

Aspermont appoints new global lead for publishing division:

Aspermont is pleased to announce that Robin Booth presently General Manager Aspermont UK, has been appointed to the new position of Group General Manager, Publishing. Robin will be responsible for publishing in the UK, Australia and Brazil. Robin joined Aspermont from Incisive Media in April, where he was the Group Publishing Director and led the digital transformation of a number of market leading brands.

Robin, since joining the Group, has overseen a major turnaround in our UK operations. Robin will ensure that new technology and process solutions will be centrally managed, to ensure a consistent approach to product development and operational reporting across all publishing activities.

The new appointment forms a further part of Aspermont's strategic review to affect a more streamlined reporting structure across the group and to expedite implementation of our transformation programme. This includes centralising the executive management team into our London offices.

In addition to the above, Trish Seeney, currently General Manager, Aspermont Australia, will retire, as planned, during this financial year and will remain during the transition period. Trish has led the Australian operations for more than 4 years and has excelled in managing the business operations, both in the growth phase and during recent period of falling revenues.

Mark Davies, currently Group Strategy & Consulting, will also be leaving the company this financial year given his decision to remain in Sydney. Mark has worked with Aspermont for 7 years and has been instrumental in managing a number of significant internal projects and assisting with strategic growth.

Colm O'Brien CEO, stated "I would like to thank both Trish and Mark for their input to the growth of the company and congratulate Robin on his Group role"

Colm O'Brien
Group CEO
