9	18,505	9,166

The Company cash and cash equivalents of \$18,505,000 at 30 June 2014 (2013: \$9,166, 000), and term deposits over 3 months of \$24,500,000 which represents its maximum credit exposure on these assets. The cash and cash equivalents are held with bank and financial institution counterparties, which are rated of between A2 and A1+ from Standard & Poor's and A from Moody's.

None of the Company's receivables are past due (2013: nil).

Refer to Note 25 for disclosure of the Company's guarantees.

(b) Liquidity risk

The following are the contractual maturities of the Company's financial liabilities, including estimated interest payments and excluding the impact of netting agreements:

The following are the contractual maturities of financial liabilities, including estimated interest payments:

Non-derivative financial liabilities

	2014		2013	
	Carrying amount \$'000	6 months or less \$'000	Carrying amount \$'000	6 months or less \$'000
Trade and other payables	1,023	(1,023)	1,366	(1,366)

Refer to Note 2 (c) and 14 for potential liquidity risk associated with KML.

(c) Interest rate risk

Exposure to interest rate risk

The Company's exposure to interest rate risk at balance date was as follows, based on notional amounts:

	30 June 2014 \$'000	30 June 2013 \$'000
Variable rate instruments		
Financial Assets	331	36
Cash performance bonds	1,505	2,166
Cash	1,836	2,202

21. FINANCIAL INSTRUMENTS (Continued)

(c) Interest rate risk (Continued)

Financial Assets	30 June 2014 \$'000	30 June 2013 \$'000
Term Deposits - total	41,500	7,000
	41,500	7,000

The Company invests surplus cash in term deposits and in doing so exposes itself to the fluctuations in interest rates that are inherent in such a market. As at 30 June 2014, the Company invested \$41,500,000 into term deposits (2013: \$7,000,000) at a weighted average interest rate of 3.42% (2013: 3.40%).

Sensitivity analysis

The following table summarises the sensitivity of the Company's financial assets and liabilities to interest rate risk:

Interest Rate Risk

		-10	00bps	+ 100 bps		
	Carrying amount \$'000	Equity \$'000	Profit or loss \$'000	Equity \$'000	Profit or loss \$'000	
30 June 2014						
Cash performance bonds	331	-	(3)	-	3	
Cash	1,505	-	(15)	-	15	
Total increase/(Decrease)		-	(18)	-	18	
30 June 2013						
Cash performance bonds	36	-	0	-	0	
Cash	2,166	-	(22)	-	22	
Total increase/(Decrease)		-	(22)	-	22	

(d) Fair values

Fair values versus carrying amounts

The fair values of financial assets and liabilities, together with the carrying amounts shown in the balance sheet, are as follows:

		30 June	2014	30 June	2013
	Note	Carrying amount	Fair value	Carrying amount	Fair value
	11010	\$'000	\$'000	\$'000	\$'000

Liability for annual leave	122	428
Liability for employee bonuses	168	258
Non Current	290	686
Liability for long service leave	35	68
Liability for annual leave	54	
	379	754

(a) Defined contribution superannuation funds

The Company makes contributions to defined contribution superannuation funds. The Company has a legally enforceable obligation to contribute to these plans and contributes at the statutory rate of 9.25% of gross earnings. The amount recognised as expense or capitalised was \$422,514 for the financial year ended 30 June 2014 (2013: \$395,777).

(b) Share based payments

The Company has an employee share option plan which was approved at the 2006 Annual General Meeting held on 22 November 2006.

Each option is convertible to one ordinary share. The exercise price of the options, determined in accordance with the rules of the plan, is based on the weighted average price of the Company's shares traded during the five business days preceding the date of granting the option.

All employee options expire on the earlier of their expiry date or three MONTHS after the termination of the employee's employment. Option issues generally contain a vesting period and exercise is solely at the discretion of the holder. All options are unlisted and cannot be sold or transferred.

There are no voting rights attached to the options or to the unissued ordinary shares. Voting rights will be attached to the issued ordinary shares when the options have been exercised.

Summary of options over unissued ordinary shares

Details of options over unissued ordinary shares as at the beginning and end of the reporting period and movements during the year are set out below.

The fair value of shares issued as a result of exercising options during the reporting period is the market price of the shares of the Company on the Australian Securities Exchange as at close of trading on the date of issue.

There were 1,853,080 options exercised during the year.

23. EMPLOYEE BENEFITS (Continued)

(b) Share based payments (continued)

Terms and conditions of share-options programme:

Consolidated 2013												
1-Aug-12	\$0.92	1,500,000	-	_	(1,500,000)	-	-	-	-	-	-	-
1-Aug-12	\$1.28	1,000,000	-	-	(1,000,000)	-	-	-	-	-	-	-
8-Oct-15	\$1.12	250,000	-	-	_	-	-	250,000	-	-	-	-
9-May-16	\$1.17	600,000	-	-	(600,000)	-	-	-	-	-	-	-
16-Nov-16	\$0.00	-	5,216,963	-	_	-	-	-	5,216,963	-	-	-
		3,350,000	5,216,963	-	(3,100,000)	-	-	250,000	5,216,963	-	-	-

The market value of shares under these options at 30 June 2014 was \$0.05 each (30 June 2013: \$0.11).

The options outstanding at 30 June 2014 have an exercise price of \$0.00 and the weighted average remaining contractual life of the options is 978 days.

Grant date	16-Nov-12	31-Oct-13
Fair value at measurement date (cents)	0.3050	0.1320
Option pricing model	Black Scholes	Black Scholes
Share price at grant date	\$0.30	\$0.13
Exercise price	\$0.00	\$0.00
Expected volatility (expressed as weighted average volatility used in the pricing modelling) (%)	82.93%	66.39%
Option life (expressed as weighted average life used in the pricing modelling) (years)	4	4
Expected dividends	Nil	Nil
Risk-free interest rate (based on national government bonds) (%)	2.54%	3.35%

The expected volatility is based on the historic volatility (calculated based on the weighted average remaining life of the share options), adjusted for any expected changes to future volatility due to publicly available information.

24. RELATED PARTIES DISCLOSURES

(a) Key management personnel compensation

The key management personnel compensation included in 'personnel expenses' (see Note 6(e)), or capitalised under exploration and evaluation assets per accounting policy Note 3(n) are as follows:

	2014	2013
	\$	\$
Short-term employee benefits	2,488,626	2,799,321
Long-term employee benefits	4,563	-
Post-employment benefits	100,053	113,522
Termination benefits	225,851	-
Equity compensation benefits	35,031	339,994
	2,854,124	3,252,837

(b) Individual Directors and executives compensation disclosures

Information regarding individual Directors and executive's compensation and some equity instruments disclosures as permitted by Corporations Regulations 2M.3.03 is provided in the Remuneration Report section of the Directors' Report.

Apart from the details disclosed in this Note, no Director has entered into a material contract with the Company or the Company since the end of the previous financial year and there were no material contracts involving Directors' interests existing at year-end.

(c) Other transactions with key management personnel

A number of key management persons, or their related parties, hold positions in other entities that result in them having control or significant influence over the financial and/or operating policies of those entities.

The aggregate amounts recognised during the year relating to key management personnel and their related parties were \$nil (2013: \$nil).

There were no loans or other transactions made to/with key management personnel.

All additional required key management personnel disclosures are contained in the Remuneration Report section of the Directors' Report.

(d) Other related party transactions

Associates

The Karara Associate makes the results of its activities available to the Company. From time to time, to support the activities of the Associate, the investors increase their investment in the Associate. During the year \$nil equity contributions (2013: \$2,700,000) were made to the Associate and granted \$nil (2013: \$80,000,000) in interest free loans. During the year \$30,000,000 of the 2013 loan was repaid.

An office cost recovery fee was charged by the Company to the Associate totalling \$972,927 (2013: \$1,107,053) representing recharge of office and administrative costs to Karara. Of this amount \$486,463 (2013: \$553,526) related to the Company's share in the Associate.

A labour cost recovery fee was charged by the Company to the Associate totalling \$1,598,460 (2013: \$2,466,081) representing recharge at market rates of employees seconded to the project. Of this amount \$799,230 (2013: \$1,233,040) related to the Company's share in the Associate.

There is a balance of \$311,051 outstanding as at 30 June 2014 (2013: \$839,149) due from the Associate.

25. CONTINGENT LIABILITIES

The Company has provided several parent company performance guarantees to a combined value of \$70 million (2013 - \$220 million), in terms of KML contracts for rail haulage and a tailings management facility. Pursuant to the Joint Venture Development Agreement Ansteel has agreed to stand behind 52.16% of these liabilities, pending Chinese regulatory approval and those noted in Notes 2 (c) and 14.

The Company also has performance guarantees in place to secure payment of rent under the Company's lease of premises at its office premises at 216 St Georges Terrace, Perth totalling \$330,737 (2013: \$nil). These guarantees are secured by term deposits.

26. EVENTS SUBSEQUENT TO REPORTING DATE

In August 2014, KML subsidiary Karara Power Pty Ltd completed the sale of the 330kV double circuit transmission line to Western Power for the net sale price of \$82,633,000.

The Associate entity KML obtained a bank loan facility of US\$400 million in August 2014 for the purpose of additional working capital support on terms and conditions including security arrangements substantially similar to those of existing debt finance facilities (refer Note 14).
