## 1 DETAILS OF THE OFFER

### 1.1 The Offer

The Company is making a non-renounceable pro-rata offer of New Shares at an issue price of \$0.002 each on the basis of one (1) New Share for every three (3) Shares held on the Record Date (**Offer**).

The purpose of the Offer is to raise approximately \$202,035 (before expenses). The application of funds raised from this Offer is summarised below. For the purposes of detailing the use of funds raised under this Offer Document, it is assumed that no Options are exercised between the date of this Offer Document and the Record Date.

| Proceeds of Offer   | Full Subscription |
|---|-------------------|
| Ongoing review and evaluation of investment opportunities <sup>#</sup> and additional working capital | \$170,035         |
| Expenses of the Offer   | \$32,000          |
| <b>Total</b>  | <b>\$202,035</b>  |

# As announced on 28 July 2014 and as outlined in the proposed rights issue announcement on 14 August 2014, the Company is taking the opportunity to review its entire tenement portfolio and is assessing new project opportunities that the Board believes will add shareholder value. As part of the review process the Company may look at possible investment opportunities outside of the company's existing principal activity of mineral exploration. Dependant on the nature and scale of any investment, the Company may be required, pursuant to ASX Listing Rules, to obtain shareholder approval to any transaction and to re-comply with the admission requirements set out in Chapters 1 and 2 of the ASX Listing Rules.

As at the date of this Offer Document, the Company had on issue:

- 303,053,625 listed Shares;
- 150,107,260 listed Options exercisable at 25 cents each by 30 January 2015;
- 8,000,000 unlisted Options exercisable at 20 cents each by 20 December 2014; and
- 4,000,000 unlisted Options exercisable at 40 cents each by 20 December 2015.

The capital structure outlined above may change if any existing Options are exercised before the Record Date. Any increase to the number of Shares on issue will increase the number of New Shares which may be issued under the Offer by a corresponding amount. Optionholders who do not hold Shares on the Record Date are not entitled to participate in the Offer.

New Shares will be fully paid ordinary shares which, upon issue, will rank equally with existing Shares on issue.

Where the determination of the Entitlement of any Eligible Shareholder results in a fraction such fraction will be rounded down to the nearest whole number.

The Offer has no minimum subscription.

### 1.2 Effect of the Offer

The capital structure of the Company following completion of the Offer is summarised below:

| Shares  | Number             |
|---|--------------------|
| Shares on issue at date of the Offer                                | 303,053,625        |
| New Shares offered under the Offer <sup>2</sup>                     | 101,017,875        |
| <b>Total Shares on issue at completion of the Offer<sup>1</sup></b> | <b>404,071,500</b> |

| Options  | Number             |
|--|--------------------|
| Options on issue at date of the Offer                                | 162,107,260        |
| Listed Options exercisable at \$0.25 on or before 30 January 2015    | 150,107,260        |
| Unlisted Options exercisable at \$0.20 on or before 20 December 2014 | 8,000,000          |
| Unlisted Options exercisable at \$0.40 on or before 20 December 2015 | 4,000,000          |
| Options offered under the Offer                                      | Nil                |
| <b>Total Options on issue at completion of the Offer</b>             | <b>162,107,260</b> |

**Notes:**

1. The number of Shares on issue assumes that no Options currently on issue are exercised prior to the Record Date.
2. The number of New Shares issued assumes that the Offer is fully subscribed and that no Options currently on issue are exercised prior to the Record Date.

The Company's cash reserves following completion of the Offer, assuming the Offer is fully subscribed, will increase by approximately \$170,035, being the gross proceeds of the Offer, less the costs of the Offer.

### 1.4 Entitlements and acceptance

The Entitlement of Eligible Shareholders to participate in the Offer is determined on the Record Date. Your Entitlement is shown on the Entitlement and Acceptance Form accompanying this Offer Document.

In determining Entitlements, any fractional Entitlement will be rounded down to the nearest whole number.

### ***Acceptance of Entitlement in Full***

If you are an Eligible Shareholder and wish to take up **all** of your Entitlement under the Offer, please complete the Entitlement and Acceptance Form in accordance with the instructions set out on the reverse of that form.

### ***Partial Acceptance of Entitlement***

If you are an Eligible Shareholder and wish to take up **part** of your Entitlement pursuant to the Offer, please complete the Entitlement and Acceptance Form in accordance with the instructions set out on the reverse of that form and insert the number of New Shares for which you wish to accept (being less than your Entitlement as specified on the Entitlement and Acceptance Form).

### ***Entitlements Not Taken Up***

If you decide not to accept all or part of your Entitlement pursuant to the Offer, you are not required to take any action. The New Shares not accepted will form part of the Shortfall.

## **1.5 No Rights trading**

The rights to New Shares under the Offer are non-renounceable. Accordingly, there will be no trading of rights on the ASX and you may not dispose of your rights to subscribe for New Shares under the Offer to any other party. If you do not take up your Entitlement under the Offer by the Closing Date, the Offer to you will lapse.

## **1.6 Underwriting**

The Offer is fully underwritten by CPS Capital Group Pty Ltd. The Underwriting Agreement is subject to certain conditions including circumstances under which the Underwriter may terminate its obligations. The terms and conditions of the Underwriting Agreement, including underwriting fees, are summarised in Section 4.1 of this Offer Document.

## **1.7 Shortfall**

If you do not wish to take up any part of your Entitlement under the Offer, you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall and will be dealt with by the Underwriter in accordance with Section 1.6 and 4.1.

## **1.8 Effect on Control**

The Company has lodged with ASX a notice in accordance with section 708AA of the Corporations Act which sets out, among other things, the effect of the Offer on the control of the Company. This notice may be viewed on the websites of the Company and ASX.

If all Eligible Shareholders take up their Entitlements in full, the Offer will not diminish the percentage shareholding and voting power of each Eligible Shareholder.

If some Eligible Shareholders do not take up their Entitlement in full, then their percentage shareholding and voting power in the Company will be diluted. The percentage shareholding and voting power of non-resident Shareholders not eligible to participate in the Offer will also be diluted by New Shares issued under the Offer.

The Underwriter must ensure that no party will receive Shortfall Shares that in itself (i.e. the amount of the shortfall) would result in a voting power in the Company equal to or greater than 10%. Please see Section 4.1 for further details.

## **1.9 Opening and Closing Dates**

The Offer opens on the Opening Date, being 21 November 2014. The Company will accept Entitlement and Acceptance Forms until 5.00pm (AEDT) on the Closing Date or such other date as the Directors determine, subject to the Listing Rules.

### **1.10 Issue and Dispatch**

The issue of New Shares offered by this Offer Document and the dispatch of holding statements are expected to occur on 9 December 2014.

It is the responsibility of Applicants to determine their allocation prior to trading in the New Shares. Applicants who sell New Shares before they receive their holding statements will do so at their own risk.

### **1.11 ASX Listing**

Application has been made to the ASX for quotation of the New Shares. The fact that ASX may grant official quotation to the New Shares is not to be taken in any way as an indication of the merits of the Company or the New Shares now offered for subscription. Issues of New Shares under the Offer will only be made after permission for their quotation on the ASX has been granted.

### **1.12 CHESS**

The Company will apply to ASX to participate in CHESS, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHESS will be issuer sponsored by the Company. Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation. Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of New Shares allotted to them under this Offer Document. The notice will also advise holders of their Holder Identification Number (HIN) and explain, for future reference, the sale and purchase procedures under CHESS and issuer sponsorship.

Monthly statements will be provided to holders of securities in the Company if there has been any change in their security holding in the Company during the preceding month.

### **1.13 Treatment of Overseas Shareholders**

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Offer Document.

The Company is of the view that it is unreasonable to make the Offer to Shareholders without registered addresses in Australia or New Zealand (**Ineligible Shareholders**) having regard to the:

- (a) number of Ineligible Shareholders;
- (b) number and value of New Shares that would be offered to Ineligible Shareholders; and
- (c) cost of complying with regulatory requirements in each relevant jurisdiction.

Accordingly, the Offer is not being extended and New Shares will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

### **1.14 Taxation Implications**

The Directors do not consider it appropriate to give Shareholders advice regarding the taxation consequences of subscribing for New Shares under this Offer Document. The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Shareholders.

Eligible Shareholders should consult their professional tax advisor in connection with subscribing for New Shares under this Offer Document.

### **1.15 Rights and Liabilities attaching to New Shares**

The New Shares will rank equally in all respects with existing Shares (including, for example, with respect to dividends, voting and bonus issues). Full details of the rights and liabilities attaching to Shares are set out in the Company's Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

## **1.16 Risk Factors**

As with any securities investment, there are risks associated with investing in the Company. The principal risks that could affect the financial and market performance of the Company are detailed in Section 3 of this Offer Document. The New Shares on offer under this Prospectus should be considered speculative. Accordingly, before deciding to invest in the Company, investors should read this Offer Document in its entirety and should consider all factors in light of their individual circumstances and seek appropriate professional advice.

Factors affecting an investment in the Company include stock market fluctuations, exploration and development risks, resource and reserve estimates, joint venture risk, insurance risk, competition risks, foreign currency exchange rate fluctuations, economic risks and external market factors, additional requirements for capital and governmental policy regarding environmental protection.

## **1.17 Withdrawal of Offer**

The Directors may at any time decide to withdraw this Offer Document and the offer of New Shares made under this Offer Document in which case the Company will return all Application Monies (without interest) within 28 days of giving such notice of withdrawal.

## **1.18 Governing Law**

This Offer Document and the contracts formed on acceptance of the Entitlement and Application Form are governed by the laws applicable in Western Australia. Each Applicant for New Shares submits to the non-exclusive jurisdiction of the courts of Western Australia.

## **1.19 Nominees, Trustees and Custodians**

Shareholders resident in Australia or New Zealand holding Shares on behalf of persons who are resident overseas are responsible for ensuring that taking up an Entitlement does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

Shareholders resident in Australia or New Zealand holding shares on behalf of persons who are resident overseas should seek independent advice as to how they should proceed.

## **1.20 Enquiries concerning Offer Document**

This document is important and should be read in its entirety. Persons who are in any doubt as to the course of action to be followed should consult their stockbroker, solicitor, accountant or other professional adviser without delay.

If you have any questions regarding your Entitlement or the Offer, please contact the Company on (08) 6188 7800 (for calls within Australia) or +61 8 6188 7800 (outside Australia), from 8.30am to 5.00pm WST, Monday to Friday.

## **3 RISK FACTORS**

### **3.1 General**

The New Shares offered under this Offer Document should be considered speculative because of the nature of the Company's business.

Whilst the Directors recommend that Eligible Shareholders take up their Entitlement, there are numerous risk factors involved in an investment in the Company. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, but some are outside the control of the Company and cannot be mitigated. Accordingly, an investment in the Company carries no guarantee with respect to the payment of dividends, return of capital or price at which New Shares will trade.

The following is a summary of the more material matters to be considered and should be read in conjunction with specific matters referred to in the Company's announcements and reports. Please note that the summary is not exhaustive and potential investors should examine the contents of this Offer Document in its entirety and consult their professional advisors before deciding whether to apply for the New Shares.

### **3.2 Specific Risks**

A number of specific risk factors that may impact the future performance of the Company are described below. Eligible Shareholders should note that this list is not exhaustive.

#### **3.2.1 Operational Risks**

The business of mineral exploration, project development and production, by its nature, contains elements of significant risk with no guarantee of success. Ultimate and continuous success of these activities is dependent on, among other things:

- the discovery or acquisition of economically recoverable reserves;
- access to adequate capital for project development;
- design and construction of efficient development and production infrastructure within capital expenditure budgets;
- securing and maintaining title to mineral interests;
- obtaining consents and approvals necessary for the conduct of mineral exploration, development and production; and
- access to competent operational management and prudent financial administration, including the availability and reliability of appropriately skilled and experienced employees, contractors and consultants.

Whether or not income will result from projects undergoing exploration and development programs depends on successful exploration and the establishment of production facilities.

There is no assurance that any exploration on current or future interests will result in the discovery of an economic mineral deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically developed.

#### **3.2.2 Exploration and Mining Risk**

The business of mineral exploration and mining involves risks and hazards. For example, in an exploration context no assurance can be given that ore bodies will be detected with preferred or desirable tonnages or grades. High risk and substantial expense can be incurred without the requisite or expected degree of reward.

Even if commercial quantities of ore are discovered unforeseen risks can arise in the development and production phase including the development of appropriate metallurgical processes, the receipt of necessary governmental permits, access to permits and the construction of mining and processing facilities, environmental hazards, industrial accidents, labour forced disruption, the unavailability of materials and equipment, unusual or unexpected geological formation, pit failures, changes in the regulatory environment and weather conditions. Such occurrences could result in damage to, or destruction of, mineral properties or production facilities, personal injury or death, environmental damage, delays in mining, monetary losses and possible legal liability.

#### **3.2.4 Resource Estimates**

Resource estimates are expressions of judgment based on knowledge, experience and industry practice. Estimates that were valid when made may change significantly when new information or techniques becomes available. In addition, resource estimates are necessarily imprecise and depend to some extent on interpretations, which may prove to be inaccurate. Even if the Company identifies a resource or reserve, actual ore reserves and resources (including grade and quantity) may differ from those estimated at an earlier time which may result in alterations to development and mining plans which may, in turn, adversely affect the Company's operations.

#### **3.2.5 Ability to Exploit Successful Discoveries**

It may not always be possible for the Company to participate in the exploitation of successful discoveries made in areas in which the Company has an interest. Such exploitation will involve the need to obtain the necessary licences or clearances from the relevant authorities, which may require conditions to be satisfied and/or the exercise of discretions by such authorities. It may or may not be possible for such conditions to be satisfied. The infrastructure requirements around a successful discovery may also impact on the exploitation of a discovery.

Further, the decision to proceed to further exploitation may require the participation of other companies whose interests and objectives may not be the same as those of the Company. As described above, such work may require the Company to meet or commit to financing obligations for which it may have not planned.

#### **3.2.6 Compliance Risk**

The Company holds an interest in various mining tenements. Title to these tenements is subject to the Company, as tenement holder, complying with the terms and conditions of each tenement, including the minimum annual expenditure commitments. There is a risk that if the Company does not comply with the terms and conditions of each tenement, it may lose its interest in the relevant tenement.

The Company has implemented appropriate policies and practices to mitigate the risk of not complying with the terms and conditions attaching to each of its tenements.

#### **3.2.7 Joint Venture Parties, Agents and Contractors**

The Directors are unable to predict the risk of financial failure or default by a participant in any joint venture to which the Company is or may become a party. Further, the Company is unable to predict the risk of insolvency or managerial failure by any of the contractors used by the Company in any of its activities or the insolvency or other managerial failure by any of the other service providers used by the Company for any activity. The effects of such failures may have an adverse effect on the Company's operations.

#### **3.2.8 Country Risk**

The Company holds assets located in Western Australia but may acquire assets in foreign countries in the future. There are risks associated with exploration and mining activities and investments generally in foreign countries that may adversely affect the business, costs, expenditure and profitability of the Company. These risks include:

- (a) changes in foreign country government, government policies, regulatory regime, economic change, civil instability, attitudes towards foreigners or their businesses in their country;

- (b) land access and environmental regulation may be adverse or beneficial; and
- (c) the applicable legal regime including investment into and repatriation of revenue out of the foreign country.

### **3.2.9 Environmental Risk**

The Company's activities are subject to the environmental risks inherent in the mining industry. The Company is subject to environmental laws and regulations in connection with operations it may pursue in the mining industry. The Company intends to conduct its activities in an environmentally responsible manner and in accordance with all applicable laws. However, the Company may be the subject of accidents or unforeseen circumstances that could subject the Company to extensive liability.

Further, the Company may require approval from the relevant authorities before it can undertake activities likely to impact the environment. Failure to obtain such approvals will prevent the Company from undertaking its desired activities. The Company is unable to predict the effect of additional environmental laws and regulations that may be adopted in the future, including whether any such laws or regulations would materially increase the Company's cost of doing business or affect its operations in any area.

### **3.2.10 New Investments**

The Company is undertaking a review of its entire tenement portfolio and is assessing new project opportunities that the Board believes will add shareholder value. As part of the review process the Company may look at possible investment opportunities outside of the company's existing principal activity of mineral exploration. Dependant on the nature and scale of any investment, the Company may be required, pursuant to ASX Listing Rules, to obtain shareholder approval to any transaction and to re-comply with the admission requirements set out in Chapters 1 and 2 of the ASX Listing Rules.

An investment outside of mineral exploration may not be consistent with the investment objectives of all Shareholders and will have the inherent risks associated with any new business activity.

### **3.2.11 Future capital needs and additional funding**

The funding of any further ongoing capital requirements beyond the requirements as set out in this Offer Document will depend upon a number of factors including the extent of the Company's ability to generate income from activities which the company cannot forecast with any certainty.

Any additional equity financing will be dilutive to shareholders, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional funding as needed, it may not be able to take advantage of opportunities or develop projects. Further, the Company may be required to reduce the scope of its operations or anticipated expansion and it may affect the Company's ability to continue as a going concern.

### **3.2.12 Insurance**

Insurance against all risks associated with mineral exploration is not always available or affordable. The Company will maintain insurance where it is considered appropriate for its needs however it will not be insured against all risks either because appropriate cover is not available or because the Directors consider the required premiums to be excessive having regard to the benefits that would accrue.

The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the operations of the Company. There is no assurance that the Company will be able to maintain adequate insurance in the future at rates that it considers is reasonable.

## **3.3 General Risks**

The future prospects of the Company's business may be affected by circumstances and external factors beyond the Company's control. Financial performance of the Company may be affected by a number of business risks that apply to companies generally and may include economic, financial,

market or regulatory conditions.

### **3.3.1 General Economic Climate**

Factors such as inflation, currency fluctuation, interest rates and supply and demand have an impact on operating costs, commodity prices and stock market prices. The Company's future revenues and securities price may be affected by these factors, as well as by fluctuations in the price of commodities, which are beyond the Company's control.

### **3.3.2 Changes in Legislation and Government Regulation**

Government legislation in Australia or any other relevant jurisdiction, including changes to the taxation system, may affect future earnings and the relative attractiveness of investing in the Company. Changes in government policy or statutory changes may also affect the Company and the value of its securities.

### **3.3.3 Competition for Projects**

The Company competes with other companies, including mineral exploration and production companies. Some of these companies have greater financial and other resources than the Company. As a result, such companies may be in a better position to compete for future business opportunities and there can be no assurance that the Company can effectively compete with these companies.

The Company's inability to secure a new project or business opportunity may have an adverse effect on the operations of the Company, its possible future profitability and the trading price of its securities, including the New Shares offered under this Offer Document.

### **3.3.4 Commodity Price Volatility and Exchange Rate Risk**

If the Company achieves success leading to mineral production, the revenue it will derive through the sale exposes the potential income of the Company to commodity price and exchange rate risks. Commodity prices fluctuate and are affected by many factors beyond the control of the Company. Such factors include supply and demand fluctuations for precious and base metals, technological advancements, forward selling activities and other macro-economic factors.

Furthermore, international prices of various commodities are denominated in United States dollars, whereas the income and expenditure of the Company are and will be taken into account in Australian currency, exposing the Company to the fluctuations and volatility of the rate of exchange between the United States dollar and the Australian dollar as determined in international markets.

### **3.3.5 Reliance on Key Personnel**

The Company's success depends largely on the core competencies of its directors and management and the Company's ability to find and retain key personnel.

### **3.3.6 Sharemarket Conditions**

The market price of the Company's securities may be subject to varied and unpredictable influences on the market for equities in general and resources stocks in particular.

## **3.4 Speculative Nature of Investment**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Shares offered under this Offer Document. Therefore, the New Shares offered pursuant to this Offer Document carry no guarantee with respect to the payment of dividends, returns of capital or the market value of the securities.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for New Shares.
